# Description National Gun Violence Awareness Day Proclamation

National Pride Month Proclamation

# **PROCLAMATION**

## By the Mayor

**WHEREAS**, every day, 125 people in the United States are killed by gun violence and more than 260 are shot and wounded, with an average of more than 19,000-gun homicides every year; and

**WHEREAS**, people in the United States are 26 times more likely to die by gun homicide than people in other high-income countries; and

**WHEREAS,** in Kansas there is an average of 473-gun deaths every year, with a rate of 5 deaths per 100,000 people, a crisis that costs the state \$5.7 each year, of which \$95.1 million is paid by taxpayers. Kansas has the 19<sup>th</sup> highest rate of gun deaths in the US; and

**WHEREAS**, gun homicides and assaults are concentrated in cities, with more than half of all gun homicides in the nation occurring in 42 cities; and

**WHEREAS**, cities across the nation, including Topeka, are working to end the senseless violence with evidence-based solutions; and

**WHEREAS,** gun violence prevention is more important than ever as we see gun violence continue to impact communities across the country; and

**WHEREAS,** Hadiya Pendleton was tragically shot and killed at age 15 and people across the United States will recognize National Gun Violence Awareness Day by wearing orange to pay tribute to Hadiya Pendleton and other victims of gun violence; and

**NOW, THEREFORE**, I, Michael A. Padilla, Mayor of the City of Topeka, Kansas, do proclaim June 6, 2025 as

# NATIONAL GUN VIOLENCE AWARENESS DAY

In the City of Topeka, Kansas. I encourage all Topeka citizens to support their communities' efforts to prevent the tragic effects of gun violence and to honor and value human lives and to encourage responsible gun ownership to help keep all communities safe.

**IN WITNESS WHEREOF,** I, Michael A. Padilla, Mayor of the City of Topeka, Kansas, do hereby affix my official signature and the Official Seal of the City of Topeka, Kansas, on this Day of June 3, 2025.

# PROCLAMATION

# By the Mayor

**WHEREAS**, across the United States, the month of June commemorates the June 1969 uprising of members of the LGBTQIA+ community against harassment targeted against them because of their gender identity, sexual orientation and gender expression; and

**WHEREAS**, the LGBTQIA+ continue to strengthen the fabric of American society. There are many wellrespected LGBTQIA+ leaders in all professional fields, including the arts, government and business communities. The determination and dedication of the LGBTQIA+ rights movement, more LGBTQIA+ Americans are living their lives openly today than ever before; and

**WHEREAS**, all people are born and created equal in human dignity and civil rights, and LGBTQIA+ individuals have made great progress in being recognized in their equal human dignity and civil rights but there is further progress to be made; and

**WHEREAS**, the city of Topeka's Municipal Code declares that people shall be free from discrimination because of their actual or perceived age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation or veteran status; and

**WHEREAS**, recognizing Pride Month furthers awareness of the LGBTQIA+ community in Topeka and beyond our community and is an opportunity to engage more with LGBTQIA+ people and their history; and

**WHEREAS**, the Rainbow Flag represents light, healing, sun, calmness, art and spirit, as long as the promise of equality for all remains unfulfilled, all Americans are affected. If we can work together to advance the principles upon which our Nation was founded, every American will benefit.

*NOW, THERFORE*, *I*, *Michael Padilla*, *Mayor of the City of Topeka*, *Kansas, do hereby proclaim June* 2025, as

# NATIONAL PRIDE MONTH

In the City of Topeka, Kansas.

IN WITNESS WHEREOF, I, Michael A. Padilla, Mayor of the City of Topeka, Kansas, do hereby affix my official signature and the Official Seal of the City of Topeka, Kansas, on this Day of June 3 2025.

## **DOCUMENT DESCRIPTION:**

BOARD APPOINTMENT recommending the appointment of Sarah Velasquez to the Topeka Board of Zoning Appeals to fill a term ending June 3, 2027. (*Council District No. 1*)

## **VOTING REQUIREMENTS:**

Action requires at least five (5) votes of the City Council. The Mayor does not vote.

#### POLICY ISSUE:

The board of zoning appeals shall administer the details of appeals from or other matters referred to it regarding the application of the zoning regulations in accordance with the general rules set forth in the Topeka Municipal Code.

#### **STAFF RECOMMENDATION:**

Councilmember Hiller nominates and Mayor Padilla recommends the appointment of Sarah Velasquez to the Topeka Board of Zoning Appeals to fill a term ending June 3, 2027. Ordinance requires that members may not hold a public office for the City and they must reside within the corporate area of the city as required. Ms. Velasquez satisfies those requirements.

#### **BACKGROUND:**

This is a City-created board requiring that the Council nominate and the Mayor appoint. If no Council nominations are received the Mayor may appoint. The Board of Zoning Appeals shall consist of seven members appointed by the Mayor. None of the members shall hold any other public office by the City except that two members may be members of the Topeka Planning Commission. The appointees shall reside inside the corporate area of the city of Topeka. Members shall be appointed for terms of three years each.

## BUDGETARY IMPACT:

There is no budgetary impact to the City.

## SOURCE OF FUNDING:

Not Applicable.

ATTACHMENTS: Description NOTO BID Report and 2025 Program of Services W. Damron Report (June 3, 2025)

# Dear Governing Board,

As we look ahead to 2025, I wanted to share how the NOTO Business Improvement District is placing a strong focus on beautification efforts within our community. With a total revenue of \$10,000 projected for the year, we've carefully allocated funds to ensure that we prioritize creating a vibrant and welcoming environment for all who visit, live, and work in NOTO.

Here's how we're focusing on beautification:

# **1. District Maintenance:**

- a. **Trash Removal**: We've allocated **\$3,200** for weekly public trash receptacle service, ensuring that our district remains clean and inviting.
- b. Snow Removal: With \$1,600 earmarked for snow removal as needed, we aim to maintain accessibility and safety during winter months.
   "We've partnered with The Mission to help us provide these services. With a limited budget, we rely on the support of our neighbors and community partners to make this work possible."

# 2. Beautification:

a. We've allocated **\$3,050** for the repair of what was once an iconic NOTO sign located at 820 N Kansas Ave. With increased traffic flowing through the district—especially due to the bridge—now is a more important time than ever to restore this sign. It not only serves as a visual landmark but also reinforces the identity and vibrancy of the NOTO Arts & Entertainment District to both residents and visitors.

"We are currently working on two bids for this project with local businesses."

# 3. Marketing

a. We have allocated **\$1,100** to replace and repair banners throughout the district. These banners feature artwork from local artists, and we believe that showcasing their talent is essential to maintaining a vibrant and inspiring arts district.

With these focused investments, we are confident that NOTO will continue to thrive as a district our community and visitors can take pride in. The remaining funds will be responsibly allocated toward administration and safety, ensuring long-term sustainability and the thoughtful management of resources.

Thank you for your continued support and commitment to the success of the NOTO Business Improvement District.

Best regards, Pedro Concepcion

# NOTO Business Improvement District 2025 Program Budget / Recommend Services

Submitted by: Pedro Concepcion, Chief Executive Officer NOTO Arts and Entertainment District

The NOTO Business Improvement District was approved by the City of Topeka Governing Body in 2022 for formal implementation in 2023. The purpose of the NOTO BID is to provide fundamental services to the district that otherwise are not provided by local government, specifically in four primary areas: district maintenance, beautification, safety and security, and marketing.

The NOTO BID boundary is Morse Street to the north, Norris Street to the south, Quincy Street to the east, and Jackson Street to the west. Withing this geographic area there are two tiers, with Tier 1 to the south of Gordon and Tier 2 to the north. Assessments are based on tier and type of business, e.g., retail versus warehouse. All businesses are assessed, though businesses established in the area prior to 2008 do not have to pay the assessment.

## 2025 Budget

Assuming a 2025 collection of about \$10,000, the planned program of services for 2025 will continue to be basic:

| ITEM                 | SERVICES                                       | EST.    |
|----------------------|--|---------|
|                      |  | AMOUNT  |
| District Maintenance | Trash service / snow removal                   | \$4,800 |
| Beautification       | NOTO/ Artist Pole Banners                      | \$1,100 |
| Marketing            | Repair NOTO Sign overlooking Kansas Ave Bridge | \$3,050 |
| COT Administration   | 2% of revenue (2025)                           | \$200   |
| NOTO Administration  | 5% of revenue (2025)                           | \$500   |
| TOTAL                |  | \$9,650 |

## **Collection Strategies**

Despite an open, transparent, and inclusive process in the development of the NOTO BID, a surprising number of NOTO businesses complained about the new assessment. The most significant impact on payment was the implementation of the **NOTO Redevelopment Incentive Grant fund**, of which payment of the NOTO BID (post-2008) is required. We will continue to educate the district on the importance of the BID. We also seek support from the COT in exercising its authority to collect a financial obligation to the City.

The NOTO Bid is essential to the continued development of the area. While the amounts collected are minimal compared to the need, we believe collections will continue to improve as new businesses come to the district and existing businesses realize its value. Further, the NOTO Redevelopment Incentive Grant offers a great incentive.

# **Advisory Board**

The 2025/2026 Advisory Board included:

- DeAna Morrison, Amused Gallery and Gifts
- Denise Selbee-Koch, Compass Point
- Dave Horn, Donaldson's Jewelers
- Pedro Concepcion, NOTO Arts and Entertainment District

RE: Legislative Update – 2025 Session

DATE: June 3, 2025

The Kansas Legislature adjourned Sine Die on Friday, April 11 and will not return until January 12, 2026.

The following items are highlights of the COT agenda and matters of interest we engaged in during the 2025 session:

#### City of Topeka Issues.

**Housing Legislation.** After the Senate failed to advance HB 2099 to floor before the Second House of Origin deadline, we reached out to House and Senate leaders on their respective Local Government Committees and encouraged them to amend the provisions of HB 2099 into a bill germane to such language. As a result, a House/Senate Local Government Conference Committee amended the provisions of HB 2099 into HB 2116 on Tuesday, March 25. And while the original bill was approved by the House on a vote of 111-12 and there were no dissenting votes in the Senate Committee to advance the bill to the full Senate, and while all 6 members of the House/Senate Local Government Conference Committee expressed support for including provisions of HB 2099 into a CCR, Senate Leadership was opposed to the bill and would not allow it to proceed to floor debate and the bill was lost. Concerns were never relayed to me other than a vague reference to "property rights".

**Metropolitan Topeka Airport Authority.** House and Senate budget committee conferees amended SB 125 to add \$10 million of State General Funds for a one-to-one match with the MTAA for construction of a proposed 80,000 square foot MRO facility. The language has reporting and compliance requirements as well as requiring the Department of Commerce to assess the feasibility of the project. However, the terms appear to be workable and should create an opportunity for the MTAA to proceed with this project.

**Public Funds Bill.** As first introduced, HB 2152 was predicted to have a negative impact on the COT's interest revenues from idle funds in the amount of \$1.75 million annually. Through the work of Amanda Stanley and the COT's financial advisor working in cooperation with other municipal interests, the bill was amended into an acceptable form and signed into law.

**Law Enforcement Officer Age.** The House approved HB 2164 on a vote of 97-24. The Senate Committee on Judiciary did not take up HB 2164 after the Kansas Commission on Peace Officers' Standards and Training expressed opposition to the bill.

**Fast Track Building Permits.** As adopted, the City of Topeka took a neutral stance on HB 2088 after COT amendments were made to the initial proposal. The bill was approved by the Governor.

**Low Impact Home Business Act.** HB 2343 was passed by the House earlier this year but failed to advance out of the Senate Committee on Commerce.

**Low Income Housing Credits.** HB 2119 proposed to eliminate the low-income housing credit program due to increasing costs for the State. As approved by the Legislature, the program will be phased out over the next three years.

**Unilateral Annexation/3-Mile Area/Condemnation.** None of these bills objectionable to the COT and municipalities advanced this session.

**Heartland Flyer/Passenger Rail.** The budget bill, SB 125, contained authority for KDOT to expend funds under the Passenger Rail Service Revolving Fund for FY 2026, with loans and grants approved by the State Finance Council. Under the bill, \$5 million will be transferred from the State Highway Fund to the Passenger Rail Service Revolving Fund on or after July 1, 2025.

**Special Elections.** HB 2022 limits special elections to certain dates: First Tuesday following the first Monday in March of any year or on the same day as a general or primary election.

During the 2025 session we tracked more than 30 different bills deemed to impact the COT; most negatively. In addition, the COT presented testimony to committees on more than 20 bills.

The 2025 session was compressed with a late start and early adjournment. The 2026 session schedule is already public and will follow a similar format (90 calendar days vs. 90-day session). Legislative leaders indicate they will lean more on interim committees than they have in recent years as a way to consider more complex or controversial issues.

Earlier this month the LCC met to approve 2025 interim committees. Committees and matters we will be watching include the following:

- **Special Committee on Commerce.** Topics include economic development, state housing programs, affordable housing, and the state's reciprocal occupational licensing program.
- **Special Committee on Taxation.** Topics include a review of countywide retailers sales tax authority and apportionment, the mass appraisal process and a proposed constitutional amendment to reduce taxes with proceeds generated from eliminating sales tax exemptions. In addition, a review of gas taxes, including tax rates, taxes on electric vehicle stations and the distribution of gas taxes to local governments.

## **DOCUMENT DESCRIPTION:**

ORDINANCE introduced by City Manager, Robert M Perez, allowing and approving City expenditures for the period March 29, 2025 to April 25, 2025 and enumerating said expenditures therein.

(Approving City expenditures in the amount of \$27,717,483.64)

## **VOTING REQUIREMENTS:**

At least (6) votes of the Governing Body is required.

#### POLICY ISSUE:

Approve and allow weekly payments of valid operating expenditures, pursuant to Resolutions No. 7607.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body approve the ordinance as part of the consent agenda.

## BACKGROUND:

Pursuant to Resolutions No. 7607, adopted on April 12, 2005, which provides authorization to pay for certain expenditures prior to approval by the Council in an expenditure ordinance. The expenditures being authorized by this ordinance have been previously paid, in accordance with established procedures and policies for such payments.

#### **BUDGETARY IMPACT:**

Approved expenditures for the period March 29, 2025 to April 25, 2025 in the amount of \$27,717,483.64.

## SOURCE OF FUNDING:

Appropriated funds and fees-for-service revenues of various City departments.

### **DOCUMENT DESCRIPTION:**

APPROVAL of a professional engineering contract between the City of Topeka and Alfred Benesch and Company, for providing professional engineering services for levee engineering and levee asset repair on an On-Call basis for the City of Topeka, KS.

(Approval will authorize the City Manager to sign and execute the contract for a total not-to-exceed amount of \$450,000.00)

# **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

### POLICY ISSUE:

Whether to approve the contract that will exceed \$50,000.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body approve the contract as part of the consent agenda.

### BACKGROUND:

Whereas, on February 17, 2025, the Utilities Department issued Event 3151, a Request for Proposals (RFP) seeking professional engineering firms provide services related to levee engineering and levee asset repair and program management; and

Whereas, the City Evaluation Committee reviewed and scored the submitted proposals and recommends

awarding the contract to the most qualified firm for this project, Alfred Benesch and Company.

Funding for this contract will be primarily provided through the Stormwater Project Management operating budget, with a significant portion of the work anticipated to be charged to the Levee Maintenance operating budget. Should larger-scale projects be identified under this agreement, they will be funded through the Levee Asset Repair Program (CIP 161021.00) or future projects established within the CIP.

### **BUDGETARY IMPACT:**

\$450,000.00

# **SOURCE OF FUNDING:**

Stormwater Project Management operating budget; Levee Maintenance operating budget

#### CITY OF TOPEKA UTILITIES DEPARTMENT ENGINEERING DIVISION

#### STANDARD AGREEMENT FOR ENGINEERING SERVICES

THIS AGREEMENT, is between the City of Topeka, Kansas (Owner) and Alfred Benesch & Company (Engineer);

#### WITNESSETH:

WHEREAS, the Owner wishes to employ the Engineer to perform professional engineering services for levee engineering and levee asset repair and rehabilitation program management on an on-call basis for the City of Topeka, KS; and,

WHEREAS, the Owner requires certain engineering services in connection with the Project (the Services); and,

WHEREAS, the Engineer is prepared to provide the Services;

NOW THEREFORE, in consideration of the promises contained in this Agreement, the Owner and Engineer.

agree to the following:

### **ARTICLE 1 - EFFECTIVE DATE**

The effective date of this Agreement shall be \_\_\_\_\_

### **ARTICLE 2 - GOVERNING LAW**

This Agreement shall be governed by the laws of the State of Kansas and the codes of the City of Topeka

#### **ARTICLE 3 - SERVICES TO BE PERFORMED BY ENGINEER**

Engineer shall perform the Services described in Attachment A, Scope of Services, in accordance with applicable sections of the City of Topeka Design Criteria and Drafting Standards of latest revision.

#### **ARTICLE 4 - COMPENSATION**

Owner shall pay Engineer in accordance with the Attachment B, Compensation.

#### **ARTICLE 5 – OWNER'S RESPONSIBILITIES**

Owner shall be responsible for all matters described in Attachment C, Owner's Responsibilities.

#### **ARTICLE 6 - SUPPLEMENTAL AGREEMENTS**

The provisions set forth in Attachment D, Supplemental Agreements shall be incorporated into this Agreement.

#### **ARTICLE 7 - PROJECT SCHEDULE**

The provisions set forth in the Attachment E, Project Schedule shall be incorporated into this Agreement.

#### **ARTICLE 8 - STANDARD OF CARE**

Engineer shall exercise the same degree of care, skill, and diligence in the performance of Services as is ordinarily possessed and exercised by a professional engineer under similar circumstances.

#### **ARTICLE 9 - INDEMNIFICATION AND INSURANCE**

Engineer hereby agrees to fully indemnify and hold harmless Owner and any of its departments, divisions, agencies, officers, employees and elected officials from all loss, damage, cost, or expenses specifically including reasonable attorneys' fees and other expenses of litigation incurred by or on behalf of the Owner and any of its officers, employees or elected officials to the extent caused by Engineer's negligent performance of Services under this Agreement. Engineer specifically agrees that this duty to indemnify and hold harmless will apply to the following:

a. Claims, suits, or action of every kind and description to the extent such suits or actions are caused by the negligent acts, errors, or omissions of the Engineer, its employees, agents, or subcontractors.

Injury or damages received or sustained by any party to the extent caused by the negligent acts,
 errors, or omissions of the Engineer, its employees, agents, or subcontractors.

Engineer shall purchase and maintain during the life of this Agreement, insurance coverage which will satisfactorily insure him against claims and liabilities which arise because of the execution of this Agreement. Owner shall be included as an additional insured on the Engineer's general liability policy.

The insurance coverages are as follows:

- (1) Commercial General Liability Insurance, with a limit of \$1,000,000 for each occurrence and \$2,000,000 in the general aggregate.
- (2) Automobile Liability Insurance, with a limit of \$1,000,000 for each accident, combined single limit for bodily injury and property damage.
- (3) Worker's Compensation Insurance and Employer's Liability Insurance, in accordance with statutory requirements, with a limit of \$500,000 for each accident.
- (4) Professional Liability Insurance, with a limit of \$1,000,000 for each claim and aggregate.

Prior to issuance of the Notice to Proceed by Owner, Engineer shall have on file with Owner certificates of insurance acceptable to Owner. Said certificates of insurance shall be filed with Owner within ten (10) days of renewal or may be submitted with each agreement.

Engineer shall also maintain valuable papers insurance to assure the restoration of any plans, drawings, field notes or other similar data relating to the work covered by this agreement, in the event of their loss or destruction, until such time as the work has been delivered to the Owner.

Upon completion of all Services, obligations, and duties provided for in this Agreement, or if this Agreement is terminated for any reason, the terms and conditions of this Article shall survive.

#### **ARTICLE 10 - LIMITATIONS OF RESPONSIBILITY**

Engineer shall not be responsible for: (1) construction means, methods, techniques, sequences, procedures, or safety precautions and programs in connection with the Project, (2) the failure of any contractor, subcontractor, vendor, or other Project participant, not under contract to Engineer, to fulfill contractual responsibilities to the Owner or to comply with federal, state or local laws, regulations, and codes; or (3) procuring permits, certificates, and licenses required for any construction unless such responsibilities are specifically assigned to Engineer in Attachment A, Scope of Services. Notwithstanding anything contained herein to the contrary, in recognition of the relative risks and benefits of the Project to both Owner and Engineer, the risks have been allocated such that the Owner agrees, to the fullest extent permitted by law, to limit the liability of Engineer to the Owner (and anyone that claims through it) for any and all claims, losses, costs, damages of any nature whatsoever (whether arising in negligence, professional errors or omissions, strict liability, breach of contract or otherwise) and claim expenses from any cause or causes, so that the total aggregate liability of Engineer shall not exceed the limits of insurance and the Engineer agrees to submit any such claims, in full, to its insurance carrier. Owner and Engineer agree that to the fullest extent permitted by law neither party shall be liable to the other for any special, indirect, or consequential damages whatsoever, whether caused by either party's negligence, errors, omissions, strict liability, breach of contract, breach of outract, breach of warranty, or other cause or causes.

#### **ARTICLE 11 - OPINIONS OF COST AND SCHEDULE**

Since Engineer has no control over the cost of labor, materials, or equipment furnished by others, or over the resources provided by others to meet Project construction schedules, Engineer's opinion of probable construction costs and of construction schedules shall be made on the basis of experience and qualifications as a professional engineer. Engineer does not guarantee that proposals, bids, or actual Project construction costs will not vary from Engineer's projected schedules.

#### **ARTICLE 12 - REUSE OF DOCUMENTS**

All documents, including, but not limited to, drawings, specifications, and computer software prepared by Engineer pursuant to the Agreement are instruments of service in respect to the Project. They are not intended or represented to be suitable for reuse by Owner or others on extensions of the Project or on any other project. Any reuse without

prior written verification or adaptation by Engineer for the specific purpose intended will be at Owner's sole risk and without liability or legal exposure to Engineer. Any verification or adaptation requested by Owner shall entitle Engineer to compensation at rates to be agreed upon by Owner and Engineer.

#### **ARTICLE 13 - OWNERSHIP OF DOCUMENTS AND INTELLECTUAL PROPERTY**

Except as otherwise provided herein, engineering documents, drawings, and specifications prepared by Engineer as part of the Services shall become the sole property of Owner upon receipt of payment by Engineer of amounts due and owing under this Agreement, however, that both Owner and Engineer shall have the unrestricted right to their use. Engineer shall retain its rights in its standard drawing details, specifications, data bases, computer software, and other proprietary property protected under the copyright laws of the United States. Rights to intellectual property developed, utilized, or modified in the performance of services shall remain the property of Engineer. Owner shall have the unlimited right to the use of intellectual property developed, utilized, or modified in the performance of the Services at no additional cost to the Owner.

#### **ARTICLE 14 - TERMINATION**

This Agreement may be terminated by either party upon written notice in the event of substantial failure by the other party to perform in accordance with the terms of this Agreement. The nonperforming party shall have fifteen calendar days from the date of the termination notice to cure or to submit a plan for cure reasonably acceptable to the other party. Owner may terminate or suspend performance of this Agreement for Owner's convenience upon written notice to Engineer. Engineer shall terminate or suspend performance of the Services on a schedule acceptable to Owner. If termination or suspension is for Owner's convenience, Owner shall pay Engineer for all Services performed prior to the date of the termination notice. Upon restart, an adjustment acceptable to Owner and Engineer shall be made to Engineer's compensation. Neither Engineer, nor its subconsultants shall be responsible for errors or omissions in documents which are incomplete as a result of an early termination under this Agreement.

#### **ARTICLE 15 - DELAY IN PERFORMANCE**

Neither Owner nor Engineer shall be considered in default of the Agreement for delays in performance caused by circumstances beyond the reasonable control of the nonconforming party. For purposes of this Agreement, such circumstances include abnormal weather conditions; floods; earthquakes; fire; epidemics; war, riots, or other civil

disturbances; sabotage, judicial restraint, and inability to procure permits, licenses, or authorizations from any local, state, or federal agency for any of the supplies, materials, accesses, or services required to be provided by either Owner or Engineer under this Agreement.

Should such circumstances occur, the nonconforming party shall, within a reasonable time of being prevented from performing, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of the Agreement.

For delays in performance by Engineer, as set forth in Attachment E, Project Schedule, which are caused by circumstances which are within its control, such delays shall be documented on the Engineer's Project Performance Evaluation form. Said form shall be completed at the conclusion of Project and acknowledged by both Owner and Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects.

In the event Engineer is delayed in the performance of Services because of delays caused by Owner, Engineer shall have no claim against Owner for damages or contract adjustment other than an extension of time.

#### **ARTICLE 16 - COMMUNICATIONS**

Any communication required by this Agreement shall be made in writing to the address specified below:

Engineer: Maria S. Neeland, PE Alfred Benesch & Company 123 SE 6<sup>th</sup> Avenue, Suite 200 Topeka, KS 66603 (785) 320-4827

Owner: City of Topeka City Clerk 215 SE 7th Street, Room 166 Topeka, KS 66603 (785) 368-3940

With a Copy to: Zachary Stueve, PE Stormwater Engineer City of Topeka Utilities Department 1115 NE Poplar Street Topeka, KS 66607

Nothing contained in the Article shall be construed to restrict the transmission of routine communications

between representatives of Engineer and Owner.

#### **ARTICLE 17 - WAIVER**

A waiver by either Owner or Engineer of any breach of this Agreement shall be in writing. Such a waiver shall not affect the waiving party's rights with respect to any other or further breach.

#### **ARTICLE 18 - SEVERABILITY**

The invalidity, illegality, or unenforceability of any provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void provision shall be deemed severed from this Agreement, and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this Agreement this entire Agreement from being void should a provision which is of the essence of this Agreement be determined void.

#### **ARTICLE 19 - INTEGRATION**

This Agreement represents the entire and integrated agreement between Owner and Engineer. All prior and contemporaneous communications, representations, and agreements by Engineer, whether oral or written, relating to the subject matter of this Agreement, as set forth in Attachment D, Supplemental Agreements are hereby incorporated into and shall become a part of this Agreement

#### **ARTICLE 20 - SUCCESSORS AND ASSIGNS**

Owner and Engineer each binds itself and its directors, officers, partners, successors, executors, administrators, assigns, and legal representatives to the other party of this Agreement and to the directors, officers, partners, successors, executors, administrators, assigns, and legal representatives of such other party in respect to all provisions of this Agreement.

#### **ARTICLE 21 - ASSIGNMENT**

Neither Owner nor Engineer shall assign any rights or duties under this Agreement without the prior written consent of the other party. Unless otherwise stated in the written consent to an assignment, no assignment will release or discharge the assignor from any obligation under this Agreement. Nothing contained in this Article shall prevent Engineer from employing independent consultants, associates, and subcontractors to assist in the performance of the Services; however, other agreements to the contrary notwithstanding, in the event Engineer employs independent consultants, associates, and subcontractors to assist in performance of the Services, Engineer shall be solely responsible for the negligent performance of the independent consultants, associates, and subcontractors so employed.

#### **ARTICLE 22 - THIRD PARTY RIGHTS**

Nothing in this Agreement shall be construed to give any rights or benefits to anyone other than Owner and Engineer.

#### **ARTICLE 23 – RELATIONSHIP OF PARTIES**

Nothing contained herein shall be construed to hold or to make the Owner a partner, joint venturer, or associate of Engineer, nor shall either party be deemed the agent of the other, it being expressly understood and agreed that the relationship between the parties hereto is and shall at all times remain contractual as provided by the terms and conditions of this Agreement.

IN WITNESS WHEREOF, Owner and Engineer have executed this Agreement.

#### ATTACHMENT A TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company On-Call Levee Engineering & Levee Asset Repair and Rehabilitation Program Management

#### **SCOPE OF SERVICES**

#### BASIC SERVICES

The project is specifically defined below:

The services included in this project include administration and management of projects under the City of Topeka Levee Asset Repair and Rehabilitation Program, design services, communication with the USACE, USACE inspection participation, review of annual and periodic inspection reports and assistance with addressing any minimally acceptable or unacceptable items contained in the reports, annual levee training activities, and support for flood response. Additionally, the project may include design and construction management services for any levee projects in the Capital Improvement Budget. Upon request of the City, the Consultant will develop scope/fee for each task requested. Upon approval of the City, a PO for each individual project/task will be processed and issued to the Consultant for execution of the scope.

#### SUPPLEMENTAL SERVICES

Any work requested by the Owner that is not included in the Basic Services of the scope for each purchase order will be classified as Supplemental Services. Supplemental Services shall include, but are not limited to the following:

Any changes in general scope, extent or character of the project, including but not limited to change in size, complexity, Owner's Schedule, or method of financing.

Payments will be in accordance with the provisions of Attachment B of the Agreement.

#### ATTACHMENT B TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company On-Call Levee Engineering & Levee Asset Repair and Rehabilitation Program Management

#### COMPENSATION

For the services covered by this Agreement, the Owner agrees to pay the Engineer as follows:

- A. For the Basic Services described in Attachment A, Payments shall be made in accordance with the invoice procedures of the Department of Financial Services. Fees under this On-call contract shall not exceed \$450,000 without a formal contract amendment or change order.
  - 1. Upon execution of the contract, the Firm will be issued purchase orders for the tasks/services to be rendered during the term of this agreement. Purchase orders will define individual project/task thresholds and establish the not-to-exceed fees for each task.
  - 2. Payments shall be made monthly in amounts which are consistent with the amount of engineering services provided, as determined by the Engineer.
- B. Compensation for Supplemental Services shall be made as defined below, when authorized in writing by the Owner. The maximum limit for each item of additional service shall be established individually and specifically agreed to by the Owner as stated below, unless the service is included in a subsequent agreement.

Hourly rates for each classification as defined by the Engineer's rate schedule, see Attachment F. Hourly charge rates are subject to adjustment annually on January 1. Overtime, when authorized by the Owner, will be billed at 1.5 times the rates listed (non-engineer time only).

Reimbursable charges will be considered the amount of actual costs of expenses or charges, including such items as staking materials, equipment rental, equipment hourly charges, mileage, toll telephone calls, reproduction and similar project related expenses.

- D. The entire amount of each statement shall be due and payable upon receipt by the Owner.
- E. It is understood and agreed:
  - 1. That the Engineer shall start the performance of Services within 10 days of receipt of a notice to proceed and shall complete the work in accordance with the contract times set forth in Attachment E, Project Schedule.
  - 2. That the Engineer shall keep records on the basis of generally accepted accounting practice of costs and expenses which records shall be available for inspection at all reasonable times.

#### ATTACHMENT C TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company On-Call Levee Engineering & Levee Asset Repair and Rehabilitation Program Management

#### **OWNER'S RESPONSIBILITIES**

The Owner will furnish, as required by the work and not at the expense of the Engineer, the following items:

- 1. Make available to the Engineer all records, reports, maps, and other data pertinent to provision of the services required under this contract, upon which Engineer may reasonably rely.
- 2. Examine all plans, specifications and other documents submitted by the Engineer and render decisions promptly to prevent delay to the Engineer.
- 3. Designate one City of Topeka employee as the Owner representative with respect to all services to be rendered under this agreement. This individual shall have the authority to transmit instructions, receive information and to interpret and define the Owner's policies and decisions pertinent to the Engineer's services.
- 4. Issue notices to proceed to the Engineer for each phase of the design services.

#### ATTACHMENT D TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company On-Call Levee Engineering & Levee Asset Repair and Rehabilitation Program Management

#### SUPPLEMENTAL AGREEMENTS

Owner and Engineer agree that the following communications, representations, and agreements by Engineer, whether oral or written, relating to the subject matter of the Agreement are hereby incorporated into and shall become a part of the Agreement as set forth in ARTICLE 19 - INTEGRATION.

Contract No. \_\_\_\_\_ Project No. \_\_\_\_N/A

#### ATTACHMENT E TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company On-Call Levee Engineering & Levee Asset Repair and Rehabilitation Program Management

#### **PROJECT SCHEDULE**

Owner and Engineer recognize that time is of the essence of the Agreement and that Owner will suffer financial loss if the work is not completed within the times stipulated herein, plus any extensions thereof. Accordingly, Engineer shall perform its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the Project, and has established time intervals, in calendar days, for submittals at various stages of the project as detailed below. As each actual submittal date occurs, Engineer shall meet with Owner to discuss the progress of the work and the actual submittal date shall be documented. If project is behind schedule, the reason shall be recorded. Engineer shall not be responsible for the time required by Owner's representative to review Engineer's submittal. When review is complete, Owner shall, in writing, authorize Engineer to proceed to the next submittal date. After final submittal date, Engineer and Owner shall meet to evaluate Engineer's performance with regard to design schedule. An Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects. Past performance shall be accounted for on the evaluation sheet used to rank consultants during the interview process.

1. Schedule: Schedule for tasks/assignments will be established as part of the individual Purchase Orders. Contract timeframe for this agreement shall be for one year from the date of contract execution. Contract may be extended for up to two (2) additional years if deemed mutually beneficial to both the City and Consultant.

#### EMPLOYMENT CLASSIFICATION AND RATE SCHEDULE

| <u>CLASSIFICATION</u>   | BILLABLE RATE      |
|---|--------------------|
| Project Manager I   | \$185.00           |
| Project Manager II  | \$200.00           |

#### **Terms And Conditions**

#### General

#### General

Read all terms and conditions before registering or responding to a bid event.

Thank you for your interest in registering online to do business with the City of Topeka. All data in this website is subject to the Statues of the State of Kansas and ordinances contained in the Topeka Municipal Code. The City of Topeka shall not be held liable or legally bound by any software limitation or defect. The City of Topeka operates under and is subject to the Central Time Zone (CST or CDT).

The City of Topeka strives to include as many suppliers as possible to enhance the competitive sealed bidding process. The city is unable to include every supplier in all events that they may be able to quote on. Registration on the city's e-pro website does not

guarantee an organization will receive notification of every bidding opportunity.

#### Disclaimer

The City of Topeka attempts to maintain continuous access to the supplier portal. However, from time to time, access may be interrupted or prevented due to maintenance, site problems, Internet problems, or problems experienced by the user due to the user's computer system. The city makes no warranty that the supplier portal will be uninterrupted or error-free. Regardless of the source of any problem, it is the user's responsibility to ensure that its bid is timely received. Because of the discrepancies inherent in timing mechanisms (e.g. cell phones, computers, mobile devices), the bid time will be determined based upon the time indicated on the city server for the Strategic Sourcing application. If the user does not submit its bid at or before the time indicated on the City server for the Strategic Sourcing application, the bid will be electronically rejected by the Strategic Sourcing application as untimely.

The City shall not be liable for any direct, indirect, incidental, special, consequential, or exemplary damages, including but not limited to damages for loss of profits, goodwill, use, data, or other intangible losses resulting from: (i) the use or the inability to use the supplier portal; (ii) unauthorized access to or alteration of the user's transmissions or data; or (iii) any other matter relating to the supplier portal.

It shall be the bidder's responsibility to advise the City of Topeka of any specifications, language, other requirements, or combinations thereof that restrict or limit bidding. Such notification must be submitted in writing and must be received by the Contracts and Procurement Division no later than five (5) days prior to the bid closing. The specifications were written with the intent of permitting competitive bidding. The City of Topeka reserves the right to waive minor deviations in the specifications that inadvertently restrict bidding to a single manufacturer (or vendor) or when such deviations do not alter or deter the City from accomplishing the intended use or function. Each bid shall include descriptive literature and specifications for the product. However, the provision of this material shall not be considered a substitute for listing deviations.

Amendments to Bids: To ensure maximum access opportunities for users, events and solicitations shall typically be posted for a minimum of ten (10) days, and no amendments shall typically be made within the last three days before the event or solicitation is due. Bidders and vendors are cautioned that the competitive nature of their offers could be affected if their submission does not include all amendments. For this reason, bidders and vendors are advised to revisit all solicitations to which they intend to respond three (3) days prior to the due date. It is the bidder's or vendor's responsibility to check the website from time to time for updates to events and solicitations and to pick up additional addenda and information.

All bids shall be considered firm for a period of forty-five (45) calendar days from the bid opening date, unless otherwise stated in the bid specification document(s).

If bidders have a concern about bid specifications or any term or condition that they believe restricts competition, bidders must contact, in writing, the procurement buyer assigned no later than five (5) days prior to bid closing. Upon receipt, the procurement buyer will research the issue and provide a response within five (5) days. Failure to submit a question or concern within the five (5) day period will waive any right the bidder may have to challenge the bid or a bid award.

#### Standard Terms and Conditions

#### **Contractural Provision**

City of Topeka Department of Administrative and Financial Services Contracts and Procurement Division (Rev 06.2021)

#### CONTRACTUAL PROVISIONS

#### **1.TERMS HEREIN CONTROLLING PROVISIONS**

It is expressly agreed that the terms of each and every provision in this Attachment shall prevail and control over the terms of any other conflicting provision in any other document relating to and a part of the contract in which this attachment is incorporated.

#### 2.AGREEMENT WITH KANSAS LAW

May 16, 2025

Page 2

All contractual agreements shall be subject to, governed by, and construed according to the laws of the State of Kansas.

#### **3.TERMINATION DUE TO LACK OF FUNDING**

If, in the judgment of the City Manager, sufficient funds will not be available to continue the functions performed in this agreement and for the payment of the charges hereunder, City may terminate this agreement at the end of its current and any succeeding fiscal year. City agrees to give written notice of termination to contractor at least 30 days prior to the end of its current fiscal year. Contractor shall have the right, at the end of such fiscal year, to take possession of any equipment provided City under the contract. City will pay to the contractor all regular contractual payments incurred through the end of such fiscal year, plus contractual charges incidental to the return of any such equipment. Upon termination of the agreement by City, title to any such equipment shall revert to contractor at the end of City's current fiscal year. The termination of the contract pursuant to this paragraph shall not cause any penalty to be charged to the City or the contractor.

#### 4. TERMINATION FOR CONVENIENCE

The Director of Contracts & Procurement or designee may terminate performance of work under this contract in whole or in part whenever the Director determines that the termination is in the best interest of the City. In the event of termination, the Director or designee shall provide the Contractor written notice at least thirty (30) days prior to the termination date. The termination shall be effective as of the date specified in the notice. The Contractor shall continue to perform any part of the work that may not have been terminated by the notice.

#### 5.DISCLAIMER OF LIABILITY

No provision of this contract will be given effect that attempts to require the City to defend, hold harmless, or indemnify any contractor or third party for the City's acts or omissions. The City's liability is limited to the liability established in the Kansas Tort Claims Act, K.S.A. 75-6101 et seq.

#### 6.ANTI-DISCRIMINATION CLAUSE

The contractor agrees: (a) to comply with all federal, state, and local laws and ordinances prohibiting unlawful discrimination and to not unlawfully discriminate against any person because of age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation, veteran status or any other factor protected by law in the admission or access to, or treatment or employment in, its programs or activities; (b) to include in all solicitations or advertisements for employees, the phrase "equal opportunity employer;" and (c) to include those provisions in every subcontract or purchase order so that they are binding upon such subcontractor or vendor. The contractor understands and agrees that the failure to comply with the requirements of this paragraph may constitute a breach of contract, and the contract may be cancelled, terminated or suspended, in whole or in part by the City of Topeka.

#### **7.ACCEPTANCE OF CONTRACT**

This contract shall not become effective until the legally required approvals have been given.

#### 8.ARBITRATION, DAMAGES, WARRANTIES

Notwithstanding any language to the contrary, no interpretation shall be allowed to find the City or any department or division thereof subject to binding arbitration. Further, the City of Topeka shall not be subject to attorney fees and no provision will be given effect which attempts to exclude, modify, disclaim or otherwise attempt to limit implied warranties of merchantability and fitness for a particular purpose.

#### 9.REPRESENTATIVE'S AUTHORITY TO CONTRACT

By signing this contract, the representative of the contractor thereby represents that such person is duly authorized by the contractor to execute this contract on behalf of the contractor and that the contractor agrees to be bound by the provisions thereof.

#### **10.RESPONSIBILITY FOR TAXES**

The City of Topeka shall not be responsible for, nor indemnify a contractor for, any federal, state or local taxes which may be imposed or levied upon the subject matter of this contract.

#### 11.INSURANCE

The City of Topeka shall not be required to purchase any insurance against loss or damage to any personal property to which this contract relates. Subject to the provisions of the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.), and the claims provisions of the Code of the City of Topeka (Section 3.35.010 et seq.), the contractor shall bear the risk of any loss or damage to any personal property in which the contractor holds title.

#### **Terms and Conditions**

STANDARD TERMS AND CONDITIONS Qualification Based Selection (RFP, RFQ, etc.) Includes Architectural, Engineering, and Appraisal Services for Public Buildings and Improvements

1. READ ALL STANDARD TERMS AND CONDITIONS, SPECIAL TERMS AND CONDITIONS AND THE SCOPE OF WORK CAREFULLY. Failure to abide by all the conditions of this request may result in the rejection of a proposal. Inquiries about this request must be addressed during the open question and answer period. Proposals including attachments (proposal, drawings, photographs, etc.) shall be submitted through the City's online bidding portal.

2. SINGLE POINT OF CONTACT: The single point of contact for all inquiries, questions, or requests shall be the City of Topeka Contracts and Procurement Buyer or their designee initiating this solicitation. All communications shall be directed to the Buyer. No communication is to be had with any other City employee or representative while the bidding event is open and until a contract and/or purchase order is awarded and issued. Bidders may have contact with other City employees or representatives during negotiations, contract signing, or as otherwise specified in the solicitation documentation.

3. NEGOTIATED PROCUREMENT: The City reserves the right to negotiate with the selected bidder of this solicitation. The final evaluation and award is made by the Procurement Negotiating Committee (Committee), which consists of the Department Director of the originating department, the Director of Administrative and Financial Services, the Director of Contracts and Procurement, or their designees. (For architectural, engineering and appraisal services, the City Engineer or designee will take the place of the Director of Contracts and Procurement or designee.)

4. APPEARANCE BEFORE COMMITTEE: Bidders may be required to appear before the Committee to explain their understanding and approach. The Committee may request additional information. Bidders are prohibited from electronically recording these meetings. All information received prior to the cut-off time will be considered as part of the bidder's best and final offer. No additional revisions shall be made after the specified cut-off time unless requested by the Committee.

5. QUESTIONS & ADDENDA: All questions shall be submitted during the open questions period section of the City's online bidding portal. It shall be the bidder's responsibility to monitor the City's bidding portal for answers to questions and any addenda issued that may alter or change the scope of the solicitation. Any and all binding modifications to the solicitation shall be made by addendum.

 6. PRE-PROPOSAL CONFERENCE: If so noted, all Pre-Proposal Conferences will be scheduled and information posted on the Meetings section in the solicitation. Attendance is typically not mandatory, but is strongly encouraged. At the Pre-Proposal Conference impromptu questions will be permitted and spontaneous unofficial answers will be provided when possible. However, bidders should clearly understand that the only official answer or position of the City will be by written and issued by addendum.
 7. COST OF PREPARING PROPOSAL: The cost of developing and submitting the proposal is entirely the responsibility of the bidder. This includes costs to determine the nature of the engagement, preparation of the proposal, submitting the proposal, negotiating the contract, and other costs associated with the solicitation.

8. EVALUATION OF PROPOSALS: Award shall be made through the qualification based selection process. Consideration and evaluation of such proposals will include but not be limited to:

- Adequacy and completeness of proposal;
- Compliance with the terms and conditions of the request;
- Experience in providing like services or products;
- Qualified staff;
- Methodology in accomplishing objectives;
- Response format as required by this request;
- Price; and
- Any other requirements specific to the service or product as outlined by the City of Topeka.

9. ACCEPTANCE OR REJECTION: The City reserves the right to accept or reject any or all proposals or part of a proposal; to waive any informalities or technicalities; clarify any ambiguities in proposals; modify criteria in the solicitation; and unless otherwise specified, to accept any item in a proposal.

10. CONTRACT: The successful bidder may be required to enter into a written contract with the City, which will incorporate the Contractual Provisions Attachment and Contractor's Statement of Agreement. No contract shall be considered to have been entered into by the City unless executed by the City Manager and the vendor. Professional service contracts exceeding fifty thousand dollars (50,000) must be approved by the Governing Body prior to being executed by the City Manager.

11. CONTRACT DOCUMENTS: In the event of a conflict in terms of language among the documents, the following order shall govern:

- Contractual Provisions Attachment and Contractor's Statement of Agreement, if incorporated in the Contract;
- Written modifications to the executed contract;
- Written contract signed by the parties;

12. OPEN RECORDS ACT: All proposals become the property of the City of Topeka. Kansas law requires all information contained in

proposals to become open for public review (with certain exceptions available under the Act) once a contract is signed or all proposals rejected.

13. FEDERAL, STATE AND LOCAL TAXES – GOVERNMENTAL ENTITY: Unless otherwise specified, the price as negotiated shall include all applicable federal, state, and local taxes. The successful vendor shall pay all taxes lawfully imposed on it with respect to any product or service delivered in accordance with this solicitation. The City of Topeka is exempt from state sales or use taxes, and federal excise taxes. These taxes shall not be included in the bidder's price quotations.

14. SUSPENSION FROM BIDDING: Any vendor who defaults on delivery as defined in this solicitation may, at the discretion of the Director of Contracts and Procurement, be barred from bidding or receiving an award on any subsequent solicitation for a period of time to be determined by the City.

15. INSURANCE: The City shall not be required to purchase any insurance against loss or damage to any personal property nor shall the City establish a self-insurance fund to protect against any loss or damage. Subject to the provisions of the Kansas Tort Claims Act, the vendor shall bear the risk of any loss or damage to any personal property.

16. CASH BASIS AND BUDGET LAWS: All contracts are subject to the State of Kansas Cash Basis and Budget laws. [K.S.A. 10-1101; 79-2925 et seq.] Any obligation incurred as a result of the issuance of the contract or purchase order binds the City only to the extent that funds are available at the time payment is required.

City Legal Approval February 8, 2022

#### **RFP Special Provisions**

#### SPECIAL PROVISIONS

Proposal Format: The following information shall be part of the technical proposal: Vendors are instructed to prepare their Technical Proposal following the same sequence as this section of the Request For Proposal.

(1)Transmittal letter which includes the following statements:

(a)That the vendor is the prime contractor and identifying all subcontractors

(b)That the vendor is a corporation or other legal entity

(c)That no attempt has been made or will be made to induce any other person or firm to submit or not to submit a proposal (d)That the vendor does not discriminate in employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin or disability

(e)That no cost or pricing information has been included in the transmittal letter or the Technical Proposal. Pricing information, if requested, shall be uploaded as separately named electronic file.

(f) That the vendor presently has no interest, direct or indirect, which would conflict with the performance of services under this contract and shall not employ, in the performance of this contract, any person having a conflict

(g)That the person signing the proposal is authorized to make decisions as to pricing quoted and has not participated, and will not participate, in any action contrary to the above statements;

(h)Whether there is a reasonable probability that the vendor is or will be associated with any parent, affiliate or subsidiary organization, either formally or informally, in supplying any service or furnishing any supplies or equipment to the vendor which would relate to the performance of this contract. If the statement is in the affirmative, the vendor is required to submit with the proposal, written certification and authorization from the parent, affiliate or subsidiary organization granting the City and/or the federal government the right to examine any directly pertinent books, documents, papers and records involving such transactions related to the contract. Further, if at any time after a proposal is submitted, such an association arises, the vendor will obtain a similar certification and authorization and failure to do so will constitute grounds for termination of the contract at the option of the City

(i) Vendor agrees that any lost or reduced federal matching money resulting from unacceptable performance in a contractor task or responsibility defined in the Request, contract or modification shall be accompanied by reductions in City payments to contractor and

(j)That the vendor has not been retained, nor has it retained a person to solicit or secure a City contract on an agreement or understanding for a commission, percentage, brokerage or contingent fee, except for retention of bona fide employees or bona fide established commercial selling agencies maintained by the vendor for the purpose of securing business. For breach of this provision, the Committee shall have the right to reject the proposal, terminate the contract and/or deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee or other benefit. Vendor's Qualifications: The vendor must include a discussion of the vendor's corporation and each subcontractor if any. The discussion shall include the following:

(a)Date established

(b)Ownership (public, partnership, subsidiary, etc.)

(c)Number of personnel, full and part time, assigned to this project by function and job title (d)Data processing resources and the extent they are dedicated to other matters

(e)Location of the project within the vendor's organization (f)Relationship of the project and other lines of business and (g)Organizational chart

The contractor shall be the sole source of contact for the contract. The City will not subcontract any work under the contract to any other firm and will not deal with any subcontractors. The Contractor is totally responsible for all actions and work performed by its subcontractors. All terms, conditions and requirements of the contract shall apply without qualification to any services performed or goods provided by any subcontractor.

A description of the vendor's qualifications and experience providing the requested or similar service including resumes of personnel assigned to the project stating their education and work experience. The vendor must be an established firm recognized for its capacity to perform. The vendor must be capable of mobilizing sufficient personnel to meet the deadlines specified in the Request.

A timeline for implementing services.

Payment: To be negotiated.

#### Insurance Req with Errors and Omissions Coverage

**INSURANCE REQUIREMENTS** 

WORKERS COMPENSATION: Contractor's, when required by law must maintain in effect throughout the life of this contract, Workers Compensation insurance to cover the contractor's employees, in full limits as required by statute.

INSURANCE RESPONSIBILITY & LIABILITY:Notwithstanding any language to the contrary, no interpretation shall be allowed to find the City or any of its departments, officers or employees responsible for loss or damage to persons or property as a result of the contractor's actions.

#### CONTRACTOR SHALL MAINTAIN MINIMUM COVERAGE AS FOLLOWS:

Commercial General Liability: Per Occurrence\$1,000,000 General Aggregate\$2,000,000 Products & Completed Operations Coverage Aggregate\$2,000,000 Property Damage per occurrence\$100,000

Automobile Liability Combined Single Limit for Bodily Injury and Property Damage Aggregate\$500,000

Professional Liability (Errors and Omissions) Provide separate "claims made" form Per Claim\$1,000,000 General Aggregate\$2,000,000

CERTIFICATES OF INSURANCE: Certificates of Insurance should be issued immediately after the Contractor received notification of award and prior to the notice to proceed. The Contractor must not commence any work under this Contract until Purchase Orders are issued by the City of Topeka.

NAMED INSURED: The City of Topeka shall be named as an additional insured party on the Certificate of Liability Insurance.

