DOCUMENT DESCRIPTION:

ORDINANCE introduced by City Manager Brent Trout, imposing a real estate lien, pursuant to K.S.A. 12-808c, upon certain lots and pieces of ground in Shawnee County, Kansas, to pay the cost for utility services where such payments to the City have not been made due to neglect, failure or refusal to pay.

Voting Requirement: At least six (6) votes of the Governing Body is required.

(Approval would authorize the imposition of charges for delinquent utility accounts on the tax rolls in the amount of \$350,513.85.)

VOTING REQUIREMENTS:

At least six (6) votes of the Governing Body is required.

POLICY ISSUE:

Whether to authorize the imposition of liens on properties that have received utility services but have failed to pay for such services.

STAFF RECOMMENDATION:

Staff recommends the Governing Body move to adopt the ordinance.

BACKGROUND:

The City of Topeka Utility provides utility services for water, wastewater, stormwater and fire line services to a variety of customers located both inside and outside the city limits. When customer utility bills become delinquent, our normal delinquency controls are to turn off the water service to the customer until the customer makes full payment on the delinquent amounts. Some customers receive wastewater service and stormwater service from the City but no water service. This greatly reduces our ability to get the customer to pay delinquent amounts since

we cannot shut off their water service. Most of these are customers of rural water districts and the rural water district cannot shut off water service for failure of a customer to pay a bill owed to the City. Also included in this year's ordinance are apartment complexes receiving all domestic services (Water/Wastewater/Stormwater) who have fallen significantly behind on their utility accounts. Rather than shutting off service to tenants who pay their rent but whose landlord is not paying the City for Utilities, the unpaid fees will be assessed. Staff will continue to work with the apartment complexes to bring their accounts back to current standing. The customers identified in this document are delinquent in payment for services provided by the City. State law permits the City to institute a lien on the property of these customers in order to recover payment for services rendered. This ordinance is passed every September so that the county clerk has sufficient time to add the utility fees to the tax statement that is issued in November.

BUDGETARY IMPACT:

Collection of delinquent utility accounts in the amount of \$350,513.85.

SOURCE OF FUNDING:

Not applicable.

The City of Topeka Utilities provide utility services for water, wastewater, stormwater and fire line services to a variety of customers located both inside and outside the city limits. When customer utility bills become delinquent, our normal delinquency controls are to turn off the water service to the customer until the customer makes full payment on the delinquent amounts.

However, some customers receive fire line service, wastewater service and/or stormwater service from the City but no water service. This greatly reduces our ability to get the customer to pay delinquent amounts since we cannot shut off their water service. Most of the customers outside the city limits are customers of rural water districts, and the rural water district cannot shut off water service for failure of a customer to pay a bill owed to the City.