NOTIFICATION OF ALTERATION OR MATERIAL CHANGE OR CANELLATION: A minimum of ten (10) days written notification must be given by an insurer or any alteration, material change, or cancellation affecting any certificates or policies of insurance as required under this Contract. Such required notification must be sent via Registered or Certified Mail to the address below:

City of Topeka Contracts & Procurement Division 215 SE 7th Street, Room 60 Topeka, KS 66603

IIYOF

#### Professional Engineering Services Levee Engineering and Levee Asset Repair & Rehabilitation Program Management

#### **Request for Proposals**

#### I. Purpose for Request

The City of Topeka (City) is requesting proposals for professional services for Levee Engineering and Levee Asset Repair & Rehabilitation Program Management (the Project). The services include administration and management of projects under the Levee Asset Repair & Rehabilitation Program, as well as design services, communication with the United States Army Corps of Engineers (USACE), review of annual and periodic reports and assistance with addressing any minimally acceptable or unacceptable items contained in the reports. Additionally, the consultant may provide design and construction management services for any levee projects in the Utility Department's approved Capital Improvement Budget.

#### II. Background Information

The City of Topeka is the sponsor of five levee units which are part of the USACE flood damage reduction system. These levee units include Water Works, Auburndale, South Topeka, Oakland and North Topeka. The five units are comprised of approximately 84 relief wells, 21 miles of earthen levee, 0.68 miles of flood wall, 9 pump stations, and 60 closure/drainage structures.

#### III. Scope of Services

The City is seeking consulting services for levee engineering and levee asset repair & rehabilitation program administration and management and providing related supplemental services hereinafter Program Management Services. Basic services provided may include, but are not limited to the following:

- 1. Preparation of plans and specifications for levee asset repair and replacement or rehabilitation projects.
- 2. Submittal of plans to USACE and other government entities for review and approval.
- 3. Review of annual and periodic inspection reports. Assistance with addressing any minimally acceptable or unacceptable items.
- 4. Preparation of requests for proposals to enable the City to contract for professional services to repair, replace or rehabilitate levee assets.
- 5. Preparation of project budgets, bids and specifications to allow the City to award

projects for repair, replacement, rehabilitation or maintenance of levee assets.

- 6. Management of levee asset projects including review of submittals, inspections, preparations of change orders, review of pay applications and preparations of as-built drawings.
- 7. Provide guidance and technical support to Utilities staff for levee maintenance and repair projects that staff can perform.
- 8. Provide annual training to staff on levee operation and maintenance.
  - a) This shall include at least one formal training session of approximately one hour in length.
- 9. Provide technical support and directions to staff on levee operation during a flood fight.
- 10. Provide assistance in developing the levee portion of the Utility Department's Capital Improvement Program.
- 11. Provide recommendations based on business risk exposure for prioritized list of levee asset repair, replacement or rehabilitation projects.
- 12. Review and prepare plans to ensure compliance with all engineering principles, city technical specifications, USACE requirements and other governmental agencies, including Kansas Department of Agriculture-Division of Water Resources, Kansas Department of Health and Environment and Kansas Department of Wildlife.
- 13. Participate in any USACE annual or periodic inspections and ensure appropriate City staff participate.

#### IV. Deliverables

Enter into an agreement for professional engineering services for Levee Engineering and Levee Asset Repair & Rehabilitation Program Management.

#### V. Proposal Format

All information submitted becomes the property of the City of Topeka. Proposals received after the time indicated in this request will not be considered. Proposals are to be limited to a total of 10 (ten) pages (not counting front and back cover, cover letter, table of contents, and section dividers) using margins not smaller than 1.0" and font size not smaller than 12. The proposal should include the following:

- 1. Project understanding
- 2. Project approach
- 3. Company background
- 4. Similar experience
- 5. Project team
- 6. Team member availability

#### VI. Selection Process

The City will review all submittals and select the Consultant deemed most qualified to begin the contract scope and fee negotiation process. If the City and the selected Consultant cannot agree on scope and/or fee, the City may terminate negotiations and select another Consultant. Furthermore, the City may elect to interview one (1) or more firms prior to making the selection. Proposal evaluation scoring will be based primarily on the following considerations:

- 1. 20% Program approach
- 2. 30% Similar project experience and knowledge of the USACE regulations, policies and design standards
- 3. 20% Qualifications, availability, and accessibility of personnel assigned to the Project
- 4. 20% Familiarity with the City's Levee units
- 5. 10% Proposed program implementation schedule

### PROFESSIONAL SERVICES FOR Levee Engineering and Levee Asset Repair & Rehabilitation Program Management

City of Topeka | Event 3151

**MARCH 2025** 

123 SE 6th Avenue, Suite 200 Topeka, KS 66603 www.benesch.com P 785-409-6507

March 20, 2025

City of Topeka Division of Contracts & Procurement 215 SE 7th Street, Room 60 Topeka, KS 66603

#### RE: Event #3151 | Levee Engineering & Levee Asset Repair & Rehabilitation Program Management

Dear Members of the Selection Committee

**Benesch** is pleased to submit our proposal for the Professional Engineering Services for Levee Engineering and Levee Asset Repair & Rehabilitation Program Management. Our team is excited about the opportunity to support the City of Topeka in managing these critical assets. With extensive experience, deep familiarity with your levee infrastructure, and unwavering commitment to successful project execution, we are confident that we are the ideal partner for this initiative- offering a team you can truly rely on.

#### When you choose the Benesch team, you can expect the following key advantages:

**Building on Longstanding Relationship** // Our longstanding relationship with the City of Topeka is a testament to our commitment and capability. Over the years, we have successfully completed numerous projects within the city, consistently meeting and exceeding expectations. Our familiarity with the local landscape and regulatory environment ensures a seamless project execution. Additionally, we prioritize enhancing efficiency for Topeka's staff by streamlining communication and scheduling, ensuring that your team remains well-informed and coordinated throughout the project lifecycle.

**On-Call Levee Experience** // Our team brings unparalleled expertise in levee engineering and management, supporting levee sponsors since the 1960s. We have worked on various levee projects, providing comprehensive services from design and construction management to inspection and maintenance. Our experience with the United States Army Corps of Engineers (USACE) regulations and standards positions us to effectively manage and execute the levee asset repair and rehabilitation program.

**Topeka Specific Levee & Flood Expertise** // Our team has an in-depth understanding of Topeka's stormwater and levee systems. Members of our team were instrumental in completion of the Topeka Levee Certification Project, evaluating the five levee systems against FEMA criteria. Additionally, Maria Neeland, Joe, File, Steve Roth, and Patrick Bussen had large roles in the completion of the City of Topeka Stormwater Master Plan and Shunganunga Master Plan projects, demonstrating our expertise in enhancing Topeka's flood protection infrastructure.

**Asset Management Experience** // We excel in asset management, offering strategic insights and technical support to effectively manage infrastructure assets into the future. Our approach includes forecasting applications and risk assessments to prioritize repair and rehabilitation projects. Utilizing data-driven implementation strategies is essential to ensure the longevity and reliability of the levee systems.

We are confident that our proposal demonstrates our capability to deliver on the City of Topeka's objectives for this project. The City is a priority to Benesch, and we remain steadfast in our commitment to our Topeka Office Team. We look forward to working alongside the City of Topeka staff on this extremely important project, and continue to strengthen our relationship with you.

#### **MEETING OBLIGATIONS TO CITY**

#### Benesch makes the following statements with respect to this contract:

- A. Benesch is the prime contractor for the project. Subcontractors for this project include teaming partners with whom Benesch has worked on many occasions in Topeka. This includes PEC for survey and field investigations, assistance with design and plan preparation, and flood response
- **B.** Benesch is a licensed corporation.
- **C.** No attempt has been made or will be made to induce any other person or firm to submit or not submit a proposal.
- D. Benesch does not discriminate in employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin or disability.
- E. No cost or pricing information has been included in the transmittal letter or the Technical Proposal.
- **F.** Benesch presently has no interest, direct or indirect, which would conflict with the performance of services under this contract and shall not employ, in the performance of this contract, any person having a conflict.

- **G.** Rob Krewson is authorized to make decisions regarding pricing quoted and has not participated, and will not participate, in any action contrary to the above statements.
- **H.** Benesch is not associated with any parent, affiliate, or subsidiary organization, either formally or informally, in supplying any service or furnishing any supplies or equipment to the vendor that would relate to the performance of this contract.
- I. Benesch agrees that any lost or reduced federal matching money resulting from unacceptable performance in a contractor task or responsibility defined in the Request, contract or modification shall be accompanied by reductions in City payments to contractor and
- J. Benesch has not been retained, nor has it retained a person to solicit or secure a City contract on an agreement or understanding for a commission, percentage, brokerage, or contingent fee.

If you have any questions or comments regarding the specific project approach or content of this response, please feel free to contact Maria Neeland.

Sincerely,

Moria 2 Neeland

# COMPANY BACKGROUND

CITY OF TOPEKA // LEVEE PROGRAM MANAGEMENT

#### FIRM QUALIFICATIONS

benesch Benesch is a multidisciplinary engineering

and professional services firm, established in 1946. Now, with 50 offices across 20 states, Benesch has successfully completed thousands of design and engineering projects throughout the US and is ranked #104 among the Top 500 Design Firms in the country by Engineering News Record. While Benesch is headquartered in Chicago, Illinois, it operates five offices within Kansas with more than 80 employees, including 12 located in our Topeka office. Our experienced and growing Topeka staff provides a thorough knowledge that includes Topeka stormwater, levee engineering and design experience.

### **Professional Engineering Consultants (PEC)** is a full-service firm offering sustainable

solutions to both public and private sectors across the United States and beyond. With over 400 employees in eight offices, PEC combines a strong regional presence with a national reach. For more than 50 years, PEC has built strong client and owner relationships, pioneering innovative solutions with engineering excellence. The firm prides itself on its diverse expertise, understanding of market dynamics, and ability to create effective, economical solutions. PEC enhances community value through infrastructure, energy, healthcare, and education projects, positioning clients as community champions and prioritizing community success.

#### SUCCESSFUL TEAMING HISTORY

Our teaming partner on this project is PEC, a firm we have teamed with on many Topeka projects in the past including several for the Topeka Utilities Department. This teaming experience includes:

- SW Topeka Boulevard
- SW 29th Street

**PEC** is committed to providing the Benesch team with additional local support on this project, including survey and field investigations, assistance with design and plan preparation, and flood response.

#### VENDOR QUALIFICATIONS

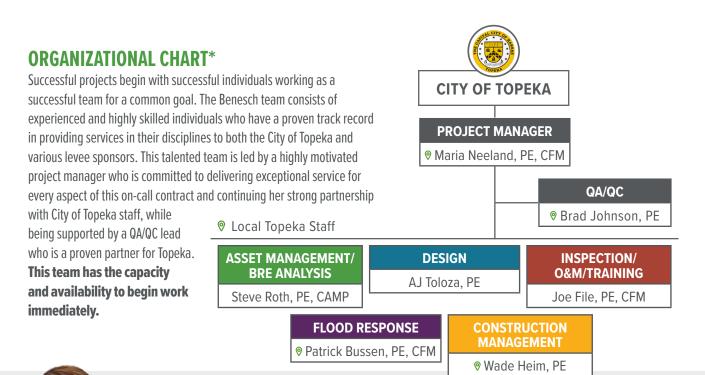

- **A. Date Established:** Benesch was established in 1946 and opened the Topeka office in 2020.
- **B. Ownership:** Benesch is a privately owned corporation.
- C. Number of Personnel, Full and Part Time, Assigned to This Project by Function and Job Title: We have listed the functional leads in the organizational chart in the following section. These individuals are all full-time employees and have the availability and expertise to perform their roles successfully with most being right here in our Topeka Office. For each of these categories, we have over 50 qualified staff within our Topeka and other Kansas offices to assist the function leads in the completion of the tasks, as necessary.
- D. Data Processing Resources and the Extent They are Dedicated to Other Matters: The Benesch team has sufficient resources, not dedicated to other projects, to support the current ongoing work.
- E. Location of the Project Within the Vendor's Organization: Led by Project Manager, Maria Neeson, our team will manage this project from our Topeka office.
- F. Relationship of the Project and Other Lines of Business: Benesch is a full-service design and consulting firm. As a national leader providing civil engineering services to public and private agencies, we have designed highway interchanges, local roads and all types of roadway structures, potable water, sanitary sewer, storm sewers, channel and stream stabilization, and restoration projects. The project falls within our wheelhouse of services and expertise. Our team actively supports Topeka Utilities with on-call stormwater reviews and ongoing projects from the last Stream Stabilization On-Call, giving us a deep understanding of Topeka's standards and specifications. We also led the development of the Topeka Stormwater Handbook.

# **PROJECT TEAM**

CITY OF TOPEKA // LEVEE PROGRAM MANAGEMENT

Maria Neeland, PE, CFM | Project Manager. Maria brings a wealth of project management experience to the team, with over 13 years of experience, and she has a firm grasp of City Utilities Staff expectations. Maria has successfully managed several projects for the City of Topeka, including the City of Topeka Stormwater and Shunganunga Creek Master Plans. In addition, Maria has served as the City's on-call stormwater plan reviewer for the last seven years, providing insight into the City's unique challenges and demands. Maria has a successful track record in directing teams of engineers to produce high-quality deliverables that meet client and stakeholder needs, with meaningful outcomes. Maria's technical experience, communication and organizational skills, and leadership qualities make her the ideal fit to lead our team as project manager.

**Brad Johnson, PE | QA/QC.** Brad has managed and directed numerous projects for the City of Topeka over the past five years with Benesch, and for years prior to that with another firm, with a proven track record of delivering projects that meet or exceed the scope of work and quality expectations. Brad has 29 years of civil engineering experience and has specific knowledge of the Topeka Levee System. As QA/QC lead, Brad will draw on his broad civil engineering background and knowledge of USACE regulations and policies to ensure that each task meets the necessary requirements, conducting appropriate quality reviews from discipline specific technical experts each step of the project.

**Steve Roth, PE, CAMP** I **Asset Management/BRE Analysis.** Steve has over 28 years of engineering experience with a diverse water resources background. He has delivered dozens of projects that developed asset management plans, created data collection tools, and built GIS platforms. He has created and integrated asset maintenance and operation programs, developed asset-specific condition ratings, developed asset depreciation curves and prepared risk management plans. In addition, Steve has utilized life-cycle analysis, replacement costs, and risk identification to develop Business Risk Exposure scoring, based on likelihood and consequence of failures.

**Joe File, PE, CFM** | **Inspection/O&M/Training.** Joe has 27 years in water resources engineering, with extensive experience of the USACE PL 84-99 program and FEMA 65.10 levee certification. Joe is extremely familiar with the Topeka levee system and has robust experience with the Federal programs associated with the levee system. In addition, he has conducted many periodic and routine inspections and fully understands the operations and maintenance needs and expectations associated with levee systems. Joe has also led hundreds of stakeholder meetings and training sessions and is well equipped to educate City Staff on their responsibilities.

\*The organizational chart shows only discipline leads due to space limits. The next page details key staff for various project services. Full resumes are available upon request. PEC is ready to support the team as needed.

**AJ Toloza, PE I Design.** AJ has over 20 years of experience as a design engineer on various utility projects, including stormwater design, water distribution, wastewater collection, pumping, and levee and dam assessments and design. He has played a key role in many design projects in Topeka, leading the entire design process from survey and field investigation to plan preparation and bid packages. He has performed levee and pump station rehabilitation designs for multiple levee sponsors in the Kansas City region, central Kansas region and elsewhere. AJ is well versed in not only the USACE requirements, but also Topeka's design standards.

**Patrick Bussen, PE, CFM** I **Flood Response.** Patrick, a Water Resources Engineer with 15 years of experience, specializes in flood risk identification, stormwater management, and flood response. Patrick has developed Emergency Action Plans and assisted with flood response planning efforts. In addition, Patrick was heavily involved in the analysis associated with the Topeka Stormwater Master Plan, Shunganunga Creek Master Plan, and the Topeka Levee Certification. His technical background and keen understanding of the necessary actions to take during an emergency event are highly valuable for flood response success.

**Wade Heim, PE** | **Construction Management.** Wade specializes in construction management for state and local agencies. With 18 years of experience, Wade excels in overseeing multi-million-dollar projects. His excellent people skills, engineering background, and real-world experience have proven to be extremely beneficial in identifying issues in the field, evaluating possible solutions, and completing all appropriate documentation. His comprehensive understanding of project audits makes him a key asset in delivering high-quality construction services. Wade leads Benesch's Construction Group in the Kansas Division.

#### **COMMITMENT TO A FULL-SERVICE LEVEE ENGINEERING TEAM**

Our team is well-equipped to provide the City of Topeka with high-quality levee engineering services, with staff that have expertise in each task listed in the potential scope of services for this on-call project, as detailed in the following table. Benesch and PEC also have a deep bench of resources to provide additional capacity, as needed, beyond those shown in this table, to meet your unique needs. Our team will commit the necessary time and resources to meet or exceed the requested timelines of any task that may arise, also having the availability to start work immediately and dedicate significant time to these services.

\* Wade leads a team of 16 professionals who are ready to support this project.

<sup>+</sup> The Benesch/PEC team has 58 people who live and work within a half-hour of Topeka and are able to assist with flood response efforts

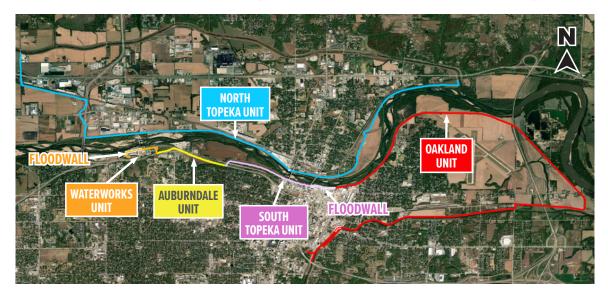

# UNDERSTANDING & APPROACH

CITY OF TOPEKA // LEVEE PROGRAM MANAGEMENT

#### **PROJECT UNDERSTANDING**

The City of Topeka is seeking proposals from qualified firms to provide professional engineering services for Levee Engineering and Levee Asset Repair and Rehabilitation Program Management. The services include administration and management of projects under the Levee Asset Repair and Rehabilitation Program, design services, communication with the USACE, review of annual and periodic reports and assistance with addressing any minimally acceptable or unacceptable items contained in the reports. Additionally, the selected consultant could provide design and construction management services for any levee projects in the Capital Improvement Budget.

The City of Topeka is the sponsor of five levee units which are part of the USACE flood damage reduction system. These include the Water Works, Auburndale, South Topeka, Oakland, and North Topeka levee units. These five units are comprised of 21 miles of earthen levee, 0.68 mile of flood wall, approximately 84 relief wells, 9 pump stations, and 60 closure/drainage structures.

Our Benesch Project Team has a long history of serving levee sponsors for various engineering and program management services including current on-call contracts for several Levee Districts in the Kansas City area. We have firsthand experience in managing levee related projects as well as design, operations and maintenance of levee facilities and assets. Our project team has significant experience working with the USACE on levee systems, completing both short-term and long-term rehabilitation plans and designs for municipalities all across the State of Kansas. Additionally, members of our project team have a deep understanding of Topeka's levee system, leading the FEMA 65.10 levee certification project and developing the SWMM H&H models for the levee certification. Our team members also completed the Topeka Stormwater Master Plan and Shunganunga Creek Master Plan projects, which included extensive recommendations for improvements to the stormwater system. Beyond this, members of our team provide on-call consulting services to the City of Topeka and have significant experience serving as an extension of City of Topeka staff, understanding City workflows and keeping the City's interests at the forefront of decisions. We have assembled a multi-disciplined team that combines unmatched Topeka Levee system expertise and extensive experience supporting levee districts and sponsors, with the insight and comprehensive understanding of Topeka's programs that are necessary to efficiently and seamlessly serve the City of Topeka in this on-call capacity.

This project includes a wide variety of services and needs. As such, we have identified key staff who are highly capable of leading and executing the various services associated with this on-call contract at a very high level. Additionally, Benesch and PEC have a deep bench of local resources to offer additional support to meet project demands and needs. Maria Neeland will serve as the point of contact for the City, committed to maintaining regular communication with City staff, engaging the right members of the team at the right time, and keeping projects moving forward in a timely manner.

Δ

#### **THE BENESCH DIFFERENCE**

Benesch staff have provided services to both the City of Topeka and to various Levee Sponsors for decades. The Benesch team is comprised of committed individuals who are dedicated to meeting and exceeding their client's needs and expectations on both on-call levee assignments and City of Topeka on-call assignments, developing a true partnership that can be highly trusted. This is further supported by our team's familiarity with Topeka's Stormwater and Levee Infrastructure and expertise in asset management.

#### DEPTH OF EXPERIENCE WITH ON-CALL LEVEE ENGINEERING CLIENTS

Benesch has provided levee engineering and program management support services to several levee sponsors dating back to the 1960s. Benesch's services have varied greatly in size and complexity and cover the full gamut of levee engineering services including review of USACE riverine H&H models, design of pump station improvements, levee inspections for conformance to USACE PL84-99, various emergency repairs, completion of Flood Response Plans, Risk-based prioritization of Levee Capital Improvement Programs, Levee Certification per 44 CFR 65.10 criteria and updates of Operation and Maintenance manuals. As such, our team has coordinated with the USACE on numerous projects, and has a comprehensive understanding of their regulations and policies.

#### EXTENSIVE KNOWLEDGE OF TOPEKA LEVEE SYSTEM

Several key team members are intimately familiar with the City of Topeka Levee System. Brad Johnson, Joe File and Maria Neeland served as the Project Manager, Technical Director and Lead Water Resources Engineer, respectively, for the Topeka Levee Certification Project, while at a previous firm. The project included evaluation of the five levee systems in Topeka including North Topeka, South Topeka, Auburndale, Waterworks and Oakland levee units. The certification project evaluated the levee system to FEMA's seven certification criteria established in 44 CFR 65.10 which includes freeboard, closure structures, embankment protection, stability and seepage, settlement, interior drainage, operation and maintenance, and as-builts. In addition, Maria Neeland, Joe File, and Patrick Bussen largely completed the Topeka Stormwater Master Plan and Shunganunga Creek Master Plan projects.

#### RESPONSIVENESS AND LOYALTY THAT YOU CAN TRUST

Ongoing communication between the City's project manager and the consultant's project manager is of utmost importance and critical to successful and productive outcomes. Maria Neeland has a history of successfully managing projects with City of Topeka Utilities staff including the Stormwater Technical Review On-Call contract, the MS4 Program Review and Update, the Stormwater Master Plan project, and the Shunganunga Creek Master Plan project. Not only is she committed to responding promptly to any questions, issues, or needs that arise; but also to managing projects with dependability, ensuring the City's interests always remain the top priority. In addition, our team consists of local staff from our Topeka and Kansas City office locations, all of whom are dedicated to being readily available for the tasks associated with this project, including our flood response and construction inspection capabilities.

#### ASSET MANAGEMENT AND VALUE ENGINEERING APPROACHES

Benesch has a highly skilled asset management team with a strong history of implementing Asset Management Strategies with public infrastructure, including a number of our on-call levee clients. Our team has developed forecasting applications that incorporate both deterioration and planned maintenance, rehabilitation and replacement actions. This allows owners to visualize projected condition status of structures or networks. Additionally, we have developed risk-based tools for prioritization purposes of pipe network and levee asset condition assessments with life cycle costing and deterioration curves. An asset management approach (likelihood and consequence of failure) is valuable in identifying Business Risk Exposure for Topeka's assets, including levee assets, which can be implemented into the Capital Improvement Program.

#### Unmatched Technical Knowledge of the City's Storm Assets

Benesch's Brad Johnson, Joe File and Maria Neeland served as the Project Manager, Technical Director and Lead Water Resources Engineer respectively, for the FEMA levee certification project while at a previous firm.

FEMA and Levee expert, Joe File, is the engineer of record for the current effective Shawnee County FEMA Floodplain Maps. No one understands the City of Topeka and Shawnee County flooding and stormwater infrastructure more comprehensively than Mr. File.

Our experience and expertise for the Topeka Levee System including the FEMA 65.10 certification, the USACE PL 84-99 program, the USACE feasibility study and the City's Stormwater Master Plan and Shunganunga Creek Master Plan, where Maria Neeland is the engineer of record, is unmatched.

We are confident that our team is in a position to fully stand by our commitments to you on this project.

#### **PROJECT APPROACH**

The Benesch team understands the importance of the City of Topeka's participation in the USACE PL 84-99 program and remaining compliant in that program. We also understands the importance and significance of the City of Topeka's FEMA 65.10 Levee Accreditation, and what's required to maintain the accreditation. Beyond this, we have the insights, experiences, and skills to successfully execute all the services that could be included as part of the levee engineering and levee asset repair and rehabilitation program administration and management project.

Maria Neeland will serve as the point of contact for this project. Maria currently meets with stormwater staff at a designated time every week in her current role to assist with stormwater plan reviews. In an effort to best utilize city staff time while maintaining frequent communication on levee projects and levee-related needs, it is recommended that the current weekly meetings be modified to two-part discussions, stormwater plan reviews and levee project updates. This will ensure that both parties stay abreast of levee-related needs and necessary actions and that regular progress is made, while efficiently fitting these discussions into the weekly schedule. Maria will engage with discipline leads and key team members on each identified task/project and bring them into conversations as appropriate.

The following provides a brief snapshot of our approach for the services that may be included for this project.

#### **Levee Asset Repair Plans**

Our design team brings a wealth of experience in infrastructure projects across the area, having completed numerous design project plans and specifications for repairs or rehabilitation of levee related infrastructure. Our design team includes experts in all facets of the design process, including survey, hydrology and hydraulics, geotechnical, structural, mechanical and electrical, plan and specification preparation, utility coordination, and cost estimating. Of utmost importance to these projects is ongoing and frequent communication with the USACE and thorough understanding and knowledge of USACE PL 84-99 criteria and relevant Engineering Manuals (EMs) which govern design requirements. This team is highly qualified to deliver high-quality plans and specifications.

#### **Plan Submittal for Government Review**

Submittal of plans to the USACE and other governmental entities are typical for environmental permitting clearances and acceptability. These reviews typically relate to stream impacts, modifications, crossings, stabilizations, wetland impacts, wildlife habitat, and archaeological potential. Permits for these activities are typically submitted to the governmental agencies and in the case of the USACE, are sent to the "Regulatory" Branch for consideration. This process is VERY different from those projects proposed in the "Levee Critical Zone". These are required to be submitted to the USACE District from

the Levee Sponsor, which in this case is the City of Topeka. Therefore, plans meeting the published USACE EM guidance must be submitted to the City and the City then submits the plans to the USACE for review on behalf of the applicant.

#### **Inspection Report Review and Assistance**

The Benesch team has not only reviewed countless annual and periodic inspection reports to assist clients in understanding the activities needed to ensure compliance with levee certification 44 CFR 65.10 criteria, but key team members have also conducted several annual and periodic levee inspections. We have a thorough understanding of the contents and information presented in each report and are fully capable of communicating the key details to City staff, specifically what is needed to address any minimally acceptable or unacceptable items. We will coordinate with City staff to develop a plan to appropriately address any issues that require attention.

#### **RFP** Preparation for Levee Services

Benesch has assisted communities with requests for proposals in many instances, both as part of on-call consulting agreements as well as general assistance with both specialty and general consulting services. We will utilize our knowledge of the levee system and the repair/replacement/rehabilitation need to help ensure that the request for proposals includes all appropriate details and necessary scope of services.

#### **Topeka Levee Experience**

Maria Neeland, Brad Johnson, Joe File and Patrick Bussen have been involved in the following activities associated with the Topeka Levee System:

- Interactions with the North Topeka Drainage District, pertaining to the Soldier Creek Right Bank Levee's impact to the North Topeka Floodplains
- Management of levee ponding areas for proposed development through stormwater reviews.
- Review of top of levee survey and freeboard analysis
- Managed the geotechnical drilling activities as well as coordination for refilling the bore holes after settlement
- Reviewed plans for levee raise associated with 10th Street Bridge reconstruction
- Reviewed plans for USACE seepage berms at Oakland WWTP
- Reviewed plans for USACE Hills Floodwall Buttress design
- Review of UPRR Lift Bridge impacts on Kansas River
- Shunganunga Creek Right Bank Levee Feasibility Study

#### **Project Budgets and Specifications**

Bids, specifications and contract documents will be completed in accordance with City of Topeka requirements. Benesch has completed numerous projects for the City of Topeka using the standard bid documents. In the case of levee related projects, EM details and specifications would need to be incorporated into the bid documents to ensure USACE approval. Benesch's extensive levee experience, combined our expertise in Topeka bid document generation, will ensure that project budgets are set appropriately and suitable for USACE approval and that the information is presented in a way that allows the bid process to be as efficient as possible.

#### Levee Project Management

As with any construction project for a levee sponsor, review of submittals and inspections would be required to comply with the USACE EM's and the project bid documents. As-builts for any levee asset must be filed with the USACE and be included in the Levee 0&M Manual for inclusion in the next 0&M update in order to maintain an accurate accounting of the levee system. Construction management and processing of pay applications is routine work as Benesch assists many municipal and levee district clients with these endeavors.

#### **Technical Support for Levee Maintenance**

The Benesch team will review and assist with updates to the Operation and Maintenance Manual and Flood Response Plan, using the documents to further enhance our in-depth knowledge of the levee system. The information included in these documents, along with the USACE EM's and Levee Owner's Manual that outline the requirements for maintenance and repairs to maintain the Levee Sponsors status in the USACE PL 84-99 program, are great technical resources that contain a robust amount of information. We will provide guidance to City staff on the regular or routine levee maintenance and repair projects that they can, and should, perform.

#### **Annual Levee Training**

Benesch staff have been involved with many operation and maintenance staff training activities including interviewing maintenance staff for current maintenance activities and frequencies and recommending and suggesting more efficient means of meeting the objectives outlined in the Levee Owner's Manual. We recognize the importance of educating maintenance staff on how their work with 0&M activities impacts the overall condition and function of the levee and its status in the PL 84-99 program. Joe File, who has over 27 years of levee experience, will lead the annual training activities, with assistance from Maria Neeland Brad Johnson, who are also seasoned at performing similar training activities.

#### **Flood Fight Technical Support**

The Benesch team has completed numerous Flood Response Plans on many different levee systems as part of the FEMA Levee Certification process per 44 CFR 65.10. The

response plans identify, by position and name, the responsibilities during a flood fight. It is critically important that all staff know their roles and responsibilities to ensure full confidence across the team in execution of the Flood Response Plan, as written. The Benesch team will ensure that the plan is comprehensive, detailed, and easy to understand, while providing support in educating staff on details of the plan. The Benesch team also has resources available to assist city staff during a flood fight, as necessary.

#### Levee Capital Improvement Assistance

Benesch is a Leader in Asset Management implementation in the State of Kansas and throughout the Midwest for many different asset types. As a part of the Asset Management framework, levee system assets can and should be included in these plans and leveraged for data driven decisions when building an overall Capital Improvement Program. Similar to the City of Topeka Stormwater Management Plan developed by key members of this Project team, levee assets can be added to the likelihood and consequence of failure modes (Business Risk Exposure) and be used for development and prioritization within a Capital Improvement Program. In fact, this Asset Management framework has been used recently for the UG on their stormwater pump stations and levee

#### Shawnee County Flood Mapping

The Kansas Department of Agriculture-Division of Water Resources is updating flood hazard data for Shawnee County. Benesch is contracted for Independent Technical Review (ITR) of the modeling and mapping. We will ensure appropriate methodologies and identify concerns for the levee system, allowing early evaluation in the regulatory update process.

### Personnel Qualifications and Accessibility

Benesch's team, experienced in levee engineering across northeast Kansas, includes members with strong ties to Topeka, ensuring swift on-ground presence. Passionate about Topeka projects, they are committed to advancing levee improvements and program management. Each team member is available to ensure timely execution. We are prepared to begin work with the City of Topeka upon authorization and are eager to partner on this important project.

#### **Dedicated to Quality**

Quality does not happen by accident. Our leaders are committed to it and work hard at it. Benesch's reputation is based upon the delivery of high-quality products. Benesch's QA/QC program establishes, shapes and ensures quality control and quality assurance for every service we provide. systems. The Benesch team will utilize these asset management tools to provide recommendations for City staff to consider when developing the levee portion of the Capital Improvement Program.

#### **Risk-Based Levee Project Recommendations**

Benesch recently completed Business Risk Exposure (BRE) analysis for the storm sewer system as part of the City of Topeka Stormwater Master Plan, which can certainly be expanded to include the levee assets as well. A BRE analysis drives data-driven decision-making when prioritizing asset repairs, replacement and rehabilitation projects, thus resulting in a defensible Capital Improvement Program. The Benesch team can easily adapt the scoring criteria used in the Stormwater BRE Analysis to fit the levee asset as well, prioritizing projects and creating a cohesive implementation program for levee repair and improvement projects.

#### **Compliance Review and Plan Preparation**

Through a variety of experiences, our Benesch team has had extensive involvement with both the review and preparation of plans that impact or otherwise enhance Levee System level of protection. The Benesch team has a thorough understanding of the City's technical specifications, pertinent engineering principles, and USACE and other governmental agency requirements, and will be diligent in ensuring all projects meet these requirements. Additionally, levee projects require extensive coordination and approvals with several entities and agencies to ensure full compliance with PL 84-99, other USACE criteria and other state permitting agencies. The project team, specifically Maria Neeland as the Project Manager, will be diligent in communicating with these various entities and agencies to gain their acceptance, while representing the City's interests at the highest level.

#### **USACE Inspection Participation**

Members of the Benesch team have participated in numerous annual and periodic inspections along-side our clients and in previous roles. We are well-versed in what to expect from these USACE inspections and will provide recommendations for City staff participation. These inspections occur at regular intervals to meet USACE requirements. These are good opportunities for in-person interactions with USACE staff and informative discussions about the levee system.

## Ø

#### **Successful Program Implementation & Execution**

To effectively implement the Levee Engineering and Levee Asset Repair & Rehabilitation Program, our strategy will focus on a structured schedule aligned with the City of Topeka's goals and standards. Key elements include:

- **Detailed Planning and Timeline:** Create a timeline with clear milestones for all program phases to ensure timely completion.
- Efficient Resource Management: Allocate resources effectively and adjust as needed to maintain momentum.
- **Progress Monitoring:** Track progress and provide regular updates to the City, addressing issues promptly.
- Stakeholder Communication: Communicate effectively with all stakeholders, including USACE and City staff, for goal alignment.
- **Risk Management:** Identify risks early and develop plans to minimize disruptions.
- **Continuous Improvement:** Use feedback to enhance processes and strategies.

Maria Neeland will coordinate with City staff to develop schedules and coordinate with the project team to allocate necessary resources for successful project execution. Our flexible team will adjust internal timelines and resources as needed based on City priorities, ensuring timely project completion. We are committed to delivering a successful program that meets the City of Topeka's expectations and supports the long-term sustainability of its levee systems.

# SIMILAR EXPERIENCE

CITY OF TOPEKA // LEVEE PROGRAM MANAGEMENT

#### **EXPERIENCE ON SIMILAR PROJECTS**

Our extensive experience in levee engineering and asset management, combined with our working knowledge of Topeka's programs and levee systems, makes us an ideal partner for the City of Topeka's Levee Engineering and Asset Repair Program. With a proven track record and deep understanding of USACE regulations, we consistently exceed the expectations of our on-call levee clients. Our in-depth familiarity with Topeka's levee units, along with our commitment to enhancing infrastructure in our local community, creates a unique blend of expertise and dedication that guarantees top-tier service from our team. We are focused on maintaining consistent communication with the City of Topeka, ensuring an efficient and proactive approach to every project and delivering meaningful and tailored solutions to meet the City's needs.

#### ENGINEERING ON-CALL (1983-PRESENT) | KAW VALLEY DRAINAGE DISTRICT

Benesch has assisted the Kaw Valley Drainage District (KVDD) with engineering design support for over 39 years. The KVDD is comprised of three levee units that are 15.5 miles in length and include 14 miles of levee and 1.5 miles of flood wall, protecting an area of 5,100 acres in size. We have served the KVDD through inspections of the levee and floodwalls, rehabilitation of stormwater pump stations and the review of, and alternatives analysis on, the USACE Hydrologic Engineering Center River Analysis System (HEC-RAS) model for the Kansas and Missouri Rivers, among many

other projects. In the past ten years Benesch has completed large-scale projects such as the review of the USACE design plans and specifications for a \$600 million improvement project within the district, as well as completing the district's FEMA Levee Certification process.

#### ENGINEERING ON-CALL (1988-PRESENT) | FAIRFAX DRAINAGE DISTRICT

Benesch has had a continuous on-call relationship with the Fairfax Drainage District (FDD) that extends back over more than 34 years. The FDD is comprised of one levee unit that is 6.4 miles in length including a 1,400-ft floodwall and 6.1 miles of levee. Benesch has been involved in levee inspections, design projects such as flood pump station improvements, design of levee seepage wells, various emergency repairs, hydraulic modeling of the interior drainage system with Innovyze's InfoWorks ICM software, completing the district's FEMA Levee Certification process, and many other related flood protection projects. With the results of the interior drainage model, Benesch has also prepared a risk-based method to prioritize improvements to the district's interior drainage pipe network.

#### **ENGINEERING ON-CALL (1963-PRESENT) | MERRIAM DRAINAGE DISTRICT**

Benesch has served as on-call engineer for nearly 80 years since the district was established in 1946. The drainage district includes 2.25 miles of the Upper Turkey Creek watershed in Merriam, Kansas. This portion of Turkey Creek meanders through, city parks, residential areas and the City's downtown area. As engineer for the district, Benesch is responsible for developing an annual Capital Improvements Plan, overseeing construction projects, etc. To protect several sewer manholes and utility crossings, we are currently coordinating with the USACE to design and construct several grade control structures to stabilize Turkey Creek and prevent further undercutting of the channel.

#### FLOOD RESPONSE PLAN | UNIFIED GOVERNMENT, KS

Benesch was engaged to prepare a Flood Response Plan to allow the city to better plan, mitigate and manage the risks of flooding within the city due to flooding. Flood protection for the City is provided by an ever increasingly complex system of levees, seepage wells, pump stations, flood gates, and interior drainage structures. Since this infrastructure is owned and maintained by three public agencies, as well as nearly half a dozen private owners, a comprehensive manual for the

operation of this system did not exist. The purpose of this document is to serve as a guide to allow city staff to have easy access to the information necessary to manage the increasingly frequent challenges of flood events.

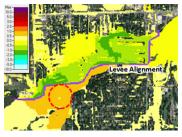

#### STORMWATER MASTER PLAN | CITY OF TOPEKA, KS

Because of Benesch team member expertise in stormwater master planning, the responsibility to develop, finalize and implement the stormwater master plan was subcontracted to Benesch exclusively. In 2020, the City initiated a master planning project to prioritize future projects based on system risk, using Business Risk Exposure (BRE) Scoring developed by Benesch to rank sub-basins for inclusion in the second phase, which involved mitigation analysis and Capital Improvement Plan (CIP) development. Benesch developed deterioration rating curves and likelihood and consequence of failure scoring criteria for the BRE analysis. A unique mitigation

approach using 2D HECRAS modeling and GIS data allowed for a broader analysis scope within budget constraints, though PC-SWMM models were needed for challenging areas. The Master Plan report outlines numerous CIP projects, providing budget estimates, project considerations, and recommendations for a comprehensive storm water program.

#### SHUNGANUNGA CREEK MASTER PLAN | CITY OF TOPEKA, KS

Benesch was subcontracted exclusively for the Shunganunga Creek Master Plan project, focusing specifically on flood reduction along Shunganunga Creek. This project leveraged information from a previous USACE Feasibility Study and updated modeling efforts funded by KDA, and then explored additional mitigation options. Analysis of potential alternatives was done using terrain modifications and geometry adjustments within the enhanced 2D HEC-RAS model. This project evaluated impacts to existing flood risk, mitigation needs for increased flows associated with potential upstream conveyance improvements and evaluated benefits against induced damages.

The project resulted in a handful of identified CIP projects, in which budget-level cost estimates and specific project and construction considerations were described. The recommendations were ultimately integrating with the City's Overall Stormwater Master Plan and Strategic Mitigation Plan.

#### STREAMBANK & CHANNEL RESTORATION & REHAB PROJECT | CITY OF TOPEKA, KS

The City of Topeka retained Benesch to perform engineering services to evaluate WardMartin Creek for streambank erosion and provide potential solutions. Eight locations along the Creek were identified as part of the assessment as being degraded. Using a two-dimensional HEC-RAS model previously developed for the KDA Technical Assistance project, Benesch was able to evaluate the hydraulic characteristics of the site and determine appropriate mitigation solutions. The eight locations were summarized and prioritized based on the level of deterioration, extent of deterioration, the likelihood of failure, and the consequence of failure to the channel and surrounding

infrastructure. A comprehensive report detailing our findings, accompanied by conceptual-level design drawings and cost estimates, were provided as part of the project deliverables. Additional work included the investigation and design of stabilization improvements.

#### ENVIRONMENTAL SERVICE ASSET MANAGEMENT PLAN | UNIFIED GOVERNMENT, KS

Benesch is currently engaged by the city to implement an asset management program for the city's flood pump stations, sanitary sewer lift stations and treatment plants. In each of these three facility types, Benesch has been responsible for collecting and digitizing record drawings, maintenance records, operations and maintenance documents, developing and utilizing asset condition ratings, developing asset depreciation curves, life-cycle analysis, replacement costs, developing risk ratings based on likelihood of failure, and consequences of failures as well as long-term financial planning. After developing these risk ratings, the city has a data-driven risk-

based methodology to rate not only their facilities, but all the equipment within those facilities.

#### **Capital Improvement Project Summary**

| Project Name:                  | Levee Asset Repair/Rehab Program 2026 | Department:   | Utilities      |
|--------------------------------|---------------------------------------|---------------|----------------|
| Project Number:                | 161021                                | Division:     | Stormwater     |
| <b>Primary Funding Source:</b> | Operating Fund Stormwater             | Contact:      | Zachary Stueve |
| Multiple Funds:                | No                                    | New Project?  | No             |
| Council District(s):           | Multiple                              | 1st CIP Year: | Prior to 2017  |
| Total Budget                   | \$ 337,500                            | Туре:         | Program        |

#### **Project Description & Justification:**

This is an annual program for the non-routine replacement or major rehabilitation of levee assets including 22 miles of earthen levee, 4,122 linear feet of concrete floodwall, 8 stormwater pump stations, 14 pumped relief wells, 70 gravity relief wells, 58 interior drainage structures, 6 closure structures, and 3 ponding areas. The assets are regularly maintained but since their average age is over 50 years old, replacement or rehabilitation is expected. This program allows staff to proactively replace or rehabilitate these assets. Funds may be reserved for several years before undertaking a major project and be used to perform plans, assessments, studies, designs, or construction. This annual program addresses the potential for the catastrophic failure of critical infrastructure. Proactive maintenance is demanded by the advanced age of the existing assets. Failing to complete these projects will create conditions which could potentially endanger private property or life.

#### **DOCUMENT DESCRIPTION:**

APPROVAL of a professional engineering contract between the City of Topeka and Alfred Benesch and Company, for providing professional streambank rehabilitation, stabilization and restoration design, inspection and construction engineering services on an On-Call basis for the City of Topeka, KS under 2023 Capital Improvement Project No. 501097.00

(Approval will authorize the City Manager to sign and execute the contract for a total not-to-exceed amount of \$300,000.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Whether to approve the contract that will exceed \$50,000.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body approve the contract as part of the consent agenda.

#### BACKGROUND:

Whereas, on January 27, 2025, the Utilities Department issued Event 3143, a Request for Proposals (RFP) seeking professional engineering firms provide services related to bank rehabilitation, stabilization, and restoration of streams and channels throughout the City of Topeka; and

Whereas, the City Evaluation Committee reviewed and scored the submitted proposals and recommends awarding the contract to the most qualified firm for this project, Alfred Benesch and Company.

#### BUDGETARY IMPACT:

\$300,000

#### **SOURCE OF FUNDING:**

Stormwater Fund Resolution No.9318

#### ATTACHMENTS:

Description Alfred Benesch & Company Contract Event 3143 Preview Event 3143 Professional Engineering Services Streambank and Channel Restoration Rehabilitation Alfred Benesch & Company Proposal 2023 CIP Page 31

#### CITY OF TOPEKA UTILITIES DEPARTMENT ENGINEERING DIVISION

#### STANDARD AGREEMENT FOR ENGINEERING SERVICES

THIS AGREEMENT, is between the City of Topeka, Kansas (Owner) and Alfred Benesch & Company (Engineer);

#### WITNESSETH:

WHEREAS, the Owner wishes to employ the Engineer to perform professional streambank rehabilitation, stabilization and restoration design, inspection and construction engineering services on an On-Call basis for the City of Topeka, KS Project No. 501097.01 (the Project); and,

WHEREAS, the Owner requires certain engineering services in connection with the Project (the Services); and,

WHEREAS, the Engineer is prepared to provide the Services;

NOW THEREFORE, in consideration of the promises contained in this Agreement, the Owner and Engineer.

agree to the following:

#### **ARTICLE 1 - EFFECTIVE DATE**

The effective date of this Agreement shall be \_\_\_\_\_

#### **ARTICLE 2 - GOVERNING LAW**

This Agreement shall be governed by the laws of the State of Kansas and the codes of the City of Topeka

Contract No. \_\_\_\_\_ Project No. \_\_\_\_\_\_501097.01

#### **ARTICLE 3 - SERVICES TO BE PERFORMED BY ENGINEER**

Engineer shall perform the Services described in Attachment A, Scope of Services, in accordance with applicable sections of the City of Topeka Design Criteria and Drafting Standards of latest revision.

#### **ARTICLE 4 - COMPENSATION**

Owner shall pay Engineer in accordance with the Attachment B, Compensation.

#### **ARTICLE 5 – OWNER'S RESPONSIBILITIES**

Owner shall be responsible for all matters described in Attachment C, Owner's Responsibilities.

#### **ARTICLE 6 - SUPPLEMENTAL AGREEMENTS**

The provisions set forth in Attachment D, Supplemental Agreements shall be incorporated into this Agreement.

#### **ARTICLE 7 - PROJECT SCHEDULE**

The provisions set forth in the Attachment E, Project Schedule shall be incorporated into this Agreement.

#### **ARTICLE 8 - STANDARD OF CARE**

Engineer shall exercise the same degree of care, skill, and diligence in the performance of Services as is ordinarily possessed and exercised by a professional engineer under similar circumstances.

#### **ARTICLE 9 - INDEMNIFICATION AND INSURANCE**

Engineer hereby agrees to fully indemnify and hold harmless Owner and any of its departments, divisions, agencies, officers, employees and elected officials from all loss, damage, cost, or expenses specifically including reasonable attorneys' fees and other expenses of litigation incurred by or on behalf of the Owner and any of its officers, employees or elected officials to the extent caused by Engineer's negligent performance of Services under this Agreement. Engineer specifically agrees that this duty to indemnify and hold harmless will apply to the following:

a. Claims, suits, or action of every kind and description to the extent such suits or actions are caused by the negligent acts, errors, or omissions of the Engineer, its employees, agents, or subcontractors.

Contract No. \_\_\_\_\_ Project No. \_\_\_\_\_501097.01

Injury or damages received or sustained by any party to the extent caused by the negligent acts,
 errors, or omissions of the Engineer, its employees, agents, or subcontractors.

Engineer shall purchase and maintain during the life of this Agreement, insurance coverage which will satisfactorily insure him against claims and liabilities which arise because of the execution of this Agreement. Owner shall be included as an additional insured on the Engineer's general liability policy.

The insurance coverages are as follows:

- (1) Commercial General Liability Insurance, with a limit of \$1,000,000 for each occurrence and \$2,000,000 in the general aggregate.
- (2) Automobile Liability Insurance, with a limit of \$1,000,000 for each accident, combined single limit for bodily injury and property damage.
- (3) Worker's Compensation Insurance and Employer's Liability Insurance, in accordance with statutory requirements, with a limit of \$500,000 for each accident.
- (4) Professional Liability Insurance, with a limit of \$1,000,000 for each claim and aggregate.

Prior to issuance of the Notice to Proceed by Owner, Engineer shall have on file with Owner certificates of insurance acceptable to Owner. Said certificates of insurance shall be filed with Owner within ten (10) days of renewal or may be submitted with each agreement.

Engineer shall also maintain valuable papers insurance to assure the restoration of any plans, drawings, field notes or other similar data relating to the work covered by this agreement, in the event of their loss or destruction, until such time as the work has been delivered to the Owner.

Upon completion of all Services, obligations, and duties provided for in this Agreement, or if this Agreement is terminated for any reason, the terms and conditions of this Article shall survive.

#### **ARTICLE 10 - LIMITATIONS OF RESPONSIBILITY**

Engineer shall not be responsible for: (1) construction means, methods, techniques, sequences, procedures, or safety precautions and programs in connection with the Project, (2) the failure of any contractor, subcontractor, vendor, or other Project participant, not under contract to Engineer, to fulfill contractual responsibilities to the Owner or to comply with federal, state or local laws, regulations, and codes; or (3) procuring permits, certificates, and licenses required for any construction unless such responsibilities are specifically assigned to Engineer in Attachment A, Scope of Services. Notwithstanding anything contained herein to the contrary, in recognition of the relative risks and benefits of the Project to both Owner and Engineer, the risks have been allocated such that the Owner agrees, to the fullest extent permitted by law, to limit the liability of Engineer to the Owner (and anyone that claims through it) for any and all claims, losses, costs, damages of any nature whatsoever (whether arising in negligence, professional errors or omissions, strict liability, breach of contract or otherwise) and claim expenses from any cause or causes, so that the total aggregate liability of Engineer shall not exceed the limits of insurance and the Engineer agrees to submit any such claims, in full, to its insurance carrier. Owner and Engineer agree that to the fullest extent permitted by law neither party's negligence, errors, omissions, strict liability, breach of contract, or consequential damages whatsoever, whether caused by either party's negligence, errors, omissions, strict liability, breach of contract, or consequential damages of warranty, or other cause or causes.

#### **ARTICLE 11 - OPINIONS OF COST AND SCHEDULE**

Since Engineer has no control over the cost of labor, materials, or equipment furnished by others, or over the resources provided by others to meet Project construction schedules, Engineer's opinion of probable construction costs and of construction schedules shall be made on the basis of experience and qualifications as a professional engineer. Engineer does not guarantee that proposals, bids, or actual Project construction costs will not vary from Engineer's projected schedules.

#### **ARTICLE 12 - REUSE OF DOCUMENTS**

All documents, including, but not limited to, drawings, specifications, and computer software prepared by Engineer pursuant to the Agreement are instruments of service in respect to the Project. They are not intended or represented to be suitable for reuse by Owner or others on extensions of the Project or on any other project. Any reuse without

prior written verification or adaptation by Engineer for the specific purpose intended will be at Owner's sole risk and without liability or legal exposure to Engineer. Any verification or adaptation requested by Owner shall entitle Engineer to compensation at rates to be agreed upon by Owner and Engineer.

#### **ARTICLE 13 - OWNERSHIP OF DOCUMENTS AND INTELLECTUAL PROPERTY**

Except as otherwise provided herein, engineering documents, drawings, and specifications prepared by Engineer as part of the Services shall become the sole property of Owner upon receipt of payment by Engineer of amounts due and owing under this Agreement, however, that both Owner and Engineer shall have the unrestricted right to their use. Engineer shall retain its rights in its standard drawing details, specifications, data bases, computer software, and other proprietary property protected under the copyright laws of the United States. Rights to intellectual property developed, utilized, or modified in the performance of services shall remain the property of Engineer. Owner shall have the unlimited right to the use of intellectual property developed, utilized, or modified in the performance of the Services at no additional cost to the Owner.

#### **ARTICLE 14 - TERMINATION**

This Agreement may be terminated by either party upon written notice in the event of substantial failure by the other party to perform in accordance with the terms of this Agreement. The nonperforming party shall have fifteen calendar days from the date of the termination notice to cure or to submit a plan for cure reasonably acceptable to the other party. Owner may terminate or suspend performance of this Agreement for Owner's convenience upon written notice to Engineer. Engineer shall terminate or suspend performance of the Services on a schedule acceptable to Owner. If termination or suspension is for Owner's convenience, Owner shall pay Engineer for all Services performed prior to the date of the termination notice. Upon restart, an adjustment acceptable to Owner and Engineer shall be made to Engineer's compensation. Neither Engineer, nor its subconsultants shall be responsible for errors or omissions in documents which are incomplete as a result of an early termination under this Agreement.

#### **ARTICLE 15 - DELAY IN PERFORMANCE**

Neither Owner nor Engineer shall be considered in default of the Agreement for delays in performance caused by circumstances beyond the reasonable control of the nonconforming party. For purposes of this Agreement, such circumstances include abnormal weather conditions; floods; earthquakes; fire; epidemics; war, riots, or other civil

disturbances; sabotage, judicial restraint, and inability to procure permits, licenses, or authorizations from any local, state, or federal agency for any of the supplies, materials, accesses, or services required to be provided by either Owner or Engineer under this Agreement.

Should such circumstances occur, the nonconforming party shall, within a reasonable time of being prevented from performing, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of the Agreement.

For delays in performance by Engineer, as set forth in Attachment E, Project Schedule, which are caused by circumstances which are within its control, such delays shall be documented on the Engineer's Project Performance Evaluation form. Said form shall be completed at the conclusion of Project and acknowledged by both Owner and Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects.

In the event Engineer is delayed in the performance of Services because of delays caused by Owner, Engineer shall have no claim against Owner for damages or contract adjustment other than an extension of time.

#### **ARTICLE 16 - COMMUNICATIONS**

Any communication required by this Agreement shall be made in writing to the address specified below:

Engineer: Bradley D. Johnson, PE Alfred Benesch & Company 123 SE 6<sup>th</sup> Avenue, Suite 200 Topeka, KS 66603 (785) 408-9413

Owner: City of Topeka City Clerk 215 SE 7th Street, Room 166 Topeka, KS 66603 (785) 368-3940

With a Copy to: Zachary Stueve, PE Stormwater Engineer City of Topeka Utilities Department 1115 NE Poplar Street Topeka, KS 66607

Nothing contained in the Article shall be construed to restrict the transmission of routine communications

between representatives of Engineer and Owner.

#### **ARTICLE 17 - WAIVER**

A waiver by either Owner or Engineer of any breach of this Agreement shall be in writing. Such a waiver shall not affect the waiving party's rights with respect to any other or further breach.

#### **ARTICLE 18 - SEVERABILITY**

The invalidity, illegality, or unenforceability of any provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void provision shall be deemed severed from this Agreement, and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this Agreement this entire Agreement from being void should a provision which is of the essence of this Agreement be determined void.

#### **ARTICLE 19 - INTEGRATION**

This Agreement represents the entire and integrated agreement between Owner and Engineer. All prior and contemporaneous communications, representations, and agreements by Engineer, whether oral or written, relating to the subject matter of this Agreement, as set forth in Attachment D, Supplemental Agreements are hereby incorporated into and shall become a part of this Agreement

#### **ARTICLE 20 - SUCCESSORS AND ASSIGNS**

Owner and Engineer each binds itself and its directors, officers, partners, successors, executors, administrators, assigns, and legal representatives to the other party of this Agreement and to the directors, officers, partners, successors, executors, administrators, assigns, and legal representatives of such other party in respect to all provisions of this Agreement.

#### **ARTICLE 21 - ASSIGNMENT**

Neither Owner nor Engineer shall assign any rights or duties under this Agreement without the prior written consent of the other party. Unless otherwise stated in the written consent to an assignment, no assignment will release or discharge the assignor from any obligation under this Agreement. Nothing contained in this Article shall prevent Engineer from employing independent consultants, associates, and subcontractors to assist in the performance of the Services; however, other agreements to the contrary notwithstanding, in the event Engineer employs independent consultants, associates, and subcontractors to assist in performance of the Services, Engineer shall be solely responsible for the negligent performance of the independent consultants, associates, and subcontractors so employed.

#### **ARTICLE 22 - THIRD PARTY RIGHTS**

Nothing in this Agreement shall be construed to give any rights or benefits to anyone other than Owner and Engineer.

#### **ARTICLE 23 – RELATIONSHIP OF PARTIES**

Nothing contained herein shall be construed to hold or to make the Owner a partner, joint venturer, or associate of Engineer, nor shall either party be deemed the agent of the other, it being expressly understood and agreed that the relationship between the parties hereto is and shall at all times remain contractual as provided by the terms and conditions of this Agreement.

IN WITNESS WHEREOF, Owner and Engineer have executed this Agreement.

CITY OF TOPEKA

#### ATTACHMENT A TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company 501097.01 – On-Call Streambank and Channel Restoration & Rehabilitation

#### **SCOPE OF SERVICES**

#### BASIC SERVICES

The project is specifically defined below:

This project will provide Design, Survey, Inspection and Construction Administration services related to bank rehabilitation, stabilization, and restoration of streams and channels throughout the City of Topeka. Upon request of the City, Consultant will develop scope/fee for each task requested. Upon approval of the City, a PO for each individual project will be processed and issued to the Consultant for execution of the scope.

#### SUPPLEMENTAL SERVICES

Any work requested by the Owner that is not included in the Basic Services of the scope for each purchase order will be classified as Supplemental Services. Supplemental Services shall include, but are not limited to the following:

Any changes in general scope, extent or character of the project, including but not limited to change in size, complexity, Owner's Schedule, or method of financing.

Payments will be in accordance with the provisions of Attachment B of the Agreement.

#### ATTACHMENT B TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company 501097.01 – On-Call Streambank and Channel Restoration & Rehabilitation

#### COMPENSATION

For the services covered by this Agreement, the Owner agrees to pay the Engineer as follows:

- A. For the Basic Services described in Attachment A, Payments shall be made in accordance with the invoice procedures of the Department of Financial Services. Fees under this On-call contract shall not exceed \$300,000 without a formal contract amendment or change order.
  - 1. Upon execution of the contract, the Firm will be issued purchase orders for the tasks/services to be rendered during the term of this agreement. Purchase orders will define individual project/task thresholds and establish the not-to-exceed fees for each task.
  - 2. Payments shall be made monthly in amounts which are consistent with the amount of engineering services provided, as determined by the Engineer.
- B. Compensation for Supplemental Services shall be made as defined below, when authorized in writing by the Owner. The maximum limit for each item of additional service shall be established individually and specifically agreed to by the Owner as stated below, unless the service is included in a subsequent agreement.

Hourly rates for each classification as defined by the Engineer's rate schedule, see Attachment F. Hourly charge rates are subject to adjustment annually on January 1. Overtime, when authorized by the Owner, will be billed at 1.5 times the rates listed (non-engineer time only).

Reimbursable charges will be considered the amount of actual costs of expenses or charges, including such items as staking materials, equipment rental, equipment hourly charges, mileage, toll telephone calls, reproduction and similar project related expenses.

- D. The entire amount of each statement shall be due and payable upon receipt by the Owner.
- E. It is understood and agreed:
  - 1. That the Engineer shall start the performance of Services within 10 days of receipt of a notice to proceed and shall complete the work in accordance with the contract times set forth in Attachment E, Project Schedule.
  - 2. That the Engineer shall keep records on the basis of generally accepted accounting practice of costs and expenses which records shall be available for inspection at all reasonable times.

#### ATTACHMENT C TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company 501097.01 – On-Call Streambank and Channel Restoration & Rehabilitation

#### **OWNER'S RESPONSIBILITIES**

The Owner will furnish, as required by the work and not at the expense of the Engineer, the following items:

- 1. Make available to the Engineer all records, reports, maps, and other data pertinent to provision of the services required under this contract, upon which Engineer may reasonably rely.
- 2. Examine all plans, specifications and other documents submitted by the Engineer and render decisions promptly to prevent delay to the Engineer.
- 3. Designate one City of Topeka employee as the Owner representative with respect to all services to be rendered under this agreement. This individual shall have the authority to transmit instructions, receive information and to interpret and define the Owner's policies and decisions pertinent to the Engineer's services.
- 4. Issue notices to proceed to the Engineer for each phase of the design services.

#### ATTACHMENT D TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company 501097.01 – On-Call Streambank and Channel Restoration & Rehabilitation

#### SUPPLEMENTAL AGREEMENTS

Owner and Engineer agree that the following communications, representations, and agreements by Engineer, whether oral or written, relating to the subject matter of the Agreement are hereby incorporated into and shall become a part of the Agreement as set forth in ARTICLE 19 - INTEGRATION.

#### ATTACHMENT E TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name: City of Topeka, Kansas Alfred Benesch & Company 501097.01 – On-Call Streambank and Channel Restoration & Rehabilitation

#### **PROJECT SCHEDULE**

Owner and Engineer recognize that time is of the essence of the Agreement and that Owner will suffer financial loss if the work is not completed within the times stipulated herein, plus any extensions thereof. Accordingly, Engineer shall perform its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the Project, and has established time intervals, in calendar days, for submittals at various stages of the project as detailed below. As each actual submittal date occurs, Engineer shall meet with Owner to discuss the progress of the work and the actual submittal date shall be documented. If project is behind schedule, the reason shall be recorded. Engineer shall not be responsible for the time required by Owner's representative to review Engineer's submittal. When review is complete, Owner shall, in writing, authorize Engineer to proceed to the next submittal date. After final submittal date, Engineer and Owner shall meet to evaluate Engineer's performance with regard to design schedule. An Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects. Past performance shall be accounted for on the evaluation sheet used to rank consultants during the interview process.

1. Schedule: Schedule for tasks/assignments will be established as part of the individual Purchase Orders. Contract time frame for this agreement shall be for one year from date of contract execution. Contract may be extended for up to two (2) additional years if deemed mutually beneficial to both the City and Consultant.

## EMPLOYMENT CLASSIFICATION AND RATE SCHEDULE

| <u>CLASSIFICATION</u>   | BILLABLE RATE      |
|---|--------------------|
| Project Manager I   | \$185.00           |

#### Disclaimer

The City of Topeka attempts to maintain continuous access to the supplier portal. However, from time to time, access may be interrupted or prevented due to maintenance, site problems, Internet problems, or problems experienced by the user due to the user's computer system. The city makes no warranty that the supplier portal will be uninterrupted or error-free. Regardless of the source of any problem, it is the user's responsibility to ensure that its bid is timely received. Because of the discrepancies inherent in timing mechanisms (e.g. cell phones, computers, mobile devices), the bid time will be determined based upon the time indicated on the city server for the Strategic Sourcing application. If the user does not submit its bid at or before the time indicated on the City server for the Strategic Sourcing application, the bid will be electronically rejected by the Strategic Sourcing application as untimely.

The City shall not be liable for any direct, indirect, incidental, special, consequential, or exemplary damages, including but not limited to damages for loss of profits, goodwill, use, data, or other intangible losses resulting from: (i) the use or the inability to use the supplier portal; (ii) unauthorized access to or alteration of the user's transmissions or data; or (iii) any other matter relating to the supplier portal.

It shall be the bidder's responsibility to advise the City of Topeka of any specifications, language, other requirements, or combinations thereof that restrict or limit bidding. Such notification must be submitted in writing and must be received by the Contracts and Procurement Division no later than five (5) days prior to the bid closing. The specifications were written with the intent of permitting competitive bidding. The City of Topeka reserves the right to waive minor deviations in the specifications that inadvertently restrict bidding to a single manufacturer (or vendor) or when such deviations do not alter or deter the City from accomplishing the intended use or function. Each bid shall include descriptive literature and specifications for the product. However, the provision of this material shall not be considered a substitute for listing deviations.

Amendments to Bids: To ensure maximum access opportunities for users, events and solicitations shall typically be posted for a minimum of ten (10) days, and no amendments shall typically be made within the last three days before the event or solicitation is due. Bidders and vendors are cautioned that the competitive nature of their offers could be affected if their submission does not include all amendments. For this reason, bidders and vendors are advised to revisit all solicitations to which they intend to respond three (3) days prior to the due date. It is the bidder's or vendor's responsibility to check the website from time to time for updates to events and solicitations and to pick up additional addenda and information.

All bids shall be considered firm for a period of forty-five (45) calendar days from the bid opening date, unless otherwise stated in the bid specification document(s).

If bidders have a concern about bid specifications or any term or condition that they believe restricts competition, bidders must contact, in writing, the procurement buyer assigned no later than five (5) days prior to bid closing. Upon receipt, the procurement buyer will research the issue and provide a response within five (5) days. Failure to submit a question or concern within the five (5) day period will waive any right the bidder may have to challenge the bid or a bid award.

#### Standard Terms and Conditions

#### **Contractor's Statement of Agreement**

City of Topeka Department of Administrative and Financial Services Contracts and Procurement Division (Rev 01.2001)

#### CONTRACTOR'S STATEMENT OF AGREEMENT

The City of Topeka, Kansas requires that all contracts of the City and its agencies include specific provisions to ensure equal employment opportunity and that all contractors provide evidence of the adoption of an affirmative action program. To comply with these requirements, all persons wishing to enter into a contract with the City shall complete and sign this agreement.

The contractor agrees to: 1.COMPLY WITH K.S.A. 44-1030 REQUIRING THAT

A.The contractor shall observe the provisions of the Kansas act against discrimination and shall not discriminate against any person in the performance of work under the present contract because of race, religion, color, sex, disability unrelated to such person's ability to engage in the particular work, national origin or ancestry;

January 27, 2025

B.In all solicitations or advertisements for employees, the contractor shall include the phrase, "equal opportunity employer," or a similar phrase to be approved by the Contracts and Procurement Division;

C.If the contractor fails to comply with the manner in which the contractor reports to the Contracts and Procurement Division in accordance with the provisions of K.S.A. 44-1031, the contractor shall be deemed to have breached the present contract and it may be cancelled, terminated or suspended, in whole or in part, by the contracting agency;

D.If the contractor is found guilty of a violation of the Kansas act against discrimination under a decision or order of the Contracts and Procurement Division which has become final, the contractor shall be deemed to have breached the present contract and it may be cancelled, terminated or suspended, in whole or in part, by the contracting agency; and

E.The contractor shall include the provisions of paragraphs (A) through (D) in every sub-contract or purchase order so that such provisions will be binding upon such sub-contractor or vendor.

2.Guarantee that during the performance of any City contractor agreement the contractor, sub- contractor, vendor, or supplier of the City shall comply with all provisions of the Civil Rights Act of 1866 as amended, Civil Rights Act of 1964 as amended, Equal Employment Opportunity Act of 1972 as amended, Executive Order 11246, Age Discrimination in Employment Act of 1967 as amended, Americans with Disabilities Act of 1990 and Rehabilitation Act of 1973 as amended, Equal Pay Act of 1963 and City of Topeka Ordinance No. 16889 and any regulations or amendments thereto.

3.Submit to the Contracts and Procurement Division a written affirmative action program, a certificate of compliance or such other certificate as is acceptable to the Contracts and Procurement Division which is evidence of the adoption of an affirmative action program

4. The contractor agrees to maintain a current and accurate plan on file with the Contracts and Procurement Division and shall update the plan as needed.

#### **Contractural Provision**

City of Topeka Department of Administrative and Financial Services Contracts and Procurement Division (Rev 06.2021)

#### CONTRACTUAL PROVISIONS

#### **1.TERMS HEREIN CONTROLLING PROVISIONS**

It is expressly agreed that the terms of each and every provision in this Attachment shall prevail and control over the terms of any other conflicting provision in any other document relating to and a part of the contract in which this attachment is incorporated.

#### 2.AGREEMENT WITH KANSAS LAW

January 27, 2025

Page 3

All contractual agreements shall be subject to, governed by, and construed according to the laws of the State of Kansas.

#### 3. TERMINATION DUE TO LACK OF FUNDING

If, in the judgment of the City Manager, sufficient funds will not be available to continue the functions performed in this agreement and for the payment of the charges hereunder, City may terminate this agreement at the end of its current and any succeeding fiscal year. City agrees to give written notice of termination to contractor at least 30 days prior to the end of its current fiscal year. Contractor shall have the right, at the end of such fiscal year, to take possession of any equipment provided City under the contract. City will pay to the contractor all regular contractual payments incurred through the end of such fiscal year, plus contractual charges incidental to the return of any such equipment. Upon termination of the agreement by City, title to any such equipment shall revert to contractor at the end of City's current fiscal year. The termination of the contract pursuant to this paragraph shall not cause any penalty to be charged to the City or the contractor.

#### 4. TERMINATION FOR CONVENIENCE

The Director of Contracts & Procurement or designee may terminate performance of work under this contract in whole or in part whenever the Director determines that the termination is in the best interest of the City. In the event of termination, the Director or designee shall provide the Contractor written notice at least thirty (30) days prior to the termination date. The termination shall be effective as of the date specified in the notice. The Contractor shall continue to perform any part of the work that may not have been terminated by the notice.

#### 5.DISCLAIMER OF LIABILITY

No provision of this contract will be given effect that attempts to require the City to defend, hold harmless, or indemnify any contractor or third party for the City's acts or omissions. The City's liability is limited to the liability established in the Kansas Tort Claims Act, K.S.A. 75-6101 et seq.

#### 6.ANTI-DISCRIMINATION CLAUSE

The contractor agrees: (a) to comply with all federal, state, and local laws and ordinances prohibiting unlawful discrimination and to not unlawfully discriminate against any person because of age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation, veteran status or any other factor protected by law in the admission or access to, or treatment or employment in, its programs or activities; (b) to include in all solicitations or advertisements for employees, the phrase "equal opportunity employer;" and (c) to include those provisions in every subcontract or purchase order so that they are binding upon such subcontractor or vendor. The contractor understands and agrees that the failure to comply with the requirements of this paragraph may constitute a breach of contract, and the contract may be cancelled, terminated or suspended, in whole or in part by the City of Topeka.

#### 7.ACCEPTANCE OF CONTRACT

This contract shall not become effective until the legally required approvals have been given.

#### 8.ARBITRATION, DAMAGES, WARRANTIES

Notwithstanding any language to the contrary, no interpretation shall be allowed to find the City or any department or division thereof subject to binding arbitration. Further, the City of Topeka shall not be subject to attorney fees and no provision will be given effect which attempts to exclude, modify, disclaim or otherwise attempt to limit implied warranties of merchantability and fitness for a particular purpose.

#### 9.REPRESENTATIVE'S AUTHORITY TO CONTRACT

By signing this contract, the representative of the contractor thereby represents that such person is duly authorized by the contractor to execute this contract on behalf of the contractor and that the contractor agrees to be bound by the provisions thereof.

#### **10.RESPONSIBILITY FOR TAXES**

The City of Topeka shall not be responsible for, nor indemnify a contractor for, any federal, state or local taxes which may be imposed or levied upon the subject matter of this contract.

#### 11.INSURANCE

The City of Topeka shall not be required to purchase any insurance against loss or damage to any personal property to which this contract relates. Subject to the provisions of the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.), and the claims provisions of the Code of the City of Topeka (Section 3.35.010 et seq.), the contractor shall bear the risk of any loss or damage to any personal property in which the contractor holds title.

#### **Terms and Conditions**

STANDARD TERMS AND CONDITIONS Qualification Based Selection (RFP, RFQ, etc.) Includes Architectural, Engineering, and Appraisal Services for Public Buildings and Improvements

1. READ ALL STANDARD TERMS AND CONDITIONS, SPECIAL TERMS AND CONDITIONS AND THE SCOPE OF WORK CAREFULLY. Failure to abide by all the conditions of this request may result in the rejection of a proposal. Inquiries about this request must be addressed during the open question and answer period. Proposals including attachments (proposal, drawings, photographs, etc.) shall be submitted through the City's online bidding portal.

2. SINGLE POINT OF CONTACT: The single point of contact for all inquiries, questions, or requests shall be the City of Topeka Contracts and Procurement Buyer or their designee initiating this solicitation. All communications shall be directed to the Buyer. No communication is to be had with any other City employee or representative while the bidding event is open and until a contract and/or purchase order is awarded and issued. Bidders may have contact with other City employees or representatives during negotiations, contract signing, or as otherwise specified in the solicitation documentation.

3. NEGOTIATED PROCUREMENT: The City reserves the right to negotiate with the selected bidder of this solicitation. The final evaluation and award is made by the Procurement Negotiating Committee (Committee), which consists of the Department Director of the originating department, the Director of Administrative and Financial Services, the Director of Contracts and Procurement, or their designees. (For architectural, engineering and appraisal services, the City Engineer or designee will take the place of the Director of Contracts and Procurement or designee.)

4. APPEARANCE BEFORE COMMITTEE: Bidders may be required to appear before the Committee to explain their understanding and approach. The Committee may request additional information. Bidders are prohibited from electronically recording these meetings. All information received prior to the cut-off time will be considered as part of the bidder's best and final offer. No additional revisions shall be made after the specified cut-off time unless requested by the Committee.

5. QUESTIONS & ADDENDA: All questions shall be submitted during the open questions period section of the City's online bidding portal. It shall be the bidder's responsibility to monitor the City's bidding portal for answers to questions and any addenda issued that may alter or change the scope of the solicitation. Any and all binding modifications to the solicitation shall be made by addendum.

6. PRE-PROPOSAL CONFERENCE: If so noted, all Pre-Proposal Conferences will be scheduled and information posted on the Meetings section in the solicitation. Attendance is typically not mandatory, but is strongly encouraged. At the Pre-Proposal Conference impromptu questions will be permitted and spontaneous unofficial answers will be provided when possible. However, bidders should clearly understand that the only official answer or position of the City will be by written and issued by addendum.

7. COST OF PREPARING PROPOSAL: The cost of developing and submitting the proposal is entirely the responsibility of the bidder. This includes costs to determine the nature of the engagement, preparation of the proposal, submitting the proposal, negotiating the contract, and other costs associated with the solicitation.

8. EVALUATION OF PROPOSALS: Award shall be made through the qualification based selection process. Consideration and evaluation of such proposals will include but not be limited to:

- Adequacy and completeness of proposal;
- Compliance with the terms and conditions of the request;
- Experience in providing like services or products;
- Qualified staff;
- Methodology in accomplishing objectives;
- Response format as required by this request;
- Price; and
- Any other requirements specific to the service or product as outlined by the City of Topeka.

9. ACCEPTANCE OR REJECTION: The City reserves the right to accept or reject any or all proposals or part of a proposal; to waive any informalities or technicalities; clarify any ambiguities in proposals; modify criteria in the solicitation; and unless otherwise specified, to accept any item in a proposal.

10. CONTRACT: The successful bidder may be required to enter into a written contract with the City, which will incorporate the Contractual Provisions Attachment and Contractor's Statement of Agreement. No contract shall be considered to have been entered into by the City unless executed by the City Manager and the vendor. Professional service contracts exceeding fifty thousand dollars (50,000) must be approved by the Governing Body prior to being executed by the City Manager.

11. CONTRACT DOCUMENTS: In the event of a conflict in terms of language among the documents, the following order shall govern:

- Contractual Provisions Attachment and Contractor's Statement of Agreement, if incorporated in the Contract;
- Written modifications to the executed contract;
- Written contract signed by the parties;

12. OPEN RECORDS ACT: All proposals become the property of the City of Topeka. Kansas law requires all information contained in

proposals to become open for public review (with certain exceptions available under the Act) once a contract is signed or all proposals rejected.

13. FEDERAL, STATE AND LOCAL TAXES – GOVERNMENTAL ENTITY: Unless otherwise specified, the price as negotiated shall include all applicable federal, state, and local taxes. The successful vendor shall pay all taxes lawfully imposed on it with respect to any product or service delivered in accordance with this solicitation. The City of Topeka is exempt from state sales or use taxes, and federal excise taxes. These taxes shall not be included in the bidder's price quotations.

14. SUSPENSION FROM BIDDING: Any vendor who defaults on delivery as defined in this solicitation may, at the discretion of the Director of Contracts and Procurement, be barred from bidding or receiving an award on any subsequent solicitation for a period of time to be determined by the City.

15. INSURANCE: The City shall not be required to purchase any insurance against loss or damage to any personal property nor shall the City establish a self-insurance fund to protect against any loss or damage. Subject to the provisions of the Kansas Tort Claims Act, the vendor shall bear the risk of any loss or damage to any personal property.

16. CASH BASIS AND BUDGET LAWS: All contracts are subject to the State of Kansas Cash Basis and Budget laws. [K.S.A. 10-1101; 79-2925 et seq.] Any obligation incurred as a result of the issuance of the contract or purchase order binds the City only to the extent that funds are available at the time payment is required.

City Legal Approval February 8, 2022

#### **RFP Special Provisions**

#### SPECIAL PROVISIONS

Proposal Format: The following information shall be part of the technical proposal: Vendors are instructed to prepare their Technical Proposal following the same sequence as this section of the Request For Proposal.

(1)Transmittal letter which includes the following statements:

(a)That the vendor is the prime contractor and identifying all subcontractors

(b)That the vendor is a corporation or other legal entity

(c)That no attempt has been made or will be made to induce any other person or firm to submit or not to submit a proposal (d)That the vendor does not discriminate in employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin or disability

(e)That no cost or pricing information has been included in the transmittal letter or the Technical Proposal. Pricing information, if requested, shall be uploaded as separately named electronic file.

(f) That the vendor presently has no interest, direct or indirect, which would conflict with the performance of services under this contract and shall not employ, in the performance of this contract, any person having a conflict

(g)That the person signing the proposal is authorized to make decisions as to pricing quoted and has not participated, and will not participate, in any action contrary to the above statements;

(h)Whether there is a reasonable probability that the vendor is or will be associated with any parent, affiliate or subsidiary organization, either formally or informally, in supplying any service or furnishing any supplies or equipment to the vendor which would relate to the performance of this contract. If the statement is in the affirmative, the vendor is required to submit with the proposal, written certification and authorization from the parent, affiliate or subsidiary organization granting the City and/or the federal government the right to examine any directly pertinent books, documents, papers and records involving such transactions related to the contract. Further, if at any time after a proposal is submitted, such an association arises, the vendor will obtain a similar certification and authorization and failure to do so will constitute grounds for termination of the contract at the option of the City

(i) Vendor agrees that any lost or reduced federal matching money resulting from unacceptable performance in a contractor task or responsibility defined in the Request, contract or modification shall be accompanied by reductions in City payments to contractor and

(j)That the vendor has not been retained, nor has it retained a person to solicit or secure a City contract on an agreement or understanding for a commission, percentage, brokerage or contingent fee, except for retention of bona fide employees or bona fide established commercial selling agencies maintained by the vendor for the purpose of securing business. For breach of this provision, the Committee shall have the right to reject the proposal, terminate the contract and/or deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee or other benefit. Vendor's Qualifications: The vendor must include a discussion of the vendor's corporation and each subcontractor if any. The discussion shall include the following:

(a)Date established

(b)Ownership (public, partnership, subsidiary, etc.)

(c)Number of personnel, full and part time, assigned to this project by function and job title (d)Data processing resources and the extent they are dedicated to other matters

January 27, 2025

(e)Location of the project within the vendor's organization (f)Relationship of the project and other lines of business and (g)Organizational chart

The contractor shall be the sole source of contact for the contract. The City will not subcontract any work under the contract to any other firm and will not deal with any subcontractors. The Contractor is totally responsible for all actions and work performed by its subcontractors. All terms, conditions and requirements of the contract shall apply without qualification to any services performed or goods provided by any subcontractor.

A description of the vendor's qualifications and experience providing the requested or similar service including resumes of personnel assigned to the project stating their education and work experience. The vendor must be an established firm recognized for its capacity to perform. The vendor must be capable of mobilizing sufficient personnel to meet the deadlines specified in the Request.

A timeline for implementing services.

Payment: To be negotiated.

#### Insurance Req with Errors and Omissions Coverage

**INSURANCE REQUIREMENTS** 

WORKERS COMPENSATION: Contractor's, when required by law must maintain in effect throughout the life of this contract, Workers Compensation insurance to cover the contractor's employees, in full limits as required by statute.

INSURANCE RESPONSIBILITY & LIABILITY:Notwithstanding any language to the contrary, no interpretation shall be allowed to find the City or any of its departments, officers or employees responsible for loss or damage to persons or property as a result of the contractor's actions.

#### CONTRACTOR SHALL MAINTAIN MINIMUM COVERAGE AS FOLLOWS:

Commercial General Liability: Per Occurrence\$1,000,000 General Aggregate\$2,000,000 Products & Completed Operations Coverage Aggregate\$2,000,000 Property Damage per occurrence\$100,000

Automobile Liability Combined Single Limit for Bodily Injury and Property Damage Aggregate\$500,000

Professional Liability (Errors and Omissions) Provide separate "claims made" form Per Claim\$1,000,000 General Aggregate\$2,000,000

CERTIFICATES OF INSURANCE: Certificates of Insurance should be issued immediately after the Contractor received notification of award and prior to the notice to proceed. The Contractor must not commence any work under this Contract until Purchase Orders are issued by the City of Topeka.

NAMED INSURED: The City of Topeka shall be named as an additional insured party on the Certificate of Liability Insurance.

NOTIFICATION OF ALTERATION OR MATERIAL CHANGE OR CANELLATION: A minimum of ten (10) days written notification must be given by an insurer or any alteration, material change, or cancellation affecting any certificates or policies of insurance as required under this Contract. Such required notification must be sent via Registered or Certified Mail to the address below:

City of Topeka Contracts & Procurement Division 215 SE 7th Street, Room 60 Topeka, KS 66603

## Professional Engineering Design Services for Streambank and Channel Restoration and Rehabilitation 501097.01

## **REQUEST FOR PROPOSAL**

## I. PURPOSE FOR REQUEST

The City of Topeka Utilities Department is requesting proposals for professional engineering services related to bank rehabilitation, stabilization, and restoration of streams and channels throughout the City of Topeka. This work shall continue efforts necessary for bank restoration/rehabilitation along Ward-Martin Creek from SW Munson & Oakley Ave, extending north to The Drive & NW Roosevelt in line with the Ward Martin Creek Streambank Stabilization Drainage Study dated February 2023, as well as other channels or streams to be selected by the City as well.

The City will have full discretion to award all, none or portions of this effort and any subsequent construction design and/or construction administration contracts based on but not limited to the professional deliverables provided as well as funding approval.

## II. BACKGROUND INFORMATION

There are approximately 140 miles of streams/channels contained within Topeka that the City is responsible for maintenance of. Many of these channels experience a variety of erosion problems or other issues requiring the City's attention. This program is designed to aid the City in addressing some of these issues and the selected consultant will provide engineering services for that purpose.

### III. SCOPE OF SERVICES

The City is seeking professional engineering services including, but not limited to the following:

- A. Construction plans, specifications (project manual), cost estimates, bid package, and bid support services necessary for the successful completion of the project. Including but not limited to locations and depths of all pipes, structures, other utilities, surface features, right of way, easements, and any necessary easements or rights of entry from adjacent property owners. At minimum, plans will be presented at the following stages for City review and comment:
  - a. Concept Plans (30%)
  - b. Field/Utility Check Plans (60%)
  - c. Office Check Plans (90%)
  - d. Final Plans (100%)

- B. Construction Administration Services throughout the project
- C. Consultant shall provide all required documentation and support services for regulatory and other review agencies.
- D. As-Built Plans at the conclusion of each phase

### IV. PROPOSAL FORMAT

All information submitted becomes the property of the City of Topeka. Proposals received after the time indicated in this request will not be considered. Proposals are to be limited to a total of 10 (ten) pages (not counting front and back cover, cover letter, table of contents, and section dividers) using margins not smaller than 1.0" and font size not smaller than 10. The proposal should include the following:

- 1. Project understanding and approach
- 2. Similar experience
- 3. Demonstrated ability to meet deadlines for submission of concept, field check, office check and final plans
- 4. Qualifications, and accessibility of personnel assigned to the Project
- 5. Project team organization
- 6. Familiarity with the City's water distribution system, water division staff and City's design criteria and technical specifications.
- 7. Proposed design schedule
- 8. Proposed construction schedule for Ward-Martin Creek Project

### V. SELECTION PROCESS

The City will review all submittals and select the firm deemed "most qualified" to begin the contract scope/fee negotiation process. If the City and the selected firm cannot agree on scope and/or fee, the City may terminate negotiations and select another firm. Furthermore, the City may elect to interview one or more firms prior to making its selection. Proposal evaluation scoring will be based primarily on the following considerations:

- 1. 40% Project approach
- 2. 20% Similar project experience
- 3. 20% Qualifications, availability, and accessibility of personnel assigned to the Project
- 4. 10% Familiarity with the City's storm water collection system
- 5. 10% Proposed design schedule

City of Topeka Division of Contracts & Procurement 215 SE 7th Street, Room 60 Topeka, KS 66603

#### RE: Event #: 501097.01 | Streambank and Channel Restoration and Rehabilitation

Dear Members of the Selection Committee:

**Benesch** is extremely excited to have the opportunity to continue our partnership with the City of Topeka to provide design, survey, inspection and construction administration services related to bank rehabilitation, stabilization and restoration of streams and channels throughout the City of Topeka. We understand that the City requires a highly experienced team capable of seamlessly continuing with several ongoing stream stabilization projects, including Shunganunga Creek in Crestview Park, Ward Creek priorities and 21st & Kingsrow. A team with a keen understanding of project issues, agency processes and experienced members who will deliver your project on-time and within budget without compromising quality. <u>Benesch is that team.</u>

#### When you choose the Benesch team, you can expect the following key advantages:

**Familiarity with Topeka Stormwater and Ward-Martin Creek Basin** I The Benesch team is strengthened by a wealth of experience and expertise in stormwater management and stream modeling, particularly within the Topeka area. Our team members possess a deep understanding of the intricacies involved in analyzing and stabilizing streams, watersheds and the Ward-Martin Creek basin. This collective knowledge is further enhanced by our strategic approach, which leverages a variety of models to effectively address bank stabilization efforts. With professionals like Brad Johnson, who serves as the Project Manager, along with Maria Neeland and Patrick Bussen, who bring extensive municipal engineering and project management experience, we are well-equipped to deliver comprehensive solutions tailored to the unique challenges of Topeka's stormwater systems.

**Science Based Stream Buffer Analytics** I Benesch personnel were important players in both the development of the predictive Science Based Stream Buffer tool as well as the implementation and application of the tool on Topeka Streams as part of the Topeka Stormwater Program Assessment and KDA Technical Assistance project. The vector based analysis was used to develop the GIS layer for the outer stream buffer that has been implemented by the City of Topeka and supported by the revised Stream Buffer Ordinance.

✓ PREDICTIVE STREAM BUFFER
 ✓ SOIL PARAMETERS ✓ ASSET MANAGEMENT
 ✓ BRIDGE INSPECTIONS ✓ H&H ✓ BRE

**Streambank Stabilization Designs** I Benesch staff have analyzed and designed numerous streambank stabilization projects both as Benesch employees and with former employers across Kansas. In fact, several of our team members worked on the Shunganunga Streambank Stabilization Project. This experience will lend itself to direct application to the Ward-Martin basin and all City of Topeka streams. The Benesch knowledge of Topeka streams, H&H, BRE Analysis and all things stormwater is unmatched.

The City of Topeka is a priority to Benesch, and we remain steadfast in our commitment to our Topeka Office Team. We truly value and appreciate the opportunity to work alongside the City of Topeka staff on this extremely important project. We look forward to continuing our pursuit to grow and foster our relationship with you.

#### **MEETING OBLIGATIONS TO CITY**

Benesch makes the following statements with respect to this contract:

- A. Benesch is the prime contractor for the project. Subcontractors for this project include teaming partners with whom Benesch has worked with on many occasions in Topeka. This includes Terracon for geotechnical services.
- **B.** Benesch is a licensed corporation.
- **C.** No attempt has been made or will be made to induce any other person or firm to submit or not submit a proposal.
- D. Benesch does not discriminate in employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin or disability.
- E. No cost or pricing information has been included in the transmittal letter or the Technical Proposal.
- **F.** Benesch presently has no interest, direct or indirect, which would conflict with the performance of services under this contract and shall not employ, in the performance of this contract, any person having a conflict.

- **G.** Rob Krewson is authorized to make decisions regarding pricing quoted and has not participated, and will not participate, in any action contrary to the above statements.
- H. Benesch is not associated with any parent, affiliate, or subsidiary organization, either formally or informally, in supplying any service or furnishing any supplies or equipment to the vendor that would relate to the performance of this contract.
- I. Benesch agrees that any lost or reduced federal matching money resulting from unacceptable performance in a contractor task or responsibility defined in the Request, contract or modification shall be accompanied by reductions in City payments to contractor and
- J. Benesch has not been retained, nor has it retained a person to solicit or secure a City contract on an agreement or understanding for a commission, percentage, brokerage, or contingent fee.

If you have any questions or comments regarding the specific project approach or content of this response, please feel free to contact Brad Johnson at bjohnson@benesch.com.

Sincerely,

# COMPANY BACKGROUND

CITY OF TOPEKA // STREAMBANK AND CHANNEL RESTORATION AND REHABILITATION

## **FIRM QUALIFICATIONS**

**benesch Benesch** is a multidisciplinary engineering and professional services firm, established in 1946. Now, with 50 offices across 20 states, Benesch has successfully completed thousands of design and engineering projects throughout the US and is ranked #104 among the Top 500 Design Firms in the country by *Engineering News Record*. While Benesch is headquartered in Chicago, Illinois, it operates four offices within Kansas with more than 80 employees, including 12 located in our Topeka office. Our experienced and growing Topeka staff provide a thorough knowledge that includes Topeka stormwater, stream stabilization techniques and design experience.

## Ferracon

#### Terracon Consultants (Terracon) is a

successful multidisciplinary firm specializing in environmental and geotechnical services. They have over 5,000 employees in 175 offices nationwide and serve a diverse portfolio of private and public clients. Terracon is a preferred geotechnical provider by the City of Topeka Utilities. Benesch has successfully teamed with Terracon on many projects in Topeka, Manhattan and several other locations throughout Kansas.

## SUCCESSFUL TEAMING HISTORY

Our teaming partner on this project is Terracon, a firm we have teamed with on many Topeka projects in the past including several for the Topeka Utilities Department. **This teaming experience includes:** 

- Shunganunga Streambank Stabilization
- SW 17th & Westport Street, Stormwater and Waterline Designs
- Ward Creek stream
   stabilization in Washburn Park

## **VENDOR QUALIFICATIONS**

- A. Date Established: Benesch was established in 1946 and opened the Topeka office in 2020.
- **B. Ownership:** Benesch is a privately owned corporation.
- **C. Number of Personnel, Full and Part Time, Assigned to This Project by Function and Job Title:** We have listed the function leads in the organizational chart in the following section. These individuals are all full-time employees and have the availability and expertise to perform their roles successfully with most being right here in our Topeka Office. For each of these categories, we have over 50 qualified staff within our Topeka and other Kansas offices to assist the function leads in the completion of the tasks, as necessary.
- **D. Data Processing Resources and the Extent They are Dedicated to Other Matters:** The Benesch team has sufficient resources, not dedicated to other projects, to support the current ongoing work.
- **E. Location of the Project Within the Vendor's Organization:** Led by Project Manager, Brad Johnson, our team will manage this project from our Topeka office.
- **F. Relationship of the Project and Other Lines of Business:** Benesch is a full-service design and consulting firm. As a national leader providing civil engineering services to public and private agencies, we have designed highway interchanges, local roads and all types of roadway structures, potable water, sanitary sewer, storm sewers, channel and stream stabilization, and restoration projects. The project falls within our wheelhouse of services and expertise. Our team actively supports Topeka Utilities with on-call stormwater reviews and ongoing projects from the last Stream Stabilization On-Call, giving us a deep understanding of Topeka's standards and specifications. We also led the development of the Topeka Stormwater Handbook.

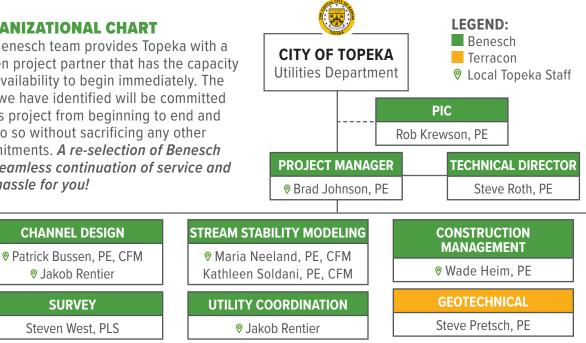

## PROJECT TEAM

CITY OF TOPEKA // STREAMBANK AND CHANNEL RESTORATION AND REHABILITATION

#### **ORGANIZATIONAL CHART**

The Benesch team provides Topeka with a proven project partner that has the capacity and availability to begin immediately. The staff we have identified will be committed to this project from beginning to end and can do so without sacrificing any other commitments. A re-selection of Benesch is a seamless continuation of service and less hassle for you!

Brad Johnson, PE | Project Manager. Brad has 28 years of municipal engineering, project management and design experience that includes transportation systems, storm drainage systems, levee systems, utility systems and private

development engineering. He has a diverse background and has spent significant time in both the private sector and public sector and has managed various multi-discipline projects throughout his career including several stream stabilization projects in Topeka and throughout Kansas. He is the project manager for the work under the previous Stream Stabilization On-Call. Having spent the last 19 years of his career in Topeka, Brad has a firm grasp of the project delivery requirements and

expectations of the City Utilities Staff. He has extensive experience with Topeka stormwater design projects.

Education: BS, Civil Engineering, Kansas State University

Relevant Experience in Similar Role: City of Topeka - Streambank Stabilization On-call City of Topeka - Stormwater Master Plan ► City of Topeka - Shunganunga Creek Stormwater Master Plan ► City of Topeka - Shunganunga Creek Stream Stabilization ► City of Topeka - SW 29th & Jewell Drainage Study ► City of Topeka - 25th & Kingsrow Drainage Study

Steve Roth, PE | Technical Director. Steve has over 25 years of experience as a project manager and design engineer on a wide variety of stormwater projects. He has worked with dozens of municipalities to resolve flooding issues within existing neighborhoods as a hydrologic and hydraulic engineer. In addition to this experience, he has also prepared hydraulic analyses and stream bank stabilization analyses on numerous rivers in Kansas.

Patrick Bussen, PE, CFM | Channel Design. Patrick has 14 years of experience as a water resources engineer, including project management responsibilities. His knowledge is focused on hydrologic and hydraulic engineering, stormwater drainage analysis, flood inundation mapping, flood reduction studies, and levee riverine and interior drainage analyses. Patrick has experience with stormwater mitigation and alternatives analysis and has performed technical reviews of complex hydrologic and hydraulic studies.

Education: BS/MS, Biological and Agricultural Engineering, Kansas State University

Relevant Experience in Similar Role: ► City of Topeka - Stormwater Master Plan ► City of Topeka - Streambank Stabilization On-Call ► City of Topeka - Shunganunga Creek Stormwater Master Plan ► Kansas Department of Agriculture - FEMA Risk Map Projects ► City of Manhattan, KS - Eastside Drainage Study Update ► City of Kansas City, MO - Watershed Risk Assessment

Maria Neeland, PE, CFM | Stream Stability Modeling. Maria has over 13 years of experience as a water resources/environmental engineer, including project management responsibilities. Her knowledge is focused on hydrologic and hydraulic engineering, stormwater drainage analysis, flood inundation mapping, flood reduction studies and water quality analysis. Maria has experience with community management planning, stormwater mitigation and alternatives analysis, and has a comprehensive understanding of local, state, and federal requirements. She also has experience with technical review of stormwater management designs/plans.

Education: BS, Biological and Agricultural Engineering, Kansas State University

Relevant Experience in Similar Role: ► City of Topeka - Stormwater Master Plan ► City of Topeka - Stormwater Review On-Call ► City of Topeka - MS4 Program Development ► City of Topeka - SW 12th Street/Ward-Martin Creek Storm Capacity ► Kansas Department of Agriculture - FEMA Risk Map Projects

Wade Heim, PE | Construction Management. Wade specializes in construction management for state and local agencies. With 18 years of experience, Wade excels in overseeing multi-million-dollar projects, particularly those involving KDOT oversight and federal funding. His comprehensive understanding of project audits at both state and federal levels ensures effective project management, making him a key asset in delivering high-quality construction services.

Education: BS, Civil Engineering, Kansas State University

Relevant Experience in Similar Role: City of Topeka - Eastgate Drainage Design City of Topeka - Summerfield Neighborhood Storm Sewer Condition Assessment ► City of McPherson - Avenue A Reconstruction storm sewer improvements City of Lansing - DeSoto Road Improvements storm sewer improvements Leavenworth County - McIntyre Road Improvements storm sewer improvements

Steven West, PLS | Survey. Steven is a senior project manager with over 26 years of experience in land surveying. He has expertise in creating efficient design base maps. His comprehensive background includes utility infrastructure, ALTA, boundary and topographic surveys, as well as construction staking. Steven's role involves overseeing land surveying operations for all firm projects, ensuring precision and quality in every aspect of his work.

Education: BS, Civil Engineering, Kansas State University

Relevant Experience in Similar Role: City of Lansing - East Kay & 3rd Street Stormwater Improvements City of Manhattan - Anderson Avenue Improvements Kansas Department of Agriculture - KDA Streambank Stabilization Projects

Jakob Rentier | Utilities & Channel Design. Jakob is an emerging environmental engineer with a strong background in ecological engineering and hydrology. He gained experience through internships at the Topeka Water Treatment Plant and the Topeka Department of Utilities, where he analyzed best management practices and conducted geospatial analysis for waterline projects. His technical skills include Microsoft Suite, Cityworks, Matlab, Fracta and Arc-GIS Pro.

Education: BS, Biological Systems Engineering, Kansas State University

Relevant Experience in Similar Role: City of Topeka - Eastgate Drainage Design City of Topeka - Washburn Park Streambank Stabilization City of Topeka - Summerfield Neighborhood Stormwater Condition Assessment & Design

## UNDERSTANDING & APPROACH

CITY OF TOPEKA // STREAMBANK AND CHANNEL RESTORATION AND REHABILITATION

## **PROJECT UNDERSTANDING**

The City of Topeka is seeking a consultant to provide design, survey, inspection and construction services related to bank rehabilitation, stabilization and restoration of streams and channels throughout the City of Topeka. This work will build on previous efforts for bank restoration/rehabilitation along Ward-Martin Creek. Benesch has an in-depth understanding of the project area, having performed the 2023 Streambank Stabilization Drainage Study that includes the stream extents from SW Munson & Oakley Avenue, extending north to The Drive & NW Roosevelt covering approximately 1.65 miles of channel. As part of the previous study, critical locations along the creek were identified, and mitigation efforts were prioritized for all eight sites (Sites A through G). Benesch is currently under contract with the City to provide design plans and bidding services for the highest priority site (Site B in Washburn Park), and advertising for this project is expected to occur in the next few weeks.

Benesch has extensive experience with streambank stabilization and mitigation throughout the city, having assisted with numerous evaluations and mitigation efforts for channel erosion along Shunganunga Creek. This includes mitigation of a streambank failure near Shunga Trail, with construction of that project completed in 2022. It also includes channel erosion in Crestview Park, where a sanitary syphon crossing has been exposed. Benesch is currently under contract with the City to address this issue. Another example is stream degradation near SW 21st Street and SW Kingsrow Road, which poses a potential risk to nearby homes and city stormwater infrastructure. Benesch's understanding of the City's needs will play a direct role in our approach to stream restoration.

## **PROJECT APPROACH**

One of the key components included in the previous analysis of stream stability is accurate hydraulic modeling which was used to develop flows, velocities, shear stress, flow depths, etc. Because these parameters are essential for analyzing stream stability and the evaluation of potential countermeasures, experience with the hydraulic modeling is critical. Benesch's team has this expertise and has been involved with numerous modeling efforts throughout Topeka, including efforts on this specific section of Ward-Martin Creek Channel as well as the entire Shunganunga Creek watershed. This knowledge and familiarity with Topeka's streams will be leveraged to ensure efficient and accurate hydraulic evaluations for this project.

#### Past modeling Work for Ward-Martin Creek Channel

Ward-Martin Creek has been included in a variety of modeling projects for the City of Topeka. As part of the Levee Certification project for the City of Topeka levee units, including the Waterworks and Auburndale units, interior drainage analysis was performed to determine the location and extent of interior flooding for the levee systems. Ward-Martin Creek was included in the PC-SWMM model for the Auburndale and Waterworks units. This model included 22 subcatchments and five drainage structures through the levee. The result of this modeling was the establishment of interior ponding areas, with associated base flood elevations, for Zone AH determinations in the FEMA Special Flood Hazard Area. This PC-SWMM model was further enhanced during the 12th Street Watershed Drainage Study for the City of Topeka. This model was used to model alternatives in determining recommended conveyance improvements in four focus areas, located east of Ward-Martin Creek, between SW 2nd Street and SW Huntoon Street. Benesch has the experience and technical expertise to utilize any existing SWMM models to evaluate the hydraulic results and develop mitigation options to address streambank stabilization.

In addition to the PC-SWMM modeling that has been performed, two-dimensional HEC-RAS modeling has also been performed for the City of Topeka as part of a technical assistance project funded through the Kansas Department of Agriculture (KDA). The purpose of this technical assistance project was to help better understand and reduce flooding issues within the City of Topeka. Two-dimensional HEC-RAS models were developed for the portions of the City located south of the Kansas River. A later project was also funded to model the areas north of the Kansas River. Two-dimensional hydraulic models using "rain-on-grid" hydrology were developed. Detention and storage areas were captured in the modeling and roughness values were customized for the City based on available GIS data. Structures deemed critical for modeling purposes and calibration purposes were included in the models and tailwater elevations were taken from the levee certification project. Benesch has the expertise to leverage existing two-dimensional modeling, and in fact these models were utilized and refined by our team as part of the 2023 Ward-Martin Creek Streambank Stabilization Drainage Study.