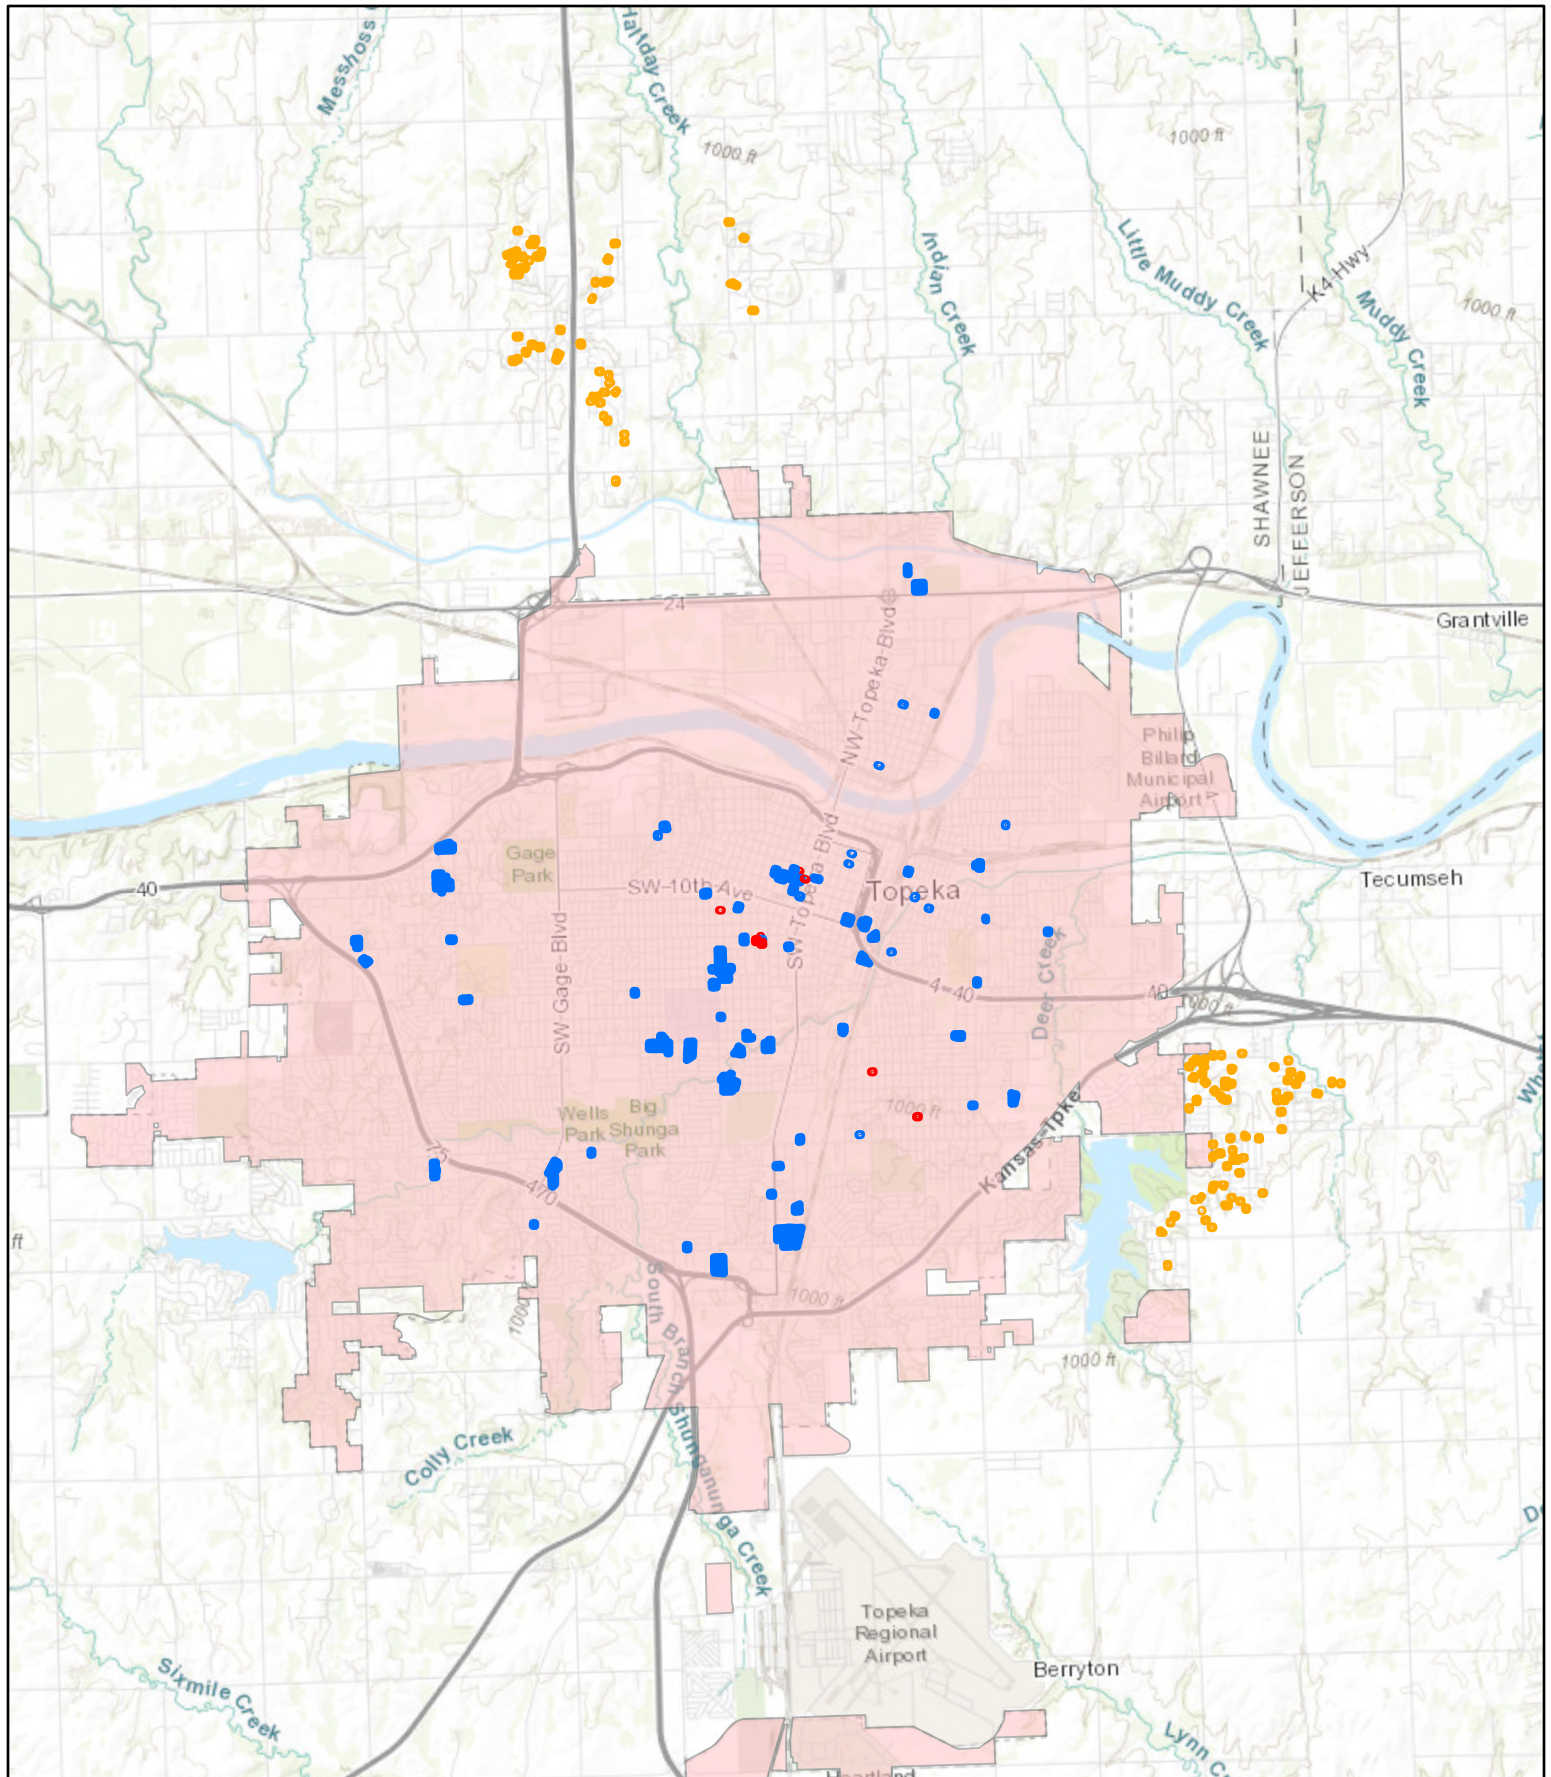

When a customer does not have a water service to turn off, the utilities have only two options for collection of past due amounts, turn the amounts over to the City's collection agency or assess a real estate lien. The assessment of real estate liens have proven to be a much more effective means of collecting unpaid utility bills than turning them over to the City's collection agency. The utilities have traditionally only collected about 30% of the amount turned over to the collection agency compared to approximately 98% collected from real estate liens.

New this year, we are also assessing all domestic services (Water/Wastewater/Stormwater) for apartment complexes who have fallen significantly behind on their utility accounts. It was determined that assessing the unpaid fees for these complexes was more desirable than shutting off service to tenants who pay their rent but whose landlord is not paying the City for the Utility services it is providing. The Utilities staff will continue to work closely with these complexes to bring their accounts back to current standing and the assessment is only in place if they do not make an attempt to pay. There are 269 customer accounts listed in the ordinance, 178 are inside the city limits and 91 are outside the city limits. Of the 178 customers being assessed inside the city limits: 129 are apartment complexes with all domestic services, 4 residential stormwater accounts, 1 apartment complex fire line account, 1 commercial customer with all domestic services and 43 commercial fire line and/or stormwater customers. All 91 customers outside city limits are wastewater customers. All customers are at least 90 days, and up to 600 days, past due in the payment of their utility bills. Of the typical type of accounts included in the ordinance 71% of them are repeat offenders.

State law permits the City to institute a lien on the property of these customers in order to recover payment for services rendered.

** As is common in years past, payments continue to filter in after the agenda deadline. An updated listing/ordinance will be provided to the council on the evening of 9/8 to ensure that we account for any and all payments received after posting of the notice.