#### **Stream Buffers**

As part of the technical assistance project with KDA, a GIS- and science-based predictive stream buffer was developed for a portion of the City. The team created a risk grid for the stream buffer, considering parameters like stream direction, flood depth, water velocity, ground slope, curvature, soil erosion index, and maximum shear stress. The magnitude of the stream setback limits was determined by an automated process that evaluated the overall risk along the stream, direction of flow and minimum bank offset. An automated process created stream flow projection lines, and a polygon was created using the

endpoints of the lines to determine the recommended stream setback limits. The City of Topeka expanded upon this work as part of the Stormwater Program Development MS4 project in which GIS-based Modified Stream Buffers were developed for the City of Topeka, including this section of Ward-Martin Creek, and the Buffer Areas Ordinance was adjusted accordingly. Shapefiles for the streamside area and outer area extents of the stream buffer were developed and included on the Utilities Exploration website and Data download site. This science-based stream buffer migration prediction tool was developed and implemented for the Topeka streams by staff who are now part of the Benesch team. These science-based buffer outputs were reviewed to help identify areas of concern along the stream and were compared to the areas of interest/concern that Benesch staff noted as part of the initial field visit.

#### **Business Risk Exposure (BRE)**

As part of the City of Topeka Storm Water Master Plan project, BRE rankings were developed for 172 sub-basins within the city. The sub-basins with the top 50 highest risk rankings were selected for alternatives analysis as part of the Master Plan project. This includes the sub-basins in the Ward-Martin Creek basin, which are part of the Streambank and Channel Restoration Project. These sub-basins were chosen for alternatives analysis to determine capacity shortages and provide mitigation recommendations. The Benesch team is equipped to coordinate the alternatives analysis with the streambank restoration analysis.

#### **Site Visits**

Through communication with the City of Topeka, the Benesch team has made multiple site visits to Ward-Martin Creek,

Shunganunga Creek and other streams across the City to investigate specific areas or issues in need of bank stabilization or restoration.

As summarized in the previous 2023 study, there are certain areas along Ward-Martin Creek that appear to be unstable as a result of riprap degradation and displacement. These areas of exposed soil along the banks and adjacent to City infrastructure would benefit from additional or enhanced armoring for stability.

Investigations for the ongoing project within Crestview Park confirmed that channel erosion has exposed a sanitary siphon crossing under the Shunganunga Creek Channel. Coordination with the City to find potential solutions for the sanitary line are ongoing, but this location highlights the ongoing need to monitor and mitigate degradation of the city's streams.

Following a request from the City of Topeka, an additional site visit was performed which highlighted concerns for the area near SW 21st Street & SW Kingsrow Road. This location has potential to impact nearby homes as well as the City's adjacent stormwater culverts and pipes. A scope and fee has been provided to the City but has been put on hold until this on-call selection is completed.

As part of the previous 2023 study, eight sites were identified along Ward-Martin Creek and prioritized based on the level of deterioration, extent of deterioration, the likelihood of failure and the consequence of failure to the channel and surrounding infrastructure. The following list summarizes the prioritization of the sites (labeled A-H) that our team identified as part of the previous study. Due to the high priority, influenced by potential impacts to sanitary and stormwater infrastructure, Benesch is currently under contract with the City to provide design plans and bidding services for Site B in Washburn Park, and it is expected to be advertised for bidding in the next few weeks.

Site B in Washburn Park showing exposed culvert headwalls and displaced riprap at sanitary crossing

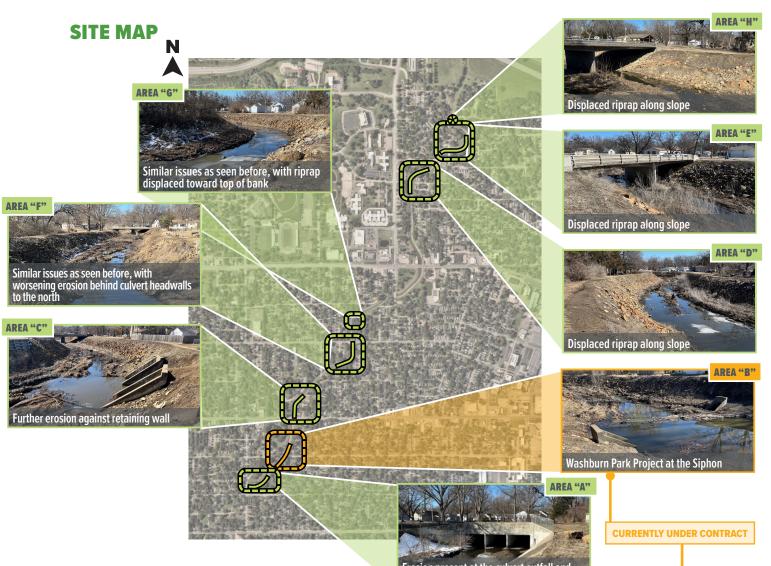

Exposed sanitary crossing near pedestrian bridge in Crestview Park

Stream channel looking downstream from culvert crossing near 21st & Kingsrow

| Erosion present at the culvert outfal | l and |

## **DESIGN DOCUMENT PROCESS**

After identifying areas of concern, field work will be essential to gather the necessary survey and geotechnical information for designing improvements to halt erosion and degradation. **Once necessary field work is completed, Benesch will develop a series of plans:** 

- Concept Plans (30%)
- Field Check Plans (60%)
- Office Check Plans (90%)
- Final Plans (100%)
- Bid Documents

A crucial aspect of stream stability projects is obtaining permits from USACE, KDHE, DWR, local floodplain administrators and the SHPO, especially in areas with high archaeological potential across the city. These permits can be time-consuming and unpredictable, making it vital to submit them immediately after the field check. Benesch has successfully navigated this process in the Shunganunga Creek Streambank Stabilization Project, completed in 2022, and is currently advancing through it for the Washburn Park Streambank Stabilization Project. *The provided schedules are intended to show the general duration of each design project; however, we do have the capacity to overlap the designs, if that is the desire of the City.*

\*For Ward-Martin Creek Sites, previous study's concept plans will be leveraged into the field check plans.

<sup>+</sup> Project priorities and resulting schedules are expected to be refined based on City feedback.

<sup>‡</sup> Design schedule is subject to reasonable permit approval timeframes of 45 to 60 days. Delayed approval process could delay schedule for bidding project.

• Construction schedule generally anticipates spot repairs/reinforcements and not holistic channel reconstruction.

#### **Personnel Qualifications & Accessibility**

Benesch's team of highly-qualified professionals have successfully executed several stream restoration and rehabilitation projects in Topeka, along with other areas of northeast Kansas. The majority of our team members also work in Topeka and have a strong connection and invested interest in the city, with the ability to swiftly have boots on the ground when needed. They are passionate about Topeka projects and are committed to successfully progressing these stream improvement efforts. We have ensured that each member of the project team has the availability to achieve timely project completion. We are ready and able to start work with the City of Topeka as soon as authorized and are excited to continue partnering with the City on this important work. In fact, a scope for the 21st and Kingsrow project is already drafted.

#### **City Infrastructure & Design Familiarity**

This team is extremely familiar with the City of Topeka design criteria, having worked on similar projects for the City for years. In addition, members of the team were involved with revisions made to the design criteria, ordinances codes, and technical specifications as part of the City's Stormwater program update; thoroughly understanding the backbone of the requirements. Through their involvement with the Stormwater Program Update and the Topeka Stormwater Master Plan, our team has a deep understanding and knowledge of Topeka's stormwater infrastructure and waterways. We have also coordinated with Topeka Utilities staff on a variety of levels, through master planning efforts, individual design projects and on-call positions that have allowed us to serve as an extension of the City's staff. We will leverage these experiences and relationships to ensure continuous coordination with City staff throughout the project's duration and deliver products that align with the City's guality standards and adhere to the established schedule.

#### **Proven Project Management Excellence**

Brad Johnson has a proven track record of successfully managing projects that are delivered on time and has shown strong dedication to the City of Topeka. He will carry that same level of service forward on this project. We have developed a realistic and achievable project schedule but are flexible in making adjustments to timelines and priorities based on feedback from City staff.

Brad Johnson, PE | Project Manager C: 785-408-9413 | E: bjohnson@benesch.com

With a deep understanding of Topeka's unique environmental landscape, Benesch is equipped with the expertise and local knowledge to effectively manage and execute projects for the City. Our proficiency in stream stabilization ensures the protection of Topeka's vital waterways, allowing us to adeptly guide the design process. As a reliable partner, we are committed to advancing crucial restoration and rehabilitation initiatives.

# SIMILAR EXPERIENCE

CITY OF TOPEKA // STREAMBANK AND CHANNEL RESTORATION AND REHABILITATION

## **EXPERIENCE ON SIMILAR PROJECTS**

The Benesch team has a keen understanding of the flow characteristics that exist in the Ward-Martin Creek Basin as a result of recent additions to our Topeka Team who have significant modeling experience in this basin, but also generated the tool for the Predictive Stream Buffer and applied it to all Topeka streams with drainage areas greater than 40 acres. The predictive model provides great insight into the flow regimes and will be extremely beneficial in evaluating countermeasures as well. The comprehensive experience of the Benesch team with the development and design of the stream buffer tool and the application of the tool on Topeka streams is unmatched. Below are a few relevant regional projects that best describe our local streambank and channel stabilization assessment and design experience.

#### WASHBURN PARK STREAMBANK STABILIZATION | CITY OF TOPEKA, KS

The City of Topeka retained Benesch to perform engineering design services for the stabilization of the Ward-Martin Creek streambank within Washburn Park. Channel degradation at this location threatens multiple elements of the City's infrastructure, including a sanitary sewer siphon crossing, a pedestrian bridge, and multiple stormwater outfalls. Utilizing efforts from the previous Ward-Martin Creek project, Benesch refined the analysis to determine the hydraulic characteristics of the site and confirm appropriate mitigation solutions. The design included riprap sections to protect the streambanks and the concrete-encased sanitary crossing, with use of turf reinforcement mat on the

upper portions of the channel banks. This solution will bring the channel back to its original cross section prior to the degradation. The project is nearing completion and is expected to be advertised in the immediate future, with construction expected to occur this year.

#### **CRESTVIEW PARK STABILIZATION | CITY OF TOPEKA, KS**

Benesch was retained to investigate and design stabilization improvements to mitigate the exposed sanitary sewer siphon crossing under Shunganunga Creek. Channel erosion over time has exposed the concrete-encased sanitary line, threatening to cause damage and potential interruption of the sanitary service. Nearby stormwater outfalls were also evaluated for repair and improvements. Using a two-dimensional HEC-RAS model which had been previously developed for the KDA Technical Assistance project, Benesch was able to evaluate the hydraulic characteristics of the site and determine preliminary mitigation solutions. Multiple sanitary crossings in the general area led to the need for a

larger-scale evaluation of the City's needs, and the City is continuing to monitor its sanitary sewer system in this area. Through coordination with the City, Benesch will provide conceptual level designs and reports for the recommended configuration of the sanitary, stormwater, and streambank restoration at the site.

#### WARD-MARTIN CREEK STREAMBANK | CITY OF TOPEKA, KS

The City of Topeka retained Benesch to perform engineering services to evaluate Ward-Martin Creek for streambank erosion and provide potential solutions. Eight locations along the Creek were identified as part of the assessment as being degraded. Using a two-dimensional HEC-RAS model previously developed for the KDA Technical Assistance project, Benesch was able to evaluate the hydraulic characteristics of the site and determine appropriate mitigation solutions. The eight locations were summarized and prioritized based on the level of deterioration, extent of deterioration, the likelihood of failure, and the consequence of failure to the channel and surrounding infrastructure. A

comprehensive report detailing our findings, accompanied by conceptual-level design drawings and cost estimates, were provided as part of the project deliverables.

#### SHUNGANUNGA CREEK STABILIZATION | CITY OF TOPEKA, KS

Benesch was retained to investigate and design stabilization improvements to mitigate a streambank failure on Shunganunga Creek just downstream of its confluence with Butcher Creek. The streambank failure was about 15-feet in height and threatened to damage city infrastructure including the Shunganunga Trail. Using an unsteady state HEC-RAS model which had been previously developed by the USACE, Benesch was able to manipulate the model to facilitate the alternatives evaluation process. Given the height of the streambank, and the various flow conditions, the design of the stabilization effort included the analysis of flows and velocities for multiple recurrence events. The

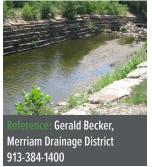

design ultimately included a two-tiered riprap section with the use of Turf Reinforcement Mat on the upper portions of the channel with riprap transition areas both upstream and downstream of the failed area. This solution brought the channel back to its original cross section prior to the slope failure.

#### ELBO CREEK STREAM ASSESSMENT | POTTAWATOMIE COUNTY, KS

Urbanization within the Elbo Creek watershed and development adjacent to the stream have significantly increased the amount of stormwater runoff conveyed by Elbo Creek. This increase in runoff resulted in higher velocities which have increased erosion of both banks and greater incising of the channel. Benesch performed a stream walk for over two-miles of Elbo Creek and prepared prioritized lists of locations that required countermeasures. The priority list was based on several factors including the severity of channel degradation, proximity to existing structures and proximity to utilities. Approximately six locations were identified during the stream walk where

stream stabilization measures had been installed within the past ten years including, lunkers, rock weirs and riprap. As part of the analysis, we reviewed each of these countermeasures to determine if they were working effectively and if not, could they be salvaged, or should they be removed and replaced utilizing a different type of countermeasure. In addition to developing countermeasures to react to changes that have already occurred, Benesch also developed a list of recommendations to allow the county to transition to a more proactive approach to stream maintenance. These areas were identified based on the ability to stabilize the movement of the stream in areas that are currently under stress, but not highly deteriorated. These recommendations will allow the county to prevent erosion now in a cost-effective manner and prevent the additional expense of more costly countermeasures in the future.

#### TURKEY CREEK STREAM STABILIZATION | MERRIAM DRAINAGE DISTRICT, KS

The Turkey Creek channel consists of stacked rock walls and triangular channels with riprap protection. As part of our annual inspections, Benesch identified several areas along Turkey Creek where the rock walls are being undermined. Based on these issues, the Merriam Drainage District requested that Benesch design grade control structures along the creek to stabilize the creek bed and protect the walls. In the past, two types of projects had been undertaken to stabilize the wall; removal and reconstruction of the wall, or the placement of a concrete slab underneath the wall to fill the void. While both methods are effective, they are expensive and are only cost effective when dealing with relatively isolated areas of erosion. The creek bottom in this area consists of limestone

bedrock on which streambank protection is provided by a limestone rock. The creek is approximately 60 feet wide and maintains a consistent baseflow throughout the year. The Turkey Creek watershed is mainly urban/suburban with a large percentage of impervious surfaces. The size and nature of the watershed results in increased peak flows and high velocities which contribute to streambank erosion. To provide a cost-effective solution to the streambank erosion, we recommended the installation of nine rigid weir grade control structures to stabilize the streambed.

#### **Capital Improvement Project Summary**

| Project Name:<br>Project Number: | Annual Stream & Channel Restoration, Stabilization, & Rehab 501097.00 | Council Priority:<br>Project Year(s): | Investing in Infrastructure<br>2023 to 2032 |

#### Project Description:

This program includes work necessary to identify, design, and construct rehabilitations, stabilizations, and restorations of streams and channels throughout the City. These efforts will alleviate current erosion, prevent future erosion, and ensure uninterrupted flow.

**Project Justification:** 

This is a yearly program. The first 3 years will be used to replace failing rip-rap lining along the Ward-Martin Channel from SW Oakley to NW Drive. These efforts will prevent this channel and similar channels from eroding further and endangering underground infrastructure or existing structures along channel banks. Sub-projects in the CIP period are planned to include but not limited to: Phases II through IV of the Ward Channel project.

History:

This was a new program slated to begin in 2022 and work is just now getting underway.

#### **DOCUMENT DESCRIPTION:**

APPROVAL of a professional engineering contract amendment between the City of Topeka and Professional Engineering Consultants, P.A., for providing additional civil engineering design and related services for the waterline and sanitary sewer replacement related to alley pavement repairs south of 2nd Street to 3rd Street, between Woodlawn Avenue and Greenwood Avenue.

(Approval will authorize the City Manager to sign and execute the contract amendment for a total not-to-exceed amount of \$54,500.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Whether to approve the contract that will exceed \$50,000.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body approve the contract as part of the consent agenda.

#### BACKGROUND:

Whereas, on December 20, 2024, the initial contract was executed with the engineering firm for the design and construction of the existing alley pavement for a total not-to-exceed amount of \$40,000.00; and

Whereas, City staff recommend executing an amendment for additional engineering design services

(\$14,500.00) to include and incorporate the replacement of the waterline and sanitary sewer associated with the road project for a total not-to-exceed amount of \$54,500.00.

#### BUDGETARY IMPACT:

\$54,500

#### **SOURCE OF FUNDING:**

RES #9425 WPC Funding Rev Bonds

#### CITY OF TOPEKA

#### CONTRACT NO.

#### AMENDMENT NO. 1 TO CITY OF TOPEKA CONTRACT NO. 52586

This Amendment No. <u>1</u> to City of Topeka Contract No. <u>52586</u> is entered into on this \_\_\_\_\_\_, by and between the City of Topeka, Kansas, a duly organized municipal corporation, hereinafter referred to as "City" and <u>Professional Engineering Consultants</u>, <u>P.A.</u>, hereinafter referred to as "Engineer."

WHEREAS, City and Engineer entered into Contract No. 52586 on <u>December 20, 2024</u>, for the purpose of <u>Alley pavement repair south of 2<sup>nd</sup> Street between Woodlawn Ave and</u> <u>Greenwood Ave ending at 3<sup>rd</sup> Street</u>; and

WHEREAS, City desires Engineer to perform certain additional consulting work for utility replacement and relocation.

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL COVENANTS CONTAINED HEREIN, THE PARTIES AGREE AS FOLLOWS:

- The total amount of compensation set forth in ATTACHMENT <u>B</u> of Contract No. 52586 shall increase by <u>Fourteen Thousand Five Hundred Dollars</u> (<u>\$14,500</u>) for a total not to exceed amount of <u>Fifty Four Thousand Five Hundred Dollars</u> (<u>\$54,500</u>).
- The payment for the additional services to be performed under this Amendment shall be based on the <u>2025</u> Schedule of Hourly Charges set forth in ATTACHMENT <u>A</u> to this Amendment.
- The Scope of Services as set forth in Contract No. <u>52586</u> shall be amended as follows: Add the following at the end of Attachment A, Section 3, Civil Engineering Services:
  - f. Waterline Scope of Services (Project No. 281250.18)
    - i. Prepare plan drawings and associated details in accordance with the current design criteria of the Owner for waterline replacement/ relocation associated with the sanitary sewer replacement as a part of the road project. The plan drawings and associated details will be incorporated into the road project bid set documents. Waterline replacement is as shown in Attachment B to this Amendment.

- Perform engineering design and plan sheet preparation for water main and appurtenances including valves, hydrants, and connections to existing water distribution system pipelines.
- 2. Prepare 60-percent and 90-percent drawing submittals for review and comment by the Owner. The 60-percent design submittal drawings shall include the location of proposed water mains with respect to existing facilities and topographical features, proposed connection points, and general construction requirements. The 60percent design submittal drawings will be submitted to the Owner for review and comment. The Owner's comments shall be addressed in the 90-percent submittal. The 90-percent design submittal documents shall include complete designs for all facilities with all associated details and construction notes. Technical specifications (as necessary to supplement the Owner's Standard Technical Specifications) will also be included with the submittal. The 90-percent design submittal documents will be submitted to the Owner for review and comment. The Owner's comments shall be incorporated into the final construction documents.
- 3. Coordinate waterline location with the proposed sanitary sewer replacement.
- ii. Perform a maximum of 2 site visits by the Engineer.
- g. Sanitary Sewer Scope of Services (Project No. 291128.10)
  - i. Prepare plan drawings and associated details in accordance with the current design criteria of the Owner for sanitary sewer replacement in the alley between 2<sup>nd</sup> and 3<sup>rd</sup> Street and Greenwood and Woodlawn Avenue. The plan drawings and associated details will be incorporated into the road project bid set documents. Sanitary sewer replacement is as shown in Attachment C to this Amendment.
    - Perform engineering design and plan sheet preparation for sanitary sewer main, manholes, connection to the existing sanitary sewer system, and bypass pumping (as necessary).

- 2. Prepare 60-percent and 90-percent drawing submittals for review and comment by the Owner. The 60-percent design submittal drawings shall include the location of proposed water mains with respect to existing facilities and topographical features, proposed connection points, and general construction requirements. The 60percent design submittal drawings will be submitted to the Owner for review and comment. The Owner's comments shall be addressed in the 90-percent submittal. The 90-percent design submittal documents shall include complete designs for all facilities with all associated details and construction notes. Technical specifications (as necessary to supplement the Owner's Standard Technical Specifications) will also be included with the submittal. The 90-percent design submittal documents will be submitted to the Owner for review and comment. The Owner's comments shall be incorporated into the final construction documents.
- ii. Perform a maximum of two (2) site visits by the Engineer.
- h. Public Meetings (Waterline & Sanitary Sewer)
  - i. Participate in up to two (2) public meetings (inclusive of road and water improvements) organized by City of Topeka staff, if requested.
- i. Bid Phase Services (Waterline & Sanitary Sewer)

The following bid phase services are combined with the road improvements portion of the bid phase services.

- i. Provide electronic bid documents (.xlsx, .docx, and/or .pdf files) to the Owner for the online bidding process and/or prepare and distribute paper bid documents to contractors, suppliers, and other parties. Bidding documents will be included with road improvements
- Prepare final opinion of probable construction cost and provide it to the Owner as an Excel (.xlsx) file to be included with the road improvements opinion of probable construction costs.
- iii. Respond to questions raised by plan holders during the bid advertisement period.
- iv. Prepare addenda and submit to Owner for distribution.

- v. Attend and assist with the pre-bid conference, if required. Prepare agenda, if necessary. Prepare minutes from the meeting and distribute to all attendees and plan holders as provided by Contracts & Procurement Division.
- 4. All other terms and conditions of City of Topeka Contract No. <u>52586</u> not specifically amended herein shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have hereto executed this Amendment as of the day and year first above written.

Project Nos. <u>841201.02</u>

#### CITY OF TOPEKA PUBLIC WORKS DEPARTMENT ENGINEERING DIVISION

#### STANDARD AGREEMENT FOR ENGINEERING SERVICES

THIS AGREEMENT, is between the City of Topeka, Kansas (Owner) and Professional Engineering Consultants, P.A. (Engineer);

#### WITNESSETH:

WHEREAS, the Owner wishes to employ the Engineer to perform professional engineering services on

841201.02 for Alley Repair South of 2<sup>nd</sup> Street Between Woodlawn Avenue and Greenwood Avenue ending at

3<sup>rd</sup> Street. These services include providing engineering design and construction documents for the

replacement of existing pavement; and,

WHEREAS, the Owner requires certain engineering services in connection with the Project (the Services); and,

WHEREAS, the Engineer is prepared to provide the Services;

NOW THEREFORE, in consideration of the promises contained in this Agreement, the Owner and Engineer.

agree to the following:

#### **ARTICLE 1 - EFFECTIVE DATE**

The effective date of this Agreement shall be \_\_\_\_\_\_

#### **ARTICLE 2 - GOVERNING LAW**

This Agreement shall be governed by the laws of the State of Kansas and the codes of the City of Topeka.

#### **ARTICLE 3 - SERVICES TO BE PERFORMED BY ENGINEER**

Engineer shall perform the Services described in Attachment A, Scope of Services, in accordance with applicable sections of the City of Topeka Design Criteria and Drafting Standards of latest revision.

#### **ARTICLE 4 - COMPENSATION**

Owner shall pay Engineer in accordance with the Attachment B, Compensation.

#### **ARTICLE 5 – OWNER'S RESPONSIBILITIES**

Owner shall be responsible for all matters described in Attachment C, Owner's Responsibilities.

#### **ARTICLE 6 - SUPPLEMENTAL AGREEMENTS**

The provisions set forth in Attachment D, Supplemental Agreements shall be incorporated into this Agreement.

#### **ARTICLE 7 - PROJECT SCHEDULE**

The provisions set forth in the Attachment E, Project Schedule shall be incorporated into this Agreement.

#### **ARTICLE 8 - STANDARD OF CARE**

Engineer shall exercise the same degree of care, skill, and diligence in the performance of Services as is ordinarily possessed and exercised by a professional engineer under similar circumstances.

#### **ARTICLE 9 - INDEMNIFICATION AND INSURANCE**

Engineer hereby agrees to fully indemnify and hold harmless Owner and any of its departments, divisions, agencies, officers, employees and elected officials from all loss, damage, cost, or expenses specifically including attorneys' fees and other expenses of litigation incurred by or on behalf of the Owner and any of its officers, employees or elected officials arising out of Engineer's negligent performance of Services under this Agreement. Engineer specifically agrees that this duty to indemnify and hold harmless will apply to the following:

a. Claims, suits, or action of every kind and description when such suits or actions arise from the alleged negligent acts, errors, or omissions of the Engineer, its employees, agents, or subcontractors.

b. Injury or damages received or sustained by any party because of the negligent acts, errors, or omissions of the Engineer, its employees, agents, or subcontractors.

Engineer shall purchase and maintain during the life of this Agreement, insurance coverage which will satisfactorily insure him against claims and liabilities which arise because of the execution of this Agreement. The insurance coverages are as follows:

- Commercial General Liability Insurance, with a limit of \$1,000,000 for each occurrence and \$2,000,000 in the general aggregate.
- (2) Automobile Liability Insurance, with a limit of \$1,000,000 for each accident, combined single limit for bodily injury and property damage.
- (3) Worker's Compensation Insurance and Employer's Liability Insurance, in accordance with statutory requirements, with a limit of \$500,000 for each accident.
- (4) Professional Liability Insurance, with a limit of \$1,000,000 for each claim and aggregate.

Prior to issuance of the Notice to Proceed by Owner, Engineer shall have on file with Owner certificates of insurance acceptable to Owner. Said certificates of insurance shall be filed with Owner in January of each year or may be submitted with each agreement.

Engineer shall also maintain valuable papers insurance to assure the restoration of any plans, drawings, field notes or other similar data relating to the work covered by this agreement, in the event of their loss or destruction, until such time as the work has been delivered to the Owner.

Upon completion of all Services, obligations, and duties provided for in this Agreement, or if this Agreement is terminated for any reason, the terms and conditions of this Article shall survive.

#### **ARTICLE 10 - LIMITATIONS OF RESPONSIBILITY**

Engineer shall not be responsible for: (1) construction means, methods, techniques, sequences, procedures, or safety precautions and programs in connection with the Project, (2) the failure of any contractor, subcontractor, vendor, or other Project participant, not under contract to Engineer, to fulfill contractual responsibilities to the Owner or to comply with federal, state or local laws, regulations, and codes; or (3) procuring permits, certificates, and licenses required for any construction unless such responsibilities are specifically assigned to Engineer in Attachment A, Scope of Services.

#### **ARTICLE 11 - OPINIONS OF COST AND SCHEDULE**

Since Engineer has no control over the cost of labor, materials, or equipment furnished by others, or over the resources provided by others to meet Project construction schedules, Engineer's opinion of probable construction costs and of construction schedules shall be made on the basis of experience and qualifications as a professional engineer. Engineer does not guarantee that proposals, bids, or actual Project construction costs will not vary from Engineer's projected schedules.

#### **ARTICLE 12 - REUSE OF DOCUMENTS**

All documents, including, but not limited to, drawings, specifications, and computer software prepared by Engineer pursuant to the Agreement are instruments of service in respect to the Project. They are not intended or represented to be suitable for reuse by Owner or others on extensions of the Project or on any other project. Any reuse without prior written verification or adaptation by Engineer for the specific purpose intended will be at Owner's sole risk and without liability or legal exposure to Engineer. Any verification or adaptation requested by Owner shall entitle Engineer to compensation at rates to be agreed upon by Owner and Engineer.

#### **ARTICLE 13 - OWNERSHIP OF DOCUMENTS AND INTELLECTUAL PROPERTY**

Except as otherwise provided herein, engineering documents, drawings, and specifications prepared by Engineer as part of the Services shall become the sole property of Owner, however, that both Owner and Engineer shall have the unrestricted right to their use. Engineer shall retain its rights in its standard drawing details, specifications, data bases, computer software, and other proprietary property protected under the copyright laws of the United States. Rights to intellectual property developed, utilized, or modified in the performance of services shall remain the property of Engineer. Owner shall have the unlimited right to the use of intellectual property developed, utilized, or modified in the performance of the Services at no additional cost to the Owner.

#### **ARTICLE 14 - TERMINATION**

This Agreement may be terminated by either party upon written notice in the event of substantial failure by the other party to perform in accordance with the terms of this Agreement. The nonperforming party shall have fifteen calendar days from the date of the termination notice to cure or to submit a plan for cure acceptable to the other party. Owner may terminate or suspend performance of this Agreement for Owner's convenience upon written notice to Engineer. Engineer shall terminate or suspend performance of the Services on a schedule acceptable to Owner. If termination or suspension is for Owner's convenience, Owner shall pay Engineer for all Services performed prior to the date of the termination notice. Upon restart, an adjustment acceptable to Owner and Engineer shall be made to Engineer's compensation.

#### **ARTICLE 15 - DELAY IN PERFORMANCE**

Neither Owner nor Engineer shall be considered in default of the Agreement for delays in performance caused by circumstances beyond the reasonable control of the nonconforming party. For purposes of this Agreement, such circumstances include abnormal weather conditions; floods; earthquakes; fire; epidemics; war, riots, or other civil disturbances; sabotage, judicial restraint, and inability to procure permits, licenses, or authorizations from any local, state, or federal agency for any of the supplies, materials, accesses, or services required to be provided by either Owner or Engineer under this Agreement.

5

Should such circumstances occur, the nonconforming party shall, within a reasonable time of being prevented from performing, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of the Agreement.

For delays in performance by Engineer, as set forth in Attachment E, Project Schedule, which are caused by circumstances which are within its control, such delays shall be documented on the Engineer's Project Performance Evaluation form. Said form shall be completed at the conclusion of Project and acknowledged by both Owner and Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects.

In the event Engineer is delayed in the performance of Services because of delays caused by Owner, Engineer shall have no claim against Owner for damages or contract adjustment other than an extension of time.

#### **ARTICLE 16 - COMMUNICATIONS**

Any communication required by this Agreement shall be made in writing to the address specified below:

Engineer: Fo Alangurli, PE, PTOE Professional Engineering Consultants, P.A. 400 S. Kansas Ave, Suite 200 Topeka, KS 66603 785-233-8300

Owner: City of Topeka City Clerk 215 SE 7th Street, Room 166 Topeka, KS 66603 (785) 368-3940

With a Copy to: City of Topeka Engineering Division Joe Harrington, PE 620 SE Madison, 2nd Floor Topeka, KS 66607 (785) 368-3842

Nothing contained in the Article shall be construed to restrict the transmission of routine communications

between representatives of Engineer and Owner.

#### **ARTICLE 17 - WAIVER**

A waiver by either Owner or Engineer of any breach of this Agreement shall be in writing. Such a waiver shall not affect the waiving party's rights with respect to any other or further breach.

#### **ARTICLE 18 - SEVERABILITY**

The invalidity, illegality, or unenforceability of any provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void provision shall be deemed severed from this Agreement, and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this Agreement this entire Agreement from being void should a provision which is of the essence of this Agreement be determined void.

#### **ARTICLE 19 - INTEGRATION**

This Agreement represents the entire and integrated agreement between Owner and Engineer. All prior and contemporaneous communications, representations, and agreements by Engineer, whether oral or written, relating to the subject matter of this Agreement, as set forth in Attachment D, Supplemental Agreements are hereby incorporated into and shall become a part of this Agreement

#### **ARTICLE 20 - SUCCESSORS AND ASSIGNS**

Owner and Engineer each binds itself and its directors, officers, partners, successors, executors, administrators, assigns, and legal representatives to the other party of this Agreement and to the directors, officers, partners, successors, executors, administrators, assigns, and legal representatives of such other party in respect to all provisions of this Agreement.

#### **ARTICLE 21 - ASSIGNMENT**

Neither Owner nor Engineer shall assign any rights or duties under this Agreement without the prior written consent of the other party. Unless otherwise stated in the written consent to an assignment, no assignment will release or discharge the assignor from any obligation under this Agreement. Nothing contained in this Article shall prevent Engineer from employing independent consultants, associates, and subcontractors to assist in the performance of the Services; however, other agreements to the contrary notwithstanding, in the event Engineer employs independent consultants, associates, and subcontractors to assist in performance of the Services, Engineer shall be solely responsible for the negligent performance of the independent consultants, associates, and subcontractors so employed.

#### **ARTICLE 22 - THIRD PARTY RIGHTS**

Nothing in this Agreement shall be construed to give any rights or benefits to anyone other than Owner and Engineer.

#### **ARTICLE 23 – RELATIONSHIP OF PARTIES**

Nothing contained herein shall be construed to hold or to make the Owner a partner, joint venturer, or associate of Engineer, nor shall either party be deemed the agent of the other, it being expressly understood and agreed that the relationship between the parties hereto is and shall at all times remain contractual as provided by the terms and conditions of this Agreement.

Project Nos. <u>841201.02</u>

#### ATTACHMENT A TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name:

City of Topeka, Kansas Professional Engineering Consultants, P.A. 841201.02 – Alley Repair South of 2<sup>nd</sup> Street Between Woodlawn Ave and Greenwood Ave

#### SCOPE OF SERVICES

#### BASIC SERVICES

The project is specifically defined below:

The Project shall consist of alley pavement repair south of 2<sup>nd</sup> Street Between Woodlawn Ave and Greenwood Ave ending at 3<sup>rd</sup> Street.

The Engineer agrees to provide the following services.

- 1. Basic Engineering Services:
  - a. Provide project correspondence and consultation with Owner.
  - b. Attend and assist in facilitating a pre-design kickoff meeting with Owner to formalize the design criteria and project boundaries, lines of communication and overall project procedures.
  - c. Provide project deliverables consisting of the following sealed by an Engineer licensed in the State of Kansas where applicable.
    - i. Field Check Plans
    - ii. Office Check Plans
    - iii. Final Check Plans
    - iv. Bid Documents (including special provisions if necessary)
  - d. Provide an engineer's opinion of probable cost at concept, field check, office check, final check and bid document submittals.
  - e. Facilitate design review meeting with the Owner at each submittal stages as listed above.
  - f. Provide record drawings to the Owner based on the red-line marked-up plans within 30 calendar days after red-lined marked-up pans are provided to the Engineer by the Owner.
- 2. Field Survey Services
  - a. Set inter-visible control points in area of construction. Obtain reference ties.
  - b. Set benchmark within building area for construction.
  - c. Recover sufficient monumentation as required to enable drafting of boundary information.
  - d. Collect topographic survey data, including surface locations sufficient to provide 1' contours per the survey limits sketch (Attachment G).
  - e. Locate all above and below grade utility improvements. PEC will not be responsible for searching for utilities beyond utilizing the One Call system.
  - f. Compare record information received from utility providers to actual utilities flagged in the field. Notify locating service of any discrepancies and make a reasonable effort to resolve in the field. Utilities identified in record information that cannot be resolved in the field will be drafted in the general alignment shown in the record information and will be specifically identified as "RECORD" on the deliverable drawing. PEC is not responsible for the accuracy of utility information not physically identified on-site.

- g. Locate all points of egress for any structures within the survey limits, including a Finished Floor Elevation (FFE) at each doorway.
- h. Locate all sanitary and storm sewer structures, such as area inlets, curb inlets, junction boxes, manholes, etc., the top of structure information will be collected as well as all flowlines in and out, and pipe size/material.
- i. Locate all buildings and substantial features, including parking stripes, sidewalks, paving limits/type, playground areas/equipment, landscape areas, etc.
- j. Tree limits, groups of trees and specimen trees will be identified and shown in the drawing. Any trees four (4) caliper inches and larger shall be identified/shown (REMOVE).
- k. Survey limits that extend into the adjacent street right of way shall include all improvements/utilities within the half width of right of way.
- 1. The coordinate base will be Kansas State Plane NAD 83(2011) North Zone and the elevations will be referenced to the NAVD 29 datum.
- 3. Civil Engineering Services:
  - a. Prepare plan drawings (and special provisions if necessary) in accordance with the current design criteria of the Owner. Below is a list of anticipated plan drawings/sheet index:
    - i. Title sheet
    - ii. General notes, project survey control, seal sheet & bid items
    - iii. Typical sections
    - iv. Plan & Profile sheets Alley
    - v. Paving Details Alley
  - b. Perform a maximum of two site visits by the Engineer.
  - c. Utility Coordination
    - i. Compare record utility information/maps to surveyed utility information. Notify utility owners of any discrepancies and acquire updated utility information for location verification.
    - ii. Provide concept plans to utility companies for review.
    - iii. Facilitate utility coordination meetings. Provide electronic versions of agendas, meeting summaries, and associated graphics and materials to the utility owners and Owner.
    - iv. Identify potential utility conflicts with proposed project construction and determine critical areas defined as within 10 horizontal feet of construction where significant excavation is occurring.
    - v. Provide preliminary utility plans (Field Check) and utility conflict list to utility companies for their review, comment and use in developing respective utility relocation plans.
    - vi. Provide final utility plans (Office Check) to utility companies.
    - vii. Record PROJECT related correspondence with the utility companies.
  - d. Prepare a Storm Water Pollution Prevention Plan (SWPPP) in accordance with the Kansas Department of Health and Environment (KDHE) requirements. This plan will assist in the completion of the Notice of Intent (NOI) Form.
  - e. Preparation of KDHE NOI permit if total disturbance is greater than one acre.
- 4. Public/Community Engagement Services
  - a. The Engineer will work with the Owner to identify impacted properties. The Owner will coordinate with the property owners and schedule the sessions. The Engineer will be available for in-person sessions for five (5) days. The Engineer will work with the Owner to develop a list of questions and discussion topics for the sessions. The Engineer will develop invites, graphics and other materials, facilitate the sessions and provide a summary of input received.
  - b. Participate in up to two (2) public meetings organized by the City of Topeka Staff, if requested. (Typically after Field Check and at Final Check stages)
- 5. Project Management Services
  - a. Provide Quality Check Reviews and Coordination with the Owner at each submittal stage.
  - b. Respond to questions raised by plan holders during the bid advertisement period associated with the waterline project.
  - c. Assist in the preparation of any addenda.
  - d. Attend and assist at pre-bid conference, if required. Assist in the preparation of the agenda. Assist in the preparation of minutes from the meeting and provide to Contracts & Procurement Division for distribution.

- e. Assist in the preparation of the final opinion of probable construction cost and provide it to the Owner as an Excel (.xlsx) file.
- f. Assist in the review of the bids. Make contact with contractor references and evaluate contractor qualifications as necessary.
- g. Assist in the preparation of a bid tabulation sheet and submit as a Microsoft Excel (.xlsx) file.
- h. Assist in the preparation of the recommendation of contract award to the Owner.
- i. Assist in the preparation of the formal Contract Documents for execution by the Owner and selected contractor.

Project Nos. <u>841201.02</u>

#### SUPPLEMENTAL SERVICES

Any work requested by the Owner that is not included in the Basic Services will be classified as Supplemental Services. Supplemental Services shall include, but are not limited to the following.

- 1. Changes in the general scope, extent, or character of the project or its design, including but not limited to changes in size, complexity, Owner's schedule, character of construction or method of financing; and revising previously accepted studies, reports, or design documents when such revisions are required by change in laws, regulations, ordinances, codes, or orders enacted subsequent to the preparation of such studies/reports/documents or design or due to any other causes beyond the Engineer's control.
- 2. Utility Relocation/Extension Design: Includes any public utility design not included within the scope of services above.
- 3. Appraisal of properties, easements, and right-of-way.
- 4. Easement and right-of-way acquisition or vacation.
- 5. Platting and/or Zoning change processes.
- 6. ALTA/NSPS Land Title Survey.
- 7. Potholing/vacuum excavation of existing utilities.
- 8. Return trips for survey field location of excavated utilities.
- 9. Depiction of relocated as-built utilities on plans.
- 10. Procurement of Ownership and Encumbrance Reports.
- 11. Staking for Right-of-Way negotiations.
- 12. Meetings with local, State, or Federal agencies beyond those specifically identified in the above scope of services.
- 13. Additional topographical surveys for areas outside of the project limits.
- 14. Additional geological services.
- 15. Permitting application preparation beyond that provided in the Scope of Services, including but not limited to: Division of Water Resources (DWR); Wildlife & Parks; Historic Preservation; etc.
- 16. Attendance at public meetings beyond those specifically identified in the above scope of services.
- 17. Structural design of retaining walls.
- 18. Alternate designs not specifically listed in the Scope of Services.
- 19. Construction Project Administration for the roadway reconstruction, including but not limited to, shop drawing and submittal reviews, project coordination during construction, or site visits during construction.
- 20. Resident Project Representative and periodic professional construction observation services.
- 21. Additional services not included in the above scope of services.
- 22. Franchise Utility Design.
- 23. Environmental site assessments/services.
- 24. Permit and review fees.
- 25. Handling of contaminated soils, if encountered during geotechnical investigation.

#### ATTACHMENT B TO AGREEMENT FOR ENGINEERING SERVICES

Owner: Engineer: Project Number & Name:

City of Topeka, Kansas Professional Engineering Consultants, P.A. 841201.02 – Alley Repair South of 2<sup>nd</sup> Street Between Woodlawn Ave and Greenwood Ave

#### COMPENSATION

For the services covered by this Agreement, the Owner agrees to pay the Engineer as follows:

A. For the Basic Services described in Attachment A, the fee will not exceed \$40,000.00 . Payments shall be made monthly in amounts which are consistent with the amount of engineering services provided, as determined by the Engineer.

| FEE BREAKDOWN              |       |          |  |  |
|----------------------------|-------|----------|--|--|
| Field Services (Survey)    |       | \$14,400 |  |  |
| Roadway Design Services    |       | \$20,600 |  |  |
| Public Engagement Services |       | \$5,000  |  |  |
|                            | TOTAL | \$40,000 |  |  |

- B. Compensation for Supplemental Services shall be made as defined below, when authorized in writing by the Owner. The maximum limit for each item of additional service shall be established individually and specifically agreed to by the Owner as stated below, unless the service is included in a subsequent agreement.
- C. Hourly rates for each classification as defined by the Engineer's rate schedule, see Attachment F. Hourly charge rates are subject to adjustment annually on January 1. Overtime, when authorized by the Owner, will be billed at 1.50 times the rates listed (non-engineer time only).
   Reimbursable charges will be considered the amount of actual costs of expenses or charges, including such items as staking materials, equipment rental, equipment hourly charges, mileage, toll telephone calls, reproduction and similar project related expenses.
- D. The entire amount of each statement shall be due and payable upon receipt by the Owner.
- E. It is understood and agreed:
  - 1. That the Engineer shall start the performance of Services within 10 days of receipt of a notice to proceed and shall complete the work in accordance with the contract times set forth in Attachment E, Project Schedule.
  - 2. That the Engineer shall keep records on the basis of generally accepted accounting practice of costs and expenses which records shall be available for inspection at all reasonable times.

City of Topeka, Kansas Professional Engineering Consultants, P.A. 841201.02 – Alley Repair South of 2<sup>nd</sup> Street Between Woodlawn Ave and Greenwood Ave

#### **OWNER'S RESPONSIBILITIES**

The Owner will furnish, as required by the work and not at the expense of the Engineer, the following items:

- 1. Make available to the Engineer all records, reports, maps, and other data pertinent to provision of the services required under this contract.
- 2. Examine all plans, specifications and other documents submitted by the Engineer and render decisions promptly to prevent delay to the Engineer.
- 3. Designate one City of Topeka employee as the Owner representative with respect to all services to be rendered under this agreement. This individual shall have the authority to transmit instructions, receive information and to interpret and define the Owner's policies and decisions pertinent to the Engineer's services.
- 4. Issue notices to proceed to the Engineer for each phase of the design services.

#### **PROJECT SCHEDULE**

Owner and Engineer recognize that time is of the essence of the Agreement and that Owner will suffer financial loss if the work is not completed within the times stipulated herein, plus any extensions thereof. Accordingly, Engineer has established time intervals, in calendar days, for submittals at various stages of the project as detailed below. As each actual submittal date occurs, Engineer shall meet with Owner to discuss the progress of the work and the actual submittal date shall be documented. If project is behind schedule, the reason shall be recorded. Engineer shall not be responsible for the time required by Owner's representative to review Engineer's submittal. When review is complete, Owner shall, in writing, authorize Engineer to proceed to the next submittal date. After final submittal date, Engineer and Owner shall meet to evaluate Engineer's performance with regard to design schedule. An Engineer's Project Performance Evaluation form shall be completed and acknowledged by both Owner and Engineer. Completed form shall be retained by Owner for a period of five years and reviewed prior to consultant selection for City projects. Past performance shall be accounted for on the evaluation sheet used to rank consultants during the interview process.

- 1. Schedule: Engineer will make plan submittals to Owner based on the following schedule:
  - a. Survey Service Engineer will complete survey services within 45 calendar days after Notice to Proceed by Owner.
  - b. Field Check Engineer will submit field check drawings within 30 calendar days after Notice to Proceed by Owner.
  - c. Office Check Engineer will submit office check drawings and specifications within 30 calendar days after the Notice to Resume Work is given by Owner following Field Check.
  - d. Bid Documents Engineer will submit bid documents within 15 calendar days after the Notice to Resume Work is given by Owner following Office Check.
  - e. As-Built Plans Engineer will submit as-built plans within 30 calendar days after marked-up plans are returned to the Engineer, from the Owner or within 30 calendar days after all punch list items have been completed if the Engineer's firm provided construction inspection services for the project.

### ADDITIONAL REMARKS

### THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM,

This Insurance is Primary & Non-Contributory on the General Liability, Automobile Liability and Umbrella Liability Policies, if required by written contract or agreement, subject to the policy terms and conditions.

A Waiver of Subrogation is provided in favor of the Certificate Holder and all other parties required by the contract on the General Liability, Automobile Liability, Umbrella Liability, Professional Liability and Workers Compensation Policies, if required by written contract or agreement, subject to the policy terms and conditions.

General Liability, Automobile Liability, Umbrella Liability, Professional Liability and Workers Compensation Coverages include 30 day notice of cancellation, subject to the policy terms and conditions.

Umbrella Liability policy is in excess of the General Liability, Automobile Liability and Employers Liability Policies, subject to the policy terms and conditions. RE: PEC PN: 221114-000.

## **TERMS AND CONDITIONS**

1. **PAYMENTS AND INVOICING:** Payments will be made in accordance with the terms of this order or the Seller's invoice whichever is more favorable to the City. All invoices mus t include the Purchase Order Number and should be mailed to:

City of Topeka, KS Accounting Division 215 SE 7th Street, Room 358 Topeka, KS 66603-3914

2. **ACCEPTANCE OF PURCHASE ORDER:** A purchase order is given for immediate acceptance by the Seller . Unless promptly notified to the contrary, the City will assume the Seller accepts the order as written and will make delivery as specified on the purchase order.

3. **ENTIRE AGREEMENT:** All specifications, drawings and data submitted to the Seller with this order or the bid solicitation for this order are hereby incorporated herein and made part hereof. No changes in quantities, prices, specifications, terms or shipping instructions will be allowed exceller on authority of the City of Topeka, Contracts & Procurement Division.

4. **TRANSPORTATION CHARGES:** Transportation expenses for all shipments shall be prepaid to de stination (FOB Destination, prepaid and allowed) unless otherwise agreed to by the e parties and specified on the purchase order. No charges will be allowed by the City for transportation, packing, h andling, or containers unless otherwise authorized in the purchase order or by the City of Topeka, Contracts & Procurement Division.

5. **INSPECTION:** Materials or equipment purchased are subject to inspection and a pproval at the City 3 destination. The City of Topeka reserves the right to reject and refuse acceptance of items which are not in accordance with this order. Rejected materials or equipment shall be removed by or at the expense of the Seller.

6. **WARRANTY:** The Seller warrants that all goods and services furnished will c onform to the terms of this order and that they will be free from latent and patent defects in mater ials, workmanship and free from such defects in design. The City may return any nonconforming or defective items to the Seller or require correction or replacement of the item at the time the defect is discovered, all at the Seller's risk and expense.

7. **TAXES:** Unless otherwise indicated on this order, the City of Topeka is exempt from Federal Excise Tax, State taxes and local taxes. Tax Exemption Certificates will be furnished upon request.

8. **EQUAL EMPLOYMENT OPPORTUNITY:** State of Kansas State Statute K.S.A. 44-1030 shall be a material term of this contract.

9. **HOLD HARMLESS:** It is agreed that the goods, materials, equipment or services rendered shall comply with all Federal, State or Local laws relative thereto, and that the Seller harmless the City or its officials or employees from loss, cost or letters patent, or for any other reason.

10. **DEFAULT:** In case of default or breach by the Seller, the City may procure the goods or services from other sources and charge the Seller as liquidated damages any excess cost or damages occasioned thereby.

11. **INQUIRIES:** Questions concerning the purchase order may be made to:

CONTRACTS & PROCUREMENT DIVISION City of Topeka 215 SE 7th Street, Room 60 Topeka, KS 66603-3914 TEL: 785-368-3749 FAX: 785-368-4499

## ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Carahsoft OBO City of Topeka (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

## **Getting paper copies**

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

## Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

## Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

## All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

## How to contact Carahsoft OBO City of Topeka:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows: To contact us by email send messages to: sschoonover@topeka.org

## To advise Carahsoft OBO City of Topeka of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at sschoonover@topeka.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

## To request paper copies from Carahsoft OBO City of Topeka

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to sschoonover@topeka.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

## To withdraw your consent with Carahsoft OBO City of Topeka

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to sschoonover@topeka.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process.

## **Required hardware and software**

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <u>https://support.docusign.com/guides/signer-guide-signing-system-requirements</u>.

## Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify Carahsoft OBO City of Topeka as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by Carahsoft OBO City of Topeka during the course of your relationship with Carahsoft OBO City of Topeka.

#### **Project Description:**

The Water Main Replacement Program focuses on restoring water mains located in areas with extensive break and repair histories. In recent years, water main breaks have become more prevalent due to the aging infrastructure. Based on historic studies and experience in the United States, the average useful life for water mains ranges between 75-100 years, depending upon local soil and environmental conditions. Beyond this period, failure is imminent. This project will also involve activities to improve public education on risks from lead while evaluating materials throughout the distribution system to ensure that customers are receiving the highest quality water. The Lead and Copper Rule Revisions (LCRR) encompasses water quality evaluations, distribution system materials assessment, and replacements in both public and private water service lines. Sub-projects in the CIP period are planned to include but not limited to: Stonybrook Drive, Lakeside Drive, SW 21st St & Topeka Blvd Montara Northway Ph II & III, Moundview Drive, and Quincy - SE 8th St to SE 10th St.

#### **Project Justification:**

Data obtained using Fracta, a technology solution which utilizes information on the City's pipelines in combination with other data to determine the probability of failure for each segment of main throughout the water system, is used to assist in determining projects in the program. Citizen and Council requests vary annually, but they are common place as citizens are highly inconvenienced by water main breaks. Replacement program efforts will also focus on needed replacements associated with half cent sales tax and other priority street improvement projects to be implemented by the City Engineering Division. There is approximately \$3,38M remaining in previous annual programs; however, all but \$754K of this is accounted for in planned projects. Grant money may be available through the American Rescue Plan Act for the water main program. Replacing aged water infrastructure improves water quality throughout the City and improves fire flow protection. Employing a proactive approach to replacing water mains will result in reduced operations costs as the number of emergency repairs are reduced.

#### History:

Topoka's water distribution system consists of nearly 890 miles of transmission and neighborhood distribution water mains ranging in size from 2 to 48 inches in diameter. Assuming the optimal asset life span of 100 years, an annual replacement program approaching nine (9.0) miles per year is required to mitigate continued progressive water main break rates. On average, Topeka has experienced a break rate of 3.8 times that of the AWWA average over the last five years, breaks increase operational costs. As of 1/31/23:

For years 2017-2018 all budgeted funds are fully expensed. 2019 Water Main Replacement Program has a budget of \$3,500,000 with expenses of \$3,306,090. \$182,577 remains unallocated.

2022 Water Main Replacement Program has a budget of \$6,500,000 with expenses of \$3,000,000. Budget was reduced to \$4,000,000,0th is is closed.
 2020 Water Main Replacement Program has a budget of \$6,500,000 with expenses of \$5,102,741. WMR Program has \$0.00 unallocated. Remaining open projects are 281205.05, .06, .07, .14, .16, .18, .19 & .20
 2022 Water Main Replacement Program has a budget of \$6,500,000 with expenses of \$5,132,741. WMR Program has \$0.00 unallocated. Remaining open projects are 281205.05, .06, .07, .14, .16, .18, .19 & .20
 2022 Water Main Replacement Program has a budget of \$6,500,000 with expenses of \$5,12,743. \$62,638.78 remains unallocated as a part of the contingency.
 2023 Water Main Replacement Program has a budget of \$7,217,750 with expenses of \$3,125,480. \$590,485 remains unallocated as a part of the contingency.

## **DOCUMENT DESCRIPTION:**

**RESOLUTION** introduced by Councilmember Valdivia-Alcala, approving a special event known as the **Our Lady of Guadalupe 92nd Annual Fiesta Topeka.** (*Council District No. 2*)

(Approval would allow for the sale, consumption and possession of alcoholic liquor on the designated barricade portions of Lake Street from Atchison Avenue to Greeley Street; Greeley Street from Branner Street to Lake Street; Atchison Avenue from Branner Street to Lime Street; Chandler Street from Atchison Avenue to State Street for Our Lady of Guadalupe Fiesta Mexicana on July 15-19, 2025, between the designated hours.)

## **VOTING REQUIREMENTS:**

At least six (6) votes of the Governing body is required.

## POLICY ISSUE:

Approval allows the barricaded portion of Lake Street from Atchison Avenue to Greeley Street; Greeley Street from Branner Street to Lake Street; Atchison Avenue from Branner Street to Lime Street; Chandler Street from Atchison Avenue to State Street to be closed to motor vehicle traffic for a special event, allowing special event attendees to buy, possess and consume alcoholic beverages in the specific area designated by the State of Kansas Division of Alcohol Beverage Control.

## **STAFF RECOMMENDATION:**

Staff recommends the Governing Body move to approve the resolution.

## BACKGROUND:

Vendors holding the appropriate license from the State of Kansas to sell alcoholic liquor may in accordance with

all state laws and municipal ordinances sell alcoholic liquor in the specific area designated by the Division of Alcohol Beverage Control within the barricaded portion of Lake Street from Atchison Avenue to Greeley Street; Greeley Street from Branner Street to Lake Street; Atchison Avenue from Branner Street to Lime Street; Chandler Street from Atchison Avenue to State Street for Our Lady of Guadalupe Fiesta Mexicana on July 15 through 19, 2025, between the hours of 4:00 p.m. and 1:00 a.m.

## BUDGETARY IMPACT:

There is no budgetary impact to the City.

**Description** 

Resolution - Fiesta Topeka - Special Event

1 RESOLUTION NO. 2 3 introduced by Councilmember Christina Valdivia-Alcala, approving a A RESOLUTION 4 special event known as the Our Lady of Guadalupe 92nd 5 Annual Fiesta Topeka. 6 7 BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF TOPEKA. 8 KANSAS, that: 9 Section 1. Pursuant to state law, alcoholic liquor may be consumed at a special 10 event to be held on designated public streets, alleys, and sidewalks when a temporary 11 permit has been issued by the Kansas Division of Alcohol Beverage Control (ABC) and the 12 governing body has approved the event as required by K.S.A. 41-719 and 41-1201 and 13 amendments thereto. 14 Having considered the request of the sponsor of the Our Lady of Section 2. 15 Guadalupe 91st Annual Fiesta Topeka to allow the possession and consumption of 16 alcoholic liquor, the governing body hereby approves the event to be held on July 15, 16 17 and 17, 2025, between the hours of 4:00 p.m. and 11:00 p.m. and July 18 and 19, 2025

between the hours of 4:00 p.m. and 11:59 p.m., provided the sponsor secures a temporary
permit from ABC and complies with all state laws and ordinances regulating alcoholic
liquor.

<u>Section 3.</u> A portion or all of the following streets/alleys shall be closed to motor
 vehicle traffic during the dates and times identified in Section 2: NE Branner Street from
 NE Greeley Street to NE Atchison Avenue; NE Atchison Avenue from NE Branner Street to
 NE Lake Street; NE Chandler Street from Atchison Avenue to State Street; NE Greeley
 Street from NE Lake Street to NE Branner Street; and NE Seward Avenue from NE
 Chandler Street to NE Branner Street. Pursuant to K.S.A. 41-719 and 41-1201, the

1

| 27                                     | sponsor shall ensure that the area in which alcoholic liquor is possessed or consumed is |

## **DOCUMENT DESCRIPTION:**

RESOLUTION introduced by Councilmember Valdivia-Alcala granting Our Lady of Guadalupe an exception to the provisions of City of Topeka Code Section 9.45.150, et seq., concerning noise prohibitions. (*Council District No. 2*)

(Approval would allow for live bands and amplified music and sound during the hours of 4:00 p.m. and 11:59 p.m. on July 15-19, 2025, at specified locations.)

## **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

## POLICY ISSUE:

City of Topeka Code Section 9.45.170, et seq., authorizes the City Council to grant noise exceptions. Approval grants a noise exception to Our Lady Guadalupe for the annual Fiesta Topeka during specified dates and times.

### **STAFF RECOMMENDATION:**

Staff is recommending the Governing Body approve the resolution as part of the consent agenda.

## BACKGROUND:

Our Lady Guadalupe has requested the noise exception due to live bands and amplified music and sound at the event.

## **BUDGETARY IMPACT:**

There is no budgetary impact to the City.

## SOURCE OF FUNDING:

## **DOCUMENT DESCRIPTION:**

**RESOLUTION** introduced by Councilmember Hiller granting Celtic Fox an exception to the provisions of City of Topeka Code Section 9.45.150, et seq., concerning noise prohibitions. (*Council District No. 1*)

(Approval would allow for amplified music and sound during the hours of 5:00 p.m. and 1:30 a.m. on June 21, 2025, at 118 SW 8th Avenue.)

## **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

### POLICY ISSUE:

City of Topeka Code Section 9.45.170, et seq., authorizes the Governing Body to grant noise exceptions. Approval grants a noise exception to Celtic Fox for the Sunshine Reggae Festival on June 21, 2025.

## **STAFF RECOMMENDATION:**

Staff is recommending the Governing Body approve the resolution as part of the consent agenda.

### BACKGROUND:

Celtic Fox is requesting the noise exception due to amplified music and sound at the Sunshine Reggae Festival located at 118 SW 8th Avenue during specified dates and times.

## **BUDGETARY IMPACT:**

There is no budgetary impact to the City.

## **SOURCE OF FUNDING:**

Not Applicable.

### EXCERPT

CITY OF TOPEKA, Topeka, Kansas, Tuesday, May 20, 2025. The Public Infrastructure Committee members met at 11:00 A.M. with the following Committee members present: Sylvia Ortiz, David Banks (Chair) and Michelle Hoferer (proxy Committee member). Absent: Neal Dobler.

The following is an excerpt of the draft minutes from the meeting:

APPROVAL of the Resolution recommending the Central Highland Park Neighborhood– Phase I Project Nos. 841098.02, 501107.03 and 281250.19

#### <u>Capital Improvement Project (CIP) Project Exceeding \$250K; Central Highland Park</u> <u>Neighborhood – Phase I Project Nos. 841098.02, 501107.03 and 281250.19</u>

Public Works Director Steve Groen spoke to the three projects for roads and stormwater consisting of pavement reconstruction on SE 17<sup>th</sup> Street from Hudson Blvd to Chandler Street, SE 19<sup>th</sup> from Adams Street to Indiana Avenue. A reinforced concrete panel will be replaced on the 1900 block of SE Indiana Avenue. The Citywide Half-Cent Sales tax, Stormwater-Revenue Bonds and Operating Funds, and Water-Revenue Bonds and Operating Funds will be the funding sources totaling \$1,872,332. Lastly, he stated construction would be later in 2025 and Chris Bruntz is the Project Engineer.

Committee member Ortiz spoke to the access area at Indiana and Hudson Streets. She requested to be notified of updates so that Neighborhood Improvement Association (NIA) can be notified. Groen confirmed that there will always be access for residents and that his Department can attend the NIA meeting to provide information. Groen confirmed that businesses are also notified of road projects.

MOTION: Committee member Ortiz made a motion to approve and move forward to the Governing Body for action. Committee member by proxy Hoferer seconded. Motion approved 3-0-0.

#### EXCERPT

CITY OF TOPEKA, Topeka, Kansas, Tuesday, May 20, 2025. The Public Infrastructure Committee members met at 11:00 A.M. with the following Committee members present: Sylvia Ortiz, David Banks (Chair) and Michelle Hoferer (proxy Committee member). Absent: Neal Dobler.

The following is an excerpt of the draft minutes from the meeting:

APPROVAL of the Resolution recommending the Westwood Neighborhood Mill & Overlay Project No. 841097.17.

#### <u>Capital Improvement Project (CIP) Project Exceeding \$250K: Westwood Neighborhood</u> <u>Mill & Overlay Project No. 841097.17</u>

Public Works Director Steve Groen spoke to the proposed project of mill and overlay with full-depth patching and curb and gutter replacement on SW Arnold Avenue from SW 17<sup>th</sup> Street to SW 19<sup>th</sup> Street and SW 19<sup>th</sup> Street from SW Arnold Avenue to SW Pembroke Lane, SW Oakley Avenue to SW High Avenue. The project cost is at \$369,600 and will be funded through the Citywide Half-Cent Sales Tax.

Committee proxy member Michelle Hoferer asked for clarification on the timeline and if it will be full depth patching or mill overlay. Groen confirmed that everything will be completed by late summer with depth patching as needed.

Committee member Ortiz inquired about project contractor's availability. Groen responded that currently there has been at least one bidder on all City projects this year.

MOTION: Committee member Ortiz made a motion to approve and move forward to the Governing Body for action. Committee member by proxy Hoferer seconded. Motion approved 3-0-0.

#### **DOCUMENT DESCRIPTION:**

RESOLUTION introduced by Public Infrastructure Committee comprised of Councilmembers Sylvia Ortiz, David Banks and Neil Dobler recommending approval of Project No. 291152.00 for the Fleet Replacement Sewer Cleaning Machine. (*Public Infrastructure Committee recommended approval on May 20, 2025.*)

#### Voting Requirement: Action requires at least six (6) votes of the Governing Body.

(Approval of total budget of \$551,047.96 for replacement of 2019 sewer cleaning machine.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Whether to adopt the Public Infrastructure Committee's recommendation.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body move to approve the resolution.

#### BACKGROUND:

The Governing Body adopted a Resolution approving the 2024-2033 Capital Improvement Program and the 2024-2026 Capital Improvement Budget (Resolution No. 9425). The Resolution requires Governing Body approval for projects that are ready for construction and whose total project budget exceeds \$250,000. At its meeting on May

20, 2025, the Public Infrastructure Committee recommended approval of Project No. 291152.00 for the replacement of our 2019 sewer cleaning machine.

#### BUDGETARY IMPACT:

\$551,047.96

**SOURCE OF FUNDING:** 

Cash

#### EXCERPT

CITY OF TOPEKA, Topeka, Kansas, Tuesday, May 20, 2025. The Public Infrastructure Committee members met at 11:00 A.M. with the following Committee members present: Sylvia Ortiz, David Banks (Chair) and Michelle Hoferer (proxy Committee member). Absent: Neal Dobler.

The following is an excerpt of the draft minutes from the meeting:

APPROVAL of the Resolution recommending Fleet Replacement - Sewer Cleaning Machine Project No. 291152.00.

#### <u>Capital Improvement Project (CIP) Project Exceeding \$250K: Fleet Replacement -</u> <u>Sewer Cleaning Machine Project No. 291152.00</u>

Director of Utilities Sylvia Davis spoke to the replacement of a sewer cleaning machine. The current replacement scheduled has allowed Utilities Department to operate and maintain a young fleet of sewer cleaning machines. The funding source will be paid as cash 551,047.96. She added that traditionally the replacement of sewer cleaning machines is every five to six years. This process has allowed a good return on investment for trade-in value.

Committee member Ortiz asked if the schedule is in line with the five-year replacement. Davis responded that it is on the replacement schedule. She added that it is now on the CIP for approval due to Ordinance changes.

MOTION: Committee member Ortiz made a motion to approve and move forward to the Governing Body for action. Committee member by proxy Hoferer seconded. Motion approved 3-0-0.

#### EXCERPT

CITY OF TOPEKA, Topeka, Kansas, Tuesday, May 20, 2025. The Public Infrastructure Committee members met at 11:00 A.M. with the following Committee members present: Sylvia Ortiz, David Banks (Chair) and Michelle Hoferer (proxy Committee member). Absent: Neal Dobler.

The following is an excerpt of the draft minutes from the meeting:

APPROVAL of the Resolution recommending Soldier Creek Levee Raise Project Nos 161005.03, 161005.02, 161016.01.

#### <u>Capital Improvement Project (CIP) Project Exceeding \$250K: Soldier Creek Levee Raise</u> <u>Project Nos 161005.03, 161005.02 and 161016.01</u>

Director of Utilities Sylvia Davis spoke to raising the Soldier Creek Levee between NW Menoken Road and Highway 75 by six inches. The area is owned by the North Drainage District but the certification with the United States Army Corps of Engineers is required. The project includes a 50/50 funding split with the North Topeka Drainage District and using \$450,000 cash. She added once the work is completed the City will be reimbursed for half by the North Drainage District.

MOTION: Committee member Ortiz made a motion to approve and move forward to the Governing Body for action. Committee member by proxy Hoferer seconded. Motion approved 3-0-0.

#### **DOCUMENT DESCRIPTION:**

RESOLUTION introduced by City Manager Dr. Robert M. Perez making certain findings pursuant to the Kansas Reinvestment Housing Incentive District Act with regard to an application submitted by F & C Development, Inc. to establish a Reinvestment Housing Incentive District and requesting that the Secretary of Commerce review the resolution and advise the Governing Body.

<u>Voting Requirement:</u> Action requires at least six (6) votes of the Governing Body.

(Approval will authorize publication in the Topeka Metro Newspaper and submission to the Kansas Secretary of Commerce for review.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Whether to take the first step in establishing a reinvestment housing incentive district by adopting certain findings and submitting them to the Kansas Secretary of Commerce for review.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body move to approve the resolution.

#### BACKGROUND:

The City's housing study identified a need to construct 420 units over the next five years to meet the demand for

housing as well as an additional 2300 units to catch up from past demand. The study specifically calls for a demand of 900 downtown residential units. In an effort to provide an economic development tool to address housing needs, the City of Topeka approved Resolution 9627 establishing a Reinvestment Housing Incentive District Policy (RHID).

#### BUDGETARY IMPACT:

There is no budgetary impact associated with this phase of the application process.

#### SOURCE OF FUNDING:

Not Applicable

#### **Description**

Presentation for Project View RHID District Memo - Project View RHID District Application Resolution - RHID District - Project View KDOC Project View RHID District Application 9627 RHID Policy Amended

# Project View, F & C Development Inc. RHID District

Rhiannon Friedman, Planning & Development Director

## **Process Overview**

- The City of Topeka has received an application requesting the creation of an RHID district for F & C Development, Inc.
- Staff is seeking approval of a resolution tonight to send this district request to the Kansas Department of Commerce for approval. If approved, a full project plan and development agreement will come before the Governing Body for review and approval at a later date.

## **Project Details**

- Project View's proposal is to add a 200-unit multifamily residential development comprised of a mix of studio, onebedroom, two-bedroom and three-bedroom market rate rental units to downtown Topeka.
- The development is also proposing 8,000 square feet of indoor/outdoor amenity space, ample co-working and lounge space, dog park and coffee bar. The proposal currently includes 4,000 square feel of first floor commercial space fronting SW 6<sup>th</sup> Ave.

## **District Details**

- Project View is located at the SE corner of 6<sup>th</sup> Ave and Van Buren St.
- The map on the right shows the proposed preliminary site plan for the district.
- The pink square at SW 7<sup>th</sup> & SW Jackson St. represents the Uptowner parking garage, an asset that played a key role in attracting this development.

## **Next Steps**

- Application requesting a district be created was submitted on April 30, 2025, by the applicant.
- We are currently seeking approval of a resolution to send this request to Department of Commerce for the creation of a district.
- Should Department of Commerce approve the creation of a district the developer will need to submit a Housing Plan that will be reviewed by the RHID Review Committee then presented to Council for final approval at a following date.

#### MEMORANDUM

TO: City Manager, Robert M. Perez

FROM: Rhiannon Friedman, Director of Planning and Development

**RE: Project View RHID District Request** 

The purpose of this memo is to outline the RHID District Application for the Project View Apartments submitted by F& C Development, Inc. on April 30, 2025. The RHID District Application provides the city with the following items:

- Cover letter formally requesting the creation of a district, including a general description of the development anticipated within the district.
- A legal description and map of the proposed district.
- Proof of site control for proposed district.
- Certification that neither the developer nor any of its shareholders/ partners is delinquent on its property tax or special assessment payments on any property owned within Shawnee County.

Once approved, the application is remitted to the Kansas Department of Commerce to fully establish the district.

The proposed development is located at the SE corner of 6<sup>th</sup> Ave & Van Buren St. and includes:

- 200 new multifamily residential units.
- A mix of studio, one-bedroom, two-bedroom, three-bedroom floor plans.
- Market rate, multi-family rental pricing. •

Based on the proposed project plan and the need for 210 market-rate rental units presented in the RHID housing study, and 900 units of downtown specific housing, staff recommends approving the RHID District Application. To comply with local law, the application must be reviewed by the governing body no later than June 3, 2025.

| 1                                 | (Published in the Topeka Metro News)  |  |  |
|-----------------------------------|---|--|--|

| 4<br>5<br>7<br>8<br>9<br>10<br>11 | A RESOLUTION introduced by City Manager Dr. Robert M. Perez making certain findings pursuant to the Kansas Reinvestment Housing Incentive District Act with regard to an application submitted by F & C Development, Inc. to establish a Reinvestment Housing Incentive District and requesting that the Secretary of Commerce review the resolution and advise the Governing Body. |  |  |
| 12                                | WHEREAS, K.S.A. 12-5241 et seq. ("the Act") authorizes the City of Topeka   |  |  |
| 13                                | ("City") to establish a Reinvestment Housing Incentive District ("RHID"), the first step of   |  |  |
| 14                                | which is to conduct a housing needs analysis to determine what housing needs exist  |  |  |
| 15                                | within the community; and   |  |  |
| 16                                | WHEREAS, after conducting such analysis, the Governing Body may adopt a   |  |  |
| 17                                | resolution making certain findings regarding the establishment of a RHID and providing  |  |  |
| 18                                | the legal description of the proposed RHID and a map depicting the existing parcels in  |  |  |
| 19                                | the proposed RHID; and  |  |  |
| 20                                | WHEREAS, after publishing such resolution, the Governing Body shall send a  |  |  |
| 21                                | copy to the Secretary of Commerce ("Secretary") requesting that the Secretary review the  |  |  |
| 22                                | resolution and advise the Governing Body whether the Secretary concurs with the   |  |  |
|                                   |   |  |  |
| 23                                | findings; and   |  |  |
| 23<br>24                          |   |  |  |
|                                   | findings; and   |  |  |
| 24                                | findings; and WHEREAS, the City has performed a housing needs analysis ("the Analysis"); and  |  |  |
| 24<br>25                          | findings; and<br>WHEREAS, the City has performed a housing needs analysis ("the Analysis"); and<br>WHEREAS, based upon the Analysis, the Governing Body proposes to commence  |  |  |

<u>Section 1.</u> The Governing Body adopts and incorporates by reference the
 Analysis, a copy of which is on file in the office of the City Clerk and accessible on the
 City's website <u>https://www.topeka.org/finance/rhid</u> and based on a review of the Analysis
 makes the following findings and determinations.

33 <u>Section 2.</u> The Governing Body finds that there is a shortage of quality housing
 34 of various price ranges in the City despite the best efforts of public and private housing
 35 developers.

36 <u>Section 3.</u> The Governing Body finds that this shortage of quality housing can 37 be expected to persist and that additional financial incentives are necessary in order to 38 encourage the private sector to construct or renovate housing in the City.

39 <u>Section 4.</u> The Governing Body finds that the shortage of quality housing is a
40 substantial deterrent to the future economic growth and development of the City.

41 <u>Section 5.</u> The Governing Body finds that the future economic well-being of the
42 City depends on the Governing Body providing additional incentives for the construction
43 or renovation of quality housing in the City.

44 <u>Section 6.</u> Based upon the findings and determinations contained herein, the 45 Governing Body proposes to establish an RHID pursuant to the Act, within the boundaries 46 of the real estate legally described in Exhibit A, attached hereto and incorporated by 47 reference, and as shown on the map depicting the existing parcels of land attached hereto 48 and incorporated by reference as Exhibit B.

49 <u>Section 7.</u> The City Clerk is directed to publish this resolution one time in the
50 Topeka Metro News and to send a certified copy of this resolution to the Secretary for the
51 latter's review and concurrence with the findings herein.

#### Please complete the following items.

- 1. As <u>Exhibit A</u>, provide a cover letter formally requesting the creation of a district, including a general description of the housing development expected to occur within the districts, the names of the housing developer or developers expected to constructs such housing, the expected timing of such housing development, a narrative describing how the district sis likely to address the policy goals of the Housing Study and discussion of how the use of RHID is consistent with the City's but-for principle.
- 2. As *Exhibit B*, provide a legal description of the proposed district and a map depicting the existing parcels of real estate in the proposed district.
- 3. As *Exhibit C*, provide evidence of site control or a detailed plan for which the developer intends to secure site control.
- 4. As <u>Exhibit D</u>, provide certification that neither the developer entity nor any of its shareholders/ partners/members is delinquent on its property tax or special assessment payments on any property it owns or controls in Shawnee County. (Exhibit D of this document is a form that must be completed by the Shawnee County Treasurer.)
- 5. Applicant with support of the city needs to provide certification that neither the developer entity nor any of its shareholders/ partners/members has any outstanding utility bills, zoning or property maintenance, or other code cases pending with the city.

6. A non-refundable application fee of \$5,000 will be required upon submission of the application of the RHID district to the City Clerk. If the Developer withdraws the application, the City Governing Body elects not to create the District or does not approve the Housing Plan, or Kansas Secretary of Commerce elects to not approve the application, the City shall keep the application fee to reimburse it for the costs of processing and reviewing the application. The Developer shall not be entitled to any refund of the fee.

#### **CERTIFICATION OF APPLICANT**

APPLICANT HAS RECEIVED AND REVIEWED THE CITY'S RURAL HOUSING INCENTIVE DISTRICT POLICY (RESOLUTION NO. 9379). THE APPLICANT UNDERSTANDS AND AGREES TO THE TERMS OF THE POLICY AND PROCEDURES, INCLUDING PAYMENT OF THE REQUIRED FEES. THE APPLICANT UNDERSTANDS THAT A SUBMISSION OF A HOUSING DEVELOPMENT PLAN APPLICATION WILL BE REQUIRED SHOULD THE CREATION OF A RHID DISTRICT APPLICATION BE APPROVED.

AS OF THE DATE OF APPLICANT'S EXECUTION OF THIS APPLICATION, TO THE BEST OF THE APPLICANT'S KNOWLEDGE, THE INFORMATION CONTAINED WITHIN THIS APPLICATION IS TRUE AND CORRECT.

To whom it may concern,

This letter serves as Flaherty & Collins Properties formal request for the creation of a Reinvestment Housing Incentive District located within Downtown Topeka, Kansas. The project site is bound by SW 6<sup>th</sup> Ave to the North, SW Jackson St to the East, SW Van Buren St to the West and the Uptowner Parking Garage to the South.

The development will consist of approximately 200 unit multifamily residential units with a mix of studio's, one-bedroom, two-bedroom and three-bedroom units. In addition, the development will include approximately 8,000 square feet of unique indoor and outdoor amenity space including a state-of-the-art fitness center, resort style pool, ample co-working and lounge space, pet spa, dog park and coffee bar. The development will also include approximately 4,000 square feet of first floor commercial space and is expected to commence construction by year end 2025 with full project completion in 2027.

As stated in the Topeka Housing Study, very little market rate housing has been developed over the past decade within Topeka. Demand shows Topeka needs approximately 4,500 market rate units over the next 20-years. In addition, the Topeka RHID Housing Needs Analysis lists a 2022 demand of 210 market rate rental units needed. Using an inflation rate of 2.5% per year the 2025 need for market rate housing would be approximately 225 units. This Development will provide approximately 230-units and is expected to house approximately 350 new residents, providing Downtown Housing for both moderate and high-wage earners bringing these employees back within city limits. In turn, these residents will strengthen the workforce and provide additional support to existing and future downtown businesses.

Being the first large-scale multifamily development within the downtown core poses specific challenges. Currently, downtown market rents do not support new construction and when considering the increase in building costs and interest rates over the past years, development today is much more challenging than recent years. For these reasons, the establishment of the RHID is consistent with the City's but-for principle and without the addition of public subsidy, the proposed development would not occur.

We thank you for your consideration in establishing the RHID to support the proposed development and look forward to delivering additional, high-quality housing to Downtown Topeka.

#### Exhibit C

Flaherty and Collins has executed a Letter of Intent for the purchase of the Eastern half of the development site with Jayhawk Tower Partners, LLC. The attached LOI summarizes the terms in which Flaherty and Collins will acquire the parcels.

For the remaining land acquisition, Flaherty and Collins is working with both Downtown Topeka and the City of Topeka to contact the individual owners and begin the discussions on site acquisition. Downtown Topeka has expressed interest in making the first connections with the landowners to introduce the project. After the introduction the project, Flaherty & Collins, with the collaboration of the City and Downtown Topeka, is in the process of negotiating and acquiring the remaining parcels to complete the development site.

Shawnee County Treasurer 200 SE 7th, Room 101 Topeka KS 66603

Dear Shawnee County Treasurer:

The City of Topeka requires any entity applying for a Rural Housing Incentive District to be in good standing with Shawnee County and all outstanding taxes paid. For your convenience, we have developed the template below to be filled out on the applicant. All completed forms can be sent directly to Rhiannon Friedman at rmfriedman@topeka.org or mailed to City of Topeka Economic Development, 621 SE Madison / Unit 11, Topeka KS 66607.

Sincerely,

Joshua Allen McAnarney Joshua McAnarney

RE: Letter of Intent (LOI) Downtown Topeka Multifamily

Dear Jim:

This LOI summarizes the basic terms and conditions under which Jayhawk Tower Partners, LLC, and/or its affiliated owner ("Owner") is willing to pursue further negotiations with Flaherty & Collins Properties ("Developer") toward the execution of a formal Purchase Agreement for the Property and Development as identified below.

| The real estate is comprised of an approximately one (1) acre surface<br>parking lot located in downtown Topeka bounded by SW Jackson St. to<br>the East, SW 6 <sup>th</sup> Ave. to the North, the Uptowner Parking Garage to the<br>South and multiple commercial buildings to the West (The Property).  |
|--|
| <ul> <li>Delivery of the Property to the Developer shall occur after the following have occurred:</li> <li>Execution of a Development Agreement by and between the City of Topeka ("the City") and the Developer.</li> <li>Developer has procured all necessary financing and incentives for the Project.</li> <li>Seller's tenants require parking at The Property and additional parking. Prior to delivery of The Property, seller must procure all necessary parking through other sources.</li> </ul> |
| The Developer proposes to construct a mixed-use, multifamily<br>development consisting of approximately 200-220 residential units and<br>an additional 4,000 square feet of first floor<br>commercial/retail/restaurant/office/other.  |
| The Developer plans to utilize the existing City Owned parking garage,<br>the Uptowner Parking garage, in conjunction with the Seller's<br>utilization of the parking structure. The total number of the Developers<br>parking stalls will be dependent on the final unit count. The Developer<br>plans to park at a 1 unit to 1 stall ratio (1:1). The Developer will work<br>with the Seller and City to reach mutually agreeable terms for the<br>utilization of the parking facility.                  |
|  |

| Page 2 of 3            |   |
|------------------------|---|
|                        | The Developer and Seller understand the Parking Structure will not<br>fully service the needs of the Proposed Project and Seller's parking<br>requirements. The Developer and Seller agree to work cooperatively<br>with all necessary parties including any State and/or local<br>governmental agencies to satisfy the parking needs of both the Seller<br>and Developer prior to the transfer of The Property |
| PURCHASE PRICE:        | Upon satisfactory terms between the Seller and the City on the Seller's utilization of the Uptowner Parking Garage, the seller agrees to contribute the land to the Developer for the above referenced development project at no cost. The Developer will work with the Seller and City to come to mutually agreeable terms and parking counts that are satisfactory to the Seller.                             |
| CONTINGENCIES:         | The Purchase Agreement shall be contingent on the Developer's ability<br>to finalize and execute a formal Development Agreement with the City,<br>procure the necessary financial incentives, and acquire the remaining<br>necessary parcels for the Development Plan.  |
| BROKERAGE COMMISSIONS: | No real estate broker will be entitled to a commission for this transaction.  |
| NON-DISCLOSURE:        | The Owner & the Developer agree not to disclose the terms of this agreement except to its principals, boards, attorneys, consultants, leaders, accountants, and as required by law.   |

Page 3 of 3

This proposal is non-binding and is intended to set up basic parameters under which Developer would be willing to proceed to a purchase agreement. It is of no force and effect until such time the purchase agreement has been fully executed by the owner and developer.

Jim, thank you for the opportunity to submit this LOI. We look forward to working together to add additional housing to the Downtown Topeka market and coming to an agreement in the near future!

Sincerely,

**David Wingerson** Developer Flaherty & Collins Properties

45 WHEREAS, all projects must demonstrate financial and economic reasons such 46 that but-for RHID assistance, the project could not proceed or could not address the City's 47 housing goals. 48

NOW THEREFORE, BE IT RESOLVED THAT THE REINVESTMENT HOUSING 49 50 INCENTIVE DISTRICT POLICY FOR THE CITY OF TOPEKA, KANSAS WILL BE AS FOLLOWS: 51

### **CITY OF TOPEKA**

52 53 54

56

## **REINVESTMENT HOUSING INCENTIVE DISTRICT ("RHID") POLICY**

#### SECTION ONE: 55 PREFERENCES FOR PROJECTS

57 1. The City will use RHID to address housing needs as described in its July 58 2020 Citywide Housing Market Study and Strategy document (the "Housing Study") as amended from time to time as needed. The City will amend this policy from time to time 59 to adjust the targets below for progress to date or to address changing needs as identified 60 by updates to its Housing Study. The Housing Study identified a need for approximately 61 420 units per year over the next 5 years to keep up with anticipated demand and another 62 2,300 units to catch up from past demand in order to have a balanced market with lower 63 housing cost burdens. The City's current 3-year average is almost 270 new units per year. 64 Therefore, a target of up to 3,100 units over a 5-year period is the substantiated need that 65 is not being met by the market thus necessitating additional incentives. This total is further 66 broken down by affordable, workforce, senior, market rate, and upscale units as 67 referenced in the Housing Needs Analysis completed as an update to the Housing Study. 68 69

70 2. The City will use RHID to encourage an equitable distribution of projects citywide in keeping with the documented demand for 900 new units in downtown by 2030. 71 72

73 3. Per the Housing Study findings for greater housing choices, priority should be given to those projects that diversify the City's inventory with more attached unit 74 typologies such as duplexes, townhomes, and multi-family projects. 75 76

77 4. The City will reserve a portion of projected RHID benefits to develop, improve or replace public infrastructure supporting housing developments and to fund 78 79 multi-modal connections (transit, biking, walking) to housing developments. 80

- The City will use a "but-for" approach (i.e., but-for the presence of the RHID 81 5. incentive the project could not proceed or could not address the City's housing goals) in 82 assessing the amount of RHID benefit granted to a housing development, maintaining 83 flexibility with respect to the amount of incremental taxes permitted to be captured and/or 84 the length of time an RHID will remain in place. 85
- 86 87

88

- 6. Housing developers seeking RHID assistance will need to be prepared to:
- 89 Bear the costs of effecting an RHID incentive (estimated at \$25,000 to \$50,000 per project plan). Cost may include, but are not limited to, 90

updating the housing study, preparation of necessary resolutions, 91 92 ordinances, publication notices, development agreement, and statutory feasibility findings. The City will first apply the 93 94 nonrefundable application fee described below towards the costs. Once a better estimate of costs is obtained, the City may, at its sole 95 discretion, require a deposit to cover outstanding costs. If an 96 additional deposit is required in addition to the nonrefundable 97 application fee, the City shall return any balance from this deposit 98 upon the applicant's withdrawal of the application or the conclusion 99 of the approval processes. 100 Provide the contractual and financial feasibility guarantees 101 • contemplated in the RHID statute (see K.S.A. 12-5245(a)(6)). 102 Provide detailed information regarding the type, timing and 103 implementation plan for the housing they propose to develop. 104 Provide all information to the City required to effect an RHID project 105 plan, as contemplated by Kansas law. 106 Provide evidence in support of its need for RHID incentive under the 107 108 but-for principle. 109 SECTION TWO: PROCESS 110 111 112 1. Creation of a District. The City intends to use the Housing Study, as updated from time-to-time at the discretion of the City, to meet the statutory requirement (K.S.A. 113 12-5244) that the City conduct a "housing needs analysis" to determine that "housing 114 needs exist" in Topeka. 115 116 Either the City or a housing developer may initiate the district creation process by 117 delivering to the City Manager a District Application consisting of the following: 118 119 A cover letter requesting the creation of a district, including a general 120 a) description of the housing development expected to occur within the district, 121 122 the names of the housing developer or developers expected to construct such housing, the expected timing of such housing development, a narrative 123 describing how the district is likely to address the policy goals of the Housing 124 Study and discussion of how the use of RHID is consistent with the City's 125 but-for principle. 126 A legal description of the proposed district and a map depicting the existing 127 b) 128 parcels of real estate in the proposed district. Evidence of site control or a detailed plan for which the developer intends 129 c) 130 to secure site control. A certification that neither the developer entity nor any of its 131 d) shareholders/partners/members is delinquent on its property tax or special 132 assessment payments on any property it owns or controls in Shawnee 133 134 County.

A certification that neither the developer entity nor any of its 135 e) 136 shareholders/partners/members has any outstanding utility bills, zoning or property maintenance, or other code cases pending with the city. 137 138 f) A non-refundable application fee of \$5,000. If the Developer withdraws the application, the City Governing Body elects not to create the District or does 139 not approve the Housing Plan, or Kansas Secretary of Commerce elects to 140 not approve the application, the City shall keep the application fee to 141 reimburse it for the costs of processing and reviewing the application. The 142 Developer shall not be entitled to any refund of the fee. 143 144 145 Within thirty (30) days of receipt of a complete District Application, the City Manager will direct the preparation of a resolution for consideration by the Topeka Governing Body at 146 a regular meeting not later than sixty (60) days following the City Manager's receipt of a 147 148 complete District Application. The resolution shall include: 149 150 The legal description and the map provided in the District Application; and a) The findings required in K.S.A. 12-5244(a)(1) through (a)(4). 151 b) 152 153 If the resolution is adopted by the Topeka Governing Body, the City Manager or designee will provide for publication of the adopted resolution as required in K.S.A. 12-5244(b) and 154 will request approval by the Kansas Secretary of Commerce in the manner provided in 155 156 K.S.A. 12-5244(c). 157 2. Creation of a Housing Development Plan. Once the Kansas Secretary of 158 159 Commerce has approved creation of a district, one or more housing developers may petition the City Manager for the execution of a housing development plan within such 160 district. This petition will need to include all of the following: 161 162 (a) Narrative describing the overall development plan specifically addressing 163 how the plan meets the policy goals of the Housing Study. 164 A legal description of the proposed project area if such project area is not 165 (b) coterminous with the district boundaries. 166 167 (c) A map of the proposed project area if such project area is not coterminous with the district boundaries. 168 A table (Excel format preferred) listing (i) each parcel within the proposed 169 (d) project area, listing the current Shawnee County assessed valuation of land 170 and improvements separately and (ii) the property owner's name and 171 address for each parcel. 172 A narrative and a graphical description of the housing and public facilities 173 (e) that the developer will construct or improve, and the location of each within 174 the project area. 175 176 (f) A narrative describing any improvements the developer expects the City to make to support the planned project, including any on or off-site public 177 infrastructure and coordination with other public agencies, etc. 178

- 179 (g) A listing of the names, addresses and specific interests in real estate in the 180 project area of the housing developer(s) responsible for development of the 181 housing and public facilities in the project area.
- For the purpose of this requirement, "housing developer(s)" means both the name of the business entity or entities, and the natural persons comprising the ownership of such entity or entities.
- (h) A detailed total development cost budget for the housing and other
   improvements to be constructed including an identification of costs for which
   the developer will seek reimbursement from RHID proceeds.
- (i) A narrative describing all public incentives sought in support of the planned
   project (including those that might be provided by other government
   agencies, foundations or non-profits), including identification of whether the
   developer seeks potential bond financing related to the RHID.
- 192 (j) A detailed construction schedule, identifying any phasing of construction 193 anticipated.
- 194(k)A detailed financial pro forma, showing the operation of the project over the195life of the RHID, including sufficient detail on assumptions so the City may196determine, among other things, the developer's expectations for the number197and potential valuation of housing units to be constructed, the developer's198expected private financing for the project (including debt, equity and other199sources), and sufficient other detail to permit the City to make the required200statutory finding as provided in K.S.A. 12-5245(a)(7).
- 201 (I) A detailed description of the contractual assurances the developer is willing
  202 to make, including any financial guarantees it is willing to provide, to
  203 "guarantee the financial feasibility" of the project, all as required by K.S.A.
  204 12-5245(a)(6) (together, the "Housing Development Plan"), along with
  205 commercially reasonable information evidencing developer's financial and
  206 operational capabilities to effect the proposed project as presented.
- 207

Unless there are extenuating circumstances, within fifteen (15) days of receipt of a complete Housing Development Plan, the City Manager will direct the City's Finance Director, or other City Manager designee, to review the Housing Development Plan for completeness (compared both to statutory requirements and the requirements of this policy), to prepare a financial analysis of the developer's proposal and to provide a written report to the City in conformance with K.S.A. 12-5245(a)(7).

214

Also, within fifteen (15) days of receipt of the complete Housing Development Plan, the Developer shall enter into a funding agreement with the City under which the developer(s) will agree to pay the City sufficient moneys to cover the City's costs in analyzing and effecting the Housing Development Plan.

219

The City's Finance Director may request additional information from the developer to assist in its analysis and the developer may request to provide certain information directly to the City's Finance Director, particularly with respect to its financial capacity to perform. The Finance Director may also consider: (a) the extraordinary or unique costs of the housing development plan; (b) the developer's (and its shareholders'/partners'/members') compliance with other City development agreements; (c) the creditworthiness of the
 developer; and (d) the experience of the developer constructing, completing and
 managing projects of a similar nature, scale and complexity. The City's Finance Director
 will provide its written report in draft to the City Manager within thirty (30) days after receipt
 of the Housing Development Plan and any supplemental information it requests of the
 developer.

231

As authorized under the Kansas Open Records Act, the City will treat as confidential any such sensitive financial information provided by the applicant or its guarantors to the City's Finance Director, other city advisors or legal counsel, and will, if requested, enter on the City's behalf into a non-disclosure agreement; provided, however, that such advisors or legal counsel must have the right under such agreement to convey their conclusions about the applicant's ability to meet the requirements above based upon its review.

238

Concurrently with the City Finance Director's work, the City Manager will coordinate with
City departments, as applicable, to identify any concerns with the City's ability to support
the proposed project, including, but not limited to, availability of utilities, the cost to
construct public infrastructure identified by the developer as the City's responsibility,
traffic considerations and the ability to provide public safety services to the project, etc.

244

RHID Review Team. Within fifteen (15) days of receipt of the City Finance 245 3. Director's draft analysis, the City Manager will convene a meeting of the RHID Review 246 Team to include: the Mayor, Deputy Mayor, affected district council member(s), City 247 Manager, Finance Director, Public Works Director, Utilities Director, Planning Director 248 249 and City Attorney. In the absence of one of the named members above, the City Manager may designate alternative members to the RHID Review Team as appropriate. The RHID 250 Review Team will review the Housing Development Plan, the City Finance Director's draft 251 analysis and the City Manager's review of the City's ability to support the project, and may 252 253 call on the financial advisor, City bond counsel and other resources to assist in its deliberations. 254

255

After reviewing the information presented, the RHID Review Team may (i) request the City Manager to seek additional information or provide additional analysis; (ii) make a recommendation to the Governing Body to establish the District and approve the plan with or without conditions; or (iii) not approve the plan.

260

In the event the RHID Review Team requests the City Manager obtain additional
 information from the developer, it will include a reasonable timeline for the completion of
 such additional work and a schedule for its reconsideration. Upon reconsideration, the
 RHID Review Team may take one of the actions identified above.

265

In the event the RHID Review Team makes a recommendation to not approve, the City
 Manager will report on the action of the RHID Review Team at a future Governing Body
 meeting.

269

270 In the event the RHID Review Team makes a recommendation of approval:

- 316(d)The effectiveness of all such related matters will be conditioned upon the317RHID district creation ordinance surviving the thirty (30) day veto period of318Shawnee County and any affected school district.
- 319

# 320 SECTION THREE: INCENTIVE STRUCTURE

321
322 1. <u>Presumption of Pay-As-You-Go Incentives</u>. The City will begin negotiations
323 with housing developers with the presumption that it will structure RHID incentives on a
324 pay-as-you-go basis.
325

2. Reimbursable Costs. The City will generally consider all statutorily-326 permitted uses of RHID proceeds as reimbursable costs (see K.S.A. 12-5249); provided, 327 however, the City will generally not reimburse land acquisition costs from owners affiliated 328 329 with the housing developer unless the developer provides evidence of its actual acquisition costs from a bona fide arms-length purchase from an unaffiliated owner or the 330 331 housing developer can provide satisfactory evidence to the City Manager that the land acquisition was purchased at fair market value which may include the cost of reimbursing 332 delinguent special assessments or other delinguent taxes from an owner affiliated with 333 the housing developer and that the reimbursement of the acquisition costs satisfy the 334 public purpose doctrine. 335

336

337 3. <u>Downtown</u>. Buildings or structures must be more than twenty-five (25) 338 years old and used primarily for residential use located in the central business district or 339 in a business or commercial district within a qualified census tract as approved by the 340 Secretary of Commerce. Certification of the building/structure's age must be provided to 341 the Secretary of Commerce. Improvements are limited to the second or higher floors. 342 Improvements for commercial purposes are not eligible. K.S.A. 12-5249

343

344
4. <u>Bonds</u>. The City will generally not consider the issuance of special
345 obligation bonds. A housing developer may petition the City Manager in writing to issue
346 bonds secured by the proceeds of an RHID if:
347

- 348 (a) The project is complete, leased-up (multifamily)/substantially occupied
  349 (single family) and stabilized (multifamily).
  350 (b) Shawnee County has completed at least four (4) tax valuations of the
  - (b) Shawnee County has completed at least four (4) tax valuations of the district.
- 351 352 353
- (c) RHID-eligible costs exceed \$3 million.

Upon receiving a petition for bond issuance, the City Manager will engage the City's financial advisor to assess the feasibility of bond issuance given the track record of the project, the potential size of the financing and then-current market conditions. If the City's financial advisor determines that a bond financing would be feasible and par offered would be likely to exceed \$3 million, the financial advisor will report its findings to the City Manager along with an estimate of the potential transaction costs to effect the financing. 361 If a bond financing would be feasible, upon receipt of the financial advisor's findings, the 362 City Manager will communicate the findings with the housing developer to determine 363 whether the housing developer desires to proceed. If the housing developer desires to 364 proceed, the City Manager will, within fifteen (15) days, convene the RHID Review Team 365 to evaluate the housing developer's petition for bond issuance and the financial advisor's 366 report.

367

After reviewing the information presented, the RHID Review Team may (i) request the City Manager seek additional information or provide (or commission) additional analysis; (ii) decline to advance the housing developer's petition for bond issuance; or (iii) direct the City Finance Director to proceed with execution of a potential bond issuance.

372

Upon direction from the RHID Review Team to proceed, the Finance Director will coordinate with the City's financial advisor and bond counsel to commence execution of a bond financing. The financial advisor will advise on method of sale and will assist the Finance Director in the selection of one or more underwriters for the financing. City bond counsel will prepare a bond sale intent resolution, describing the intended sale and authorizing appointment of the underwriter, directing staff and advisors/counsel to effect the financing, and causing the preparation of customary bond and sale documents.

Within thirty (30) days of bond counsel's preparation of the bond sale intent resolution, the City Manager will calendar the resolution for consideration by the Governing Body. If the Governing Body adopts the bond sale intent resolution, the City will use its best efforts to cause the issuance of the bonds.

385

5. <u>No Issuance by Third Parties</u>. The City will not consent to and will include language in any development agreement prohibiting the issuance of bonds by any thirdparty on behalf of the developer to be secured by an assignment of the developer's rights under the development agreement. For the purposes of clarity, this language is not intended to prevent or preclude developer's collateral assignment of the development agreement to a bank to secure the developer's private financing of the project.

392

# 393 SECTION FOUR: HOUSING DEVELOPER GUARANTEES

394

1. <u>Assurances Required</u>. The City interprets K.S.A. 12-5245(a)(6) as requiring that housing developers provide contractual assurances of their performance under a development agreement related to an RHID project. The City will expect a housing developer to offer one or more of the following contractual assurances of performance as part of the development agreement. The City does not expect a developer to provide all of these contractual assurances and will work with the developer on what is the most appropriate assurance for a particular project:

- 402
- 403 (a) A firm commitment to construct and complete a substantial percentage of
   404 the housing units and related infrastructure proposed in its Housing
   405 Development Plan within a specified timeframe.

| 406<br>407 | (b)         | A performance and payment bond sufficiently sized to cause completion of<br>a substantial percentage of the housing units and infrastructure proposed |  |  |
|------------|-------------|---|--|--|
| 408        |             | in its Housing Development Plan.  |  |  |
| 409        | (c)         | A bank letter of credit sufficiently sized to secure completion of a substantial  |  |  |
| 410        |             | percentage of the housing units and infrastructure proposed in its Housing  |  |  |
| 411        |             | Development Plan.   |  |  |
| 412        | (d)         | Personal financial guarantees of one or more owners of the developer to   |  |  |
| 413        |             | ensure completion of a substantial percentage of the housing units and  |  |  |
| 414        |             | infrastructure proposed in its Housing Development Plan.  |  |  |
| 415        | (e)         | Other contractual assurances that, in the sole determination of the City,   |  |  |
| 416        |             | meet the intent of the statute.   |  |  |
| 417        |             |   |  |  |
| 418        | SECTION F   | IVE: CITY REMEDIES IN THE EVENT OF DEVELOPER DEFAULT  |  |  |
| 419        |             |   |  |  |
| 420        |             | opment agreement will identify the conditions under which a developer may   |  |  |
| 421        |             | ault under the agreement. The City may impose one or more of the following  |  |  |
| 422        | remedies if | a default occurs and is not cured timely:   |  |  |
| 423        |             |   |  |  |
| 424        | (a)         | Reduction to or elimination of the amount of RHID proceeds that can be  |  |  |
| 425        | <i>4</i>    | used to reimburse eligible costs.   |  |  |
| 426        | (b)         | Shortening of the expiration of the RHID incentive.   |  |  |
| 427        | (c)         | Cross-default against other incentives granted by the City.   |  |  |
| 428        | (d)         | Other penalties or claw backs unique to each development agreement.   |  |  |
| 429        |             |   |  |  |
| 430        | NOW         | , THEREFORE BE IT FURTHER RESOLVED that Resolution Nos. 9379 and  |  |  |
| 431        | 9452 are he | reby rescinded.   |  |  |
| 432        | ADO         | PTED and APPROVED by the Governing Body on February 18, 2025.   |  |  |

#### **DOCUMENT DESCRIPTION:**

**RESOLUTION** introduced by City Manager Dr. Robert M. Perez regarding additional funding for operations and maintenance of Hotel Topeka in the amount of \$291,086.00.

Voting Requirement: Action requires at least six (6) votes of the Governing Body.

(Approval would authorize requested funding from General Fund - Hotel Non-departmental Expense to operate and maintain Hotel Topeka.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Whether to approve request from the Topeka Development Corporation for additional operational funding in the amount of \$291,086.00.

#### STAFF RECOMMENDATION:

Staff recommends the Governing Body move to approve the resolution.

#### BACKGROUND:

Currently there is only \$219,560.00 remaining authority that we have under previous resolutions. Staff requests additional authority of \$291,086.00 to bring our total authority up to \$510,646.00.

#### BUDGETARY IMPACT:

\$291,086.00

#### SOURCE OF FUNDING:

General Funds-Hotel Non-Departmental Expense

#### **DOCUMENT DESCRIPTION:**

RESOLUTION introduced by City Manager Dr. Robert M. Perez authorizing and adopting the proposed 2026-2035 Capital Improvement Plan (CIP) and 2026-2028 Capital Improvement Budget (CIB) and approving project budgets.

Voting Requirement: Action requires at least six (6) votes of the Governing Body.

(Approval would adopt a 10-year Capital Improvement Plan and a 3-year Capital Improvement Budget for the City of Topeka.)

#### **VOTING REQUIREMENTS:**

Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Authorizing and approving the proposed 2026-2035 Capital Improvement Plan and 2026-2028 Capital Improvement Budget.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body move to approve the resolution.

#### BACKGROUND:

The Governing Body will adopt a Capital Improvement Plan (CIP) covering a 10-year period and a Capital Improvement Budget (CIB) covering a three-year period.

#### BUDGETARY IMPACT:

The CIP and CIB are planning tools. Approval of the project budgets comprising the CIB will authorize expenditures of funds identified in the project budget and will be reflected in that year's operating budget in the appropriate fund.

#### **SOURCE OF FUNDING:**

General Obligation Bonds, Revenue Bonds, Enterprise Fund (Water, Wastewater and Stormwater) Cash, Cash on hand, Federal Funds, Citywide Half-Cent Sales Tax, Countywide Half-Cent Sales Tax, Information Technology Fund

| 1                     | RESOLUTION NO   |
|-----------------------|---|
| 2<br>3<br>4<br>5<br>6 | A RESOLUTION introduced by City Manager Dr. Robert M. Perez, authorizing and adopting the 2026-2035 Capital Improvement Program and the 2026-2028 Capital Improvement Budget and approving project budgets. |
| 0<br>7                | WHEREAS, the purpose of a Capital Improvement Program (CIP) is to plan for and  |
| 8                     | prioritize public improvement projects over the next ten years; and   |
| 9                     | WHEREAS, the 2026-2028 Capital Improvement Budget (CIB) identifies specific   |
| 10                    | projects and their budgets for consideration and approval by the Governing Body as  |
| 11                    | required by Topeka Municipal Code (TMC) Sec. A12-17; and  |
| 12                    | WHEREAS, the City of Topeka Capital Improvement Plan 2026-2035, ("CIP Book")  |
| 13                    | contains the CIP, CIB, and all associated project budgets and is attached herein and  |
| 14                    | incorporated by reference; and  |
| 15                    | WHEREAS, for purposes of planning and allocating resources the Governing Body   |
| 16                    | should consider and approve the CIP and CIB and the specific project budgets contained  |
| 17                    | therein.  |
| 18                    | NOW, THEREFORE, BE IT RESOLVED, BY THE GOVERNING BODY OF THE  |
| 19                    | CITY OF TOPEKA THAT:  |
| 20                    | 1. The CIP and CIB. The Governing Body approves and adopts the 2026-2035  |
| 21                    | Capital Improvement Plan and the 2026-2028 Capital Improvement budget contained in the  |
| 22                    | CIP Book on pages 20-29.  |
| 23                    | 2. 2026-2028 CIB Project Budgets. Additionally, TMC Sections A12-17 and   |
| 24                    | A12-25 require Governing Body approval of all project budgets and project budget  |
| 25                    | amendments for public improvements that shows the anticipated amount to be spent for  |
| 26                    | construction, engineering, right-of-way, legal fees and administrative expenses.  |

27 (a) **G.O. Bonded Projects.** With regard to the projects identified in the 28 CIP Book for 2026, 2027 and 2028 that have General Obligation Bonds listed as a 29 financing source, the Governing Body finds that the public improvements described 30 are necessary and serve the public interest. Accordingly, pursuant to TMC Section A12-1, the Governing Body authorizes such projects and approves all project 31 32 budgets, including amended budgets, as described in the individual project pages of 33 the CIP Book. In accordance with the City's debt management policy codified in 34 Resolution No. 8818, staff may use other legally allowable funding sources in lieu of 35 issuing debt.

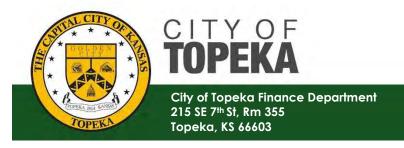

36 Enterprise Funded Projects. With regard to the projects identified in (b) 37 the CIP Book for 2026, 2027 and 2028 with Revenue Bonds listed as a financing 38 source, the Governing Body finds that the improvements to its waterworks system, 39 sanitary and/or stormwater system are necessary and serve the public interest. 40 Accordingly, pursuant to TMC Sections A12-1 and A18-3(d), the Governing Body 41 authorizes such projects, and approves all project budgets, including amended 42 budgets, as described in the individual project pages of the CIP Book. No revenue 43 bonds shall be issued unless the Governing Body enacts a separate resolution and 44 notice of intent to issue revenue bonds in accordance with K.S.A. 10-1201 et seq.

45 (c) Cash-Funded Projects. With regard to the projects identified in the 46 CIP Book for 2026, 2027 and 2028 with sales tax, operations or federal funds as the 47 financing source, the Governing Body finds that the public improvements are 48 necessary and serve the public interest. Accordingly, the Governing Body authorizes such projects and approves all project budgets, including amended budgets, as
 described in the individual project pages of the CIP Book.

(d) Projects over \$250,000. With regard to a project that is ready for
construction and whose total project budget exceeds \$250,000, the Governing
Body, after considering a recommendation from the Public Infrastructure Committee,
shall consider whether to authorize the project. If the project budget exceeds the
amount approved by more than 15%, the project shall not continue unless the
Governing Body approves an amended project budget.

57 3. The City both reasonably expects and intends to finance the costs of said 58 improvements (other than the Cash-Fund Projects in section c) from the proceeds of bonds 59 of the City. The City does hereby express its official intent to reimburse any such pre-60 issuance original expenditures (as defined in Treas. Reg. I.150-2(c)) made by it on or after 61 the date which is 60 days before the date of this Resolution from the proceeds of such 62 bonds in the estimated maximum principal amount of \$15,595,513. The City will issue such 63 bonds for such purposes and make the reimbursements within eighteen (18) months after 64 the date the expenditure to be reimbursed was paid or, if later, eighteen (18) months after 65 the date on which the property resulting from the expenditure was placed in service. 66 Provided, that, in any event, the City must make the reimbursement allocation within three 67 (3) years after the date the expenditure was paid. This Resolution, as the expression of the 68 governing body's official intent regarding the matters described herein, will be available for 69 public inspection in the City Clerk's office at City Hall during regular business hours of the 70 City.

| 71                                     | 4.          | This Resolution shall become effective upon passage and approval by the |

To: Governing BodyFrom: Karisa Muiller, Budget ManagerDate: April 28, 2025Re: Utility Capital Improvement Project Updates

#### Governing Body,

Following the publication of the proposed Capital Improvement Project (CIP) book, updates have been made to project estimates and financing sources to reflect the most accurate financial projections and allocations. The purpose of this communication is to ensure full transparency regarding these changes and provide a comprehensive breakdown of the revised financial figures. None of what has been proposed is an increase to what is already in the book; just revisions.

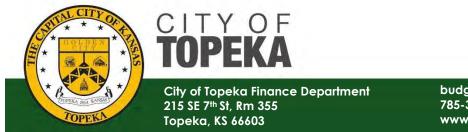

#### Breakdown of Updates by Page Number

The revisions to the CIP budget reflect a commitment to financial accuracy and responsible planning. The adjustments do not introduce additional burdens on the city's financial reserves beyond what has already been accounted for within the long-term financial strategy.

We appreciate your continued engagement and support in overseeing these critical infrastructure improvements. Should you have any questions regarding these updates, please do not hesitate to reach out for further clarification.

# 2026 Utilities CIP Overview

### Water Program Overview

| Programs  | 2026         | 2027         | 2028        | 2029         | 2030         |
|---|--------------|--------------|-------------|--------------|--------------|
| Water Main Replacement Program                    | \$10,666,400 | \$10,483,400 | \$9,429,400 | \$11,666,000 | \$11,997,800 |
| Water Treatment Plant Rehabilitation Program      | \$1,350,000  | \$1,350,000  | \$1,350,000 | \$1,350,000  | \$1,350,000  |
| Water Tower Rehabilitation Program                | \$400,000    | \$400,000    |             | \$525,000    | \$535,000    |
| Meter Vault Replacement Program                   | \$675,000    | \$675,000    | \$675,000   |              |              |
| Hydrant and Valve Rehab and Replacement Program   | \$270,000    | \$270,000    | \$270,000   | \$300,000    | \$310,000    |
| Water Plant Equipment & Fleet Maintenance Program | \$400,000    | \$400,000    | \$400,000   | \$400,000    | \$400,000    |
| Water Booster Pump Station Rehabilitation Program | \$1,000,000  | \$350,000    |             | \$350,000    | \$350,000    |

#### Water Main Replacement Program

- The Water Main Replacement program focuses on restoring water mains in areas with extensive break and repair history.
- Efforts also planned in conjunction with citywide half cent sales tax and other street improvement projects.
- The water distribution system is comprised of approximately 900 miles of water mains.

#### **Annual Water Programs**

#### Water Booster Pump Station Rehabilitation

- Focuses on upgrading existing in-service Water Booster Pump Stations to meet water distribution needs.
- Efforts may include pumps, motors, valves, variable frequency drives and electrical communication & control systems.

#### Water Tower Rehabilitation

• Rehabilitation efforts may include structural improvements, regulator updates, interior and exterior cleaning and coating.

#### **Meter Vault Replacement**

- Addresses existing hazards and brings failing infrastructure up to City of Topeka installation standards.
- 145 out of 206 large meter vaults have safety/testing concerns or do not meet installation standards.

### **Annual Water Programs**

#### Water Treatment Plant Rehabilitation

• Maintenance and rehabilitation of the 18 buildings on site. Projects may include security updates, building repairs and pump/motor repairs.

#### Hydrant and Valve Rehab and Replacement

• Rehabilitation and replacement of deteriorating hydrants and values in the water distribution.

#### Water Fleet Replacement

• Program ensures that equipment remains current and effectively maintained to improve productivity.

#### Water Treatment Rehabilitation Projects

#### **East Intake Rehabilitation**

- Structural repairs and modifications including concrete and steel work.
- Mechanical repairs and replacements including screen housing, valves and piping.
- Planned for 2026
- Budget \$5.236M

#### West Filter Rehabilitation

- Rehabilitation or replacement of dual media of the west filters.
- Improvements to lighting, electrical, HVAC and operational control systems.
- Planned for 2026
- Budget \$5.09M

## **Zone Optimization Projects**

Optimization programs construct new lines, replace transmission mains and upsizing of existing lines to improve hydraulic characteristics of the designated pressure zone.

#### Southeast Zone

Planned for 2027 – Budget \$2.1M

#### North Zone

Planned for 2029 – Budget \$3.78M

#### Montara Zone

Planned for 2030 – Budget \$3.78M

#### West Zone

• Planned for 2030 – Budget \$3.78M

#### **Central Zone**

Planned for 2032 – Budget \$6.07M

## Stormwater Program Overview

| Programs  | 2026        | 2027        | 2028        | 2029        | 2030        |
|---|-------------|-------------|-------------|-------------|-------------|
| Stormwater Conveyance System                            | \$3,165,060 | \$4,872,000 | \$7,232,012 | \$7,280,000 | \$2,789,416 |
| Levee Asset Repair/Rehab Program                        | \$337,500   | \$337,500   | \$337,500   | \$810,132   | \$750,000   |
| Drainage Correction Program                             | \$300,000   | \$300,000   | \$300,000   | \$300,000   | \$300,000   |
| Stormwater Pump Station Rehab/Replacement<br>Program    |             | \$675,000   | \$675,000   | \$675,000   | \$675,000   |
| Stream & Channel Restoration, Stabilization, & Rehab    | \$200,000   | \$200,000   | \$200,000   | \$550,000   | \$550,000   |
| Stormwater Operations Equipment & Fleet<br>Maintenance  | \$500,000   | \$300,000   | \$350,000   | \$300,000   | \$300,000   |
| Best Management Practices Development &<br>Construction | \$300,000   | \$300,000   | \$300,000   | \$300,000   | \$300,000   |

#### **Annual Stormwater Programs**

#### Stormwater Conveyance

- Rehabilitates or replaces existing stormwater conveyance system to ensure continued operation, reduce maintenance and support other infrastructure improvements.
- Projects in this annual program frequently support Citywide Half Cent sales tax projects.

#### **Annual Stormwater Programs**

## Stream and Channel Restoration, Stabilization & Rehabilitation

 Identify, design and construct restorations of streams and channels to protect existing buildings and infrastructure from erosion.

#### **Best Management Practices Development & Construction**

• Develop and implement BMPs to comply with requirements of National Polluant Discharge Elimination System (NPDES).

#### **Stormwater Pump Station Rehab**

• Allows for proactive rehabilitation or replacement of Stormwater Pump Stations to reduce emergency repairs.

#### **Annual Stormwater Programs**

#### Levee Asset Repair and Rehab

Rehabilitation of levee assets maintain performance of critical infrastructure.

#### **Drainage Correction Program**

• Addresses drainage problems to protect private properties

#### Stormwater Fleet Replacement

• Program ensures that equipment remains current and effectively maintained to improve productivity.

### **Stormwater Projects**

#### **Prairie Road**

- Planned for 2026
- Budget \$3.36M
- Upsizes approx. 2,600 LF of storm sewer along SW Prairie Road between SW 21<sup>st</sup> & SW 23<sup>rd</sup> Streets.
- Follows recommendations from 2020 drainage study.

#### SE California Ave. & SE 4<sup>th</sup> St.

- Planned for 2026/2027
- Budget \$5.04M
- Addresses capacity concerns in this basin and alleviates flooding issues along 4<sup>th</sup> and 5<sup>th</sup> Streets in a 100-year flood event.
- Follows recommendations from the Stormwater Master Plan.

#### **Levee Projects**

#### Menoken Road Tie Back

- Project will address flood mitigation along the North Topeka-Soldier Creek levee system.
- A tie back levee will be constructed to meet FEMA levee certification requirements.
- Planned for 2026\* \$5.2M

#### Shunga Creek Flood Mitigation

- Proposed project is a cost shared project with US Army Corp of Engineers for improvements along Shunganunga Creek.
- Planned for 2026\*-\$2.1M Revenue Bond & Federal Funding

\*Future Funding is contingent on the availability of Federal Funds.

## Wastewater Program Overview

| Programs   | 2026        | 2027        | 2028        | 2029        | 2030        |
|--|-------------|-------------|-------------|-------------|-------------|
| Wastewater Pump Station Rehabilitation & Replacement | \$2,036,000 | \$2,288,861 | \$2,800,000 | \$2,800,000 | \$2,800,000 |
| Wastewater Lining & Replacement Program              | \$2,500,000 | \$2,800,000 | \$4,432,000 | \$7,560,000 | \$9,015,000 |
| WPC Facility Rehabilitation Program                  | \$900,000   | \$1,000,000 | \$1,350,000 | \$1,350,000 | \$1,350,000 |
| Odor Control Program                                 | \$1,350,000 | \$1,350,000 | \$1,350,000 | \$1,350,000 | \$1,350,000 |
| Inflow & Infiltration Program                        | \$525,000   | \$525,000   | \$525,000   | \$525,000   | \$525,000   |
| Wastewater Plant Equipment & Fleet Maintenance       | \$300,000   | \$500,000   | \$350,000   | \$300,000   | \$350,000   |

**Annual Wastewater Programs** 

#### Wastewater Lining & Replacement

• Program identifies pipes that can be rehabilitated before they require emergency repairs and open-cut replacements.

#### **Pump Station Rehabilitation**

• Replacement, rehabilitation or elimination of city owned wastewater pump stations.

#### **Annual Wastewater Programs**

#### **WPC Facility Rehabilitation Program**

 Rehabilitation of structures and equipment essential to wastewater treatment process at Oakland and North Topeka Wastewater Treatment Plants.

#### **Odor Control Program**

• Improvements to odor control system and corrosion prevention of sanitary collection system.

#### **Inflow & Infiltration Program**

 Rehabilitation of damaged or inoperative manholes and sewer lines to prevent ground water and tree roots from entering sanitary sewer system.

#### Wastewater Fleet Replacement

 Program ensures that equipment remains current and effectively maintained to improve productivity.

## JEDO & Non-CWHC Sales Tax Programs & Projects April 15<sup>th</sup>, 2025

## JEDO Sales Tax Overview

- Definition: JEDO is funded through the countywide half-cent retail sales tax established by the interlocal agreement. The funds are designated for economic development, with specific City projects outlined in the agreement. The sales tax is effective from January 1, 2017, through December 31, 2031.
- Tax Disbursements:
  - \$5,000,000 Yearly allocation to GOTopeka
  - 52% of Remaining funds to the County for specific projects
  - 48% of Remaining funds to the City for specific projects

## Remaining JEDO Projects (City Projects)

| City Projects                              | 2016 Projected Estimates | 2026 Project Estimates | Variance      |
|--|--------------------------|------------------------|---------------|
| SW 6th - Gage to Fairlawn                  | \$5,600,000              | Completed              | NA            |
| 12th St - Gage to Kansas Ave               | \$13,180,000             | Completed              | NA            |
| SE California - 37th to 45 <sup>th</sup>   | \$5,600,000              | Completed              | NA            |
| SW 17th Street, MacVicar to Interstate 470 | \$14,600,000             | \$24,000,000           | + \$9,400,000 |
| SW Huntoon St. – Gage Blvd to Harrison St. | \$11,740,000             | \$18,500,000           | + \$6,760,000 |
| Topeka Blvd - 15th To 21st                 | \$4,900,000              | \$9,247,200            | + \$4,347,200 |
| SW 29th St - Fairlawn Rd to Wanamaker Rd   | \$6,100,000              | \$8,738,750            | + \$2,638,750 |
| SW 37th St - Scapa Place to Burlingame Rd  | \$3,700,000              | \$4,850,000            | + \$1,150,000 |
| SW 17th St - Adams to Washburn             | \$8,300,000              | \$16,425,000           | + \$8,125,000 |
| NE Seward - Sumner to Forest               | \$1,500,000              | \$2,900,000            | + \$1,400,000 |
| SE 37th St - Kansas Ave to Adams St        | \$4,400,000              | \$6,125,000            | + \$1,725,000 |
| Bikeways Master Plan                       | \$3,500,000              | \$3,500,000            | + \$0         |

Friends of the Topeka Zoo receives a maximum amount of \$10,000,000 of JEDO Funds; \$3,076,188 remains to be distributed as of 3/24/2025

## JEDO Fund Balance Schedule

| Fund Balance<br>Schedule         | <u>2025</u>  | <u>2026</u>  | <u>2027</u>  | <u>2028</u>  | <u>2029</u>  | <u>2030</u>  | <u>2031</u>  | <u>2032</u>  | <u>2033</u>   |
|----------------------------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|---------------|
| Projected EOY<br>Fund Balance    | \$21,684,346 | \$23,826,450 | \$25,291,491 | \$22,110,440 | \$12,963,562 | \$6,331,763  | \$12,371,096 | \$1,639,221  | (\$9,092,654) |
| Projected<br>Revenues by<br>Year | \$8,700,000  | \$8,917,500  | \$9,140,438  | \$9,368,948  | \$9,603,172  | \$9,843,251  | \$10,089,333 | -            | -             |
| Projected<br>Expenses by<br>Year | \$5,475,396  | \$6,775,396  | \$7,675,396  | \$12,550,000 | \$18,750,050 | \$16,475,050 | \$4,050,000  | \$10,731,875 | \$10,731,875  |

- Revenue is assuming a YoY Increase of 2.5% starting in 2025
- Tax Collections Expire 12/31/2031

4

## SW Huntoon St. - Gage Blvd to Harrison St.

- Infrastructure improvement and quality of life initiative spanning SW Huntoon St from Gage Blvd to Harrison Street.
- Scope is full depth reconstruction with single lane of travel, sidewalk and shared-use path. Complete storm water reconstruction and replacement of water line.
- Design will occur in 2025
- Right-of-way and utility relocations in 2026 \$1,650,000
- Construction will occur from 2027-2029 \$5,300,000/year

### SW Topeka Blvd- 15th To 21st Phase II

- Infrastructure improvement and quality of life initiative specifically involving pavement rehab on SW Topeka Blvd spanning 15<sup>th</sup> St to 21<sup>st</sup> St. Missing segment of shared use path will be added by Stormont Vail Events Center.
- Includes full-depth reconstruction of the road and replacement of storm sewer system.
- Construction will complete in 2026: \$3,600,000

## Bikeways Master Plan

- Program implements bikeway routes outlined in the Master Bikeways Plan enhancing the city's bicycle network with side paths, shared routes, connecting links, and bike lanes.
- Construction occurs in biennial phases began in 2018 and continues in 2026, 2028, and 2030.
- \$500,000/year budgeted for each of the remaining two years.

# Non-Citywide Half-Cent Sales Tax Programs & Projects

## Non-Citywide Half-Cent Sales Tax Programs

- Programs using non-citywide half-cent sales tax use one or more of the following funding sources based on resources and program qualifications:
  - GO Bonding: Type of debt security issued by a government or government agency to finance a public project.
  - Federal Funds Exchange: Voluntary program that allows local agencies to trade all or parts of its federal fund allocation in a specific fiscal year with the KDOT in exchange for state transportation dollars.
  - Operating Funds: General operating budgeted funds, otherwise known as "cash funding".

9

## GO Bonding Information

- Kansas statutes limit the amount of general obligation debt a governmental entity to 30% of its total assessed valuation.
- 2025 Total Assessed Valuation: \$1,514,568,229
- Current GO Principal Amount (3/1/2025): \$126,156,376
- Percentage: 8.33% out of limit of 30.00%
- 2024 EOY Debt Service Fund Balance: \$18,149,930
  - GO Debt Service Payments are paid out of the debt service fund

## GO Bonding Information

| Bond Year              | <u>2025</u>     | <u>2026</u>     | <u>2027</u>     | <u>2028</u>     | <u>2029</u>     | <u>2030</u>     |
|------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| Taxable Assessed Value | \$1,514,568,229 | \$1,560,005,276 | \$1,606,805,434 | \$1,655,009,597 | \$1,704,659,885 | \$1,755,799,682 |
| Revenues               | \$20,052,110    | \$16,412,393    | \$17,165,739    | \$17,901,948    | \$19,100,826    | \$20,366,003    |
| Expenses               | \$20,511,070    | \$20,270,823    | \$20,071,801    | \$19,701,008    | \$21,953,786    | \$22,877,432    |
| Surplus / (Deficit)    | (-\$458,960)    | (-\$3,858,431)  | (-\$2,906,062)  | (-\$1,799,061)  | (-\$2,852,960)  | (-\$2,511,429)  |
| EOY Projected Balance  | \$17,690,970    | \$13,832,540    | \$10,926,478    | \$9,127,418     | \$6,274,458     | \$3,763,029     |

- Assessed Valuation Totals are assuming 3% valuation increase each year (Capturing RNR)
- Laddering debt service mill back to 2025 mill rate at a +.5 rate each year
- Transitioning from 15-year amortization bonds to 20-year amortization bonds

| Budget Year            | <u>2025</u> | <u>2026</u> | <u>2027</u> | <u>2028</u> | <u>2029</u> | <u>2030</u> |
|------------------------|-------------|-------------|-------------|-------------|-------------|-------------|

12

## Traffic Signal Replacement Program

- Yearly funding covers 4 signal replacements resulting in a 46 year replacement cycle. Signal selection for replacement is based on physical condition, operational issues, and the capabilities of electronic components to detect vehicles, bicycles, and pedestrians
- 2026 Funding Level: \$2,500,000/Year
- 2026 Potential Projects:
  - 10<sup>th</sup> & MacVicar
  - 8<sup>th</sup> & Topeka Blvd
  - Kansas & 27<sup>th</sup>/25<sup>th</sup>
  - 6<sup>th</sup> & Branner

13

Funding Source: G.O. Bonds

- FIRM
- Facilities Improvement Replacement and Maintenance Program (FIRM) involves planning, designing, repairing, and constructing administrative, operations, fire, and other facilities.
- 2026 Budget: \$2,350,000
- 2026 Potential Projects:
  - LEC Garage
  - Holliday HVAC Balance and Refresh
  - Fire Stations Refresh

#### Funding Source: FFE

## Bridge Maintenance Program

- 15
- Bridge Maintenance Program addresses the deterioration of approximately 101 city bridges including reinforced concrete boxes under a street with spans of 20 feet or more.
- 2026 potential projects will be determined upon completion of the biennial inspection that occurs this year (2025).
- 2026 Budget: \$800,000

#### Funding Source: G.O. Bonds

## Citywide Infill Sidewalk Program

16

- Program builds new sidewalks and restores existing ones, in alignment with the Pedestrian Master Plan and public requests. It enhances pedestrian connectivity by expanding the route network, contributing to the city's multi-modal transportation system.
- 2026 Budget: \$600,000

## Traffic Safety Program

- Traffic Safety Program aims to enhance safety in the City's transportation network. Projects may involve new traffic signals, synchronized signal equipment, road diets including reduction of traffic lanes, construction of turn lanes or medians, and installation of pedestrian flashers/crosswalks.
- 2026 Budget: \$300,000

## Fleet Replacement Program - Street

- Program secures funding to maintain the heavy equipment replacement cycle within the Transportation Operations Division, based on condition. Heavy equipment includes, but is not limited to, items such as dump trucks, street sweepers, bucket trucks, and motor graders.
- 2026 Budget: \$1,033,000
- Tentative 2026 Requests: 3 Dump Trucks

18

Funding Source: G.O. Bonds

## NW Lyman Rd – Vail Ave to Tyler Sidewalk

- First phase of the project involves the construction of a sidewalk from Vail to Tyler. It will require extensive coordination and collaboration with the Union Pacific Railroad, particularly regarding proposed enhancements around the railroad crossing.
- 2026: \$1,355,972

19

Funding Source: G.O. Bonds

## SE Adams St. - 37<sup>th</sup> to 45<sup>th</sup> St.

- Project proposal involves converting the existing 2-lane rural section with open ditches into a 3-lane urban configuration, featuring an enclosed storm drainage system.
- The final design, scheduled for completion in 2027, will determine whether a 3-lane roadway is feasible for the entire stretch (from 37th to 45th) or if a 2-lane configuration with turn lanes at intersections would be more appropriate.
- Construction Estimated to begin in 2029
- Estimated Cost: \$7,136,630

2()

## Fire Station Replacement

- Project aims to design and construct a state-of-the-art fire station to enhance emergency response times, improve safety, and meet the growing needs of the local community.
- The new fire station will be strategically located to serve a wide geographic area, ensuring quick and efficient access. The facility will include modern amenities for firefighters, advanced firefighting equipment, and energy-efficient technologies.
- Design to start in 2026
- Estimated Cost: \$11,360,000

Funding Source: G.O. Bonds

# JEDO & Non-CWHC Sales Tax Programs & Projects April 15<sup>th</sup>, 2025

# Citywide Half-Cent Sales Tax Programs & Projects April 8<sup>th</sup>, 2025

### **Citywide Half-Cent Sales Tax Overview**

- Definition: To be used exclusively for costs of maintenance and improvements of existing City streets, gutters, curbs, sidewalks, alleys and street lighting, provided such tax shall take effect on October 1, 2019 and expire on October 1, 2029.
- **2024 Sales Tax Revenue**: \$19,947,441
- **2024 Ending Balance**: \$17,519,599
- Going Forward: City increased several programs such as the Pavement Management Program to spend down the current fund balance

### **Citywide Half-Cent Sales Program Overview**

### **PROWAG Sidewalk Ramp Program**

- Public Right of Way Accessibility Guidelines (PROWAG) Ramp Program provides for the maintenance and installation of accessible curb cuts and sidewalk ramps at intersections throughout the city.
- 6,998 ramps are non-compliant with current PROWAG standards. Priority is given to areas identified for improvement under the Pedestrian Master Plan.
- The cost per ramp can range from \$2,500 to \$3,500, depending on surrounding conditions (grade, right-of-way availability, utilities).
- **2026 Budget**: \$300,000; at current funding level 90-120 ramps can be upgraded annually.

### **Curb and Gutter Program**

- Program addresses citizen reported or staff-identified defective curbs and gutters citywide. Additionally, it supports other maintenance programs by providing curb and gutter repairs and replacements within various street repair projects throughout the city.
- Locations are based on See-Click-Fix and Public Requests.
- 2026 Budget: \$900,000

### **Alley Repair Program**

- The average cost of an alley replacement is \$170,000, thus at the current funding level, we can do approximately 5 alleys per year
- We have approximately 450 paved alleys in the City.
- 2026 Budget: \$1,000,000

### **Pavement Management Program**

- Program focuses on the rehabilitation and reconstruction of existing streets. The city's road network spans 1,622 lane miles, with an estimated cost of \$250,000 per lane mile for a mill and overlay.
- **2026 Budget:** \$14,000,000

### **Street Contract Preventative Maintenance Program**

- Current best practice is to maintain the Pavement Condition Index (PCI) of good streets through preventative maintenance
- Tools include crack sealing, micro surfacing and Ultrathin Bonded Asphalt Surface (UBAS).
- Cost per lane mile of micro is \$50K and UBAS \$90K
- 2026 Crack Sealing project will take place in the northeast quadrant of the city while the 2026 Micro Surfacing project will be conducted in the southeast quadrant of the city.
- 2026 Budget: \$4,000,000

### Sidewalk Repair Program

- Sidewalk Repair Program addresses defective public sidewalks across the City, specifically targeting those not meeting PROWAG standards.
- The program adopts a "50/50" model, with the City covering 50% of repair costs and residential property owners responsible for the remaining 50%.
- Income-qualified individuals may have their share of repair costs covered by the city.
- 2026 Budget: \$100,000

### Street Light Replacement Program

- About 10 light poles replaced per year
- \$10,000 for new solar light installation
- 2026 Budget: \$100,000

10

### Major Citywide Half-Cent Sales Tax Projects in CIB

- SE Quincy Street: 8<sup>th</sup> to 10<sup>th</sup>
- NW Menninger Road and N Topeka Blvd.
- 45<sup>th</sup> Street: Gage to Cambridge
- SW Topeka Boulevard: 29<sup>th</sup> St. to 38<sup>th</sup>

### SE Quincy Street: 8<sup>th</sup> to 10<sup>th</sup>

- This project provides funding for the reconstruction of this segment of Quincy. Potential changes include road diet, removal of an unwarranted signal, addition of RRFB's, bulb outs and buffered bike lane
- Potential Construction Timeline: 2027

### NW Menninger Road and N Topeka Blvd.

- This project will re-align the intersection of NW Menninger Rd and Topeka Blvd. This will include geometric modifications to Menninger Rd for realignment in addition to widening N Topeka Blvd and Menninger Rd intersection to add an additional turning lane for both westbound and eastbound traffic.
- County will participate in the funding
- Potential Construction Timeline: 2027

13

### SW Topeka Blvd. – 29th St. - 38th

- This project includes mill and overlay, base patching, and select curb replacement
- Traffic signal will be upgraded at intersections at SW 29th and SW 37th, funded by general obligation bonds.
- The intersections at 29th & 37th & Topeka Blvd. will be fully reconstructed with concrete
- Minor right-of-way acquisition is expected in 2025, with minimal utility impact during construction.
- Work is scheduled for 2026-2027, covering curb/gutter, signals, and medians.

### 45<sup>th</sup> Street: Gage to Cambridge

- This project will involve road widening and resurfacing of 45th Street from Gage to Cambridge. Additionally, a shared-use path will be added to enhance accessibility within the neighborhood.
- Construction of a shared-use path will take place in 2026. Utility relocation will take place in 2027, while reconstruction of the roadway will occur in 2028.

# Citywide Half-Cent Sales Tax Programs & Projects April 8<sup>th</sup>, 2025

# CIP Overview April 1<sup>st</sup>, 2025

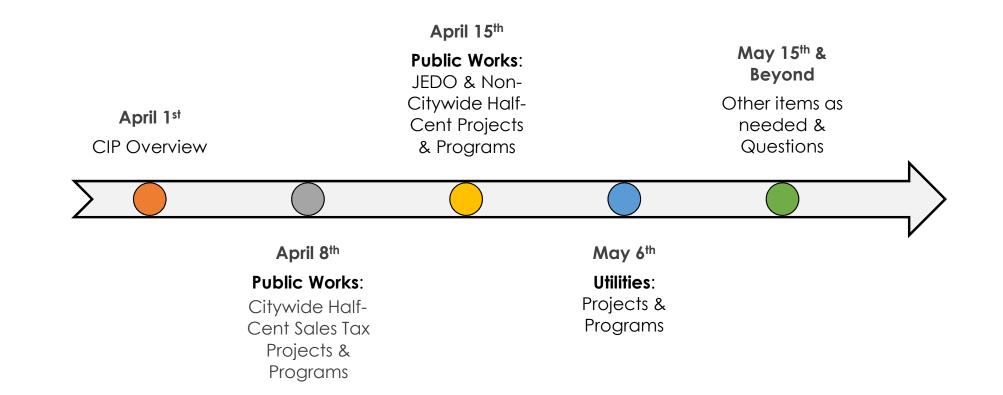

#### **CIP** Overview

#### Today:

- Presentation Schedule
- CIP Overview & Policy
- Funding Sources
- Constraints and challenges in developing a CIP
- Page Guide

#### **Presentation Schedule**

#### **CIP** Overview

#### **CIP** Timeline

- Capital Improvement Budget (3 years) vs. Capital Improvement Plan (10 Years)
- Approved annually by Governing Body

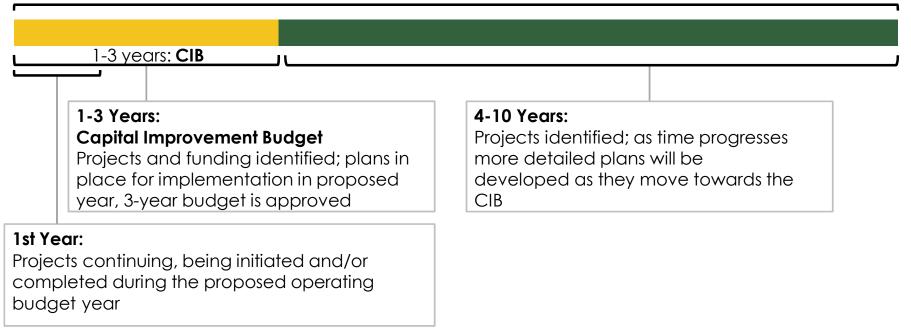

#### Purpose

- Long Range Budgeting Plan for City's assets
- Coordination across departments in regards to life cycle asset management
- Communication document for external stakeholders of how investments align with priorities

#### **CIP Overview - Continued**

#### 10-year Capital improvement Plan

#### **CIP Policy**

- Real property acquisition
- Construction of new facilities or additions to existing facilities costing a minimum of \$50,000
- Remodeling/repair of the interior/exterior of any facility exceeding \$25,000
- Information technology infrastructure or systems that require technology components or projects costing a minimum of \$50,000
- Multi-year phased projects
  - Not all spending fits into calendar years

#### **CIP Policy - Continued**

 A project over \$250,000 can be approved in the CIP, but the PWI Committee and the Governing Body still approve a final authorization of the project before it is put out for construction bid. If the project budget exceeds the amount approved by more than 15%, the project shall not continue unless the Governing Body approves an amended project budget.

#### **CIP Funding Source Summary with Examples**

- Public Works Primary Funding Sources
  - Citywide Half-Cent Sales Tax: Topeka Boulevard: 21st 29th
  - Countywide Half-Cent Sales Tax: SW Huntoon Street: Gage to Harrison
  - Federal Funds Exchange: Branner Bridge Repairs
  - **GO Bonds**: 17<sup>th</sup> and Fairlawn Signal Repair
- <u>Utilities Primary Funding Sources</u>
  - **Revenue Bonds**: Watermain Replacement Program
  - **Operating Funds Water**: Meter Vault Replacement Program
  - **Operating Funds Stormwater**: Levee Asset Repair/Rehab Program
  - Operating Funds Wastewater: Odor Control Program

#### **Staff Considerations**

- Financial: Funds are not unlimited,
  - GO Bond cap is set at \$27,000,000 over 3 years
  - Operating funds are subject to budget availability
  - Revenue bonds must be backed by ability to generate revenue
- Legal: Regulatory limits on how funds can be spent
  - Citywide Half-Cent Sales tax cannot be spent on new assets; only existing
  - Countywide Sales Tax (JEDO) can only be for projects approved under the 2016
     resolution
  - Infrastructure projects often involve multiple entities such as KDOT, Shawnee County, railroads
  - Projects have to be bonded within 3 years
- Timing: Committing to one project may delay other projects
  - Polk Quincy will delay other downtown repair projects because of detour routes

#### **Project Pages**

 Trupe:

 Type:
 Program

#### Project Description & Justification:

The Public Right of Way Accessibility Guidelines (PROWAG) Ramp Program provides for the maintenance and installation of accessible curb cuts and sidewalk ramps at intersections throughout the city, in accordance with PROWAG. The city currently has a total of 13,220 ramps, of which 6,222 are PROWAG-compliant and 6,998 are non-compliant. Priority is given to areas identified for improvement under the Pedestrian Master Plan. Additionally, priority locations include those where citizens have identified specific needs and roads undergoing major street maintenance. The cost per ramp can range from \$2,500 to \$3,500, depending on surrounding conditions (grade, right-of-way availability, utilities). The more challenges associated with bringing the location into compliance with PROWAG guidelines (longitudinal and transverse slope), the higher the cost. The city is currently able to upgrade between 90 and 120 ramps per year at this funding level.

| Other Projects 123-130  |

#### WHAT IS THE CIP?

The Capital Improvement Plan (CIP) is a long-range plan that helps ensure the annual operating budget, capital improvement budget, and long-term financial forecasts align and support the City's strategic goals. The CIP shows capital spending over the next ten years and is separate from the City's annual operating budget. The first three years of the CIP consists of projects adopted as part of the Capital Improvement Budget (CIB). The first year of the CIB reflects projects that will be initiated and/or completed during the upcoming operating budget year. The second- and third-year projects are those for which plans are in the preparation phase.

#### **CIP PROJECTS CRITERIA**

To be included in the CIP, capital projects should meet at least ONE of the following criteria:

- Real property acquisition
- Construction of new facilities and/or addition to an existing city facility costing a minimum of \$50,000
- Remodel/repair of any facility exceeding \$25,000
- Public infrastructure project
- Information technology projects costing a minimum of \$50,000

#### CONSIDERATIONS FOR LARGE SCALE PROJECTS

In 2023 the governing body passed the following measure to where a project over \$250,000 can be approved in the CIP, but the PWI Committee and the Governing Body still approve a final authorization of the project before it is put out for construction bid. The resolution is as outlined:

"With regard to a project that is ready for construction and whose total project budget exceeds \$250,000, the Governing Body, after considering a recommendation from the Public Infrastructure Committee, shall consider whether to authorize the project. If the project budget exceeds the amount approved by more than 15%, the project shall not continue unless the Governing Body approves an amended project budget"

#### **CIP FUNDING SOURCES**

The City uses a variety of funding sources to fund CIP projects. The City will not fund a project if available funding is not readily available. Funding sources are as follows:

General Obligation (G.O) Bonds

Type of debt security issued by a government or government agency to finance public projects. These bonds are typically backed by the full faith and credit of the issuer, meaning that they must be repaid using all available revenue sources.

#### **Revenue Bonds**

Backed by the revenue generated from a specific project or source, such as a toll road or bridge. The issuer of the bond pays back the bondholders with the revenue generated from the project or source, rather than from taxes.

Citywide Half-Cent Sales Tax

To be used exclusively for costs of maintenance and improvements of existing City streets, gutters, curbs, sidewalks, alleys and street lighting, provided such tax shall take effect on October 1, 2019 and expire on October 1, 2029. Below is a link to the official ordinance: https://s3.amazonaws.com/topeka-resolutions/02018/9032-citywide\_half-cent\_sales\_tax\_ballot\_question\_2018.pdf

Federal Funds Exchange

Voluntary program that allows local agencies to trade all or part of its federal fund allocation in a specific federal fiscal year with the Kansas Department of Transportation (KDOT) in exchange for state transportation dollars. Below is a link the guidelines:https://www.ksdot.gov/Assets/wwwksdotorg/bureaus/burLocalProj/BLPDo cuments/FFE/Fund%20Exchange%20Program%20Guidelines.pdf

Countywide Sales Tax (JEDO)

JEDO is funded through the half cent county wide retailers sales tax established by the inter-local agreement and is to be used for economic development. Below is a link to the guidelines:

https://www.jedoecodevo.com/Documents/JEDOInterlocalAgreementbetweenSN COandCOT-2017salestax.pdf

**Operating Funds** 

Capital purchases over \$50,000 by departments must be listed in CIP; including if the purchases are located in operating budget

#### HOW TO READ THE CIP

1. Project Name: The name of the program or project

- 2. Project Number: The unique number that designates each CIP project
- **3. Funding Source:** The main funding source for the program or project. Some CIP projects are allocated funds from various sources
- 4. Multiple Funds: This indicates whether the project receives funding from multiple sources
- 5. Council Districts: The location of the project, indicated by the council district. Often, programs will span multiple districts as they are comprised of a few separate projects
- 6. Department: The City department responsible for the project. The CIP includes projects from Public Works, Utilities, IT, Fire, and Police
- 7. Division: The division within the City department
- 8. Contact: The City staff person in charge of managing the project
- 9. New project? Indicates whether the project is new and added during the current CIP cycle
- 10. 1st CIP Year: The first year the project appeared in the CIP
- 11. Type: Whether it is a program (recurring) or a project (one-time improvement)
- 12. Project Estimates: The type of expenses incurred by the project by year
- 13. Financing Sources: The amount of funding from each source by year

#### **Project Description & Justification:**

The Americans with Disabilities Act (ADA) Ramp Program provides for the maintenance and installation of accessible curb cuts and sidewalk ramps at intersections throughout the city in accordance with the ADA Accessibility Guidelines. The City has approximately 8,000 existing sidewalk ramps with approximately 1,200 additional locations needed. Priority is given to the areas identified for improvement under the Pedestrian Master Plan. Additionally, priority locations are those where citizens have identified specific needs and along roads where major street maintenance is occurring. The cost per ramp can range from \$2,500 to \$3,500 depending on the surrounding conditions (grade, right of way availability, utilities). The more challenges associated with bringing the location into compliance with the ADA guidelines (longitudinal and transverse slope), the higher the cost. The city is currently able to upgrade between 90 and 120 ramps per year at this funding level.

| Total Budget            | \$ 3,000,000                              | Type:         | Program       |

#### **Project Description & Justification:**

The Public Right of Way Accessibility Guidelines (PROWAG) Ramp Program provides for the maintenance and installation of accessible curb cuts and sidewalk ramps at intersections throughout the city, in accordance with PROWAG. The city currently has a total of 13,220 ramps, of which 6,222 are PROWAG-compliant and 6,998 are non-compliant. Priority is given to areas identified for improvement under the Pedestrian Master Plan. Additionally, priority locations include those where citizens have identified specific needs and roads undergoing major street maintenance. The cost per ramp can range from \$2,500 to \$3,500, depending on surrounding conditions (grade, right-of-way availability, utilities). The more challenges associated with bringing the location into compliance with PROWAG guidelines (longitudinal and transverse slope), the higher the cost. The city is currently able to upgrade between 90 and 120 ramps per year at this funding level.

2026 - 2029 Curb and Gutter Programs 841102.00 Fix Our Streets Sales Tax No Multiple \$ 9,000,000

Department:Public WorksDivision:EngineeringContact:Vince SchuetzNew Project?No1st CIP Year:Yogram

#### **Project Description & Justification:**

This project addresses reported or staff-identified defective curbs and gutters citywide. Additionally, it supports other maintenance programs by providing curb and gutter repairs and replacements within various street repair projects throughout the city.

2026 - 2030 Alley Repair Programs 841096.00 Fix Our Streets Sales Tax No Multiple \$ 10,000,000 Department:Public WorksDivision:EngineeringContact:Vince SchuetzNew Project?No1st CIP Year:Type:Program

#### **Project Description & Justification:**

The Alley Repair Program refurbishes requested and approved paved alleys citywide. The average cost of an alley replacement is \$170k, thus at the current funding level, we can do approximately 5 alleys per year. Staff developed a data driven approach based on rating all alleys on factors including pavement condition, utilities, land use, etc.

#### **Project Description & Justification:**

Funded by the citywide 1/2 cent sales tax, this program focuses on the rehabilitation and reconstruction of existing streets. The city's road network spans 1,622 lane miles, with an estimated cost of \$250,000 per lane mile for a mill and overlay. The Pavement Management Program has been instrumental in improving the Pavement Condition Index (PCI) of the city's streets. In 2016, the average PCI was 54; in 2019, it rose to 61.80, and the latest results from 2022 show a PCI of 67.71. Staff based the selection of streets for the program and teh treatment method based on the PCI.

| Multiple Funds:         | No   | New Project?  | No             |
| Council District(s):    | Multiple   | 1st CIP Year: |                |
| Total Budget            | \$ 40,000,000  | Туре:         | Program        |

#### Project Description & Justification:

The program facilitates pavement management activities, focusing on ongoing preventative maintenance such as crack sealing and surface sealing, with an estimated cost of approximately \$60,000 per lane mile for Microsurfacing and \$90,000 per mile for UBAS. These are cost effective means of keeping the good streets in a good condition. The 2026 Crack Sealing project will take place in the northeast quadrant of the city (from SW 21st Street north to the northern city limits and from NW/SW Topeka Boulevard east to the eastern city limits), while the 2026 Micro Surfacing project will be conducted in the southeast quadrant of the city (from SW 21st Street south to the southern city limits and from SW 21st Street south to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the southern city limits and from SW Topeka Boulevard east to the eastern city limits). This program also includes UBAS (Ultrathin Bonded Asphalt Surface) treatment for arterials and collector roads.

#### **Project Description & Justification:**

The Sidewalk Repair Program addresses defective public sidewalks across the City, specifically targeting those not meeting PROWAG standards and COT property codes. The program adopts a "50/50" model, with the City covering 50% of repair costs and residential property owners responsible for the remaining 50%. Income-qualified individuals may have their share of repair costs covered by the city. Project selection is application-based.

Department:Public WorksDivision:EngineeringContact:Steven GroenNew Project?No1st CIP Year:Type:Program

#### **Project Description & Justification:**

This program is for repairing and replacing street lights owned by the City. Funding would additionally allow staff to conduct solar light pilot projects. The poles from electrical street lights that are swapped for solar would be added back to inventory for reuse when street poles are knocked down or damaged unexpectedly.

2026 - 2030 Bridge Maintenance Program 121023.00 Federal Funds Exchange No Multiple \$ 8,900,000 Department:Public WorksDivision:EngineeringContact:Mark SchreinerNew Project?No1st CIP Year:Yrogram

#### **Project Description & Justification:**

The Bridge Maintenance Program addresses the deterioration of approximately 101 city bridges with spans of 20 feet or more. Biennial inspections identify maintenance needs. Historically, staff have utilized bridge funds as matching contributions for Federal and State grants for bridge maintenance.

#### Project Description & Justification:

The program builds new sidewalks and restores existing ones, in alignment with the Pedestrian Master Plan and public requests. It enhances pedestrian connectivity by expanding the route network, contributing to the city's multi-modal transportation system. Priority projects focus on areas of high pedestrian demand identified in the Pedestrian Master Plan. The City is currently updating the Pedestrian Plan that will identify and prioritize sidewalk segments for replacement based on pavement condition and social justice factors including providing safe routes for children to attend schools and residents to reach employment, and public sidewalks such as transit.

#### **Project Description & Justification:**

This program is a component of the Topeka DREAMS Neighborhood Improvement Initiatives Program. The City will target a majority of neighborhood infrastructure resources in one redevelopment area or neighborhood every two years. Infrastructure funding invested in this program will allow for improvements such as rebuilding deteriorated streets, curb/gutter, alleys, and sidewalks and the replacement of impacted wastewater structures. Included is a funding component for the replacement of wastewater structures that are impacted by the improvements. These funds are leveraged with the Community Development Block Grant (CDBG) and HOME Investment Partnership funds that are utilized for housing rehabilitation (\$300,000). DREAMS 1 uses an application process with the Citizen Advisory Council to determine which neighborhood is selected for redevelopment. Individual projects are prioritized and selected by stakeholders in the redevelopment neighborhood during the City's Neighborhood Planning process.

#### **Project Description & Justification:**

The Topeka Dreams 3 Grant program offers mini-grants, technical assistance, and city support to neighborhood improvement association groups. It enables them to address public concerns locally, focusing on community engagement, infrastructure enhancements, public accessibility, neighborhood beautification, and other quality-of-life improvements. Grant awards vary from \$2,000 to \$50,000.

**2026 - 2030 Traffic Safety Program** 601201.00 G.O. Bonds No Multiple \$ 3,400,000 Department:Public WorksDivision:EngineeringContact:Mark SchreinerNew Project?No1st CIP Year:Yrogram

#### **Project Description & Justification:**

The Traffic Safety Program aims to enhance safety in the City's transportation network. Projects may involve new traffic signals, synchronized signal equipment, elimination of free-flowing right turn lanes, construction of turn lanes or medians, and installation of pedestrian flashers/crosswalks. Additionally, the program may contribute to the city's share of State and/or Federal traffic safety enhancement grants, supporting initiatives like long-life pavement markings, ITS cameras, or school flashing light systems.

#### Project Description & Justification:

The Traffic Signal Replacement Program involves replacing traffic signals citywide. With approximately 186 signalized intersections, the proposed funding allows for the replacement of three signals annually, resulting in a replacement cycle of about 60 years. Signal selection for replacement is based on physical condition, operational issues, and the capabilities of electronic components to detect vehicles, bicycles, and pedestrians. As part of the design work for any traffic signal replacement project, an analysis will be performed to determine whether the signal is warranted under the Manual on Uniform Traffic Control Devices (MUTCD). New systems will incorporate the latest technology and comply with the MUTCD and PROWAG. Despite technological advancements and wear and tear, this replacement cycle helps extend the useful life of signal components.

#### Project Description & Justification:

The Facilities Improvement Replacement and Maintenance Program (FIRM) involves planning, designing, repairing, and constructing administrative, operations, fire, and other facilities. Infrastructure improvements cover mechanical, electrical, and plumbing projects, including engineering. Additionally, it may address building envelopes, roofs, interior renovations, and other necessary items to maintain City facilities in a serviceable condition and in compliance with City codes.

#### **Project Description & Justification:**

The Board of Trustees of TPAC, along with relevant city staff, will develop plans outlining the specific capital improvement projects to be undertaken each fiscal year, including costs and timelines. These improvements will be presented to the City Council Infrastructure Committee by the Board of Trustees for approval before any expenditures are made. The estimated design cost for 2025 is \$98,315 for the following items:

1. Basement Upgrades for the Hill's Room: upgraded lighting features, dimmable Red, Green, & Blue (RGB) lighting, upgraded speakers, and wall control.

2. First Floor Upgrades: two lobby box office locations, climate-controlled booths, upgraded security, enhanced power locations in the promenade hall, increased vendor opportunities, and a new serving bar in the Fleming Room.

3. Upgraded Finishes: improved lighting and speakers in the VIP area

Bikeways Master Plan 861041.00 Countywide Sales Tax No Multiple \$ 1,500,000 Department:Public WorksDivision:EngineeringContact:Joe Harrington/Alleigh WeemsNew Project?No1st CIP Year:Program

#### **Project Description & Justification:**

This program implements bikeway routes outlined in the Topeka Bikeways Master Plan, enhancing the city's bicycle network with features such as side paths, shared routes, connecting links, and bike lanes. Construction occurs in biennial phases, beginning in 2018 and continuing in 2020, 2022, 2024, 2026, 2028, and 2030. Project selection is based on studies of potential street segments recommended by the Complete Streets Advisory Committee. Additionally, these funds may be used as the City's matching share for Federal and State grants for Bikeways Safety Projects.

#### Project Description & Justification:

This project was identified in 2016 by the Joint Economic Development Organization (JEDO) as an infrastructure improvement and quality-of-life initiative to be funded through the Countywide Half-Cent sales tax. It spans SW Huntoon St. from Gage Blvd. to Harrison St. The scope of the project may include options ranging from mill and overlay with full-depth base patching to comprehensive street reconstruction, utility replacement, and the addition of complete street features, including lighting, shared-use paths, sidewalks, and bike lanes. The final scope will be determined by the governing body based on construction costs and the projected revenue from the Countywide Half-Cent sales tax. Design of the project will occur in 2025, right-of-way and utility relocations in 2026, and construction from 2027 to 2029.

#### **Project Description & Justification:**

This project was identified in 2016 by the Joint Economic Development Organization (JEDO) as an infrastructure improvement and quality-of-life initiative to be funded through the allocation of Countywide Half-Cent sales tax dollars. The project may include extending the three-lane pavement section on NE Seward Ave. from Sumner St. east to Forest Ave. The scope may range from mill and overlay with full-depth base patching to comprehensive street reconstruction, utility replacement, and the addition of complete street features, including lighting, shared-use paths, sidewalks, and bike lanes. The final scope will be determined by the governing body based on construction costs and the projected revenue from the Countywide Half-Cent sales tax.

#### **Project Description & Justification:**

This project was identified in 2016 by the Joint Economic Development Organization (JEDO) as an infrastructure improvement and quality-of-life initiative, slated for completion using Countywide Half-Cent sales tax dollars. The project specifically involves pavement rehabilitation on SW Topeka Blvd., spanning from 15th St. to 21st St. The scope determined by the Public Infrastructure Committee will include full-depth reconstruction of the road and replacement of the storm sewer system. The missing segment of shared use path will be added by the Stormont Vail Events Center. Notably, in 2023, the project timeline was expedited, advancing the construction commencement from the originally projected start year of 2028 to a revised date of 2025. The project will be constucted in 2025 and 2026.

#### Project Description & Justification:

In 2016, the Joint Economic Development Organization (JEDO) identified this project as a vital infrastructure enhancement and quality-of-life initiative, slated for completion through the allocation of Countywide Half-Cent sales tax funds. The project may include mill and overlay or the comprehensive replacement of pavement on SW 17th Street, encompassing the stretch between Adams St. and Washburn Ave. The revitalized roadway may include curb and gutter elements, sidewalks, and a drainage system. The full scope of the project will depend on the Governing Body's decisions based on estimates of various options. The project is strategically structured to unfold in three distinct phases. Design activities are anticipated to commence in 2030, followed by utility relocation and easement acquisition in 2031. Subsequently, the construction phase is projected to occur between 2032 and 2033, ensuring efficient execution of the project.

#### Project Description & Justification:

In 2016, the Joint Economic Development Organization (JEDO) identified this project as a significant infrastructure enhancement and quality-of-life initiative, designated for completion through the allocation of Countywide Half-Cent sales tax funds. The scope may range from mill and overlay with full-depth base patching to comprehensive street reconstruction, utility replacement, and the addition of complete street features, including lighting, shared-use paths, sidewalks, and bike lanes. The final scope will be determined by the governing body based on construction costs and the projected revenue from the Countywide Half-Cent sales tax.

#### Project Description & Justification:

In 2016, the Joint Economic Development Organization (JEDO) designated this initiative as a pivotal infrastructure improvement and quality-of-life project, set for completion through the use of Countywide Half-Cent sales tax dollars. The project involves a section of SW 29th St., stretching from Wanamaker Rd. to the Shunga Creek Bridge. The scope may range from mill and overlay with full-depth base patching to comprehensive street reconstruction, utility replacement, and the addition of complete street features, including lighting, shared-use paths, sidewalks, and bike lanes. The final scope will be determined by the governing body based on construction costs and the projected revenue from the Countywide Half-Cent sales tax. Due to the deteriorated pavement condition, staff performed a mill and overlay on this section of road in 2023, which typically extends the pavement life by about 10 years. Consequently, we are targeting this project for construction in 2032 and 2033.

#### **Project Description & Justification:**

In 2016, the Joint Economic Development Organization (JEDO) designated this project as a vital infrastructure improvement and quality-of-life initiative to be executed through the use of Countywide Half-Cent sales tax funds. The scope may range from mill and overlay with full-depth base patching to comprehensive street reconstruction, utility replacement, and the addition of complete street features, including lighting, shared-use paths, sidewalks, and bike lanes. The final scope will be determined by the governing body based on construction costs and the projected revenue from the Countywide Half-Cent sales tax. Conceptual groundwork, including layout planning, phasing considerations, and identification of utility issues, began in 2019. Notably, this project may also include water line replacement and sanitary sewer point repairs. Originally scheduled for construction between 2023 and 2025, the project timeline was subsequently adjusted by the governing body due to cost estimates, reprioritization of JEDO projects, and the current condition of the pavement.

#### Project Description & Justification:

The JEDO interlocal agreement, initiated on April 19th, 2016, between the City of Topeka and Shawnee County, incorporates a half-cent sales tax dedicated to economic development and infrastructure projects. Under this agreement, the City committed to allocating \$10 million in capital improvement funds from its share of the JEDO sales tax to the Topeka Zoo. This project outlines the funding schedule for the implementation of the Topeka Zoo and Conservation Center Master Plan.

#### **Project Description & Justification:**

This project will re-align the intersection of NW Menninger Rd and Topeka Blvd. This will include geometric modifications to Menninger Rd for realignment in addition to widening N Topeka Blvd and Menninger Rd intersection to add an additional turning lane for both westbound and eastbound traffic. This project will be a cost share agreement with Shawnee County covering 35% budget.

#### Project Description & Justification:

This project involves the construction of a sidewalk from Vail to Tyler. It will require extensive coordination and collaboration with the Union Pacific Railroad, particularly regarding proposed enhancements around the railroad crossing. Design and study for the sidewalk project began in 2024 with a traffic study which recommended a 2-lane roadway, followed by right-of-way acquisition in 2025 and sidewalk construction in 2026. The roadway portion will be addressed in subsequent years. It is important to note that the project number specifically pertains to the sidewalk portion along NW Lyman Road, referencing project number 701066.00 for the road segment.

#### Project Description & Justification:

This project involves the reconstruction of NW Lyman Rd. from Lane St. (Union Pacific Railroad crossing) to Tyler St. While maintaining a two-lane configuration, enhancements will include curb and gutter installations and an enclosed storm sewer system. Notably, no pavement improvements are planned for the section from Vail Ave. to Lane St., which will retain its two-lane rural character. Successful execution of this project will require extensive coordination and collaboration with the Union Pacific Railroad, particularly regarding proposed enhancements around the railroad crossing. Initially slated for design in 2027, right-of-way acquisition and utility relocation in 2028, and construction in 2029, the project timeline has been adjusted. Design of the road project will now occur in 2028, with construction scheduled for 2029. This project number specifically pertains to the road portion.

#### Project Description & Justification:

This initiative is part of the Downtown Master Plan proposal and includes a mill and overlay, removal of median planters, and minor roadway reconstruction. No right-of-way acquisition is anticipated. The goal is to replicate the improvements made along 6th and 10th Streets. Coordination with the Polk Quincy Viaduct has prompted a delay in this project. While public input was gathered during the development of the Downtown Master Plan, additional feedback is needed for this project due to the impact the Polk Quincy Viaduct will have on this section of Kansas.

#### Project Description & Justification:

This project encompasses mill and overlay, median work, and the reconstruction of intersections at 10th and 17th. Construction is slated for 2028. Currently, the road features a mix of diagonal and parallel parking and varies in width from approximately 56' to 86'. No right-of-way acquisition is anticipated, as the road width is expected to decrease. The project will cover the entirety of the stretch from 10th to 17th, including full-depth reconstruction of the intersections with concrete. Given the potential narrowing of this section of Kansas Ave., substantial public input is anticipated.

#### **Project Description & Justification:**

This project will involve mill and overlay, localized base patching, and curb replacement. Additionally, upgrades to traffic signals at both SW 29th and SW 37th are planned, with funding secured through general obligation bonds. Minor right-of-way acquisition is anticipated in 2025, and there will be minimal impact on utilities during construction. Construction is scheduled for FY2026 and FY2027, encompassing comprehensive work on curb and gutter, signals at 29th and 37th, and medians. Two intersections will undergo complete reconstruction: 29th and Topeka Blvd.

#### **Project Description & Justification:**

This project entails a comprehensive reconstruction of SE Adams, spanning from SE 37th to SE 45th. The proposed transformation involves converting the existing 2-lane rural section with open ditches into a 3-lane urban configuration, featuring an enclosed storm drainage system. It is important to note that width constraints beneath the I-470 bridge may limit the area under the overpass to a 2-lane section. The final design, scheduled for completion in 2027, will determine whether a 3-lane roadway is feasible for the entire stretch (from 37th to 45th) or if a 2-lane configuration with turn lanes at intersections would be more appropriate.

#### **Project Description & Justification:**

The SW 10th Avenue project aims to enhance SW 10th Street from just west of Wanamaker to Gerald Lane. This area transitions from commercial development near Wanamaker to residential housing to the west. The proposed upgrade involves converting the road into a 3-lane section up to Gerald Lane, with potential future expansion further west. However, a drainage structure (bridge) just east of Gerald Lane limits the width to only 2 lanes. Two options are being considered: narrowing to a 2-lane section at the bridge and reverting to a 3-lane configuration further west, or widening the bridge to allow for a continuous 3-lane road. The final lane configuration will be determined during the design phase, based on traffic projections and growth potential.

The project spans approximately 1,200 feet and will be executed in two stages. The first stage involves a mill and overlay in 2023, funded by Citywide Sales Tax. The second phase, focused on reconstruction design, is scheduled for 2030 and beyond, ensuring a thorough review of traffic projections before finalizing the design.

#### Project Description & Justification:

The drainage structure (bridge) located approximately 100 feet east of Gerald Lane currently accommodates only 2 lanes of travel. The decision on whether to completely replace the structure or extend the existing one to facilitate 3-lane travel with pedestrian access will be made during the final design phase. This project is being coordinated with the Gerald Lane street project. The road, serving as an entryway for hotels and restaurants, is experiencing rapid deterioration.

#### **Project Description & Justification:**

This project involves the replacement of pavement on SW 21st Street between Belle and Fairlawn. The revamped roadway will feature curb and gutter installations along with a storm drainage system. The reconstruction will cover 5 lanes of 21st Street from Belle to Fairlawn, with the design phase scheduled for 2028.

## Project Description & Justification:

This project involves curb replacement, localized base patching, and mill/overlay of SW 29th St. from Burlingame Road to Topeka Blvd. The design is scheduled for 2024 with construction planned for 2026 when the intersection of 29th and Topeka will be closed for reconstruction. There will also be storm drainage improvements with the project.

#### **Project Description & Justification:**

The SW Urish Road project, spanning from SW 21st to SW 29th Street, entails a comprehensive reconstruction of this segment. Although other sections of Urish Road in the County have 5 lanes, it is recommended to restrict this stretch to 3 lanes, incorporating enclosed storm infrastructure and sidewalk/shared use path enhancements.

#### **Project Description & Justification:**

The scope of this project encompasses a mill and overlay, along with localized base patching, on South Topeka Blvd between 38th and 49th streets. Design activities are scheduled for 2026, with utility relocation and minor right-of-way acquisition anticipated in 2027. The construction phase is planned for 2028. There will be replacement of the traffic signal at 38th and Topeka Blvd.

#### Project Description & Justification:

The project necessitates a complete reconstruction of I-70 from the termination point of the PQV West project to approximately SE Indiana, encompassing the bridges over Adams St. and Shunga Creek. While KDOT will handle the project's design, the City is expected to commit to funding a 10% share of the construction phase. Replacement of the bridges will reduce the cost of ongoing costly maintenance as the bridges reach the end of their useful life. This project constitutes a 10% match towards the total project cost, with the City's share currently estimated at \$18,600,000, exclusive of bonding cost issuances.

#### Project Description & Justification:

This project aims to enhance traffic operations, safety, and the level of service in the SW Wanamaker Road, SW Huntoon Street, I-470/Wanamaker Exit Ramp, and I-470/Winding Road entrance ramp areas. Currently, this region faces congestion and operates at a low level of service. The existing roadway network within the bounded area of SW Huntoon Street, SW Urish Road, SW 17th Street, and SW Wanamaker Road is operating at or near capacity in multiple locations. Previous traffic impact studies for proposed developments in the area have indicated potential traffic operation failures at several intersections due to further development. City staff, in collaboration with the Kansas Department of Transportation and a consultant, conducted a Traffic Impact Study to determine necessary geometric and intersection improvements, as well as access control measures required to accommodate the anticipated increase in traffic from future developments. There is a possibility of this being a joint City and KDOT project.

#### Project Description & Justification:

The Walter P. Moore study highlighted several areas of deficiency within the garages caused by deferred maintenance and overdue repairs. The following type of repairs are schecduled from 2023 - 2026: structural, waterproofing, mechanical, plumbing, electrical, fire protection, and façade. This is an ongoing porject. Work continues on the Uptowner and Townsite garages.

#### **Project Description & Justification:**

This project will construct a new interchange on the Kansas Turnpike at SE 29th Street. The 2023 CIB was amended to provide funding for an initial feasibility study of the exit from I-470 at 29th St. including off ramps and toll interchange. The City and KTA have jointly partnered to do an updated concept plan including high level cost estimates given the construction cost inflation we have seen over the last 3 years. Additionally the new cashless tolling system that KTA was implemented in 2024 eliminated the need for toll booths at this interchange. The study has been completed and estimates a total project cost in 2025 of \$19,054,772.

#### **Project Description & Justification:**

This project will involve road widening and resurfacing of 45th Street from Gage to Cambridge. Additionally, a shared-use path will be added to enhance accessibility within the neighborhood. Construction of a shared-use path will take place in 2026. Utility relocation will take place in 2027, while construction of the roadway will occur in 2028.

AVL: Automatic Vehicle Location 701065.00 Operating Fund General No Multiple \$ 225,000 Department:Public WorksDivision:FleetContact:Jason TryonNew Project?Yes1st CIP Year:2026Type:Project

#### **Project Description & Justification:**

The City of Topeka is soliciting proposals from qualified firms to replace all necessary hardware, firmware, and software necessary for existing Automated Vehicle Location System (AVL) used in City owned vehicles and equipment. Inclusive, but not limited to, the acquisition will be the implementation, removal of current GPS units, installation, configuration, training, and maintenance of software and related hardware and devices, test and acceptance plans, and associated documentation.

Fire Station Replacement Cycle 131100.00 G.O. Bonds No Multiple \$ 11,360,000 Department:Public WorksDivision:FacilitiesContact:Jason TryonNew Project?Yes1st CIP Year:2026Type:Project

## **Project Description & Justification:**

The project aims to design and construct a state-of-the-art fire station to enhance emergency response times, improve safety, and meet the growing needs of the local community. The new fire station will be strategically located to serve a wide geographic area, ensuring quick and efficient access. The facility will include modern amenities for firefighters, advanced firefighting equipment, and energy-efficient technologies.

Heavy Duty Fleet Garage 131101.00 G.O. Bonds No Multiple \$ 8,100,000 Department:Public WorksDivision:FacilitiesContact:Jason TryonNew Project?Yes1st CIP Year:2026Type:Project

## Project Description & Justification:

The Heavy Duty Fleet Garage project aims to design and construct a specialized facility to accommodate the maintenance, repair, and storage of a fleet of heavy-duty vehicles and equipment. This facility will support a wide range of vehicles, including trucks, construction equipment, buses, and other large machinery, ensuring they remain in optimal working condition for continuous operations. The garage will be designed for efficiency, durability, and safety, providing a fully equipped environment for both routine and emergency repairs. A study will be done to determine if current facility can be revamped to meet needs or if a facility relocation is needed.

#### Project Description & Justification:

The Water Main Replacement Program focuses on upgrading water mains in areas with frequent breaks due to aging infrastructure. We utilize Fracta, a technology that analyzes pipeline data to assess failure risks, guiding our project selection. Our efforts align with half-cent sales tax initiatives and priority street improvements managed by the City Engineering Division. Upgrading water infrastructure enhances water quality and fire flow protection while reducing operational costs by minimizing emergency repairs. This project will also include public education on lead risks and assessments of distribution materials to ensure high water quality. The Lead and Copper Rule Revisions (LCRR) will guide evaluations, material assessments, and replacements of public and private water service lines.

#### Project Description & Justification:

This project involves rehabilitating six filters, maintaining motor control centers, and repairing electronic and mechanical equipment. It also addresses concrete deterioration, leaking roofs, and the replacement of inoperative valves, focusing on critical structures and equipment that are aging or failing. These efforts will reduce maintenance costs, extend the lifespan of the existing Water Treatment Plant facilities, and ensure a reliable water supply for city residents, commercial developments, and wholesale customers. Project priorities are reviewed annually, and sub-projects will be assigned based on their importance.

#### Project Description & Justification:

Water towers provide essential water supply to the citizens and customers of Topeka. To maintain these assets, it is recommended that both interior and exterior tower coatings be applied every 15 years. Regular inspection, cleaning, repair, and coating of the City's water storage facilities will help prevent structural damage, preserve valuable capital assets, and ensure decades of reliable service. This project focuses on rehabilitating existing water storage facilities within the distribution system. Rehabilitation efforts may include structural and safety improvements, regulatory updates, coating, interior and exterior cleaning, and other necessary repairs.

#### **Project Description & Justification:**

This program aims to eliminate hazards and ensure compliance with OSHA and City of Topeka standards for replaced assets. Recent surveys by the Meter Services Large Meter Crew identified multiple large meter accounts needing vault replacements due to hazardous conditions, such as collapsing pit structures and restricted openings. These issues prevent the Large Meter Crew from conducting annual accuracy testing and maintenance, leading to lost revenue. The Utility Billing section has also faced challenges with estimating multiple accounts due to these conditions. The Utilities Department services 206 large meters (3" to 8"), primarily used by wholesale, industrial, multi-family, and commercial customers, who collectively use about 1.7 billion gallons of water annually. Meter Services identified 145 applications for this project, with 10 posing potential hazards, 31 being faulty or untestable, and 104 not meeting installation standards.

| Total Budget            | \$ 3,015,000  | Туре:         | Program       |

#### Project Description & Justification:

Properly functioning hydrants are essential for maximizing available fire flow (AFF) during firefighting and are used daily for flushing and maintenance of the water distribution system. Operational valves are critical for minimizing service disruptions to customers during system work. Currently, citizens frequently contact Utilities about out-of-service hydrants. Failing to address this issue could result in more service disruptions, longer repair times, lower water quality, and reduced fire protection. An annual program will ensure consistent funding for hydrant and valve maintenance, involving the rehabilitation and replacement of non-functioning or deteriorating hydrants and valves in the water distribution system.

#### **Project Description & Justification:**

The purpose of this program is to create a plan for the repair and replacement of City Water Plant equipment and vehicles, reducing the risk of costly emergency repairs and extending their useful life. By implementing this program, we aim to limit unexpected large capital expenditures and control overall operating and maintenance costs. Additionally, the program ensures that equipment remains current and is maintained effectively, enhancing reliability and productivity while reducing maintenance costs. Ultimately, this program will help minimize annual operating cost increases related to fleet and plant equipment assets.

| Total Budget            | \$ 4,200,000  | Туре:         | Project        |

#### **Project Description & Justification:**

The Booster Pump Station (BPS) rehabilitation projects focus on upgrading existing in-service Water Booster Pump Stations to meet water distribution needs. This effort may involve replacing or rehabilitating pumps, motors, valves, variable frequency drives, and electrical, communication, and control systems. Given the critical nature of in-service pump station infrastructure, these updates are essential. Implementing variable frequency drives (VFDs) will enhance pumping efficiency, prolong asset lifespan by reducing energy consumption and wear, and decrease the likelihood of costly emergency repairs.

| Total Budget                   | \$ 9,575,000                                | Туре:         | Project       |

#### **Project Description & Justification:**

Improvements to the transmission system will involve creating looped water lines to enhance water distribution and fire protection. Additionally, when feasible, portions of the Southeast Zone will be shifted to the Montara Zone, which has a higher hydraulic grade line, allowing the City to increase pressure to customers by 25 to 30 psi. The Utilities Department frequently receives inquiries about low pressure concerns. These projects are currently in the planning phase and will be coordinated with other Utilities and City initiatives.

#### **Project Description & Justification:**

This project aims to replace transmission mains and upsize existing lines for increased capacity in the West Pressure Zone, alongside other Water Distribution initiatives. These projects were identified in the 2017 Water Distribution System Master Plan. Improvements will include creating looped water lines to enhance water distribution and fire protection. Currently, the projects are in the planning phase and will be coordinated with other Utilities and City efforts.

#### Project Description & Justification:

Projects under this program will replace transmission mains, construct new lines, and upsize existing lines to enhance the hydraulic characteristics of the Central Pressure Zone. Planned sub-projects during the CIP period include: 21st Street between Washburn Avenue and Western Avenue; areas northwest of HWY 24 and Topeka Boulevard between 24th Street and Reo Street; Quincy Street between Laurent Street and Morse Street; 6th Avenue between Fairlawn Road and Governor's Lake; and 21st Street between Randolph Avenue and Washburn Avenue. Additionally, the Central-Southeast Boundary Optimization will cover 37th Street between Burlingame Road and Plaza Drive, areas east of 35th Terrace and south of MacVicar Avenue, and I-470 between 37th Street and Burlingame Road, as well as 37th Street east of Gage Boulevard.

Project Name: Project Number: Primary Funding Source: Multiple Funds: Council District(s): Total Budget North Zone Optimization 281248.00 Revenue Bonds No Multiple \$ 3,780,000 Department:UtilitiesDivision:WaterContact:Duncan TheuriNew Project?No1st CIP Year:2015 and PriorType:Project

#### **Project Description & Justification:**

This program will include projects to replace transmission mains, construct new lines, and upsize existing lines to enhance hydraulic characteristics in the North Pressure Zone. Improvements will involve creating looped water lines to boost water distribution and fire protection. The 2017 Water Distribution System Master Plan identified key areas needing pressure improvements within the North Pressure Zone. Completing this project will enhance water pressure, distribution, and fire protection, with customers potentially experiencing pressure increases of 25 to 30 psi. The Utilities Department frequently receives inquiries from customers regarding low pressure concerns. These projects are currently in the planning phase and will be coordinated with other Utilities and City initiatives.

Disinfection Modification 281236.00 Revenue Bonds No Multiple \$ 25,007,042 Department:UtilitiesDivision:WaterContact:Duncan TheuriNew Project?No1st CIP Year:2015 and PriorType:Project

#### **Project Description & Justification:**

This project funds the evaluation of necessary disinfection modifications at the Water Treatment Plant. Initially, it focused on adding powdered activated carbon (PAC) and relocating chlorine contact basins for the east and west treatment trains. Enhancing the treatment process is crucial for improving water quality, reducing harmful disinfection byproducts, and ensuring compliance with regulatory standards. However, after engineering assessments, the proposed additions of PAC and modifications to the chlorine contact basins were found to be prohibitively expensive and unsuccessful in obtaining regulatory approval for discharging carbon into the Kansas River.

Project Name: Project Number: Primary Funding Source: Multiple Funds: Council District(s): Total Budget West Filter Rehabilitation 281240.00 Revenue Bonds No Multiple \$ 5,090,400 Department:UtilitiesDivision:WaterContact:Joey FilbyNew Project?No1st CIP Year:2015 and PriorType:Project

#### **Project Description & Justification:**

This project may involve the rehabilitation or replacement of the dual media, air wash, and underdrain system for the west filters at the Water Treatment Plant, along with enhancements to electrical, lighting, HVAC, and operational control systems. The design lifespan of the filter media has been exceeded, leading to issues with specific agglomerates that can foul the filters. Replacing the media will eliminate existing agglomeration, and an upgraded air wash system can help prevent future agglomeration, extending the lifecycle of any newly installed media. Completing this project will improve overall water quality.

#### Project Description & Justification:

This project will involve structural repairs and modifications, as well as mechanical equipment repairs and replacements, at the East Intake of the Water Treatment Plant. Structural work will include concrete crack and spall repairs throughout the structure, structural steel repairs, replacement of the access bridge's top slab, grouting and pinning of sheet piling at the leading edge of the bank, and replacement of grating, grating support structures, stairs, ladders, and guardrails. Mechanical repairs and replacements will encompass the screen housing, external jib crane, screens and frames, sluice gate operators, valves and actuators in the lower level, piping, miscellaneous metals, motor control center, and electrical and lighting systems.

#### **Project Description & Justification:**

This ongoing program focuses on rehabilitating or replacing existing stormwater conveyance system assets (inlets, pipes, channels, etc.) to ensure continued operation, reduce maintenance needs, and support other infrastructure improvements. It is designed to maintain a consistent citywide level of service for the stormwater system. In some cases, smaller improvements may be made to meet current standards or address localized issues too minor for standalone capital projects. When feasible and cost-effective, innovative rehabilitation methods such as plastic or cement pipe lining will be pursued. This annual program often supports Citywide Half Cent sales tax projects and is crucial for timely replacement of failed pipes identified through CCTV inspections or other indicators, such as sinkholes. Most assets targeted by this program are expected to be 50-100 years old unless their lifespan has been reduced by external factors. Rehabilitation or replacement of these assets is essential for protecting life and property throughout the City.

#### **Project Description & Justification:**

This annual program focuses on the non-routine replacement or major rehabilitation of levee assets, including 22 miles of earthen levee, 4,122 linear feet of concrete floodwall, 8 stormwater pump stations, 14 pumped relief wells, 70 gravity relief wells, 58 interior drainage structures, 6 closure structures, and 3 ponding areas. While these assets are regularly maintained, their average age exceeds 50 years, making replacement or rehabilitation necessary. This program enables staff to proactively address these needs, with funds potentially reserved for several years to support major projects, assessments, studies, designs, or construction. By doing so, it mitigates the risk of catastrophic failure of critical infrastructure. Given the advanced age of the existing assets, proactive maintenance is essential. Failing to complete these projects could jeopardize private property and lives.

#### Project Description & Justification:

This ongoing program aims to address small-scale drainage problems. It funds 3-4 stormwater improvement projects each year, targeting areas where drainage issues impact at least two private properties or where defects or obstructions hinder the functionality of existing facilities within the right-of-way or dedicated easements. Individual project budgets are capped at \$300,000. This program responds to drainage issues identified through citizen requests, helping to protect private properties.

#### Project Description & Justification:

This annual program focuses on the non-routine replacement or major rehabilitation of stormwater pump stations, including Waite Street, Ward-Martin, City Park, Kansas Avenue, Madison, East Oakland, Quincy, and Soldier Creek. While these stations are regularly maintained, their ages of 40-50 years necessitate eventual replacement or rehabilitation. This program enables staff to proactively address these needs, with funds potentially reserved for several years before initiating a major project. Planned sub-projects during the CIP period include, but are not limited to, the Oakland Stormwater Pump Station. The proactive rehabilitation and replacement efforts provided by this program help prevent catastrophic failures of critical infrastructure. Neglecting this maintenance could lead to costly emergency repairs and pose risks to the health and safety of private citizens.

#### **Project Description & Justification:**

This program focuses on the identification, design, and construction of rehabilitations, stabilizations, and restorations of streams and channels throughout the City. The goal is to alleviate current erosion, prevent future erosion, and ensure uninterrupted water flow. As an annual initiative, it aims to protect channels from further erosion that could threaten underground infrastructure and existing structures along the banks.

#### Project Description & Justification:

The purpose of this program is to establish a capital plan for the repair and replacement of City Stormwater Utility equipment and vehicles. This initiative aims to limit unexpected large capital expenditures and control overall operating and maintenance costs. It ensures that equipment remains up-to-date, is properly maintained to extend its useful life, and reduces maintenance costs through improved reliability. The ultimate goal is to lower operational expenses by minimizing repair costs and maximizing trade-in values. By proactively maintaining existing equipment and vehicles, the program helps save taxpayer dollars by reducing the likelihood of costly emergency repairs and increasing the trade-in value of the assets.

#### Project Description & Justification:

This ongoing program aims to develop and implement stormwater Best Management Practices (BMPs) throughout the City. The development and implementation of BMPs comply with Federal Permit No. KS0093327 (KS Permit No. M-KS72-So01), the National Pollutant Discharge Elimination System (NPDES), and the Municipal Separate Storm Sewer System (MS4) permit. BMPs may include the construction of physical systems, such as rain gardens or baffle boxes, and may also involve land acquisition for BMP facilities. This program ensures the City remains compliant with federal permits while enabling continued investment in water quality infrastructure. When feasible, the program integrates the construction of water quality BMPs with street projects, such as the Seward Avenue project.

#### **Project Description & Justification:**

This project will upsize approximately 2,600 feet of storm sewer along SW Prairie Road between SW 21st and SW 23rd Streets. This upgrade follows recommendations from a drainage study conducted after a significant rain event in July 2020, which revealed substantial flooding impacts in the area. The study indicated potential damage to 21 homes during a 100-year flood event, and this project aims to mitigate those risks.

Department:UtilitiesDivision:StormwaterContact:Zach StueveNew Project?No1st CIP Year:2025Type:Project

## **Project Description & Justification:**

This project is based on recommendations from the Stormwater Master Planning efforts, which identified capacity concerns in this basin. It involves the construction of a parallel 9x7 reinforced concrete box to alleviate flooding issues along 4th and 5th Streets and to minimize impacts on the nearby elementary school during a 100-year flood event.

Shunga Creek Flood Mitigation 161008.00 Federal Funds (Other) Yes Multiple \$ 15,430,000 Department:UtilitiesDivision:StormwaterContact:Zach StueveNew Project?No1st CIP Year:2022Type:Project

## **Project Description & Justification:**

This is a cost-shared project with the US Army Corps of Engineers (35% City / 65% Federal) to design and construct drainage improvements along Shunganunga Creek. The proposed enhancements include one mile of levee construction from MacVicar to Buchanan and 1.5 miles of channel modification from Buchanan to I-70. If necessary, additional improvements may be made to the spoil levee downstream on the right bank, including studies, geotechnical assessments, construction, and rehabilitation efforts. The project aims to provide a flood protection level equivalent to a 25-year event, as outlined in the Shunga Flood Mitigation Study.

Menoken Road Tie Back 502731.00 Federal Funds (Other) Yes Multiple \$ 5,207,500 Department:UtilitiesDivision:StormwaterContact:Zach StueveNew Project?Yes1st CIP Year:2026Type:Project

#### Project Description & Justification:

This project will address flood mitigation along the North Topeka-Soldier Creek RB2 levee system. A tie back levee to be constructed between the North Topeka Levee and the Soldier Creek RB2 levee units so that both systems meet FEMA levee certification requirements and both levee units can be accredited and will reduce flood risk in the area. If the levees are not certified the flood zone categorization will change causing flood insurance rates to increase dramatically. The sub-application for project has been selected to apply for the Building Resilient Infrastructure and Communities which is a Four Million Dollar grant with a 25% cost share for the City. This will be funded by canceling and using the funds from five prior Annual Levee Asset and Repair programs, which are built up until there are enough funds to complete a project.

#### Project Description & Justification:

This program focuses on the complete or partial replacement, rehabilitation, or elimination of pump stations in the city, along with all necessary appurtenances, to ensure safe and consistent functionality. Rehabilitation projects may include enhancements to odor control components of the pump stations. Investing in pump station infrastructure helps prevent catastrophic failures and optimizes operational costs. Over the past two years, a condition assessment of the City-owned wastewater pump stations was conducted, resulting in recommendations for the next 15 years.

#### **Project Description & Justification:**

To avoid a reactive approach to asset failure, the City is proactively identifying pipes that can be rehabilitated before they deteriorate to the point of requiring expensive emergency repairs or open-cut replacements. This investigation and assessment are based on asset management principles, with prioritization determined by the Business Risk Exposure (BRE) score, which considers both asset defects and criticality. Criticality takes into account the pipe's characteristics as well as social and environmental factors, such as proximity to water bodies, major roadways, and critical infrastructure. This program also supports the City's Neighborhood Improvement efforts by proactively conducting rehabilitation, replacement, observation, and analysis of sanitary infrastructure in relevant areas. Each year, the program includes evaluation, design, and construction administration services to implement rehabilitation strategies for the sanitary interceptor sewer system, prioritized through the City's asset management program. This replacement and rehabilitation initiative enhances the integrity of our sanitary infrastructure while ensuring regulatory compliance and meeting established service level thresholds. Individual projects may be grouped or administered separately as needed, supporting compliance with the Consent Agreement from the Kansas Department of Health and Environment.

#### Project Description & Justification:

This program focuses on the repair, rehabilitation, and replacement of aged and failing structures and equipment that are essential to the wastewater treatment process. Key items include roofs, HVAC and mechanical equipment, facilities containing asbestos and lead-based paints, structural facades, stairways, railings, elevators, and accessibility features impacted by the facility's age. Additionally, the program addresses necessary repairs and rehabilitation of wastewater facilities to ensure safety and operational efficiency. This includes components such as valves, screens, gates, weirs, pumps, motors, and piping. Completing these projects will reduce maintenance costs and prolong the useful life of the water pollution control treatment plants, ensuring compliance with State and Federal regulations while maintaining system integrity and public health. A risk score, developed from a condition assessment of the Oakland and North Topeka wastewater treatment plants, serves as a guide for prioritizing maintenance and replacement of equipment and assets, maximizing useful life, efficiency, and cost savings.

#### Project Description & Justification:

This annual program encompasses evaluation, design, and construction administration services for implementing rehabilitation strategies for the sanitary interceptor sewer system, prioritized through the City's asset management program. This replacement and rehabilitation initiative enhances the integrity of our sanitary infrastructure while ensuring regulatory compliance and meeting established service level thresholds. Individual projects may be grouped or managed separately as needed. These efforts will support compliance with the Consent Agreement from the Kansas Department of Health and Environment. Planned sub-projects during the CIP period include, but are not limited to, Chandler-Lake-State and 17th Street.

#### Project Description & Justification:

This program involves the system evaluations required to determine the appropriate design, rehabilitation, or replacement strategies for the sanitary force mains. Individual projects may be grouped or managed separately as needed. This replacement and rehabilitation initiative will enhance the integrity and efficiency of the City's sanitary infrastructure while ensuring regulatory compliance. Specifically, these actions will support adherence to the Federal and State regulatory standards established by the Clean Water Act. Prioritization of this program was based on evaluations of the Shunga Forcemain and Grant Jefferson pump stations.

2026 - 2030 Odor Control Program 291139.00 Operating Fund Wastewater No Multiple \$ 13,500,000 Department:UtilitiesDivision:WastewaterContact:Michelle NeiswenderNew Project?No1st CIP Year:2021Type:Program

#### **Project Description & Justification:**

This project aims to reduce odors from the city's sanitary collection system and prevent asset degradation from hydrogen sulfide (H<sub>2</sub>S) gas. It recommends a liquid phase treatment at major pump stations, combined with potential vapor phase treatment downstream, using a phased approach to optimize effectiveness. The installation of a super oxygenation liquid phase system at the Central Park pump station will enhance odor conditions at downstream stations. Monitoring H<sub>2</sub>S levels after implementation will inform further improvements. Currently, the city's odor control system includes Bioxide, carbon absorber units, a dual-stage air pollution control system, and biofilters; however, some methods need updates for consistent efficacy. Successful project execution will improve odor control and help prevent corrosion of collection system assets.

#### Project Description & Justification:

Inflow and Infiltration (I&I) projects focus on cleaning, repairing, and replacing damaged or inoperative manholes and sewer lines to prevent groundwater and tree roots from entering the Sanitary Sewer System. This program helps eliminate excess water that can lead to overflows, sewer backups, and contamination of waterways. By providing preventative maintenance, it extends the life of the sewer lines, reduces operation and maintenance costs, and identifies assets at risk of imminent failure that may require larger-scale replacement. Sub-projects in this program have a total cost of less than \$100,000.

| Total Budget            | \$ 3,400,000   | Туре:         | Program       |

#### Project Description & Justification:

This program aims to establish a capital equipment plan for the repair and replacement of City Wastewater Utility equipment and vehicles. It seeks to limit unexpected large capital expenditures and control operating and maintenance costs. By ensuring that equipment remains current and is well-maintained, the program extends the useful life of assets and reduces maintenance costs through improved reliability. Ultimately, the goal is to lower repair costs and maximize trade-in values. Failing to maintain or replace these assets can lead to delays in emergency and routine maintenance due to equipment failures.

#### Project Description & Justification:

This project focuses on improvements identified in the 2020 SCADA Master Plan, specifically upgrading and standardizing the Supervisory Control and Data Acquisition (SCADA) system and associated appurtenances for Water Pollution Control assets. These assets include controls, server hardware, and radio mesh networks that facilitate communication at various pump stations, including the Oakland and North Topeka Wastewater Treatment Plants. Currently, many pump stations lack continuous monitoring, posing risks to public health and hindering performance analysis of the Wastewater Collections system. Effective performance monitoring is crucial for maintaining efficient industrial automation environments. Additionally, the SCADA database interface with Wastewater reporting systems is essential for accurate reporting under the NPDES permit and for performance analysis of the treatment plants.

#### Project Description & Justification:

This project finances the replacement of Fire apparatus vehicles, including engines, trucks, aerials, and specialty vehicles. Ensuring the availability of reliable apparatus at all times is crucial, as mechanical failures or damage can result in delayed service to the community. The department recommends transferring each front-line vehicle to the reserve pool after ten years of service and replacing reserve pool vehicles after fifteen years. Fire apparatus stands as one of the fire department's most vital and visible components. It not only transports staff to incidents but also carries the necessary tools and equipment for their tasks. Keeping the apparatus up to date is essential to ensure that staff can promptly and safely respond to each call.

#### Project Description & Justification:

This project is for the purchase of Supply Self Contained Breathing Apparatus (SCBA) for the fire department. A 2028-2032 lease purchase agreement will be utilized for the acquisition of this equipment. SCBA are the literal life of a firefighter. They provide the oxygen needed to staff when fighting fires. Advanced technologies has also made the SCBA valuable for tracking the vitals while wearing as well as providing communications between staff. The National Fire Protection Association (NFPA) recommends replacement of SCBA equipment every ten (10) years.

#### **Project Description & Justification:**

Body Worn Cameras (BWCs) are essential in law enforcement, often mandated by the Department of Justice post-investigation. To uphold best practices, this ongoing project ensures the replacement of Body Worn Cameras, Tasers, and provides unlimited storage for digital evidence. With evolving technology, Axon continually upgrades equipment and software for law enforcement agencies. The current plan includes replacing the Taser model, incorporating live streaming and administrative/accountability tools. Additionally, Axon Interview, the latest in interview room recording technology, will streamline workflow and sharing through Axon Evidence.com.

#### **Project Description & Justification:**

This project supports the purchase of essential police vehicles for community-wide service. Maintaining a viable fleet is crucial, as the majority of Police Department vehicles are consistently in use across city territories. To prevent disruptions in service, older fleet vehicles are reassigned to officers with special functions. This approach ensures efficient utilization of department assets, contributing to a workable number of vehicles for all public safety functions.

#### **Project Description & Justification:**

The City has moved away from a server/storage area network infrastructure to a Hyper Converged Infrastructure (HCI). In a HCI, all the servers and storage are converged into one hardware platform. The purpose of this project is to refresh the HCI hardware infrastructure. The HCI infrastructure hosts all 100servers and storage for all 100-servers across the City. Server hardware operates continuously and has an average lifespan of 4-years or 35,040 hours. A hardware failure of the HCI platform could lead to a loss of all 100-servers across the enterprise resulting in the loss of business operations across the City. Project total cost is estimated at \$500,000 with a funding strategy of financing through Dell Financial Services for a 48 month term. At the 4-year mark of 2029, the project will need to be repeated as we will again be at end of life. Assessment of future needs and costs (beyond current 4-year cycle) are deferred at this time due to expectations of cost structure changes and technology changes in the interim.

#### **Project Description & Justification:**

The purpose of this project is to replace all 80 Wireless Access Points (WAP) and expand to additional 25% (n=20) WAP to meet wireless connectivity demand to facilitate mobile infacilioty computing needs. Approximately 16 WAPs remains to be replaced in 2026 and 20 for additional are planned in 2027. Existing, non-replaced WAP are aging, are beyond expected lifecycle, and are near or beyond end-of-life support. This leads to an increased risk of failure. A failure of Wireless Access Points would result in loss of network and internet services in areas across the enterprise when employees are tethered to a physical network cable. Over the past 4 years, 64 WAP have been replaced leaving an additional 16 to complete the replacements and 20 for expansion for a total of 100 across the city entity. Beginning in 2028, the 5-year replacement cycle of 20% per year begins. Non-discounted price for WAP presently stands at \$28,000 per device with license. We anticipate a 50% discounted similar to past. Anticipated life span of each WAP is approximately 5 years; we anticipate replacement cycle is at 20% per year starting in 2028. We anticipate 25% tariff cost pass-on in years 2027 forward.

#### **DOCUMENT DESCRIPTION:**

RESOLUTION and NOTICE OF INTENT introduced by City Manager Dr. Robert M. Perez, declaring the necessity to repair, alter, reconstruct, enlarge or improve the City's water, water pollution, and/or stormwater utility system through improvement projects authorized by Resolution and providing Notice of Intention authorizing the issuance of revenue bonds in the manner required by K.S.A. 10-1201, et seq.

Voting Requirement: Action requires at least seven (7) votes of the Governing Body.

(Approval would authorize the issuance of revenue bonds in an amount no to exceed \$32,353,860 for the water/water pollution/stormwater projects identified in the CIB and direct the City Clerk to publish the notice in the Topeka Metro News of the City's intent to issue revenue bonds.)

## **VOTING REQUIREMENTS:**

Action requires at least seven (7) votes of the Governing Body.

#### POLICY ISSUE:

Whether to authorize the issuance of revenue bonds for the Enterprise-funded projects identified in the resolution.

#### **STAFF RECOMMENDATION:**

Staff recommends the Governing Body move to approve the resolution and notice of intent.

#### BACKGROUND:

As part of the Capital Improvement Plan and Capital Improvement Budget process, the Governing Body will consider the project budgets for improvements to the waterworks/sanitary sewer/stormwater sewer systems for 2026-2028. Assuming the Governing Body approves the project budgets, the next step will be to determine whether to use revenue bonds to finance the costs. If the Governing Body approves the issuance of revenue bonds to pay the costs, state law requires that the Governing Body approve issuance and provide notice of intention to do so, thus giving citizens the ability to protest the use of the bonds.

#### **BUDGETARY IMPACT:**

Amount not to exceed \$32,353,860

**SOURCE OF FUNDING:** 

**Revenue Bonds**

#### **DOCUMENT DESCRIPTION:**

DISCUSSION regarding a request from TECHS, Inc., to operate an ambulance service within the City of Topeka.

(Approval would grant TECHS, Inc., a nonexclusive franchise agreement.)

#### **VOTING REQUIREMENTS:**

Discussion only. Action requires at least six (6) votes of the Governing Body.

#### POLICY ISSUE:

Approval would grant TECHS Inc. a franchise agreement to provide ambulance services to city residents.

#### **STAFF RECOMMENDATION:**

Discussion only. Staff recommends the Governing Body move to adopt the ordinance when considered.

#### BACKGROUND:

When the City learned there were businesses operating ambulance services without franchise agreements, those businesses were contacted and advised that a franchise must be granted for them to operate legally. The City received the application from TECHS Inc. on May 12, 2025.

#### **BUDGETARY IMPACT:**

The franchise application fee is \$1500 and annual revenue for ambulance fees is \$275 per ambulance.

#### **SOURCE OF FUNDING:**

Not Applicable

Description Ordinance Application 1 (Published in the Topeka Metro News \_\_\_\_\_)
2

ORDINANCE NO. \_\_\_\_\_

AN ORDINANCE introduced by City Manager Dr. Robert M. Perez, providing for a nonexclusive franchise to TECHS, Inc. to operate an ambulance service within the City of Topeka until December 31, 2026.

9 BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF TOPEKA, KANSAS:

Section 1. Authority.

12 This franchise ordinance is passed and approved by the Governing Body of the 13 City of Topeka, Kansas, and enacted pursuant to K.S.A. 12-2001 and the authority found 14 and provided for in Chapter 5.25 TMC.

15 Section 2. Satisfactor

# Section 2. Satisfactory qualifications.

16 The Governing Body of the City of Topeka, Kansas, has considered the legal, 17 character, financial, and other qualifications of the applicant and has found TECHS, Inc., 18 hereinafter "TECHS," to be qualified in all respects to own, maintain and operate an 19 ambulance service in the City of Topeka, Kansas, hereinafter "City." The Governing Body 20 of the City of Topeka finds that public convenience will be promoted and public necessity 21 requires such ambulance service under the terms and provisions of Chapter 5.25 TMC.

22 **Se** 

# Section 3. Service.

The maintenance and operation of an ambulance service by TECHS in the City shall be in accordance with prevailing standards of care in the ambulance industry. All TECHS personnel and ambulances shall be fully licensed or certified as required by law. TECHS shall comply with all applicable federal, state, and City laws, rules, regulations, codes, and other requirements in connection with the operation of the ambulance service.

28

29

3

4 5

6 7

8

10 11

## Section 4. Franchise grant.

Pursuant to the provisions of TMC 5.25.040, a nonexclusive franchise is granted

to TECHS to own, maintain, and operate an ambulance service within the City. Said
 nonexclusive franchise is granted through and including December 31, 2026 and shall
 vest all rights, privileges and immunities of an ambulance service franchise with TECHS;
 however, said nonexclusive franchise shall be subject to and conditioned upon all of the
 terms, duties and obligations found in the laws of the State of Kansas, Chapter 5.25 TMC,
 and this franchise ordinance.

36

# Section 5. Payments to the City.

37 Consideration for the rights, privileges, and immunities granted to TECHS includes 38 the benefits to be derived by the citizens of the City of Topeka from the maintenance and 39 operation of an ambulance service under the terms and conditions of this franchise 40 ordinance.

41 (a) The ambulance service franchise application fee prescribed by TMC 5.10.040
42 has been paid to the City Clerk.

(b) On or before July 1, 2025 after passage of this franchise ordinance, the fees
set forth in TMC 5.10.040(b) are due, including the business fee and an ambulance fee
for each TECHS ambulance in operation in the City of Topeka. An ambulance fee for
each additional ambulance placed into operation after the initial fee payment is due at the
time the additional ambulance is licensed.

48 (c) On or before January 1<sup>st</sup> of each year within the term of this franchise
49 ordinance, the fee set forth in TMC 5.10.040(c) for each ambulance to be renewed is due.

- 50 (d) Within 30 days of the presentation of an invoice to TECHS by the City, TECHS
  51 shall make payments to the City Treasurer for the following types of assistance:
- 52 (1) For each Topeka Fire Department response to TECHS's request for a 53 nonemergency assist of any patient, TECHS shall pay a fee of \$250.00 per

54 transport. For purposes of this subsection, "nonemergency" means any request 55 that was not initiated by a 911 call. Any time that such fee is incurred, Topeka Fire 56 Department shall make written request for payment that includes the date, 57 address, and Topeka Fire Department incident number.

58

### Section 6. Reporting.

(a) In January of each calendar year, TECHS shall provide to the City copies
of all written mutual aid agreements for ambulance service in the City of Topeka or provide
written notice that no such agreements exist. Failure to submit this information by the last
business day in January shall result in a penalty of \$100.00 per day until submitted.

(b) In January of each calendar year, TECHS shall provide to the City copies
of all written agreements TECHS has entered into in which they are subcontracting for
another ambulance service within the City of Topeka or provide written notice that no
such agreements exist. Failure to submit this information by the last business day in
January shall result in a penalty of \$100.00 per day until submitted.

(c) In January of each calendar year, TECHS shall provide to the City
documentation reporting the number of all ambulances owned and/or operated by TECHS
within City limits. Failure to submit this information by the last business day in January
shall result in a penalty of \$100.00 per day until submitted.

(d) In January of each calendar year, TECHS shall provide to the City a copy
of all insurance polices as governed by TMC 5.25.140 and Section 7 of this franchise
ordinance. Failure to submit this information by the last business day of January shall
result in a penalty of \$100.00 per day until submitted.

(e) Should TECHS no longer be in good standing with the State regarding
licenses and certifications, TECHS shall immediately notify the City as to their status and

the reasons why they are no longer in good standing. Failure to submit this information
shall result in a penalty of \$100.00 per day until submitted.

80

# Section 7. Insurance.

Upon the effective date of this franchise ordinance, TECHS shall file with the City Clerk an insurance policy as required by TMC 5.25.140 and the same shall be approved as to form by the City Attorney's office. During the term of this franchise ordinance, TECHS shall maintain paid insurance coverage according to TMC 5.25.140 and may not cause any insurance to be cancelled, nor permit any insurance to lapse. City shall be named as an additional insured on any certificate of coverage issued by the insurer.

87

#### Section 8. Acceptance by TECHS.

Operation of an ambulance service within the City by TECHS on or after the 88 89 effective date of this franchise ordinance constitutes acceptance of the provisions of the 90 franchise ordinance. This franchise ordinance shall constitute the entire agreement 91 between the City and TECHS relating to this franchise, and the same shall supersede 92 and cancel any prior understandings, agreements, or representations regarding the 93 subject matter hereof and shall be binding upon the parties, including their successors 94 and assigns and shall not be amended or further obligations imposed without mutual 95 written consent of the parties.

96

#### Section 9. Remedies of City.

97 Nothing herein shall limit or preclude the City from seeking remedies at law or in 98 equity in a court of competent jurisdiction for any violation by TECHS of the laws of the 99 State of Kansas or any ordinance of the City. All conditions of the ambulance franchise 100 shall be governed by and construed in accordance with the laws of the State of Kansas.

101 Section 10. Forfeiture.

102 Any material and substantial fraud, misrepresentation or default of the terms, 103 duties and obligations imposed upon TECHS by the laws of the State of Kansas, Chapter 104 5.25 TMC or by this franchise ordinance shall constitute grounds for forfeiture of this 105 nonexclusive franchise ordinance. The City shall notify TECHS in writing of any allegation 106 of a material and substantial fraud, misrepresentation or default and shall hold a public 107 hearing before the Governing Body of the City of Topeka on the merits of such allegations. 108 Said public hearing shall be held within 30 days after the notification to TECHS and shall 109 be adjudicative in character but shall not bar the rights of any parties to pursue judicial 110 review. Within 10 days following the conclusion of such hearing, the Governing Body of 111 the City of Topeka shall act with respect to such forfeiture and shall submit a written 112 statement to TECHS. This franchise ordinance shall not be forfeited unless the Governing 113 Body of the City of Topeka finds that there has been a material and substantial fraud, 114 misrepresentation or default on the part of TECHS so as to justify a forfeiture. In such 115 case a notice of forfeiture shall be provided to TECHS. In the event this franchise 116 ordinance is forfeited, TECHS shall, within 180 days of its receipt of notice of forfeiture, 117 cease operation of an ambulance service hereunder.

118

#### Section 11. Surrender.

119 If, during the term of this franchise ordinance, TECHS does not earn a fair rate of 120 return upon the value of property used and useful in providing such ambulance service 121 for a period of six months; and it is determined by TECHS that it would not be practical, 122 possible or in the public interest to cure the deficiency by an increase in rates and/or a 123 reduction in service; and TECHS has given notice of surrender to the City; then TECHS 124 upon 180 days' written notice to the City Clerk may elect to surrender this franchise 125 ordinance and cease operation of the ambulance service hereunder. "Fair rate of return"

means receipt of revenues for patient charges and public funds, if any, to include the sum
 of operating costs, depreciation reserves, growth and development costs and
 management fees.

129 **S** 

#### Section 12. Transfer.

Only upon written approval of the Governing Body of the City of Topeka may the rights and obligations of TECHS pursuant to this franchise ordinance, be transferred to a person meeting the requirements for an ambulance service, as determined by the laws and regulations of the State and the City at the time of the contemplated transfer. Any approved transferee shall, without limitation, assume all the duties and obligations of TECHS and TECHS shall be released of all future rights, duties, and obligations arising from this franchise ordinance.

137

## Section 13. Hold harmless.

TECHS shall hold the City harmless for all liability, damages, costs and expenses of every kind for the payment of which the City may become liable to any person by reason of the rights and privileges herein granted and, if any action either at law or in equity be brought against the City for damages or for any cost to the City for any fault of TECHS, its servants, agents, or employees, in the operation of its ambulance service, TECHS shall pay all costs, damages and expenses including costs of defense for which the City may be held liable.

145

#### Section 14. Severability.

146 If any provision, section, sentence or clause of this franchise ordinance or its
147 application to any person or set of circumstances is for any reason held unconstitutional,
148 void, or invalid, the validity of the remaining portions of this franchise ordinance shall not
149 be affected.

| 150  | Section 15. Effective date.  |
|--|--|
| 151  | This franchise ordinance shall take effect and be in force after its passage,            |
| 152  | approval and publication in the official City newspaper in the manner prescribed by law, |
| 153  | and shall be binding upon TECHS upon the conditions set forth herein.                    |

TECHS Inc was established in 2000. It has grown to be one of the largest EMS providers in the State of Kansas. TECHS Inc currently operates 4 County 911 Services. It provides inter-facility transfer services to all of Kansas and has numerous locations. We have an in-house education department that not only provides internal education but also external education. We have provided classes for numerous personnel and departments in Topeka and Shawnee County.

TECHS Inc is proud to be one of the few Kansas owned and operated EMS organizations in the State. The owners/operators, Brent Teter and Jay Watkins are both paramedics with combined experience of over 60 years in EMS and over 50 years as business owners and operators. We proudly serve many communities.

RE: TECHS INC.

(USE IN ALL CORRESPONDENCE WITH OUR OFFICE)

Enclosed is a certified copy of your for profit articles of incorporation. Your corporation's identification number is at the top of this page. The identification number should be used in all correspondence with this office.

Every corporation must file an annual report with this office. However, a report is not required if a corporation has not been incorporated for six months prior to its first tax year end. If your corporation operates on a tax period other than the calendar year, you must notify our office in writing prior to December 31.

If an annual report is required, it must be filed when your corporation files its Kansas income tax return. If your corporation applies to the Internal Revenue Service for an extension of its deadline for filing an income tax return, an extension for the annual report will be granted by our office provided that a copy of the IRS extension form is filed with this office within 90 days after the due date of the annual report.

## TECHS, INC.

#### BYLAWS

#### ARTICLE I

#### Offices

Section 1. Principal Office. The principal office for the transaction of the business of the corporation is hereby located at 118 New York, City of Holton, County of Jackson, Kansas, 66436.

Section 2. Registered Office. The corporation, by resolution of its board of directors, may change the location of its registered office as designated in the Articles of Incorporation to any other place in Kansas. By like resolution the resident agent at such registered office may be changed to any other person or corporation, including itself. Upon adoption of such a resolution, a certificate certifying the change shall be executed, acknowledged and filed with the Kansas Secretary of State.

Section 3. Other Offices. Branch or subordinate offices may, at any time, be established by the board of directors at any place or places where the corporation is qualified to do business.

#### ARTICLE II

#### Shareholders

Section 1. Place of Meeting. All annual meetings of shareholders and all other meetings of shareholders shall be held at such time and place that the board of directors select either within or without the State of Kansas.

Section 2. Annual Meetings. The annual meetings of the shareholders shall be at a time and place that the Board of Directors select. At such meeting, directors shall be elected, reports of the affairs of the corporation shall be considered, and any other business may be transacted which is within the power of the shareholders.

Written notice of each annual meeting shall be given to each shareholder entitled to vote, except as provided by statute, either personally or by mail or other means of written communication, charges prepaid, addressed to such shareholder at his address appearing on the books of the corporation or given by him to the corporation for the purpose of notice. If a shareholder gives no address, notice shall be deemed to have been given if sent by mail or other means of written communication addressed to the place where the principal office of the corporation is situated, or if published at least once in some newspaper of general circulation in the county in which said office is located. All such notices shall be sent to each shareholder entitled thereto not less than ten (10) days nor more than sixty (60) days before each annual meeting, and shall specify the place, the day and the hour of such meeting, and shall state such other matters, if any, as may be expressly required by statute.

Section 3. Special Meetings. Special meetings of the shareholders, for any purpose or purposes whatsoever, may be called at any time by the president or by the board of directors, or by one or more shareholders holding not less than one-fifth of the voting power of the corporation. Except in special cases where other express provision is made by statute, notice of such special meetings shall be given in the same manner as for annual meetings of shareholders. Notices of any special meeting shall specify, in addition to the place, day and hour of such meeting, the general nature of the business to be transacted.

Section 4. Adjourned Meetings and Notice Thereof. Any shareholders' meeting, annual or special, whether or not a quorum is present, may be adjourned from time to time by the vote of a majority of the shares, the holders of which are either present in person or represented by proxy thereat, but in the absence of a quorum, no other business may be transacted at such meeting.

When any shareholders' meeting, either annual or special, is adjourned for thirty (30) days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. Except as aforesaid, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting, if the time and place thereof are announced at the meeting at which such adjournment is taken.

#### **Cumulative Voting**

**Section 5. Voting.** Unless the board of directors has fixed in advance (pursuant to Article V, Section 1) a record date for purposes of determining entitlement to vote at the meeting, the record date shall be as of the close of business on the day next preceding the date on which the meeting shall be held. If the Articles of Incorporation permit the election of directors without written ballot, then such elections of directors shall be without written ballot, unless requested by any shareholder, in which case the election of directors shall be by written ballot. Every shareholder entitled to vote at any election for directors shall have the right to cumulate his votes and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of votes to which his shares are entitled, or to distribute his votes on the same principle among as many candidates as he shall think fit. The candidates receiving the highest number of votes up to the number of directors to be elected shall be elected.

Section 6. Quorum. The presence in person or by proxy of persons entitled to vote a majority of the voting shares at any meeting shall constitute a quorum for the transaction of business. The shareholders present at a duly called or held meeting at which a quorum is present may continue to do business until adjournment, notwithstanding the withdrawal of enough shareholders to leave less than a quorum.

Section 7. Consent of Absentees. The transactions of any meeting of shareholders, either annual or special, however called and noticed, shall be as valid as though had at a meeting duly held after regular call and notice, if a quorum be present either in person or by proxy, and if,

- 2 -

either before or after the meeting, each of the shareholders entitled to vote, not present in person or by proxy, signs a written waiver of notice, or a consent to the holding of such meeting, or an approval of the minutes thereof. All such waivers, consents or approvals shall be filed with the corporate records or made a part of the minutes of the meeting.

Section 8. Action Without Meeting. Any action, which under any provision of the Kansas Corporation Code, may be taken at a meeting of the shareholders, except approval of an agreement for merger or consolidation of the corporation with other corporations, or a sale of all or substantially all of the corporate property, may be taken without a meeting if authorized by a writing signed by all of the persons who would be entitled to vote upon such action at a meeting, and filed with the secretary of the corporation, or such other procedure followed as may be prescribed by statute.

Section 9. Proxies. Every person entitled to vote or execute consents shall have the right to do so either in person or by one or more agents authorized by a written proxy executed by such person or his duly authorized agent and filed with the secretary of the corporation; provided that no such proxy shall be valid after the expiration of three (3) years from the date of its execution, unless the person executing it specified therein the length of time for which such proxy is to continue in force.

Section 10. Inspection of Corporate Records. The stock ledger or duplicate stock ledger, the books of account, and minutes or proceedings of the shareholders, the board of directors and of executive committees of directors shall be open to inspection upon the written demand of any shareholder or the holder of a voting trust certificate within five (5) days of such demand during ordinary business hours if for a purpose reasonably related to his interests as a shareholder, or as the holder of such voting trust certificate. The list of shareholders entitled to vote shall be prepared at least ten (10) days before every meeting of shareholders by the officer in charge of the stock ledger, which shall be the secretary, and shall be open to inspection by any shareholder, for any purpose germane to the meeting, during ordinary business hours for at least ten (10) days prior to such meeting. Such inspection may be made in person or by an agent or attorney authorized in writing by a shareholder, and shall include the right to make abstracts. Demand of inspection other than at a shareholders' meeting shall be made in writing upon the president, secretary, assistant secretary or general manager of the corporation.

Section 11. Inspection of Bylaws. The corporation shall keep in its principal office for the transaction of business the original or a copy of these bylaws as amended or otherwise altered to date, certified by the secretary, which shall be open to inspection by the shareholders at all reasonable times during ordinary business hours.

#### ARTICLE III

#### Directors

Section 1. Powers. Subject to any limitations of the Articles of Incorporation, of the

bylaws, and of the Kansas Corporation Code as to action which shall be authorized or approved by the shareholders, and subject to the duties of directors as prescribed by the bylaws, all corporate powers shall be exercised by or under the authority of, and the business and affairs of the corporation shall be controlled by, the board of directors. Without prejudice to such general powers, but subject to the same limitations, it is hereby expressly declared that the directors shall have the following powers, to-wit:

**First** - If allowed by the Articles of Incorporation, to alter, amend or repeal the bylaws of the corporation.

**Second** - To select and remove all the other officers, agents and employees of the corporation, prescribe such powers and duties for them as may not be inconsistent with law, or with the Articles of Incorporation or the bylaws, fix their compensation, and require from them security for faithful service.

**Third** - To conduct, manage, and control the affairs and business of the corporation, and to make such rules and regulations therefore not inconsistent with the law, or with the Articles of Incorporation or the bylaws, as they may deem best.

**Fourth** - To change the principal office and registered office for the transaction of the business of the corporation from one location to another as provided in Article I hereof; to fix and locate from time to time one or more subsidiary offices of the corporation within or without the State of Kansas, as provided in Article I, Section 3 hereof; to designate any place within or without the State of Kansas for the holding of any meetings; to adopt, make and use a corporate seal, to prescribe the forms of certificates of stock, and to alter the forms of such seal and of such certificates from time to time, as in their judgment they may deem best, provided such seal and such certificate shall at all times comply with the provisions of law.

**Fifth** - To authorize the issuance of shares of stock of the corporation from time to time, upon such terms as may be lawful, for such consideration as the Board of Directors may determine.

**Sixth** - To borrow money and incur indebtedness for purposes of the corporation, and to cause to be executed and delivered therefore, in the corporate name, promissory notes, bonds, debentures, deed of trust, mortgages, pledges, hypothecations or other evidences of debt and securities therefore.

**Seventh** - To appoint an executive committee and other committees, and to delegate to such committees any of the powers and authority of the board in the management of the business and affairs of the corporation, except as limited by statute. Any such committee shall be composed of one (1) or more directors.

Section 2. Number and Qualification of Directors. The authorized number of directors of the corporation shall be not less than one (1) nor more than ten (10) until changed by

amendment to this bylaw. Directors need not be a shareholder of the corporation or a resident of the state of Kansas.

Section 3. Election and Term of Office. The directors shall be elected at each annual meeting of shareholders, but if any such annual meeting is not held, or the directors are not elected thereat, the directors may be elected at a special meeting of shareholders held for that purpose as soon thereafter as conveniently may be. All directors shall hold office until their respective successors are elected, and shall have qualified or until his earlier death, resignation, retirement, disqualification or removal. A director may be removed from office at any time for cause, by the shareholders or directors, and he may be removed without cause by the shareholders or directors, without a hearing, unless the director sought to be removed has sufficient shareholder support that by use of cumulative voting, if required, he would otherwise be able to maintain his position on the board in a regular election of board members.

Section 4. Vacancies. Vacancies on the board of directors may be filled by a majority of the remaining directors, although less than a quorum, or by a sole remaining director. If the Articles of Incorporation permit the election of directors without written ballots, then the election of directors to fill vacancies shall be without written ballots, unless requested by any director. If at any time, by reason of death, resignation, or other cause, the corporation should have no directors in office, then any officer or any stockholder or any executor, administrator, trustee or guardian of a stockholder may call a special meeting of the stockholders in accordance with the provision of these bylaws may apply to the District Court of the proper county for a decree summarily ordering election as provided for by the Kansas Corporation Code. Each director so elected shall hold office until his successor is elected at an annual or a special meeting of the shareholders.

A vacancy or vacancies on the board of directors shall be deemed to exist in case of the death, resignation or removal of any director, or if the authorized number of directors be increased, or if the shareholders fail, at any annual or special meeting of shareholders at which any director or directors are elected, to elect the full authorized number of directors to be voted for at the meeting, or if any director or directors elected shall refuse to serve.

The shareholders holding at least ten percent (10%) of the outstanding voting stock may call a meeting at any time to fill any vacancy or vacancies not filled by the directors in accordance with the above procedures. If the board of directors accepts the resignation of a director tendered to take effect at a future time, the board or the shareholders shall have power to elect a successor to take office when the resignation is to become effective.

No reduction of the authorized number of directors shall have the effect of removing any director prior to the expiration of his term of office.

Section 5. Place of Meeting. Regular and special meetings of the board of directors shall be held at any place within or without the State of Kansas which has been designated from time to time by resolution of the board or by written consent of all members of the board. In the

absence of such designation, all meetings shall be held at the principal office of the corporation.

Section 6. Organizational Meeting. Immediately following each annual meeting of shareholders, the board of directors shall hold a regular meeting for the purpose of organization, election of officers, and the transaction of other business. Notice of such meeting is hereby waived.

Section 7. Other Regular Meetings. Other regular meetings of the board of directors shall be held without call at such time as the board of directors may from time to time designate in advance of such meetings; provided, however, should said day fall upon a legal holiday, then said meeting shall be held at the same time on the next day thereafter ensuing which is not a legal holiday. Notice of all such regular meetings of the board of directors is hereby waived.

**Section 8.** Special Meetings. Special meetings of the board of directors for any purpose or purposes shall be called at any time by the president or, if he is absent or unable or refuses to act, by the secretary or by any other director. Notice of such special meetings, unless waived by attendance thereat or by written consent to the holding of the meeting, shall be given by written notice mailed at least five (5) days before the date of such meeting or be hand delivered or sent by telegram at least twenty-four (24) hours before the date of such meeting is to be held. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail with postage thereon addressed to the director at his residence or usual place of business. If notice be given by telegraph, such notice shall be deemed to be delivered when the same is delivered to the telegraph company.

Section 9. Notice of Adjournment. Notice of the time and place of holding an adjourned meeting need not be given to absent directors if the time and place be fixed at the meeting adjourned.

Section 10. Waiver of Notice. The transactions of any meeting of the board of directors, however called and noticed or wherever held, shall be as valid as though had at a meeting duly held after regular call and notice, if a quorum be present, and if, either before or after the meeting, each of the directors not present signs a written waiver of notice, or a consent to holding such meeting, or an approval of the minutes thereof. All such waivers, consents or approvals shall be filed with the corporate records or made a part of the minutes of the meeting.

Section 11. Quorum. A majority of the total number of directors shall be necessary to constitute a quorum for the transaction of business, except to adjourn as hereinafter provided. Every act or decision done or made by a majority of the directors present at a meeting duly held at which a quorum is present shall be regarded as the act of the board of directors, unless a greater number be required by law or by the Articles of Incorporation. The directors present at a duly called or held meeting at which a quorum is present may continue to do business until adjournment, notwithstanding the withdrawal of enough directors to leave less than a quorum.

Section 12. Meeting by Telephone. Members of the board of directors of the

corporation, or any committee designated by such board, may participate in a meeting of the board of directors by means of conference telephone or similar communications equipment, by means of which all persons participating in the meeting can hear one another, and such participation in a meeting shall constitute presence in person at the meeting.

Section 13. Adjournment. A majority of the directors present may adjourn any directors' meeting to meet again at a stated day and hour or until the time fixed for the next regular meeting of the board.

Section 14. Action Without Meeting. Any action which under any provision of the Kansas Corporation Code, may be taken at a meeting of the board of directors, may be taken without a meeting if authorized by a writing signed by all of the persons who would be entitled to vote upon such action at a meeting, and filed with the secretary of the corporation, or such other procedure followed as may be prescribed by statute.

Section 15. Votes and Voting. All votes required of directors hereunder may be by voice vote or show of hands, unless a written ballot is requested, which request may be made by any one director. Each director shall have one vote, unless the Articles of Incorporation provide that directors elected by the holders of a class or series of stock shall have more or less than one (1) vote per director on any matter. Every reference to a majority or other proportion of directors shall refer to a majority or their proportion of the votes of such directors.

Section 16. Inspection of Books and Records. Any director shall have the right to examine the corporation's stock ledger, a list of its stockholders entitled to vote and its other books and records for a purpose reasonably related to such director's position as a director. When there is any doubt concerning the inspection rights of a director, the parties may petition the District Court, which may, in its discretion, determine whether an inspection may be made and whether any limitations or conditions should be imposed upon the same.

Section 17. Fees and Compensation. Directors shall not receive any stated salary for their services as directors, but, by resolution of the board, adopted in advance of, or after the meeting for which payment is to be made, a fixed fee, with or without expenses of attendance, may be allowed one (1) or more of the directors for attendance at each meeting. Nothing herein contained shall be construed to preclude any director from serving the corporation in any other capacity as an officer, agent, employee, or otherwise, and receiving compensation therefore.

#### ARTICLE IV

#### Officers

Section 1. Officers. The officers of the corporation shall be a president, a secretary, and a treasurer. The corporation may also have, at the discretion of the board of directors, a chairman of the board, one or more vice-presidents, one or more assistant secretaries and one or more assistant treasurers, and such other officers as may be appointed in accordance with the

provisions of Section 3 of this Article IV. Any number of offices may be held by the same person.

Section 2. Election. The officers of the corporation, except such officers as may be appointed in accordance with the provisions of Section 3 or Section 5 of this Article IV, shall be chosen annually by the board of directors, and each shall hold his office until he shall resign or shall be removed or otherwise disqualified to serve, or his successor shall be elected and qualified.

Section 3. Subordinate Officers, Etc. The board of directors may appoint such other officers as the business of the corporation may require, each of whom shall have authority and perform such duties as are provided in these bylaws or as the board of directors may from time to time specify, and shall hold office until he shall resign or shall be removed or otherwise disqualified to serve.

Section 4. Compensation of Officers. Officers and other employees of the corporation shall receive such salaries or other compensation as shall be determined by resolution of the board of directors, adopted in advance or after the rendering of the services, or by employment contract entered into by the board of directors. The power to establish salaries of officers, other than the president or chairman of the board, may be delegated to the president, chairman of the board, or a committee.

Section 5. Vacancies. A vacancy in any office because of death, resignation, removal, disqualification or any other cause shall be filled in the manner prescribed in these bylaws for regular appointments to such office.

Section 6. Removal and Resignation. Any officer may be removed, either with or without cause, by a majority of the directors at the time in office, at any regular or special meeting of the board. Any officer may resign at any time upon written notice to the corporation.

Section 7. Chairman of the Board. The chairman of the board, if there be such an officer, shall, if present, preside at all meetings of the board of directors, and exercise and perform such other powers and duties as may be from time to time assigned to him by the board of directors or prescribed by these bylaws.

Section 8. President. Subject to such supervisory powers, if any, as may be given by the board of directors to the chairman of the board, if there be such an officer, the president shall be the chief executive officer of the corporation and shall, subject to the control of the board of directions, have general supervision, direction and control of the business and officers of the corporation. He shall preside at all meetings of the shareholders and, in the absence of the chairman of the board, at all meetings of the board of directors. He shall be ex officio a member of all the standing committees, including the executive committee, if any, and shall have the general powers and duties of management usually vested in the office of president of a corporation, and shall have such other powers and duties as may be prescribed by the board of directors or these bylaws.

Section 9. Vice-President. In the absence or disability of the president, the vicepresident or vice-presidents if there be such an officer or officers, in order of their rank as fixed by the board of directors, or if not ranked, the vice-president designated by the board of directors, shall perform all the duties of the president, and when so acting shall have all the powers of, and be subject to all the restrictions upon, the president. The vice-president shall have such other powers and perform such other duties as from time to time may be prescribed for them respectively by the board of directors or these bylaws.

Section 10. Secretary. The secretary shall keep, or cause to be kept, a book of minutes at the principal office or such other place as the board of directors may order, of all meetings of directors and shareholders, with the time and place of holding, whether regular or special, and if special, how authorized, the notice thereof given, the named of those present at directors' meetings, the number of shares present or represented at shareholders' meetings and the proceedings thereof.

The secretary shall keep, or cause to be kept, at the principal office or at the office of the corporation's transfer agent, a stock ledger, or a duplicate stock ledger, showing the names of the shareholders and their addresses, the number and classes of shares held by each, the number and date of certificates issued for the same, and the number and date of cancellation of every certificate surrendered for cancellation.

The secretary shall give, or cause to be given, notice of all the meetings of the shareholders and of the board of directors required by these bylaws or by law to be given, and shall keep the seal of the corporation in safe custody, and shall have such other powers and perform such other duties as may be prescribed by the board of directors or these bylaws.

Section 11. Treasurer. The treasurer shall keep and maintain or cause to be kept and maintained, adequate and correct accounts of the properties and business transactions of the corporation, including accounts of its assets, liabilities, receipts, disbursements, gains, losses, capital, surplus and shares. Any surplus, including earned surplus, paid-in surplus and surplus arising form a reduction of stated capital, shall be classified according to source and shown in a separate account. The books of account shall at all reasonable times be open to inspection by any director.

The treasurer shall deposit all monies and other valuables in the name and to the credit of the corporation with such depositories as may be designated by the board of directors. He shall disburse the funds of the corporation as may be ordered by the board of directors, shall render to the president and directors, whenever they request it, an account of all of his transactions as treasurer and of the financial condition of the corporation, and shall have such other powers and perform such other duties as may be prescribed by the board of directors or these bylaws. He shall be bonded, if required by the board of directors.

#### ARTICLE V

#### Miscellaneous

#### Section 1. Record Date and Closing Stock Books.

(a) Record Date for Shareholders' Meeting. The board of directors may by resolution fix a time in the future as a record date for the determination of the shareholders entitled to notice of and to vote at any meeting of shareholders or to execute a written consent to action in lieu of a shareholders' meeting. The record date so fixed shall be not less than ten (10) days nor more than sixty (60) days prior to the date of the meeting or event for purposes of which it is fixed, and in no event can the record date be a date prior to the board of directors meeting at which the record date is fixed. When a record date is so fixed, only shareholders who are such of record on that date are entitled to notice of and to vote at the meeting, notwithstanding any transfer of any shares on the books of the corporation after the record date.

(b) Record Date for Dividends or Distributions. The board of directors may by resolution fix a time in the future as a record date for the determination of the shareholders entitled to receive any dividend or distribution, or any allotment of rights, or to exercise rights in respect to any change, conversion or exchange of shares, or for the purpose of any other lawful action, which record date shall not be more than sixty (60) days prior to the date of the meeting or event for purposes of which it is fixed, and in no event can the record date be a date prior to the board of directors meeting at which the record date is fixed.

The board of directors may close the books of the corporation against transfers of shares during the whole or any part of a period not more than sixty (60) days prior to the date of a shareholders' meeting, the date when the right to any dividend, distribution, or allotment of rights vest, or the effective date of any change, conversion or exchange of share.

**Section 2. Indemnification.** The following indemnity provisions shall apply to the Corporation:

2.1 <u>Limitation of Liability.</u> No person shall be liable to the Corporation or its stockholders or any loss, damage, liability or expense suffered by the Corporation on account of any action taken or omitted to be taken by such person as a director or officer of the Corporation or of any Other Enterprise which such person serves or has served as a director or officer at the request of the Corporation, if such person (a) acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, or (b) took or **omitted to take** such action in reliance upon advice of counsel for the Corporation, or for such Other Enterprise, or upon statements made or information furnished by directors, officers, employees or agents of the Corporation, or of such Other Enterprise, which such person had no reasonable grounds to disbelieve.

2.2 <u>Indemnification, Generally.</u> In addition to and without limiting the rights to indemnification and advancement of expenses specifically provided for in the other sections of this Section Two, the Corporation shall indemnify and advance expenses to each person who is or was a director, officer, committee member, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise (as hereafter defined), to the full extent permitted by the laws of the State of Kansas as in effect on the date of the adoption of these Bylaws and as may hereafter be amended.

Indemnification in Actions by Third Parties. The Corporation shall 2.3 indemnify each person who has been or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, investigative or appellate, other than an action by or in the right of the Corporation, by reason of the fact that such person is or was a director, officer, committee member, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise, against all liabilities and expenses, including, without limitation, judgments, fines, amounts paid in settlement (provided that such settlement and all amounts paid in connection therewith are approved in advance by the Corporation using the procedures set forth in Section 2.6, which approval shall not be unreasonably withheld or delayed), attorneys' fees, ERISA excise taxes or penalties, and other expenses actually and reasonably incurred by such person in connection with such action, suit or proceeding (including, without limitation, the investigation, defense, settlement or appeal of such action, suit or proceeding) if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful; provided, however, that the Corporation shall not be required to indemnify or advance expenses to any such person or persons seeking indemnification or advancement of expenses in connection with an action, suit or proceeding initiated by such person or persons (including, without limitation, any cross-claim or counterclaim initiated by such person or persons) unless the initiation of such action, suit or proceeding was authorized by the Board of Directors of the Corporation. The termination of any such action, suit or proceeding by judgment, order, settlement, conviction or under a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, that such person had reasonable cause to believe that such person's conduct was unlawful.

2.4 Indemnification in Derivative Actions. The Corporation shall

indemnify each person who has been or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceeding by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that such person is or was a director, officer, committee member, or agent of the Corporation or is or was serving at the Corporation's request as a director, officer, committee member, or agent of any Other Enterprise against all expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action, suit or proceeding (including, without limitation, the investigation, defense, settlement or appeal of such action, suit or proceeding) if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, except that no indemnification under this Section 2.4 shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the court in which the action, suit or proceeding was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

2.5 <u>Indemnification for Expenses</u>. Notwithstanding the other provisions of this Section Two, to the extent a person who is or was serving as a director, officer, committee member, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise, has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Sections 2.3 and 2.4 (including the dismissal of any such action, suit or proceeding without prejudice), or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

Determination of Right to Indemnification. Prior to indemnifying 2.6 a person pursuant to the provisions of Sections 2.2, 2.3 and 2.4, unless ordered by a court and except as otherwise provided by Section 2.5, the Corporation shall determine that such person has met the specified standard of conduct entitling such person to indemnification as set forth under Sections 2.2, 2.3 and 2.4. Any determination that a person shall or shall not be indemnified under the provisions of Sections 2.2, 2.3 and 2.4 of these Articles of Incorporation shall be made (a) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding, (b) if such quorum is not obtainable, or even if obtainable, if a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (c) by the stockholders, and such determination shall be final and binding upon the Corporation; provided, however, that in the event such determination is adverse to the person or persons to be indemnified hereunder, such person or persons shall have the right to maintain an action in any court of competent jurisdiction against the Corporation to determine whether or not such person has met the requisite standard of conduct and is entitled to such indemnification hereunder. If such court action is successful and the person or persons is determined to be entitled to such indemnification, such person or persons shall be reimbursed by the Corporation for all fees and expenses (including attorneys' fees) actually and reasonably incurred in connection with any such action (including, without limitation, the investigation, defense, settlement or appeal of such action).

Advancement of Expenses. Expenses (including attorneys' fees) 2.7 actually and reasonably incurred by a person who may be entitled to indemnification hereunder in defending an action, suit or proceeding, whether civil, criminal, administrative, investigative or appellate, shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such person to repay such amount if it shall ultimately be determined that such person is not entitled to indemnification by the Corporation. Notwithstanding the foregoing, no advance shall be made by the Corporation if a determination is reasonably and promptly made by (a) the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding for which the advancement is requested, (b) if a quorum is not obtainable, or even if obtainable, if a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (c) by the stockholders, that, based upon the facts known to the Board, independent legal counsel or stockholders at the time such determination is made, such person acted in bad faith and in a manner that such person did not believe to be in or not opposed to the best interests of the Corporation, or, with respect to any criminal proceeding, that such person believed or had reasonable cause to believe such person's conduct was unlawful. In no event shall any advancement of expenses be made in instances where the Board, independent legal counsel or stockholders reasonably determines that such person intentionally breached such person's duty to the Corporation or its stockholders.

2.8 <u>Non-Exclusivity</u>. The indemnification and advancement of expenses provided by, or granted pursuant to, this Section Two shall not be exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any statute, the Articles of Incorporation, by agreement, vote of stockholders or disinterested directors, policy of insurance or otherwise, both as to action in their official capacity and as to action in another capacity while holding their respective offices, and shall not limit in any way any right which the Corporation may have to make additional indemnifications with respect to the same or different persons or classes of persons. The indemnification and advancement of expenses provided by, or granted pursuant to, this Section Two shall continue as to a person who has ceased to be a director or officer and shall inure to the benefit of the heirs, executors, administrators and estate of such a person.

2.9 <u>Insurance</u>. Upon resolution passed by the Board of Directors, the Corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, committee member, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise, against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the Corporation would have the power to indemnify such person against such liability under this Section Two.

2.10 <u>Vesting of Rights</u>. The rights granted by this Section Two shall be vested in each person entitled to indemnification hereunder as a bargained-for, contractual condition of such person's serving or having served as a director, officer, committee member, or agent of the Corporation or serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise and while this Section Two may be amended or repealed, no such amendment or repeal shall release, terminate or adversely affect the rights of such person under this Section Two with respect to any act taken or the failure to take any act by such person prior to such amendment or repeal or with respect to any action, suit or proceeding with respect to such act or failure to act filed after such amendment or repeal.

2.11 Definitions. For purposes of this Section Two references to:

"the Corporation" shall, if and only if the Board of Directors shall (a) determine, include, in addition to the resulting Corporation, any constituent Corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its director, officer, committee member, or agent or persons serving at the request of such constituent Corporation as a director, officer, committee member, or agent of any Other Enterprise, so that any person who is or was a director, officer, committee member, or agent of such constituent Corporation, or is or was serving at the request of such constituent Corporation as a director, officer, committee member, or agent of any Other Enterprise, shall stand in the same position under the provisions of this Section Two with respect to the resulting or surviving Corporation as such person would have with respect to such constituent Corporation if its separate existence had continued:

(b) "Other Enterprises" or "Other Enterprise" shall include, without limitation, any other Corporation, limited liability Corporation, partnership, joint venture, trust or employee benefit plan;

(c) "director, officer, committee member, or agent of any Other Enterprise" shall include, without limitation, any person performing similar functions with respect to such Other Enterprise, whether incorporated or unincorporated;

(d) "fines" shall include any excise taxes assessed against a person with respect to an employee benefit plan;

(e) "defense" shall include investigations of any threatened, pending or completed action, suit or proceeding as well as appeals thereof and shall also include any defensive assertion of a cross-claim or counterclaim; and

(f) "serving at the request of the Corporation" shall include any service as a director, officer, committee member, or agent of a Corporation which imposes duties on, or involves services by, such director, officer, committee member, or agent with respect to an employee benefit plan, its participants, or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner "not opposed to the best interests of the Corporation" as referred to in this Section Two.

For the purpose of this Section Two, unless the Board of Directors of the Corporation shall determine otherwise, any director, officer, committee member, or agent of the Corporation who shall serve as a director, officer, committee member, or agent of any Other Enterprise of which the Corporation, directly or indirectly, is a stockholder or creditor, or in which the Corporation is in any way interested, shall be presumed to be serving as such director, officer, committee member, or agent at the request of the Corporation. In all other instances where any person shall serve as a director, officer, committee member, or agent of an Other Enterprise, if it is not otherwise established that such person is or was serving as such director, officer, committee member, or agent at the request of the Corporation shall determine whether such person is or was serving at the request of the Corporation, and it shall not be necessary to show any prior request for such service, which determination shall be final and binding on the Corporation and the person seeking indemnification.

2.12 Severability. If any provision of this Section Two or the application of any such provision to any person or circumstance is held invalid, illegal or unenforceable for any reason whatsoever, the remaining provisions of this Section Two and the application of such provisions to other persons or circumstances shall not be affected thereby and, to the fullest extent possible, the court finding such provision invalid, illegal or unenforceable *shall* modify *and* construe the provision so as to render it valid and enforceable as against all persons or entities and to give the maximum possible protection to persons subject to indemnification hereby within the bounds of validity, legality and enforceability. Without limiting the generality of the foregoing, if any director,

officer, committee member, or agent of the Corporation, or any person who is or was serving at the request of the Corporation as a director, officer, committee member, or agent of any Other Enterprise, is entitled under any provision of this Section Two to indemnification by the Corporation for some or a portion of the judgments, amounts paid in settlement, attorneys' fees, ERISA excise taxes or penalties, fines or other expenses actually and reasonably incurred by any such person in connection with any threatened, pending or completed action, suit or proceeding (including, without limitation, the investigation, defense, settlement or appeal of such action, suit or proceeding), whether civil, criminal, administrative, investigative or appellate, but not, however, for all of the total amount thereof, the Corporation shall nevertheless indemnify such person for the portion thereof to which such person is entitled.

Section 3. Checks, Drafts, Etc. All checks, drafts or other orders for payment of money notes or other evidences of indebtedness, issued in the name of or payable to the corporation, shall be signed or endorsed by such person or persons and in such manner as, from time to time, shall be determined by resolution of the board of directors.

Section 4. Annual Report. No annual report to shareholders shall be required, but the board of directors may cause to be sent to the shareholders reports in such form and at such times as may be deemed appropriate by the board of directors.

Section 5. Contracts, Deeds, Etc., How Executed. The board of directors, except as in these bylaws otherwise provided, may authorize any officer or officers, agent or agents, to enter into any contract or execute any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances; and unless so authorized by the board of directors, no officer, agent or employee shall have any power or authority to bind the corporation by any contract or engagement or to pledge its credit or to render it liable for any purpose in any amount; provided, however, that any contracts, agreements, deeds or other instruments conveying lands or any interest therein, and any other documents shall be executed on behalf of the corporation by the president (or by a vice-president, if there be one, serving in the absence of the president), or by any other specific officer or agent or attorney so authorized under letter of attorney or other written power which was executed on behalf of the corporation by the president (or vice-president serving in the absence of the president).

Section 6. Certificates of Stock. A certificate or certificates for shares of the capital stock of the corporation shall be issued to each shareholder when any such shares are fully paid up. All such certificates shall be signed by the president or vice-president, if there be any, and the secretary, or an assistant secretary, or be authenticated by facsimiles of the signatures of the president and secretary or by a facsimile of the signature of the president and the written signature of the secretary or an assistant secretary. Every certificate authenticated by a facsimile of a signature must be countersigned by a transfer agent or transfer clerk, and be registered by an incorporated bank or trust company, either domestic of foreign, as registrar of transfers, before issuance.

Certificates for shares may be issued prior to full payment under such restrictions and for such purposes as the board of directors or these bylaws may provide; provided, however, that any such certificate so issued prior to full payment shall state on its face or back the total amount of the consideration to be paid, the amount paid thereon and the terms by which the amount remaining unpaid is to be paid.

Section 7. Representation of Securities of Other Corporations or Entities. The president or any vice-president and the secretary or assistant secretary of this corporation are authorized to vote, represent and exercise on behalf of this corporation all rights incident to any and all securities of any other corporation or entity standing in the name of this corporation. The authority herein granted to said officers to vote or represent on behalf of this corporation any and all securities held by the corporation in any other corporation or entity may be exercised either by such officers in person or by any person authorized to do so by proxy or power of attorney duly executed by said officers.

Section 8. Fiscal Year. The board of directors shall have the power to fix and from time to time change, the fiscal year of the corporation. In the absence of action by the board of directors, however, the fiscal year of the corporation shall end each year on the date which the corporation treated as the close of its first fiscal year, until such time, if any, as the fiscal year shall be changed by the board of directors.

Section 9. Corporate Automobiles. In the event corporate automobiles are purchased and made available for use by corporate employees, then any employee utilizing such corporate automobile shall reimburse the Corporation for personal use of such corporate automobile at a rate to be determined from time to time by the board of directors, unless the board decides otherwise. If personal use is determined to exceed the amount reimbursed, then such additional personal use shall be treated as additional compensation and reported on the employee's W-2.

Section 10. Conflict with Shareholders' Agreement. In the event that any Shareholders' Buy-Sell Agreement or similar Agreement, executed by all shareholders who own stock in the corporation at the date of such Agreement, provides for a procedure which is in conflict with these bylaws, the provisions of such Agreement shall supersede these bylaws and these bylaws shall be deemed to be amended by unanimous consent of the shareholders and directors by virtue of the existence of such Agreement.

**Section 11. Reimbursement.** Subject to the other provisions of these By-Laws, the corporation is authorized to make payments to, for or on behalf of any shareholder, officer or director for compensation, travel, meals, entertainment, or other expenses. Provided, however, that should any such expense be disallowed as a deductible expense by any taxing authority as excessive compensation or otherwise non deductible expense, the shareholder, officer or director to or for whom the payment has been made shall be required to reimburse the corporation to the full extent of the disallowed deduction, and shall promptly reimburse the corporation upon notification of the disallowance.

#### ARTICLE VI Amendments

Section 1. Power of Shareholders or Directors. The bylaws of the corporation may from time to time be repealed, amended or altered, or new bylaws may be adopted, by either of the following ways:

(i) By the stockholders, by unanimous written consent, or at any annual, regular or special meeting thereof (except, however, that non-voting stockholders may not vote on said adoption, repeal or amendment of the bylaws); or

(ii) If allowed by the Articles of Incorporation, by resolution adopted by the board of directors then in office; provided, however, that the power of the directors to suspend, repeal, amend or otherwise alter the bylaws or any portion thereof may be denied as to any bylaws or portion thereof enacted by the stockholders, if at the time of such enactment the stockholders shall so expressly provide. Notice of an amendment of the bylaws by the board of directors shall be given to each stockholder having voting rights within ten (10) days after the date of such amendment by the board.

#### CERTIFICATE OF SECRETARY

I, the undersigned, do hereby certify:

(1) That I am the duly elected and acting secretary of TECHS. INC., a Kansas Corporation; and

(2) That the foregoing bylaws, comprising eighteen (18) pages, constitute the original bylaws of said corporation, as duly adopted at the regular meeting of the board of directors thereof duly held on the  $15^4$  day of March, 2000.

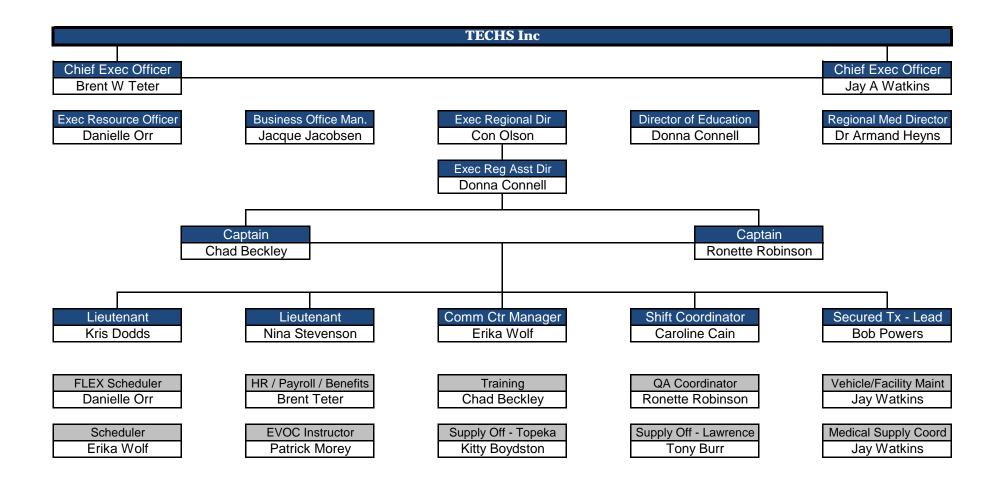

IN TESTIMONY WHEREOF, I have hereunto subscribed my name this  $1^{5^{\dagger}}$  day March, 2000.

# **DOCUMENT DESCRIPTION:**

DISCUSSION concerning claims made by the City, authorizing the City Attorney to initiate lawsuits up to \$35,000, creating Section 3.35.070 of the Topeka Municipal Code. (Approved by the Policy and Finance Committee on May 14, 2025.)

(Approval will allow City Attorney to initiate lawsuits in limited circumstances regarding property and contract claims below a certain dollar threshold.)

# **VOTING REQUIREMENTS:**

Discussion only. Action requires five (5) votes of the City Council. The Mayor does not vote. The proposed ordinance involves a matter of home rule on which the Mayor has veto authority.

### POLICY ISSUE:

Whether to authorize the City Attorney to initiate lawsuits in limited circumstances involving property or contract claims where the damages are \$35,000 or less

### **STAFF RECOMMENDATION:**

Discussion only. Staff recommends the City Council move to adopt the ordinance when considered.

# BACKGROUND:

Recommended by the Policy and Finance Committee

# BUDGETARY IMPACT:

Cost would be minimal, as a majority of these actions would be to recoup or protect city funds

# SOURCE OF FUNDING:

P&F Committee Presentation (May 14, 2025 Committee Meeting) Ordinance P&F Committee Referral Report (May 14, 2025) P&F Committee Excerpt (May 14, 2025)

Proposed Ordinance Authorizing Filing Lawsuits On the City's Behalf For Damage to City Property

> Presented By: Amanda Stanley and Geoffrey Lydick

• The City Attorney shall have the authority to initiate, file and prosecute a civil lawsuit, in the name of and on behalf of the City, without the need of obtaining a resolution or ordinance authorizing said lawsuit from the Governing Body, so long as the initial damages claimed, based in tort or contract, by the City do not exceed \$35,000.00 at the time of filing.

- Under current caselaw, the Governing Body must take affirmative action to file litigation. No action is needed to defend the City in litigation. That is authorized by the Kansas Constitution, statutes, and caselaw. See City of Topeka v. Imming, 51 Kan. App. 2d 247, 252, 344 P.3d 957, 962 (2015).
- There are instances when City property is damaged (most commonly from vehicle accidents) or contractors' violate contract provisions. As the City is self-insured, those debts have often been uncollected. As the City works to begin recovering the taxpayer's money in these scenarios, this ordinance was proposed as way to efficiently recover on low dollar claims.

- 1. Timeliness/Speed
- 2. Strategy
- 3. Efficiency

4

What kinds of matters would be covered under the proposed ordinance?

- The matters that we would be pursuing would be for the recovery resulting from damage to City property.
  - <u>Most common examples</u>:
    - A contractor digs without calling in locates and strikes a water/sewer line;
    - A driver knocks down a streetlight or street sign, and their insurance company disputes liability;
    - Someone crashes a vehicle into a City vehicle causing damage; or
    - Someone crashes a vehicle into some other City property.

# CITY OF TOPEKA

CITY COUNCIL City Hall, 215 SE 7<sup>th</sup> St., Room 255 Topeka, KS 66603-3914 (785) 368-3710 Tonya Bailey, Sr Executive Assistant Tara Jefferies, Sr Executive Assistant E-mail: councilassist@topeka.org www.topeka.org

# EXCERPT

HOLLIDAY 1<sup>st</sup> FLOOR CONFERENCE ROOM, Topeka, Kansas, Wednesday, May 14, 2025. The Policy & Finance Committee members met at 11:00 A.M., with the following Committee members present: Duncan (Chair), Marcus Miller, Michelle Hoferer.

The following is an excerpt of the draft minutes from the meeting:

APPROVAL by the Committee to proceed to the Governing Body for consideration of an Ordinance to authorize the City Attorney to initiate lawsuits up to \$35,000.

# **Claims made by the City of Topeka**

Senior Attorney Geoffrey Lydick spoke to the consideration of an ordinance for a policy change to allow the City of Topeka to file lawsuits and pursue claims for damages caused to City property. The ordinance would give authority to initiate, file and prosecute a civil lawsuit, in the name of and on behalf of the City, so long as the initial damages claimed by the City do not exceed \$35,000.00 at the time of filing. He continued to speak to the process of approval from the Governing Body if there is litigation on a small claim and stated the benefit to having strategy and efficiencies for the Governing Body and staff to help with recovery results. He provided common examples of claims of damage to water/sewer lines from contractors or a car driver knocks down a street light.

Committee chair Duncan spoke to the language of the ordinance. He confirmed it would apply to any civil litigation and a threshold of \$35,000. He referenced certain lawsuits and sited the Christopher Imming case from 2015; he believes such litigation cases should not be tied to a dollar amount and should go before the Governing Body. He requested the language be clarified.

City Attorney Amanda Stanley supports clarifying the language and added that the emphasis is on tort claims for the proposed ordinance.

Committee member Miller thanked Geoffrey Lydick for his presentation.

City Attorney Amanda Stanley thanked staff member Geoffrey Lydick for the suggestion of the ordinance to the Legal team to help the City of Topeka save money and have more efficiencies.

MOTION: Committee chair Duncan made a motion to approve, with adding clarifying legal language, and move forward to the Governing Body for action. Committee member Miller seconded. Motion approved 3-0-0.

DOCUMENT DESCRIPTION: PUBLIC COMMENT PROTOCOL VOTING REQUIREMENTS:

POLICY ISSUE:

**STAFF RECOMMENDATION:** 

### **BACKGROUND:**

### **Governing Body Rule 5.5**

(c) **Public Comment on a specific agenda item:** Comments from members of the public concerning a specific agenda item will be heard at the time the item is considered. Persons will be limited to addressing the governing body one (1) time on a particular matter unless otherwise allowed by a vote of six (6) or more members of the governing body.

(d) **General public comment:** Requests by members of the public to speak during the public comment portion of a regular governing body meeting will be placed on the agenda on a "first-come, first-served" basis. The request should state the name of the individual(s) desiring to be heard. Each such individual shall be limited to addressing the governing body one (1) time and his or her comments shall be limited to topics directly relevant to business of the governing body; provided however, that comments pertaining to personnel and litigation matters shall not be allowed.

### Procedures for Addressing the Governing Body

In accordance with Governing Body Rules 5.6 and 5.7, the following protocols for public comment apply:

- Each person shall state his or her name and city of residence in an audible tone for the record.
- All remarks shall be addressed to the Governing Body as a whole -- not to any individual member.
- In order to provide additional time for as many individuals as possible to address the Governing Body, each individual signed up to speak will need to complete his or her comments within four minutes.

The following behavior will not be tolerated from any speaker:

- Uttering fighting words
- Slander
- Speeches invasive of the privacy of individuals (no mention of names) Unreasonably Loud Speech
- Repetitious Speech or Debate
- Speeches so disruptive of proceedings that the legislative process is substantially interrupted

Any speaker who engages in this type of behavior will be warned once by the presiding office (Mayor). If the behavior continues, the speaker will be ordered to cease his or her behavior. If the speaker persists in interfering with the ability of the Governing Body to carry out its function, he or she will be removed from the City Council Chambers or Zoom meeting room.

Members of the public, Governing Body and staff are expected to treat one another with respect at all times. <u>Zoom Meeting Protocol</u>

- Make sure your Zoom name, email and/or phone number matches what was submitted to the City Clerk when you signed up for public comment. Any misnamed or unauthorized users will not be admitted to Zoom.
- Please keep your mic muted and your camera off until you are called by the Mayor to give your comment.
- If you are cut off during your comment time due to an internet connection or technical issue, you will need to submit your comments in writing to the City Clerk atcclerk@topeka.orgor 215 SE 7thStreet, Room 012B, Topeka, KS 66603 for attachment to the minutes.
- If you break any of the public comment rules, you will receive one warning from the Mayor. If you continue any prohibited behavior, you will be removed from the Zoom meeting room and will not be allowed to rejoin.
- Public comment is limited to four minutes. You may receive an extension at the discretion of the Governing Body. The timer will be visible to you in the 'City of Topeka Admin' window on the Zoom app. Call-in users will hear one beep when a minute is remaining and then another beep when time has expired.
- Please do not share the Zoom login information with anyone. Any unauthorized users will not be admitted to the Zoom meeting room.
